Performance & Design
The Westpoint WMS4225EGSI is a 42L microwave with grill, combining 1100W of microwave power with a 1200 to 1400W grill for fast reheating, cooking and browning in one appliance. Two combination modes use microwave and grill together, while 11 power levels give precise control for everything from gentle defrosting to full power cooking.

Its stainless steel front and white/silver body give a clean, bright look that suits light-coloured kitchens. Seven auto cook menus take the guesswork out of everyday favourites such as popcorn, potatoes, meat and frozen pizza, while three memory settings store your favourite programmes and the child lock keeps the controls safe. Buy the Westpoint WMS4225EGSI microwave with grill in Malta from Ventura, with free delivery.
