Brown Mary

Mary has only been in the sewing class a few days. I think she may be able after a while to do very good work in my room.

Blakeslee Lawrence

Lawrence can do very nice work in the sewing class, he is extremely slow, it may be from the want of will power and it may be from disease I am inclined to think it is the latter. His deportment is usualy very good.

Penny Cohen

The repeat in parenthesis is not Penny

Penny is doing his best this month he has reviewed seventeen lessons on the chart and can build them with the letters does not know) can read three lessons on the chart if he is not bothered and he builds any lesson with the letters but can not always read what he has built he is not lazy, and if he fails I know he has done his very best. He is a good errand boy, can trusted to do any thing in the schoolroom, his deportment is good.

Enyer Albert

Albert is a child who is capable of doing quite good work if he would only apply himself, he has built "The cat plays" with the letters alone but will not do it all the time he is very restless, it seems almost impossible for him to be still. On the chart he knows the words boy. bat. a. the. can count

small pegs & tile, when he drops
