SILVOLITE REMAN PRO PISTONS

UEM Silvolite Part Number 3535HC

1999 - 2004 GM 5.3L V-8 VIN “T” Truck Applications

3535HC is a direct replacement piston for 1999 to 2004 GM 5.3L V8 engines in truck applications. It has been improved with the addition of piston pin retainers to allow for a floating pin. This feature is designed to save connecting rods and reduce internal friction. The connecting rods should be honed to .0006-.0007” pin clearance or bushed to .0005” pin clearance.

Cannot be used with OE press fit connecting rods without machining. Use Silvolite part number 3472HC for OE press fit pin applications.

Hypereutectic 390 alloy with UEM M42 Skirt Coating Compression Ht. 1.328”

3.050” dia. head recess .068” deep 1.5mm/1.5mm/3.0mm Shallow Oil Groove
