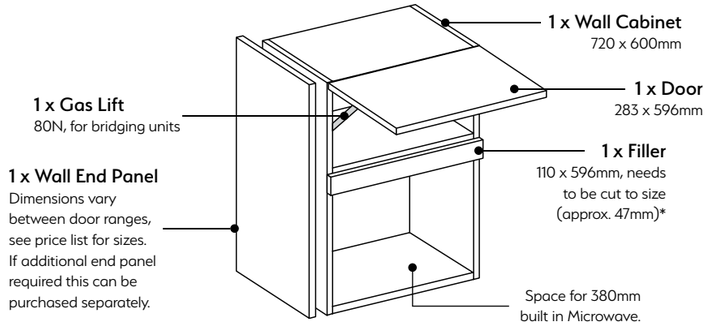
Please note that when using Farrow & Ball / RAL references, KBB paint MDF and timber substrates to a 10% sheen level. Diff erent sheen levels and fi nishes i.e matt, silk etc can aff ect the fi nished colour.

It is the customers responsibility before placing the order to ensure the colour is acceptable.

MICROWAVE HOUSING CONTENTS

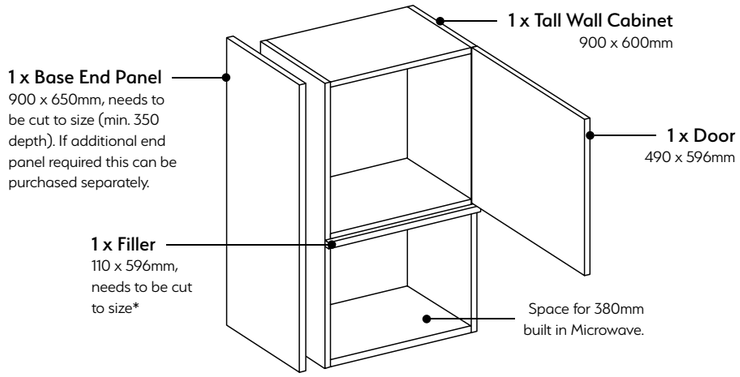
Wall Microwave Housing Kit - 720mm (h)

Order code: JXXXUMICRO60



Tall Wall Microwave Housing Kit - 900mm (h)

Order code: JXXXUMICRO90



See our online installation guide for Micro unit installation instructions:

WWW.KBBTRADEPARTNERS.CO.UK

*** Please note:** Appliance sizes will vary which will have an affect on filler/door sizes. Please check appliance dimensions and specifications carefully prior to purchase/installation to ensure they are suitable for the purpose. It's up to the fitter to ensure the unit is installed correctly and in line with any safety regulations.

BOILER HOUSING

Boilers vary in size & position. Here's how to create your own bespoke housing.

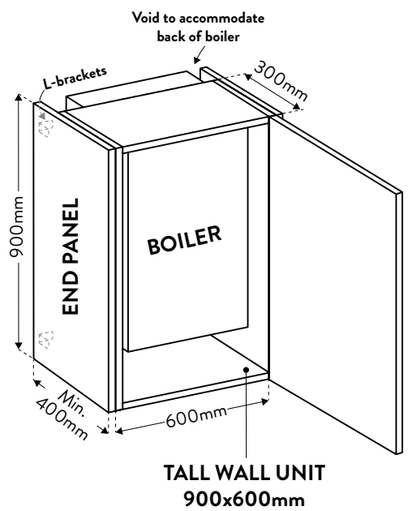
- As boilers are generally deeper than the 300mm depth of our tall wall cabinets **you must bring the wall cabinet forward** and attach the cabinet to the end panels (min. depth 400mm).
- The end panels need to be securely attached to the wall with L-brackets.

What you need:

1. **Tall Wall Unit 900 x 600mm**
   (Leaving back panel out)
   Includes: 900mm height tall wall cabinet, 895 x 596mm door & 110 degree hinges.
2. **Base End Panels 900 x 650mm**
   (Cut to 900 x 400mm size)
   Optionally use Tall End Panels 2400 x 650mm cut to size if end panels need to run down to the worktop.
3. **L-brackets**

Please note: Boilers vary in size and there is no set standard. This will have an effect on filler/door/end panel sizes, please check boiler dimensions carefully prior to installation to ensure the housing is suitable for the boiler it's being used for.

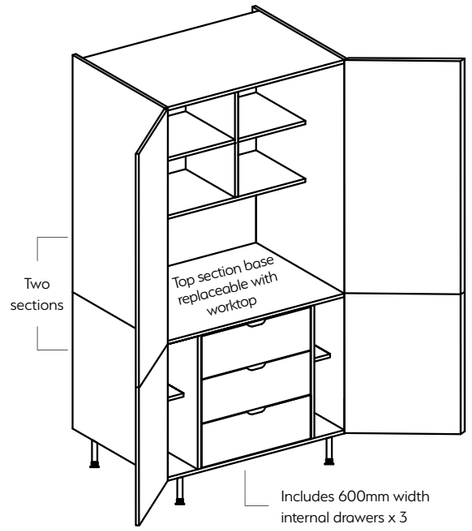
It's the installers responsibility to ensure the housing is fitted correctly and in line with boiler safety regulations.



BUTLERS PANTRY & SPICE RACK INFO

Butlers Pantry Unit, 1000mm width

Order code: JXXXKBPTRY
(available with Oak cabinet only)



Spice racks

Door mounted solid oak spice rack, sold separately in singles. Recommended for use with Butlers Pantry.

PLEASE NOTE

All light fittings must be installed by a qualified electrician. Some lights come with a plug in driver and some come with a driver that requires hard wiring. Please check the full specification of the product before purchasing. Every effort is made to ensure the information supplied in this literature is accurate. However it is your responsibility to ensure the products are suitable for your requirements.

Images shown may differ slightly from actual product. The colour description does not always reflect the material.

Further technical information can be found in our online technical guide:
WWW.KBBTRADEPARTNERS.CO.UK

KITCHEN DOOR CARE INSTRUCTIONS

END USER CARE INSTRUCTIONS

CLEANING

We recommend the following door cleaning instructions for all of our doors:

Clean the doors using only a solution of 95% luke warm water with no more than 5% soap
Do not spray anything onto your doors – this includes the solution recommended above
Use a clean damp (not wet) cloth
Dry with a soft clean cloth. If it is a timber door run the cloth along the grain direction
Any cooking marks must be wiped immediately
Do not allow liquids to seep into joints of doors, wipe any spillages immediately

Do not use any of the products listed below to clean the door as it may mark and damage the surface:

Wax furniture polish
Bleach / chlorine based cleaning products
Abrasive cleaners
Solvents
Multi-purpose cleaners
Alcohol based cleaners
Ammonia or any other similar product
Scouring pads or abrasive cloths

ENVIRONMENTAL INFORMATION

Please be aware that localised or intense heat/steam can damage fascias, subsequently the use of small appliances such as kettles, toasters etc. in close proximity to your kitchen fascias should be avoided. Doors should not be exposed to extreme temperature changes. Due to their manufacturing process vinyl doors must not be exposed to temperatures above 70º C as this may cause damage to the door's surface.

INSTALLER CARE INSTRUCTIONS

INSTALLER CARE INSTRUCTIONS

Before commencing any work on doors or accessories, i.e. hinge boring, handle installation, cutting etc. please inspect the product thoroughly, making sure it meets your requirements for colour consistency and that it is free from scratches or blemishes. Once the product has been altered in any way from the state it was supplied it cannot be replaced.

CARE WHEN FITTING

Always handle doors / drawers with care to avoid damage.
When fitting hinges and handles to doors / drawers please ensure doors are placed on a clean and smooth cushioned surface to avoid scratches to the product.

FOIL / VINYL / OVER LACQUERED DOORS

Some doors may have a protective film on the face. Direct exposure to sunlight may cause an adverse effect therefore it is recommended you remove this film as soon as possible after fitting. Due to their manufacturing process vinyl doors must not be exposed to temperatures above 70º C as this may cause damage to the door's surface.

TIMBER / VENEER / PAINT TO ORDER DOORS

Timber is a natural product; therefore colour, grain structure and features will differ from door to door. Raw timber doors must be treated before use.

Timber and veneer doors have a unique and natural characteristic and because of this colours may change over time when exposed to sunlight. Please be aware of this natural colour change when ordering additional doors to suit a previous install. We also recommend you change your timber door samples every six months due to this reason.

Timber can be prone to expansion and shrinkage based upon the environment which it is installed in. Timber and veneered doors are affected by moisture; if there is too much moisture in the environment it can have an adverse effect on the door over a period of time and it may lead to timber expanding, especially during winter periods. Excess moisture may also be found in new builds and properties where renovation work has been carried out; examples include plastering or floor screeding, etc. In the summer months when the environment is drier, shrinkage may occur in the timber.

This natural movement of timber may cause the surface finish of the timber / veneered door (i.e. painted, varnished, lacquered finishes, etc) to move with the timber. If this occurs then there is a chance that it may result in shrinkage and hairline cracks appearing on the door.

Please check the moisture content of a room before installing timber or veneer doors. The above also applies to Paint to Order doors.

ENVIRONMENTAL INFORMATION

Newly plastered rooms, plaster repairs, floor screeding, renovations, etc should be left to dry out thoroughly before installation of doors, whatever their material. When fitting doors adjacent to an oven, a suitable heat shield must be used.

DOOR COLOUR AND UV LIGHT

Any door range, whether it be over lacquered, vinyl wrapped or painted will change colour over time due to natural UV exposure. Please be aware of this natural occurrence if replacing doors previously installed.

DOOR STORAGE

Doors should be stored on a stable flat stillage in a horizontal position. Please ensure doors are placed in a cool and dry area.

IMPORTANT PLEASE NOTE:

While we endeavour to keep the information up to date and correct we do not make any representations or warranties of any kind, express or implied, about the completeness, accuracy, reliability and suitability of the doors and products that appear in this literature.

It is the responsibility of the installer to check the manufacturer's installation information and the manufacturer's technical information to ensure this is up to date and to ensure that the products are suitable for your requirements.

We specifically exclude any liability in this regard unless the products are fitted in accordance with the specifications we supply and the manufacturer's installation recommendations are used in a way recommended by the manufacturer and in accordance with the manufacturer's technical information provided.

The information shown in this literature is accurate as at the date of print/release shown on such information but it may be subject to changes after such date. Please therefore ensure that you are viewing the most current product information available and check with us if you have any doubt about the suitability of the product or accuracy of the information shown.

We are proud that all our products that we sell are covered by a statutory warranty but this does not stop all our products naturally ageing overtime. As a result of this natural ageing process we are therefore unable to provide an identical colour finish to the existing products you have purchased from us with any products that we supply you from the same product line. In such event our liability will be limited to the purchase price paid for the product you are seeking to replace.

Due to the limitations on photographic reproduction, colours may differ slightly from the actual products shown.

Whilst we make every effort to provide you the most accurate and up-to-date information, occasionally, one or more items in our pricelist may be mispriced. In the event a product is listed at an incorrect price due to typographical or photographic error we reserve the right to refuse or cancel any orders placed for product listed at the incorrect price.

WARRANTY:

KBB kitchens are backed by a 10 year warranty against manufacturing defects. Please note, the warranty is not transferable.
