Redefining the
Premium ice machine
Champion®

HOT WATER

Optional hot water

Touch free dispense and more sanitation upgrades

Upgraded touchscreen with diagnostics

Ion-exchange filter for scale busting

Still drainless/ easy to install

Champion ice machines

Cleaner. Easier. Better. We made cutting edge refinements, improving upon the platform that made the original 7 and 15 Series the market leader.

We've added a hot water option to this customer preferred Chewblet ice dispenser for even more drink options. Touchless dispensing is now standard, and a suite of sanitation upgrades keep this dispenser incredibly clean.

See how we can partner to deliver more drink options, cleanly and reliably.
