

SITRA

outdoor wall light, double-headed, TCR-TSE, IP44, up/down, anthracite, max. 18W

The double-headed SITRA wall light is made from aluminium and structured glass, which covers the lamp. Thanks to the position of the two sockets which are fitted, the mounted luminaire produces two equal but opposite cones of light (UP/DOWN). It is suitable for use outdoors thanks to its IP44 protection class. The electrical connection of the luminaire, which comes in two colours, is made directly to the 230V mains supply. The SITRA series also contains single-headed wall lights and can therefore be used universally.
