Category	LED Profile
Unit of Measure	Item

Dimensions	
Length (mm)	1000
Width (mm)	50
Height (mm)	35
Weight (g)	250

DESCRIPTION

The 1 Metre Modular Recessed Aluminium Profile (APS-3550A) provides the perfect solution for heat dissipation of LED strip lights to extend the life of your lighting system. With a 35x50mm size, this profile is designed to achieve a linear effect when used with LED strips with more than 60 LEDs per metre. This profile comes with all the necessary mounting accessories and end caps, making it easy to install. The modular range allows you to connect multiple profiles together to create a continuous length, making it perfect for larger lighting projects. Whether you're looking for a sleek and modern lighting solution or simply want to protect your LED strip lights, this recessed aluminium profile is the perfect choice.
