Jan 7- 1895. Bridget Buckley - works with blocks on which the letters of the alphabet are printed, puts them together in their regular order, also beginning to spell words, She can distinguish the different colors and the different shapes of object. She can also use the Form-Braid, and put sliced pictures together. I give her 20 minutes of individual work every day.

June 12 1895. Bridget Buckley - has improved quite a good deal. She can build with block very well. and can also count and understands the value of mumbers as far as six or eight

Nov. 29-1895. Bridget Buckley - I can see considerable improvment in Bridget, she can use all the kindergarten materials, and with the block on which the alphabet are printed, can spell some words.

June 1- 96 Bridget Buckley - has improved some, one new thing that she has learned is to put the letters together, and to spell some new words.

Jan 7-1895 Florence Berg.— can not do very much yet. can build with blocks and use the peg-board. it is very hard to keep her in her seat and she will put her feet upon the desk and it seems impossible to get her attention fixed on anything.

June 19-1895 Florence Berg.- I can see no improvement. in Florence she can be induced to work for a short time and then it seems as if nothing could gain her attention. I think she is quieter in school and she does not put her feet on her desk so much.

Nov 29-95 Florence Berg— Is about the same as she was. I can not see very much change, either for the better or worse. She is more quiet but so dull and stupid.

June 1-96 Florence Berg— has been sick so she has not attended school very much in the last four month, but in the time she did attend, there was no improvement.

Jan 7-1895. Agnes Casney. — can build with blocks. string beads and use the Peg-board. for a short time at first she would not keep her seat, but now she will stay in her seat, but will not be very quiet.

June 19-1895. Agnes Casney - has improved a little. I can get her attention better and retain it longer than at first.

Nov 29-1895. Agnes Casney - I can see a change in Agnes for the better, She can work with brads, form-board and peg board. and can march quite well.

June 1-96 Agnes Carney - has for the last six months had one of her restless spells and has been able only to do a little work. I do not see very much improvment in her.

Jan 7-1895. Ruben Caughlin.—— can use the Peg board and build with blocks. he can sing a few little songs in his own way. he now also keeps his seat which he did not do at first. but generally very noisy.

June 19-95. Ruben Caughlin — I can see no improvement in Ruben whatever, he is very noisy and must be tied in his seat in order to prevent him from biting the wood and destroying everything.

Nov 29-1895 Ruben Caughlin — has not attended school this year. he was so distructive, that it took so much of my time to watch him

June 1-96. He does not attend school.

Jan 7-1895 Ruth Flow. — can string beads. both in regard to form and color. can also use form board and peg-board.

June 19-95 Ruth Flow. — has improved quite a good deal her attention is easily gained and retained she work with all the kindergarten materials very well.

Nov 29-95 Ruth Flow — is still improving. she can march very well. and work better.

June 1-96 Ruth Flow — is still improving a little. she does not destroy the material she works with as much as she did and I can get her attention better than I could.

Jan 7-1895. Minnie Gordon — I have given more time to this child than any other one in school, and can see no progress whatever. only she will sit quietly in her seat; at first it seemed as if I could not make her sit in her seat for 5 minutes at a time, she will handle different object which at first she would not even touch.

June 19- 95. Minnie Gordon - has improved a very little. she is quieter, and I can get her attention better, she will work for a short period at a time. then I let her rest and try her again.

Nov 29-95 Minnie Gordon - Has not attended school this year. She was put into the Bed-making Class.

June 1-96 Does not attend school

Jan 7-1896. Francis ~~Renard~~ Renard — does not do very much. I give her also a great deal of individual work. she will handle objects but will not work with them. I think if I could get her thoughts fixed upon her work I could do something. she is very quiet

June 19-95. Francis Renard - is a child that to gain her attention seems impossible, but I think I have been able to get her attention for a short time, she is very noisy at times, and does not do anything unless I am right with her.

Nov 29-95 Francis Renard — Has not attended school this year.

June 1-96 Does not attend school.

Jan 7-1895 Anna Hanson. – can use form board, peg board and string bead both in regard to form and color, she can say a few words, is quiet

June 12-95 Anna Hanson – has improved a little. she works better and is more attentive.

Nov 29/95 Anna Hanson – is still improving. She can work with brads, block, and form board

June 96. Anna Hanson, – has improved a little in the last six months. She works with the same material + seems to be more interested

Jan 7-1895. Edith Johnson - can use peg boards and string beads. she is quiet in school and at times will sit in her seat during the whole session.

June 12-95 Edith Johnson - has improved some. she is much quieter and more obedient, she works better with her materials and is better in most every way.

Nov 29/95 Edith Johnson, - has improved a great deal she works a great deal better, can march quite well.

June 96. Edith Johnson - has improved some she does not work as well as some of the other children, but when I look back to the time when she first entered school, I ~~am~~ might say she has improved a good deal.

Jan. 8-95 Olga Jorgenson — is a very noisy and restless child when given blocks or beads, she will put them in her mouth if she can or throw them at the other children, I have to be with her every minute when she has anything on her desk or she will injure herself a some one else, she can say a good many words, and I often hear her say new words that she has learned.

June 19-95 Olga Jorgenson - has not improved any. she is so noisy and will not keep her seat for one minute unless fastened in, it is very hard to get her attention fixed on her work. her attention is always on some one or something in the room.

Nov 29/95 Olga Jorgenson.- has not improved very much yet. all I can say is that she is not quite so noisy as she was.

June 1-96 Olga Jorgenson — has been sick so much that she has not been able to attend school very much. I think she has improved a little, she certainly is more orderly and of course work a little better.

Jan 10-95. Gordie Lacey. - could use the pegboard when in was in school, he could build a little with blocks. but was very restless,

June 19- 95. Gordie Lacey— transfered to other building

Jan 8-95. Alice Mc Hugh can use the peg board and form board and also work with beads. stringing in regard to form and color. She can also sew some of the preforated cards, she has a fair voice and can sing a few simple songs.

June 14-95. Alice Mc Hugh. — has improved some in the last six months, but she has been sick a great deal and had to be out of school.

Nov 29/95 Alice Mc Hugh is dead.

Jan 8-95. Kittie New,— can use some of the kindergarten materials viz- blads, peg board and form board, she does not keep her seat very well.

June 19-95 Kittie New— has improved a little, she will work longer at a time than before. and is not so restless, she is also more obedient

Nov 29/95- Kittie New has been transferred to the Bedmaking Class.

June 96. Kittie New— has entered the kindergarten class again She has not improved very much. she is very ugly at times and must alway be watched and sometimes tied in her seat. because she scratches the other children in the room. she also bites when she can get a chance.

Jan 9-95. Agnes Q. Larey. — does not do much in schol, she will not keep her seat and, everything that she works with she puts into her moutle; I think she is some quieter than she was at first.

June 19-95 Agnes Q Larey — her improvement is very slight but still I think there is a very little, one thing is that she will keep her seat better, and is more quiet, it is very hard to get her attention, almost impossible, for any length of time, she will work a little with beads.

Nov 29/95 Agnes Q Larey — I have given special attention to this child this year. I can see a little change for the better, She will work with her Peg-board and block a little longer than before,

June 96. Agnes Q Larey — does not go to schol

Jan 9-95 Mamie Pacak. ... can string beads use peg board and form board. she is very quiet and can be easily interested.

June 19-95 Mammie Pacak - has improved some. she works better and longer at a time, also more attentive.

Nov 29/95 Mamie Pacak - can work much better with her material. She can distinguish two colors.

June 96 Mamie Pacak - has improved a little. she works a great deal better than she did, she seems to understand a great deal better. and can say a few words & apply the correctly.

Jan 10-95 Lillie Perry — can work with brads form board and peg board, but will not work long at a time, she has a bad habit of slapping the other children when my back is turned.

June 19-95 Lillie Perry — has improved some. she is more quiet and does not trouble the other children as much as she did

Nov 29/95 Lillie Perry — has bin transfered to the Bed-making Class.

June 96 Lillie Perry — has entered the kindergarten again, she does not improve very much all I can say is that she is quieter and keeps her seat better

Jan 9-95. Maggie Redman.— is very noisy in school. she can work if she wants to, but will tear everything unless watched closely. she is also very stubborn and at times will do nothing at all.

June 19-95. Maggie Redman - has improved in many respects, she is not so stubborn and obey me better, she also works better

Nov 29/95 Maggie Redman-has been transfered to the bed-making class.

June 96. Maggie Redman - has reentered the kindergarten class, she works for a short time and then she will not do anything at all. she can use nearly all the kindergarten materials, can distinguish color + form.

Jan 9-95 Emma Schnieder. — is a very quiet child she can work with beads blocks, peg boards and form boards. she has learned to say a great many words since she has been in school. she tries hard to sing and can hum and even sung the word of a few songs.

June 19-95. Emma Schnieder — has improved some. she works better and is more attentive, she has learned to say a great many words

Nov 29/95 Emma Schnieder — has been transfered to the Industrial Class. She also is given some Kindergarten work here. She can distinguish some colors, and can march well. In sewing she has not made much progress. for she has been in this class only a short time She can pull out basting threads.

June 96 Emma Schnieder — has improved some, she is in the industrial class and work part of the time with kindergarten materials she thread needles pull basting threads, fold towels nicely and do a little over-casting

Jan 9-95. Sophia Straka – has not attended school very regular, can work a little with beads and blocks. she is very quiet.

June 19-95 Sophia Straka. – has improved some she can work with nearly all the kindergarten materials.

Nov 29/95 Sophia Straka, – has improved a great deal. She can work with beads blocks. peg-board form-board, and some with colored sticks.

June 96. Sophia Straka, – has improved a lettle, she works a great deal better than she did.

Jan 8-1895. Christine Swanson,- can work with beads, blocks, peg-board, form-board and can also sew preforated cards and has worked a little at mat weaving. she is generally quiet.

June 19-95. Christini Swanson - has not attended school very much she was very ~~trouble~~troublesome when she did go and had to be watched very closely or she would hurt the children around her.

Nov 29/95 Christine Swanson, was to dangerous to have in school

Jan 8-96. Bessie Thorpe — can work with the peg board and is beginning to work with beads

June 19-95 Bessie Thorpe — has improved some. she can now work with beads, peg board form-board and also build a little with blocks.

Bes Bessie Thorp — works a great deal better that she did, and seems to take more interest in her work —

June 96. Bessie Thorpe — has improved some. she can distinguish some colors and forms. she can say a number of words.

Jan 9-95 — Ethel Wood. — can work with brads peg board, form board, and is trying mat weaving and card sewing but have not had any satisfactory results in that direction. she is a very quiet child in school.

June 19-95 Ethel Wood. - has progressed a little in card sewing and mat - weaving she works quite well with other kindergarten materials

Nov 29/95 Ethel Wood, - has improved some. She can march quite well and works better.

June 96. Ethel Wood - has not improved very much in the last six months, she does about the same kind of work as she did at the beginning of the year. She work perhaps a little better is about all I can say.

Jan 9-95. Mary Johnson - works with, brads, peg-board, form board and sliced pictures. she can distinguish the form and color of different objects, and can say a few words.

June 19-95. Mary Johnson - when Mary first entered school she seemed quite bright and active and for a while did very well. she seemed to take such interest in everything. but for the last three or four months I can see a decide change in her. she is very stupid and stubborn and has acquired many bad habits.

Nov 29/95 Mary Johnson - went home after school was out and stayed four months came back and was taken sick, so I have no report to make.

June 96 Mary Johnson - has made a good deal of progress since she came back. she can put the alphabet together and figures as far as ten, can spell a few words, she is much better in every way.

Jan 8-95	Anna Aaberg, aug - works with the kinder-garten materials more than the industrial, on account of her eye-sight which is very poor. She can use the form board and peg board and work with beads.
June 19-95.	Anna Aaberg . - I do not see very much improvment in Anna. she still works with kindergarten materials and works a very little better.
Nov 29/95	Anna Aaberg - has been put in the Industrial Class. but I do not think she will make much progress. her eye-sight is to poor. She seems to enjoy working with beads and form board can distinguish form.
June 96	Anna Aaberg - has not made any progress in the industrial line and very little in any thing else. she can string beads and work with the form boards I think she can distinguish a few forms.

Jan 10-96 Helight Cameron.— can work only with the kindergarten materials, she can distinguish color and the form of a few objects.

June 19-95. Helight Cameron.— has not improved very much.

Nov 29/95 Helight Cameron — has not improved much yet. She does not make any progress in sewing she had rather work with kindergarten work and it is hard to make her do anything else. She is more orderly than she was and can go to and from the class in better order.

June 96. Helight Cameron, — has not improved very much. she is quieter and more orderly.

Jan 10-95 Laura Stelling, — can sew very nicely. she has also tried to crochet and can make one pattern of lace not entirely alone but nearly so.

June 19-95. Laura Stelling, — has improved in her sewing, she does it better and can do more kinds of sewing.

Nov 29/95 Laura Stelling — has gone home.

Jan 8-95 Maggie Fitzpatrick – is a very good sewer. can hem very nicely, is very slow but what she does is well done.

June 19-95. Maggie Fitzpatrick – improves a little in her sewing she is very slow and does not sew a very great amount.

Nov 29/95 Maggie Fitzpatrick – is about the same as she was. Sews very well indeed.

June 96 – Maggie Fitzpatrick, – has improved some in her sewing, she can do more kinds of sewing. she can baste, hem over-cast, stitch, and does her work well.

Jan 8-96. Christine Fincker. - has been working with kindergarten materials since she came to this school. I am now trying to teach her to sew. she does very well. she can hem towels, hdkfkfs -

June 19-95. Christine Fincker - has learned to sew and can do it very well, she can hem and sew seams, sew on buttons etc.

Nov 29/95 Christine Fincker, - has improved a great deal in her work. She can sew quite rapidly and does her work well.

June 96 Christine Fincker, - has improved a good deal in the last six months. she is much better natured. and has improved in her sewing. she can do any kind of plain sewing.

Jan 8-95	Lizzie Hewett - is a very neat sewer. can hem sheets, towels, hdkf etc, can also baste and put to gether, a few garments.
June 19-95	Lizzie Hewett. — has improved some in her sewing she does her work better. and can do it faster.
Nov 29/95	Lizzie Hewett, — Is still improving can baste hem, stitch etc.
June 96.	Lizzie Hewett - has not attended school very much in the last six months, Lizzie sews very well and has improved some.

Jan 8-95. Lizzie Henry- does not do any industrial work. she works with kindergarten materials,

June 19-95. Lizzie Henry - improves only a very little it is very hard to get her attention and retain it for any length of time.

Nov 29/95 Lizzie Henry- has improved a little. special attention has been ~~to~~ given to sewing she can hold and thread her needle and can sew just a little.

June 96. Lizzie Henry — has improv a little in her industrial work. she can sew a little, thread needle fold her work nicely. she seems to be more attentive.

Jan 8-95. Christine Johnson — can sew and make hammocks. she can sew quite well and has made a great improvement in the last two months.

June 19-95. Christine Johnson — has improved a good deal in her sewing she does much better work than at first, but she is very troublesome at times and in fact all the time, and it requires a great deal of care to get along with her.

Nov 29/95. Christine Johnson — has been very unruly this year and very little could be done with her in the line of work in school. It take nearly all my time to make her mind. She can very well if she wants to

June 96, Christine Johnson — I think I can see a slight improvement in Christine, she has been very orderly in school for the last four or five months, she can do plain sewing such as hemming towels, hdkf sheets. etc. she can sew on buttons pull out basting threads and fold her work nicely.

Jan 8-95 Margruitte Kober - can hem towels hdkf. pillow-cases sheets etc - and does it fairly well. she can also make hammocks.

June 19-95. Margruitte Kober. — is a good worker and I can see an improvment for the better.

Nov 29/95 Margruitte Kober. — has improved a good deal. She sews very much better

June 96. Margruitte Kober — has improved a great deal her work is more neatly done. she also can sew faster than at first, she can do quite well at hammock-making.

Jan 8-95. Betsey Larson – does not do any inddustrial work she works most of the time with kindergarten matirials such as blocks beads, peg board, form boards. I also have her pull out basting threads and fold towels, hdkf napkins etc., and also thread needles.

June 19-95 Betsey Larson, – improves only a very little. she is very troublesome and very in-attentive

Nov 29/95- Betsey Larson – does not improve very much she is still very trouble some and hard to do much for her.

June 96. Betsey Larson – I do not see one bit of improvement in this child she gives me so much trouble.

Jan 8-95. Mary Merril, comes to two of the school sessions, at one I have her read and write and the other sew. she is a fair reader and can make nearly all the letters of the alphabet. her sewing is very good,

June 19-95. Mary Merril —. improves in her sewing she can hem, sew seams, sew on buttons, she has also improved in her writing, read about the same as before

Nov 29/95 Mary Merril — can sew very much better. can hem, baste, stitch etc. She reads about the same, has improved a little in her writing.

June 96 Mary Merril, — has improved a little in her work, she does her work a great deal better than she did a first. She has improved a little in reading and writing

Jan 8-95. Rosa Navacik cannot do any industrial work on account of her eye sight, but is very apt with all kindergarten work, she can tell the different forms of the beads she works with, can also string them in regard to number. Can use peg boards and form boards.

June 19-95. Rosa Navacik – does about the same kind of work as before and improves only a very little.

Nov 29/95 Rosa Navacik – does the same kind of work, have tried to teach her to sew but have no results yet. She can work well with kindergarten materials. She can distinguish form and can count the beads up to twenty.

June 96 Rosa Navacik – is dead.

Jan 8-96	Amelia Rathstolk – can hem towels & hdkf and also make sheets and pillow cases, her work is well done.
June 19-96	Amelia Rathstolk – has improved some in her industrial work.
Nov 29/95	Amelia Rathstolk – does not go to school has been put at other work.

Jan 9-95 Minnie Renekie — works mostly with kindergarten materials, and can work with those quite well, I have been trying to teach her to sew on preforated cards, she does very well when I am with her, but can not do it alone, I have also had her try and hem towels, it is the same as with the cards.

June 19-95 Minnie Renekie - has improved a little in her industrial work but can not do anything alone I have to give her a great deal of attention.

Nov 29-95 Minnie Renekie - has improved a little. can thread needle and hem a little.

June 96 Minnie Renekie - has been sick and has not attended school much since the last report.

Jan 8-95. Emma Lawson — does not do any industrial work. she work with the kindergarten materials I have her thread needles and pull out basting threads.

June 19-95. Emma Lawson — does not improve very much.

Nov 29/95 Emma Lawson — I do not get any results from trying to teach her to sew She is very stubborn and willful. She can work well with beads. knows form and color and number.

June 96 Emma Lawson — does not improve much in the industrial line. I have been trying to teach her to sew but with out much satisfaction, she is more orderly in school. can thread needle fold work and sew a little on perforated cards.

Jan 10-95 Janette Scott. — has been taught to hem towels, hdkf etc, since she has been in school. I do not think she could sew before she came to school, if she could she has made a great improvement.

June 19-95. Janette Scott, — has made a good improvement, she can do more kinds of work and does it better.

Nov 29-95 — Janette Scott. — Is still improving, can hem and stitch very well.

June 96. Janette Scott, — does not go to school now.

Jan 10-96 Clara Sannamon - has not been in school much over a week, she seems quite apt and very willing. she can do a little sewing such as hemming towels hdkf etc.

June 19-95: Clara Sannamon - has not been to school very much and so I cannot say very much about her.

Nov 29/95 Clara Sannamon - can sew very well and has improved a great deal Can hem, stitch baste etc

June 96 Clara Sannamon, - does not go to school now.

Jan 10-95 Lucy Worthington, — is one of the best sewers I have she does her work very neatly she can also sew perforated cards

June 19-95. Lucy Worthington — made good progress while in school but has been sick and not able to attend school.

Nov 29/95- Lucy Worthington is not in school

Jan 10-95. Fanny Zbytovsky. — is a very good hammock maker. she can also sew very good.

June 19-95. Fanny Zbytovsky, — has improved a good deal. Fanny is very neat about everything that she does in school.

Nov 29/95 Fanny Zbytovsky has been put at some other work.

Jan 8-95 Kittie Aldrich --- studies, reading, numbers, and writing, she reads in the First Reader and can read very good, can also spell a great many words, has a fair idea in regard to numbers, can make them all and can count objects, can also add and subtract a little, In regard to her writing she can make all the letter and write a number of words. Kittie can sing well and has learned a few new songs.

June 19-95 Kittie Aldrich - has improved some in her work. she now reads in the Second Reader and she know how to study and get her lesson. she can also write a little if I help her. She has written two letters to her father.

Nov 29/95 Kittie Aldrich - has improved a great deal. She can write quite well now and reads very well. She can also make numbers and can understand the value. I think Kittie is very much better that she was.

June 96. Kittie Aldrich, - has improved some in her work. can read well and can spell a good many words. She has also improved in writing. She has read her Second Reader through once and will read it through once more.

Jan 8-95. Martha Bartlett, - studies reading, numbers, and writing. Martha is a good reader and can spell a number of small words. has also some idea of numbers. In regard to writing. there has not been the progress I had desired, but I think in time she can be taught to write but it will take time and a good deal of individual work.

June 19-95 Martha Bartlette. - has improved in reading quite a good deal she read in The Second Reader now. but she does not make the progress I would like in writing

Nov 29/95- Martha Bartlett. - Is still improving in her work She has not learned to write yet. but in her reading she has improved a great deal, can also spell a number of words.

June 96. Martha Bartlette - has improved a good deal in Reading She reads quite well now in her Second Reader She does not seem to do well in learning to write, and I am afraid she never will learn.

Jan 8-95. Eliza Brassette - has made a great improvement since she has been at school, she reads much better and is very industrious, she has also improved in her writing. she has some idea of number.

June 19-95 Eliza Brassette - has improved a great deal in reading and writing. She reads in The Third Reader and has a spelling lesson in connection with her reading lesson, she has some idea of numbers

Nov 29/95- Eliza Brassette. is not in school.

Jan 8-95. Lillie Byrne - studies Reading numbers writing. I can see some whproument in Ther work. she is industrious and tries to learn. In her number work she can add, subtract and is just beginning to multiply. she knows her multiplication tables as far as the fives, besides these general studies, she has spelling in connection with her reading lesson. She also studies in the Wayside and Seaside Nature reader. of which she is expected to remember what is read from one day to another, she has a fair memory.

June 19-95 Lillie Byrne - has improvd a little in her work. in numbers I can see quite a good deal of improvment, she can add and subtract quite readily and knows all of the multiplication tables.

Nov 29/95 Lillie Byrne — has improved a great deal especially in numbers. She can also read and spell better. She can also sew quite well.

June 96. Lillie Byrne — When Lillie is well I can see that she improves but she has so badly for a long time that she seems to have forgotten all that she ever knew. She has been in school most of the time but not able to do any thing. She cannot write a letter unless I stay by her and follow every word.

Jan 8-95. Lillie Bishoff. — read in the First reader. studies numbers, writing and spelling. she can make nearly all the letters of the alphabet. has also some idea of numbers. she do not read very well but has improved in that a little. Lillie can also sew a little.

June 19-95. Lillie Bishoff — has not improved as much as she might she is very stubborn and at times will do nothing at all. she reads a little better, but writing goes slow.

Nov 29/95. Lillie Bishoff — has gone home.

Jan 8-95. Mary Burke – studies, Reading numbers writing and spelling. Mary reads in the Fourth Reader, and reads well, she studies spelling in connection with her reading. In numbers she can add subtract and just beginning to learn multiplication. She is also trying to learn to write, can make a good many of the letters and in time I am sure she will write. She also studies the Wayside + Seaside reader.

June 19-95. Mary Burke.– has improved some in reading and a good deal in numbers and can make all of the script letters, it is very hard for her to write her hand is not steady but she tries very hard

Nov 29/95. Mary Burke – has improved a great deal. She can make all the script letters write her name and write a number of words. She has made good progress. in Arithmetic. She can multiply quite well. She can sew very well.

June 96. Mary Burke – does very well indeed in her school work. She can read very well. her Arithmetic work is good. She can Add, Subtract and Multiply with three figures. In writing she does very well. is a little slow in putting the letters together but she tries hard.

Jan 8-95. Cora Billings - studies reading writing spelling and numbers she reads in the Third Reader and reads quite well. she takes good interest in numbers and can write fairly well. I can see that she takes better interest in her school work, than she did at first. Cora can also do some kinds of industrial work.

June 19-95 Cora Billings - has improved a little in her writing and on the whole take a better interest in her work

Nov 29/95 Cora Billings - has improved some in Arithmetic! she know all her multiplication tables Can read some better, has also improved some in writing. Cora has also make some improvement in her sewing

June 96. Cora Billings - has improved in her writing can also read better and spell more words. I think the most improvement is in Arithmetic: she is doing better than I expected. she can multiply well and knows all her tables.

Jan 8-95 Cassie Bear,- reads in the First Reader is a good reader, can spell a number of common words, she can also write, she has written two or three letter, and has writing exercises every day.

June 19-95 Cassie Bear,- reads now in the Second Reader she can read quite well and has improved some. Cassie is a very stubborn girl, at least I suppose it is, and if it was not for that she could do a great deal more, she has a very good voice but I have failed thus far in making her sing when alone she will sing but not before anyone.

Nov 29/95- Cassie Bear.- has improved in reading and writing a good She has written a number of letter home. She is not quite so stubborn as she was. She can also sew quite well can hem stitch baste sew on buttons etc

June 96, Cassie Bear,- has improved some in reading she reads in the Second Reader. she can spell a number of quite hard words The most improvement is in her writing. her deportment is also better not as stubborn as she was.

Jan 8-95 Minnie Christie, — is very industrious she studies Reading, Writing Spelling and Arithmetic, and also studies the Wayside & Seaside series. her reading writing and spelling are good. In arithmetic she can add, subtract multiply and divide, she is also apt at written and mental problems.

June 19-95 Minnie Christie, — has improved a little in her work she does her work well and tries hard to learn. She can also do some very good sewing.

Nov 29/95 Minnie Christie, has improved some in her work. I think she is a little better at letter writing than she was. She can compose a great deal better. She has also improved some in reading. Sews about the same.

June 96. Minnie Christie, — has improved some in Arithmetic, reads about the same and writing the same. In Geography she does not do as well as I had hoped. it is very hard for her to remember but she has done better in the last month. Has improved in letter-writing.

Jan 8-96.	Emma Clarey- Is made in the Fourth reader and studies all the common branches. she is very good in arithmetic, and in all her studies does good work. she knows considerable about geography. she also studies the Wayside + Seaside reader.
June 19-96.	Emma Clarey- I do not know as she has improved any but she has not lost any, she does her work well and is the farthest advanced of any scholar I have in school. she does very good industrial work.
Nov 29/95-	Emma Clarey- Is improving her school work is good She has improved a great deal in Industrial line, especially in lace making. Can write a very good letter.
June 96	Emma Clarey- has improved a good deal. In Geography she has learned quite a good deal and seems to remember it. Has improved also in Reading and Authmetic. She is a good worker and understands how to study.

Jan 8-95 Grace Hickey. — studies all the common branches. viz- reading arithmetic spelling writing and geography. she is a good writer and reads well. her hardest study seems to be arithmetic but I think I can see a slight improvement in that.

June 19-95 Grace Hickey - is a very queer child some days she seems to know her lessons well and does good work and the next day she has forgotten all. so it is hard to tell whether she has improvd or not. I think for the last two months she has been more stupid than usual.

Nov 29/95 Grace Hickey — has improvd a great deal this year. She has not had nearly so many spasms in school. and that is something to help her. for she could do nothing after having one. She has improvd a good deal in Arithmetic and Reading. Her Industrial work is good.

June 96. Grace Hickey — has taken a great deal of interest in Geography and has learned a good deal about the United States especially can name all states and give capitals; & name principle rivers and mountains etc, she has a general knowledge of it, has improvd some in Arithmetic also improvd a little in Reading

Jan 8-95 Marie Hoogal, reads in the First reader. she has a little idea of numbers and can make a few of the script letters and also some of the figures.

June 19-95 Marie Hoogal -- has improved a good deal in her reading and can make nearly all the script letter, she can also do a good deal of industrial work and can do good work on the sewing machine

Nov 29/95 Marie Hugal - has improved some but not so much in her Reading as I had hoped. She know a number of words. She can make a great number of the script letter and write a number of words. Her Industrial work is good.

June 96 Marie Hugal - does not get along very well in Reading, not as well as I thought she would she does not remember very well. she knows a number of words. and can read a little, she can make the figures as far as ten. and know the value, She does better at industrial work. and I think she ought to go in that class.

Jan 8-95 Bertha Flaten — can read write and spell. she can also add subtract. and multiply a little. I can see some improvement in reading and arithmetic, It is very hard for her to write well on account of her being nervous.

June 19-95. Bertha Flaten, — has improvd some in reading and numbers but she can not write very well on account of her being so nervous; she can write fairly well on her slate but with pen and ink she cannot.

Nov 29/95 Bertha Flaten — has improvd a great deal. Her reading and numbers are much better. She has written a number of letters with pen and ink there is an improvement in them.
She does a little Industrial work.

June 96. Bertha Flaten, — has improvd some in the last few months. she reads a great deal better and is doing well in Spelling. In Arithmetic she does a little better. can multiply some and know all the tables. Can write with ink a little better.

Jan 8-95. Marie George — can read quite well in the First reader. she can make a few of the script letters and can recognize more that she can make she can also spell a few words I give all the time I can every day to her with individual work. she gives me more trouble than any other child in school.

June 19-95 Marie George - attends the industrial class only, she can sew quite well and I think is a little better in her deportment, she has learned three new songs and I found it much easier to teach her this time than last, but she is still very troublesome; and if it was not for her stubborness she could be taught a great deal more.

Nov 29/95 Marie George — has been better in her deportment this year than last. She has progress in her Reading and also writing She can sew some things quite well, hemming etc

June 96. Marie George, — has improved a great deal. she has read her First Reader nearly through, can spell a number of words. In writing she she has progressed only a little Her deportment is much better.

Jan 8-95 Emily Johnson — is trying very hard to learn how to write she can make some of the letters, I can not tell if she will ever be able to write for it is very hard for her to put the letters together, she can only spell a few words, and does not read well.

E June 19-95 Emily Johnson - has not made any progress she can not remember from one day to another, sometimes I think she has learned a word or a letter and the next day she does not know it at all. She can make a few of the letters, and can recognize a few of them. She can sew a little.

Jan 96. Emily Johnson — is at the same point that she was last year I do not think she will ever learn to read for she cannot remember. She can make some of the script letters Can sew a little

June 96. Emily Johnson — I cannot see that Emily has improved any in her school work. She tries very hard but she cannot remember She is a fair sewer and her work in that line amounts to more.

Jan 8-95. Mary Jacobson – can make all the script letters and can write a few words, she can also make some of the numbers and understand their value. she can also spell all the common words. reads very good in the First Reader

June 19-95. Mary Jacobson.– has made some improvment, she can make the letters better, reads about the same, it is very hard for her to read, but know the words, or most of them in the First Reader, and can read them if given plenty of time.

Nov 29/95– Mary Jacobson – has been transfered to the Industrial Class. & can sew a little

June 96. Mary Jacobson,– has improved a little. she can sew a little thread needles, pull basting threads, fold work. etc:

Jan 8-95. Mary Kotka — studies reading numbers writing and spelling. I have just put her into the Third reader in numbers she can add, subtract and beginning to learn the multiplication Tables. I can see improvment in her writing.

June 19-95. Mary Kotka, - has improved a good deal, she can spell a great many words and I can see an improvement in reading and writing, but not so much in numbers as the others in her class. She can sew, and run the machine.

Jan 96 Mary Kotka has improved in all her work. read and writes a great deal better She still improves in her Industrial work.

June 96. Mary Kotka, — has improved a good deal. She read better and her spelling is much better. but the most Improvment is in Arithmetic. She can add & Subtract and multiply a little She has also improved in her letter writing has written several this year.

Jan 8-95 Amanda Gleson. — I have just put Amanda in the Second Reader. she can make all the script letters. and also the numbers, she has written two or three letter to her parents, she has a general idea of numbers and their value. and can also spell a few words.

June 19-95. Amanda Gleson - improvd a little

Nov 29/95 Amanda Gleson has gone home.

Jan 8-95. Hannah Russel — can read very good. arithmetic seems to be the hardest for her. and I give her as much time as I can on that study I might say I see a very slight improvement. she read well. at times and can spell very well. she has a general idea of geography. she can also sew quite well.

June. 9-95 Hannah Russel - has not improved very much, though I think I can see a slight improvement in numbers. She can sew very nicely and do a great many kind of industrial work.

Nov 29/95. Hannah Russel — has improved some in Reading and numbers.

June 96. Hannah Russel — is about the same as usual. there is perhaps a little improvement in Reading. but in Arithmetic she does about the same kind of work. Her Industrial work is very good can do nearly all kinds of sewing make good button-holes.

Jan 1-95 Retta Scott — studies reading, numbers, spelling and writing. she does not improve much in writing but still there are times she can write quite well. in numbers she is quite apt. knows the multiplication tables as far as the fives can add and subtract. has worked some at language lessons.

June 19-95 Retta Scott - has improved a good deal. she has learned all of the multiplication tables. She can also do some kind of industrial work. She can run the sewing-machine.

Jan 96 Retta Scott, has improved very much. She can read better and especially in numbers can I see a good improvement She can multiply quite readily with simple numbers.

June 96 Retta Scott, — is still improving she is very much interested in her work and tries very hard. She has improved in Reading + writing, but especially in Arithmetic; can add + subtract very well, know all her multiplication tables; and multiply with three numbers. She has also improved in Spelling

Jan 1-96 Sarah Shapley — I have given a great deal of individual work with Sarah but I cannot see any improvement, she knows a few of the simple words in the First reader, it is very hard for her to remember.

June 19-96 Sarah Shapley - has not improved any

Nov 29/95 Sarah Shapley — has been transfered to the Industrial class. and the work seems just as hard, I cannot see much improvment in School work.

June 96. Sarah Shapley — has not improved very much. She has been try to learn to sew. she can sew a little but not well, can thread needles - fold work and pull basting thread.

Jan 8-95: Mary Ann Slann - reads in the Second Reader. she is industrious and tries to learn. her reading is not very good, but she has improved in that, I give her all the individual work I can on numbers. as she need that more than anything else. she can make all the script letters and writes her name and a few words. she can also spell a few words.

June 19-95: Mary Ann Slann - has improved a great deal in reading and also in writing but not in numbers as much as I would like.

Nov 29/95 - Mary Ann Slann - is still progressing in reading can read quite well now. She also does well with her writing.

June 96 Mary Ann Slann - has improved some in the last few months. She reads in the Second Reader and has improved a good deal can also spell a number of words, she has also improved in writing

Jan 8-95: Anna Ruzicka. — reads in the Third reader. and can read very well. she has only a little idea of number and their value, and can make a few script letters. I can not say very much about her as she has not been in school long enough.

June 19-95: Anna Ruzicka - I think would have improved had she not been sick, and could have attended school.

Nov 29/95 Anna Ruzicka not in the Institution.

Jan 8-95. Agusta Paff — studies reading numbers writing and spelling, she has improved in her writing and reading, her number work is not what I would desire it nor has she made the improvement I would like. I give her all the individual work I can, but will have to give her more. I know Agusta can learn if she wants to, but she seem to stupid or stubborn.

June 19-95. Agusta Paff - has tried to do her work better and has made some improvement in reading. She can sew a little.

Jan 96. Agusta Paff - has been paying a good deal of attention to her writing and has improved. She has also made progress in Reading.

June 96. Augusta Paff. — has improved a little. She reads in the Second Reader and has improved a little in that. In Spelling she does not do as well as she can for she will not study. She has written a number of letters and has improved in that.

Jan 8-95 Jane Williams — studies reading arithmetic spelling, in all of these studies she is very good. I have great hopes of Jane and I know can be taught almost anything, all that is wanting is a little more ambition on her part. she is very good in all kinds of industrial work.

June 19-95 Jane Williams — has been more industrious and has done her work better, she has been working in fractions and decimals and has a general idea of them. She has also improved in Spelling.

Jane Williams transfered to the other building

Version 1
March 18, 2019

June 19-95. Lillie Clay— has been in school a short time she can work with beads and peg board.

Nov 29/95 Lillie Clay— has not been very well so has not been in school this year.

June 96. Lillie Clay.— has improved a little. she can string beads, use peg + form boards.

June 19-95. Albertha Sampson - has been in school only a short time, she can work some with beads, peg board and build with blocks.

Nov 29/95 Albertha Sampson - has improved some. can work much better, and is more attentive, can distinguish form.

June 96. Albertha Sampson, - has not improved very much it is very hard for her to work with anything because she jerks so. at times she can use beads and can distinguish form but not color.

June 19-95 Jennie, Carlson — has not been in schol very long. she is in the kindergarten class and can work some with beads and blocks building

Nov 29/95 Jennie Carlson — can now use beads peg board form-board, and blocks. and can work with them very well.

June 96. Jennie Carlson — has improved some she can distinguish form. she work better than she did and more quet.

Nov 29/95. Tillie Hanson – has been in school only a short time. she does not do very much, work with blocks a little.

June 96. Tillie Hanson – I have not been able to do much with this child she is never content unless she has a rag to tear and if she does not have it she will cry all the time, she can use blocks a little.

June 19-95 Anna Larson - has been in school only a short time, she comes to the kindergarten and literary classes. She can distinguish color and form she knows a number of words + a few of the script letters

Nov 29/95 - Anna Larson - Is improving a good deal has learned a number of words and can read a little in the First Reader.

June 96. Anna Larson - has improved a great deal she can read the five or six lessons in her First Reader. and spell a few words

June 19-95 Amma Anderson - is a new pupil + has not been in school very long. she has learned a few words.

June 96. Amma Anderson - has done very well she can read a little in her First Reader and make the number and spell a few words

Nov 29/95 Recka Gunins – was transfered from the other building and has not been in this school very long. She works well with beads, peg and blocks. can distinguish form and color. can march very well.

June 96. Recka Gunsins, – has improved a little, she works better and is more attentive.

Nov 29/95 Tena Niskien – was transfered from the other building and has not been in this school very long. She work well can distinguish form and color. Some times she is quite unruly. Can march well

June 96. Tena Niskien, has improved some in her deportment and can work much better, she can build wall with blocks

Nov 29/95 Maggie Miller – is a new child at first she was inclined to be noisy, but has improved a great deal. She can work with beads and pegs. can say a number of new words. & can march well.

June 9th Maggie Miller, has improved some she can work with block and form boards, can distinguish form and color, is more quiet.

Nov 29/95 Gertie Day. – has not been in school very long She works with. kindergarten work yet, can work with beads. pegs. form boards. can distinguish form and color.

June 96. Gertie Day. – is in the Industrial class now. she work also with kindergarten materials. she can thread needle pull threads fold work and take a few stitches

Nov 29/95. Lizzie Lovejoy – has been in school a short time; can sew a little. Thread needles pull out bastings etc.

June 96. Lizzie Lovejoy – has improved a little she can sew a little better can sweep and clean well.

Nov 29/95	Kate Low. can hem stitch baste etc very well and has improved a good deal since she has been in school.
June 96	Kate Low, has improved a good deal in her Industrial work she can hem and over seam very well.

Nov 29/95- Anna Overson. was transfered from the other building. she can work well with kindergarten materials, cannot sew very well she shakes so. can sew on buttons and pull out basting threads

June 96. Anna Overson - sews a little better can hem fairly well.

Nov 29/95 - Minnie Hubbard. was transfered from the other building can sew a little. sew on buttons and p^ut^ basting threads.

June 96. Minnie Hubbard, — has improved a very little in her sewing, can hem a little.

Nov 29/95- Carrie Lee. can sew very well but is very slow but what she does is done well, can hem sheets, sew on buttons etc.

June 96. Carrie Lee, can sew well if she wants to but she seems to forget herself and stop and has to be reminded of her work she sew well.

June 96. Ottilyer Kenne, - has improved some in her work, and deportment she was very noisy at first but is better in that respect, she has been sick and out of school a good deal, she can string beads and work with blocks

June 96 Irma Winkjer, – has not improved any she has been trying to learn how to sew but with little success, can thread needle, pull basting threads, and sew on buttons.

June 96 Grace Miller, was transfered from the other building can sew a little. sew on buttons well. pull basting threads and fold work nicely. has improved some

June 96 Whole Taplin, can improved a good deal in her work, can sew much better, can sew on buttons very well indeed, thread needle and pull threads

June 96. Grand Finch, has not improved much, can not sew. has only one hand works with kindergarten materials, can string beads, can distinguish form and color.

June 96. Mary E Scotts,— has made very good progress since she came her, Reads in Fourth Reader and reads well, can spell very well, In number she does first-rate she can multiply with three numbers her writing is good

June 96 Fanny Barnhardt, —
has improved some in her work.
she can read a little in the
First Reader and spell a few words
has been out of school a good
deal has been sick.

Literary class. 10:00 – 11:30 A.M.

1 Nora Noonan
2 Cora White
3 Agusta Paff
4. Lillian Stafford.
5. Mollie Smith
6 Rebecca Thompson.
7 Lillie Birkeman
8 Bridget Buckley
9 Annie Larson
10 Martha Malloy.
11 Ella Haulon
12 Marie George
13 Eva Van Epps
14 Cora Billings
15 Edna Ross
16 Beatrice Peterson.
17 Amelia Abrahamson
18 Eliza Brisett

a.m.

Kindergarten class. 8:15 – 10:00

1 Mamie Celt
2 Ruth Anderson
3 Elsie Emerson.
4 Nellie Lyon
5 Irene Grey.
6 Nellie Hellgrain

Nov. 1.

Nora Noonan — Quite bright & smart is quite well informed on general things. Has read a great deal. Can do examples in Fractions But is very flighty and some days does not want to study or recite. Wants to quarrel with every one.

Cora White. Does not read nor write very well. Does not seem to improve any but is quite studious Can do examples in Add. Sub. & can read large numbers both in Roman & Arabic Notation.

Agusta Paff. Does not improve. Reads quite well does easy work in numbers & in Addition. Gets very nervous if she studies.

Silbian Spafford. Reads quite well & does examples in Add. Sub. can read large numbers. Does not like to study and does not like to write. Very fond of music and can play some.

Mollie Smith. Improves right along. Writes nicely and likes very hard to learn but gets very nervous and can only study a little while at a time.

Rebecca Thompson. Tries very hard to learn but is very slow. Has been trying for nearly a month to learn to write her own name & has only just accomplished it. is about 28. years of age Was never sent to school when young.

Lillie Bikman. does not improve.

Bridget Buckley. Not in school very much is sick quite often. Is bright but can not talk plain.

Anne Larson. can read and is learning to write.

Martha Malloy. Is improving Can read nicely in Second Grade reader can write some Is very anxious to learn. Does not improve much in number work.

Ella Hanlon. Reads quite well can also read numbers. Is very restless. Never tries to study. Talks out loud & disturbs children in every way she can

Marie George. Learns quite fast. Is a good reader & speller writes very poorly. Can read small numbers & count well.

Eva Van Epps. does not seem To improve any yet.

Cora Billings — has gone away.

Edna Ross. Improves right along. Very anxious to learn. Studies Geog. Physiology. Arith and Reading

B. Peterson. Improves in reading and numbers. Has not much use of her hands.

Amelia Abrahamson. Improves. Studies Arith. Physiology Reading and Geography

Mamie Celt. Very distructive and noisy
Can weave and sew nicely.
Needs a great deal of coaxing to
do her work.
Ruth Anderson. Inclined to put
every thing in her mouth. but if
watched and helped a little
can string spools and beads.
Elsie Enchson.
Is improving. can sew a little
and can build with blocks and
string spools and beads.
Nellie Lyon. Very distructive and
restless. but if watched can
string beads & spools
Irene Gray.
Is restless and very nervous. but is
bright. Can sew a little and can
string beads. Can distinguish form
but not color.
Nellie Nellgram. Does not improve
any. Does not Know what is said
To her.
Mable Lund. Does not improve at all
Robbie Smith. Is improving. can dis-
tinguish form and color but can
not see perfectly.
Susie Greseke. sews nicely. can count
a little does all Kindergwork and
is learning to read. She does not
like to study.
Harry Spence. is quite bright but lazy.
He can distinguish form and color
and can use to all Kindergarten material
Sevada Campbell.
Is bright but very slow. Can use all
Kindergarten material and can count

is learning to read
Buddie Matteson. Has not very much
use of her hands. Can string beads
& place pegs but is not improving
very much
Ralph Walboy is improving all
the time.
Does all Kindergarten work and can
distinguish form and some colors.
Is neat and industrious — Gets his
work done befor the other children
and then wants some toy to play
with.
Isertie Nelson is improving. can
sew a very plain card and
string beads and place pegs in
tiles. Is not always the same
though — Some mornings very stupid
and dull.
Jennie Josephs. — does not improve
any. Very stupid and dull
Adeline DuFour — Is improving.
can use pegs and string beads
Distinguishes form and color
Has not much use of her hands
Mary Johnson. Improves
very much. Sews nicely. does
all Kindergarten work very
neatly. Very industrious.
Agnes Tiles — does not improve, is
very destructive.
Minnie Hubbard Is improving
some. Sews cards and strings
beads and spools.

Cretons

Clara Engar. Does not improve much.
Anne Larson is learning to read and write
B Peterson. is quite a good reader in 1st grade reader can sew nicely.
Agnes O'Leary does not do much but study spools and beads Inclined to put everything in her mouth
Ricky Gunness. has not improved any thus far. Is very destructful

— January —

Nora Norman. Nora has failed lately. She will not study and she is very restless and quarelsome
Cora White - Has not improved any in reading but has learned some of the tables in measurments writes a little better.
A. Paff - She is very nervous in school Has learned a little in Geography.
L. Stafford - Improves some in writing and spelling. and has a new reader.
M. Smith Improves right along. Writes very well.
R. Tompson. Works very hard over her lesson Is improving a great deal
B Buckley - Can spell words with blocks
A. Larson. Improves some
M Malley — Has gone away.
E. Hanlon. Does not improve at all.
M. George. Improves.
E Van Epps Is doing better and seems more interested than at first
E. Ross - Improves all the time
B Peterson - Improves all the time
A. Abrahm Improves in all her work. She is studious and interested She studies Geography and Physiology, Arithmetic. Reading and Spelling. and recites very well.

M. Celt. Improves some, is destructive
she sings nicely and some days works well

R. Anderson. Is doing better and struggles
and heads very nicely

E Emmons. Improves some.

N Lyon. Is not quite so restless and
is doing her work better

I Gray. Is very much better in school
and she does her work better
Improves nicely.

M Lund. No improvement at all -

R. Smith. Improves very much and is quite
industrious usually. He has learned Colors some

Susie G - has gone away

H. Spine Improves but is awful lazy and noisy

L. Campbell. Has been transfered

B. Matheson Improves all the time She tries to do her work

R. Malloy. Has gone away

G. Nelson. Can sew very well and does all the
Kindergarten work except weaving

J. Josephs. Does not improve but a little. She
seems afraid of me and some of the children

M. Johnson. Improves and does all her work nicely.

A. Tyles. Does not improve and does not like to do anything

M. Hubbard Minnie is improving some. She is
very good and industrious

April -

1 Nora Noonan.
Nora is more stupid than when she first entered school. But she is less quarrelsome and not so hard to manage.
She is not doing nearly as well as in Sept. when she first entered -

2 Cora White
Cora White does not improve but a very little. She seems to try to learn her lessons.

Agusta Raff.
Does not improve at all. She is very dull and stupid.

3 Lillian Stafford.
Lillian writes much better and is doing quite well in Geography, which she has taken up recently.

4 Mollie Smith.
Is learning to write and spell She improves some in reading.

5 Rebecca Thompson
Is very perserving, is improving in reading, writing and spelling She does not seem to comprehend anything in numbers or in
Combining numbers. There is some improvement in her reading the simple numbers up to 50 but not very much

6 Lillie Bikeman, does not attend.

7 Bridget Buckley
I tried to help Bridget in articulation but she always get very excited and I have not accomplished anything. Bridget has not use of

her hands so can do very little in school. She always listens to the recitations of the others and seems interested

8 Annie Larson }
9 Martha Mallory } ✓ do not attend
10 Ella Haulon " "

11 Marie George improves in reading and spelling and in number work but she can not improve her writing. I gave her a No 1 vertical system copy book, thinking she would try to write, as she wanted one very much — but she spoiled every page and I had to take it from her. She made on

12 Eva Van Epp no improvement —

13 Edna Ross.
Ednas writing is better, she makes very good recitations in reading Physiology and Geography. But she does not spell very good. and her arithmetic work is not good.

14 B. Peterson
Beatrice is improving in number work and in her reading & writing a little. She has not very good use of her hands

15 Amelia Abrahamson
Recites very well in all her studies Very much improvement in writing

Kindergarten Class
April 1.

1. M. Celt.
Mamie does all the Kindergarten work. She is better in school than she was a month ago. She wants to change her work often. If she would work long enough at a time she could do the net work. But she does not accomplish much outside of the Kindergarten gifts.

2. Ruth Anderson — not in school

3. Elsie Emerson —
Does very nicely.

4 Nellie Lyons
Nellie Lyons knows how to do her work and knows everything said to her. But her attention is attracted by the least thing from her work and she is looking all around the room all the time. If I sit with her and help her She is just the same. She wants to watch the other children. She is not quite so restless as at first, stays in her chair until she has permission to get up.

5 Irene Gray. There is some improvement in Irene.

6. M Lund. No improvement at all.

7. Bobbie Smith. Bobbie is quite restless and I do not think he sees very good but he does some of the Kindergarten work. Can not distinguish all colors yet. Does better with the bricks than with other colored objects.

8 8 Hany Stone.
Has improved and can do all the Kindergarten work. He is lazy sometimes and has to be urged to do his work.

9 Buddie Matteson
Improves.

10 - Gertie Nelson. Does all the Kindergarten work. She is very good in school

11 - Mary Johnson
Mary does everything nicely. She made a dolls hammock in the school room last month and is making a pin cushion cover in colored thread now.

12 - Agnes Tylis
Does not improve —

13 - Minnie Hubbard
Has improved very much I want to start her on the net work this week. She does all the kindergarten work now. In Sept she did not do anything right.

May. 6. Jennie Josephs.
Jennie is doing quite well now She is a great deal more active and marches with the other children which was impossible in Sept and Nov. I think exercise is a good thing for her. She does the Kindergarten work except sewing

May.

cards and weaving. She can distinguish color and form altho I can not always depend on her doing it as she is brighter and works better on some days than on others. Last week she made some very nice strings of paper and straws. She seems to notice everything going on now. She built a block house one day and called Gertrude Nelsons attention to it and seemed to want her to admire it.

14. Bessie Smith.
Has just entered school She is restless and can not do anything yet. She can not march with the other children.

15 - Maggie Tollis
Has been in school a little while. She is very restless and has not learned anything yet. She puts everything in her mouth.

Gertrude Nelson.
Does all the Kindergarten work very well. She is industrious and always does her work.

May. 1.

Hannah Hill.
Can do all of the Kindergarten work except weaving. She knows the colors and is always anxious for her work. She can talk quite well.

Buddie Mattiason.
Buddie improves some. She has not very good use of her hands but she accomplishes a good deal. She is very slow

Nora Robertson has been to school a little while. She has not learned anything except to string beads or stools. She has not very good use of her hands.

Harry Spure
Harry improves and can do all of the Kindergarten work.

Bobbie Smith. Bobbie can distinguish both form and color now and does the work very well.

Mary Johnson has made two hammocks since January. She learned it very quickly

Irene Gray. Is nervous and has chorea and so does not accomplish very much but she tries and knows how to do most

May 1.

of the kindergarten work but she has shaking and jerking spells and nearly always spoils her work and discourages her.

— Flossie Baker.
Improves and does all her work nicely.

Agnes O'Reilly.
Agnes does not improve very much.

— Esther Paulson
Does not do anything but string the beads and I can not teach her to distinguish form and color

— Nellie Hellgrain
Nellie is doing just a little better

Rika Gunness.
Not very much improvement

Elsie Emerson.
Is improving. She can do all the Kindergarten work now.

Minnie Hubbard.
Has improved a great deal

Agnes Giles
Agnes does better work now. She knows how to do all the Kindergarten work but sometimes does not want to do anything

May.

Nora Noonan.
Nora's school work is not as good as at first.
She is more quiett and not so quarelsome but she does not get her lessons and can not remember anything. She writes very nicely in her copy book.
Cora White does not improve very much. She seems to study.
Agusta Paff. Has improved some in writing but not otherwise.
Lillian Stafford improves some in writing. She is quite industrious in school and enjoys it She reads nicely now and has learned some in Geography
Mollie Smith
Mollie is improving in her writing and reading.
She can not spell very well She writes her own letters with some help in the spelling.
Rebecca Thompson.
Has improved her writing. Is learning some in numbers and her reading is better She is trying very hard to learn something but it is very hard for her.

L. Bikman. Does not attend any more
B. Buckley.
Bridget does some spelling and counting with the block. She asked for a first grade reader and I gave her one and she tries to read but can not say very many words.
Marie George
Improves some in reading and writing but she can not write very well.
Eva Van Epps improves just a little, She has a new reader. Enjoyes her school work very much.
Edna Ross.
Improves in all her studies She finished her copy book and it is very nice.
B. Peterson.
Is learning to write and her reading is very much better.
A. Abrahmson
Improves nicely. She is very much interested and makes good recitations.

June. 30

Nora Noonan has not been in school but a few days this month

Cora White. does not improve

Agusta Paff- does not improve but a very little. Her writing is a little better.

Lillian Safford
Improved some this term

Mollie Smith
When Mollie studies she improves some but she is easily discouraged and sometimes gets tired of studying

Rebecca Thompson
She tries very hard to learn but it is hard work. She is nearly through a first grade reader. She cannot combine numbers nor understand the value of numbers

L. Bikeman. Does not attend now

Bridget Buckley.
Has not made much improvment

Marie George.
Improved in reading and numbers work. Her writing is no better.

Eva Van Epps.
Has improved some. She reads well.

Edna Roes
Improves all the time.

Amelia Abrahmson improves

B. Peterson.
It is very hard for her to write but she can make a few letters
She improved in reading and numbers work.

Kindergarten class

June.

Mc Celt. workes a little on the net work, She is very restless

Ruth Anderson is dead

Elsie Emerson improves in her work She is sometimes inattentive and restless in school

Nellie Lyons has done better work this month.

Irene Gray.

Improves some, Is industrious but nervous

Bobbie Smith works quite well I think he improves in his work and behavor in school.

Harry Spurr.

Harry is quite bright and can do all the Kindergarten work but he is lazy

Buddie Matteson.

Improves and is quite a good worker.

Hannah Hill improves all the time.

Nora Robertson can not do very much, she has not very good use of her hands

Flossie Baker does all of the Kindergarten work very well

Mary Johnson does very well with net work. She made two nice hammocks since March.

Agnes O Reilly.

Agnes has not improved at all.

Esther Paulson

She can string beads but sometimes does not want too She cries a great deal if she can not have her own way

Nellie Helgrain is learning to talk and does some better in the Kindergarten work.

Rika Gunness

Deportment in school is better, she is improving some

Elsie Emerson

Does all the Kindergarten work. I think she could go to the other building.

Minnie Hubbard.

Has improved a great deal

Bessie Smith is learning to string beads.

Maggie Fallis is very restless she has not learned to do anything yet.

Gertrude Nelson knows how to do all the Kindergarten work. She is good in school and industrious

Jennie Josephs.

Improves a great deal. Is more attentive and more observing.
