B. Designated Community. A community development corporation must identify in its articles of incorporation or its by-laws a defined geographic area within which it will operate, called its designated community.

(1) At least ten percent (10%) of the population of the designated community must have incomes below the existing federal poverty level at the time of incorporation.

(2) No more than one (1) community development corporation shall be designated within any one out-state economic development region, with the exception of economic development regions in which a community development corporation was in existence at the time of promulgation of these rules.

(3) Within the metropolitan area, the designated community shall be an identifiable neighborhood or combination of neighborhoods where designated by the Metropolitan Council. Elsewhere in Region Eleven, the designated community shall be townships, cities, unincorporated areas or combinations thereof.

D. Board of Directors. The articles of incorporation or by-laws of a community development corporation shall conform to the following requirements concerning its Board of Directors:

A. Types of Grants. Grants shall be available for planning and capital venture projects.

(1) Planning grants. Planning grants shall be available for:

(b) Infra-structure development. Projects in this category involve the community development corporation's development of resources or facilities within its designated community that are necessary pre-conditions to the development of business ventures. Such projects shall be approved only where it can be shown that they will, in fact, lead to immediate business development and employment opportunities.

B. Priorities for Approval of Project Applications.

Project applications that present the greatest potential for achievement of the following goals shall receive priority in the distribution of program funds:

(1) Creation of employment opportunities;

(2) Maximization of profits;

(4) Use of non-state funds to complement program funds.

C. Restrictions on Use of Program Funds.

(1) No part of a project funded by program funds shall be conducted by a religious or church-related institution. Projects must be entirely secular in content and purpose.

(2) No program funds shall be expended for the cost of meals for employees or officers of community development corporations or authorized business ventures.

(3) No program funds shall be expended for the cost of securing or developing social services.

ED 106 No Discrimination. No person shall on the grounds of race, color, religion, sex, age, or national origin be excluded from participation in, be denied the proceeds of, or be the subject of discrimination in a project approved and funded under the program. In all hiring or employment made possible by or resulting from a grant action, each employer will not discriminate against any employee or applicant for employment because of race, color, religion, sex, age, or national origin, and will take affirmative action to insure that applicants are employed and that employees are treated during employment without regard to their race, color, religion, sex, age, or national origin.

In the Matter of the Proposed Adoption of Rules of the State Department of Economic Development Governing the Community Development Corporation Program

STATEMENT OF NEED

- - - - - - - - - - - - - - - - -

The above-captioned rules are not amendments to existing rules of the Minnesota Department of Economic Development.

The need to adopt these rules arises because of the Commissioner of Economic Development's duty to assist in the establishment and funding of pilot community development corporation projects and to designate areas for such projects with the approval of the State Executive Council, pursuant to Minn. Laws 1975, ch. 331, sec. 3.

In the Matter of the Proposed
Adoption of Rules of the State
Department of Economic Development
Governing the Community Development
Corporation Program

FINDINGS OF FACT

- - - - - - - - - - - - - - - - - - -

The above-entitled matter came on for hearing before the Department of Economic Development (hereinafter the Department) on the 25th day of November, 1975, at 9:30 a.m., in Room 123, State Capitol, St. Paul, Minnesota, after proper notice required by Minn. Stat. § 15.0412 (Supp. 1975) was served upon all persons, associations, and interested groups registered with the Secretary of State for that purpose and upon all members of the Minnesota Legislature.

After affording all persons an opportunity to present written and oral data, statements and arguments, and having considered all of the testimony and evidence adduced, and upon the records, files and proceedings herein, the Department finds the following:

1. Minn. Laws 1975, ch. 331, section 3, appropriated $250,000 for the development of a pilot community development corporation program (hereinafter referred to as the "program").

2. Said legislation requires that the Commissioner of the Department of Economic Development designate areas for the pilot community development corporations with the approval of the State Executive Council. ED 101-106 establish

the criteria for such designations and the implementation of the program.

3. The program is intended to be a unique type of endeavor paralleling the federal community development corporation program and providing an alternative to other types of poverty programs.

4. Eleven economic development regions have heretofore been established pursuant to Executive Order No. 60 dated June 12, 1970. Use of those established development regions rather than creation of new regions will facilitate implementation of the program.

5. There are areas within the existing economic development region for the metropolitan Twin Cities area that are primarily rural in character. In such areas, townships, cities, unincorporated areas, and combinations thereof provide a more workable standard for the identification of a community development corporation's designated community than does the "identifiable neighborhood" concept.

6. Eligibility of pilot community development corporations for federal, as well as state, funding is desirable. Accordingly, the criteria for state-funded community development corporations should correlate with those of relevant federal programs, particularly the federal community development corporation program. Federal criteria relevant to this consideration are those to the effect that:

a. the corporation must be a non-profit corporation;

b. the Board of Directors should number between 15 and 30 members;

c. religious or church-related programs may not receive

public funding; and

d. discrimination must be prohibited.

7. Community development corporations organized pursuant to the proposed regulations would not be precluded from eligibility for federal funds that existing community development corporations have used.

8. An important goal of the program is control of the program by the low-income community. In order to establish and maintain such control, membership in a community development corporation should be restricted to residents of the designated community, and low-income residents of the community should have a controlling majority on the Board of Directors.

9. In order to assure that the range of expertise required for the community development corporation to function properly is available, allowance should be made for some non-residents of the community to serve on the Board of Directors.

10. A further goal of the community development corporation program is to increase employment opportunities for low-income residents of the designated community. A direct means of accomplishing that goal, in part, is for the community development corporation itself to employ low-income individuals.

11. While most of the projects of a community development corporation should be located within the boundaries of its designated community, projects located outside those boundaries may in some circumstances provide significant benefits, such as employment opportunities, to residents of the designated community, and such projects should not, therefore,

be excluded from eligibility for program funding.

12. Federal guidelines require the development of a comprehensive community plan, and such plans can contribute to the success of the program. Funds should, therefore, be available for the development of comprehensive community plans.

13. It is often necessary to compile preliminary information in order to prepare a venture project funding application, and funds should be available for such preliminary studies.

14. Due to the pilot nature of the program, realization of short-term economic impact is an important goal and priorities for the approval of project grants should reflect that goal.

15. The need for short-term economic impact requires emphasis on profit maximization. That emphasis makes it preferable to prohibit the use of program funds for meals of community development corporation personnel and for social service projects.
