

PUTCO® NITRO 360°

6000K WHITE LED
Better illumination for driving in low visibility.

3000K AMBER LED
Better in fog, rain, or snow.

Respond to different weather conditions by "Switching" between Amber or White LED outputs.

FEATURES

- Dual color Amber/White functions for superior illumination no matter the road conditions.
- White LEDs for cool 6000K illumination at night.
- Amber LEDs for superior lighting in fog, rain, or snow.
- 360° light pattern for improved peripheral visibility.
- 3000 Lumen output per LED fog light kit.
- Solid state design - no moving parts for a stronger, more reliable fog light kit.
- Non-reflective nickel finish eliminates light ray interference inside light housing.
- Ultra-Compact driver box
- Pairs perfectly with Nitro Lux LED headlight kits.
