BIOGRAPHY

LEWIS SHALLCROSS is an accomplished Senior Building Consultant and General Adjuster with over 25 years of experience. Lewis is well-versed in managing complex residential and commercial large-loss claims involving wind, hail, fire, water, freeze, and flood damage and has extensive expertise in Xactimate estimating, catastrophe response, and contractor negotiations. He also brings knowledge on advanced documentation technologies, including Matterport, Hover, HoloBuilder, and FAA-licensed drone imaging.

Beyond his extensive technical expertise, Lewis is recognized for his strong communication, leadership, and collaborative approach. He excels at building trusted relationships with attorneys, adjusters, carriers, contractors, and policyholders, ensuring clear communication and alignment throughout every phase of the claims process. His commitment to accuracy, efficiency, and timely resolution, combined with his extensive construction and large-loss claims experience, allows him to navigate complex challenges with confidence and professionalism. Lewis consistently delivers thorough, reliable assessments and practical solutions that support successful outcomes and exceed client expectations.
