

CUTTING INSTRUCTIONS FOR JEEP WRANGLER TJ 2001 & UP

MOPAR PART# 5HJ98LAZAB PLASTIC DRINK HOLDER INSERT IN FRONT SHIFTER CONSOLE FOR JEEP TJ WITHOUT STOCK FULL CONSOLE

Applies to Jeep Wrangler TJ 2001 and up with two drink holders in the original front shifter console. The original plastic drink holder will have to be cut to allow the front of the console to sit in the proper position. If the drink holder is not cut the console will have to be mounted back behind the drink holder.

1. Line up the cut template on the front of the plastic drink holder
2. Using the template mark the cut location on the plastic drink holder

WARNING! Mark and cut the drink holder carefully, Tuffy does not sell replacements for this part (Part# 5HJ98LAZAB) it will have to be ordered from a local Mopar dealership.

3. After marking the cut location secure the drink holder for cutting. (Gripping the back side of the two drink holder extrusions in a vice using a cushion to prevent damage to the drink holder is advised)
4. Carefully cut the drink holder using a hacksaw.
5. De-bur the cut edges with a file.
6. Check the fit, additional cutting or filing may be required to fine-tune the fit.
