Alex, Compensation for adjunct faculty during the 2017/2018 academic year is at least $6,000 per 3 or 4 credit course.

Subject: Adjunct Faculty Compensation, quick follow-up request

Hello Maureen-

Following up on our quick call last week about adjunct faculty compensation for our sustainability reporting. I was glad to hear that we met the threshold for all compensation being over $6,000 per full course, but it turns out that I need to submit some type of confirmation with this credit to show that I am not claiming it without any basis.

Could you reply to this email to confirm our conversation that all adjuncts were paid at least $6,000 per course this past year?

I will print out the email as a PDF and upload it to the submission system- I think this will be the fastest and simplest option as I don't think we would like to publish anymore information.

Thanks,
Alex
