Sept. 8 20 to 10

Betcher Sarah has been in school regularly She has revied the work she did last year, and I find she has remembered well; she has taken a new reader. The Werner Primer, and is quite interested in her work, has done good work in the calisthenic drill, her deportment is very good

Bner Emma has been in school nearly all the time, occasionally she has been called out to help about some industrial in the other departments she has not forgotten what she learned last year, and is quite anxious to learn I feel that she will do good work this year, Deportment very good

Brawn Annie, Has been in school nearly all the month, when she was absent, she was called out to help about the house, she has retained what she learned last year and is anxious to learn especially to read and she really is doing quite good work, she has taken up the new 1st reader, Taylors it pleases her and I hope it will help to keep up her interest in her work all through the year she has started in nicely. Deportment very good.

1901 8.30 to 10

Sept. Gorham, Angie, has been in school all the month except a few days that she was taken out to help in the industrial department. She is a queer child I hardly know what to expect of her some days she does so much better work than others She reads in the Werner Primer writes very well and can spell the words in the lesson from memory Her deportment is very good.

Hendrickson

Emma Has been in school all the month I think she is going to do good work this year she take more interest in her work and seems to have more life about her, She has taken the Werner Primer and for the first time since she has been in my room, she is quite interested in learning to read, she is beginning to learn to write she forms some of the letters well, her hearing I am afraid will be a drawback to her, Deportment good.

Joslin

Clara Has been in school all the month, she reads in the Werner Primer is doing good work for her, did not forget through the summer, she always wants to be doing something, I am sure I do not know what to expect of her, Deportment good

Sept. 1901 8.30 to 10

Padden

Jessie has been in school all the month except a few days when she may have been taken out to help about the house, she reads in the first reader, Taylors. she I am sure will be able to do much better work and understand what she reads now that she has changed from the third reader which was much too difficult for her, she is now herself that it is the best for her I am in hopes she will improve in her penmanship, her deportment is good does good work in calisthenics

Parquett

Irene has been in school all the month except a few times when she was taken out to help in the industrial department, her visit home this this summer has given her new courage to work and she has really been doing her very best, she does not learn fast, but she so far has worked hard, if she keeps up her good intentions, she will be a surprise to me, she write quite well, and spells her lesson from the book Deportment much improved

Sept. 1901. 8:30 to 10

Ronclestredt

Rosa has been in school all the month except a few day she was taken out for industrial work, she has not forgotten any thing she learned last year, and seems much interested in her work she has the new Werner Primer has only had two lessons, she can spell the words and write her lesson from a copy on the board or on paper her deportment is very good

Lumenberg

Annie Has not been in school very much this month, it has been her luck to be called upon to help with the industrial in the different departments just now she is helping in the hospital she works well when in school and is quite interested readies in the Werner Primer and is learning to write quite well & deportment good

Wright

Mabel Has been in school all the month, she remembered all she learned last year and it work'n well so far this year. she reads in the Werner Primer and write her lesson very well for her I think she is going to do good work, her deportment is good,

Sept. 1901. 10:30 to 12:15

Brady

John has been in school all the mo. he has worked well, remember what he did last year, he has commenced to read in the Werner Primer, is learning the names of the letters, has began to write a little can copy some words I feel encouraged with him, for he is so anxious to learn has only had his book a two or three days, he will try to do any thing I ask him to do, He never gives me any trouble in school.

Claflin

Richard has done so little real school, that is literary, work that I hardly know how to write his report, has not had his book long enough for me to find out whether he can learn to read or not, he is very anxious to know how to read and that being the case he may in time read a little, he can copy words writes his name from a copy, he is a trusty boy and very capable in industrial work His deportment in school is very good

Sept. 1901. 10:30 to 12:15

Eichlon

Willie has been in school all the month, he is not a very industrio boy he is capable a doing very good work if one can only know how to reach him, so far he has not done his best by any means, he reads in the Taylor 1st reader write a good hand, put his lesson on the board nicely write his spelling without any assistance from the book, write any number to twenty and with a little help can write to one hundred, his deportment is good

Foote

Raymond has been in school all the month, he is not very industrious when it his reading or spelling lesson he has to learn but if I give him some work to do with his he will work at it with the greates interes, sometimes he will work out some very interesting designs with the colored wood tablets and drawing he is very fond of copying the pictues from books or the paper, the picture he spends the most time on is the coffin, he would spen the all the session making that picture if allowed to, I am not fond of the picture as I discourage him all I can, in that subject. His deportment is very good,

Sept. 1901. 10:20 to 12:15

Fruchtman

Charlie has been in school all the month I think he is going to take more interest in his work this year he is starting out well, he reads in a class with quite a number of boy and it seems to give him confidence in himself, when I call for the class to answer a question he very often is the first to answer, or if I ask for some one to make a sentence and put some word in it he will be the very first to do it, last year very often when I would ask him to reade he would cry, I am glad he has gotten over that, His deportment is good

Haacek

Gustave has been in school all the month except when he has been taken out to help in some other department, he is doing good work reads in the first reader (Taylors) writes his lesson on the board and writes his spelling with the assistance of the book Make quite good sentence when asked to put some word in a sentence, he is not as quick as some of the boys but it may be because he does not talk very readily, I am in hopes to have him do good work this year. His deportment is good.

Sept, 1901. 10[20] to 12[15].

Hopps Don has been in school all the month, he remembered what he learned last year, he is now reading in the Werner Primer I think he is going to get along with it well the lessons are altogether different from the ones he had last year, and he has never heard them, he copies the lesson very nicely on the board and spell his word without the book, can make very good short sentences, he is interested in away his school work, He does not talk well there are many words he can not speak plainly, work well in the calisthenic drill. Department good

Mapp. Jamie has been in school all the month, I do not know how he is going to do, he has just taken the primer for the first time so far he has done very nicely, he often learns his lessons by heart and does not give his attention the words, he can write his lesson nicely, knows some of the letters by name, write any of the numbers from a copy He is very fond of drawing & will attempt any picture he sees, He is usually quite good in school

Sept. 1901 10[20] to 12[15]

Olson Bennie has been in school all the month, I do not know what to say about him, his hearing is so very deficient, that he does not hear all that is said in class, and that being the case he will not get along as well as the other boys I some time think he has learned about all he can, yet he is anxious to be in the class. he never gives me any trouble in school,

Olson Edwin has been in school every day this month, he is reading in the Werner Primer, know all the words and is learning to write, if he is not watched carefully he forget to look at the copy and then he does not know what he is writing but I think he will learn, does not any thing about number intelligently he can copy them so that one can tell what he was trying to do, he is very slower in any thing he does, in the way he walks, in his dress, the way he takes the drill in calisthenics, he usually comes to school with clean hands. His department in school is good,

Sept. 1901. 10 20 11 12 15 11

Astrander

Bennie has been in school all the month except when he was called out to help in some of the industrial departments he is a good boy and usually can be depended upon, he reads in the Taylor first reader and is doing good work. writes his lesson on the board and his spelling he writes without the book, makes every good short sentences with some words I ask him to put in the sentence, he understands the value of the numbers to ten can count twenty We are just beginning the new book I am in hopes he will do good work in his reading His department is good

Reussewig

Edelie Has only been in this school one day, reads in the first reader

Smith

Burt has been in school all the month, except when he was called out to help about the house, he reads in the Taylor first reader writes his lesson on the board and his spelling with the book, he has worked well, writes numbers to 9 and can combine numbers to nine, not quickly but understands what he does Can make very good sentences with one word that I give him. his department is usually quite good

Sept. 1901 10 20 11 12 15 11

Erwin

Shull has been in school all the time he is always busy with some kind of busy work but never does any literary work when I write his letters to his mother he likes to sit by me and some times he will tell me something to write for him likes to have me read the letter to him after it is finished, he never gives me any trouble in school,

Wall

Willie has been in school all this month he is not very fond of work. he remembered many of the words he learned last year has learned chicken, he picked it up one day when I was helping him with the lesson and said what is this Miss Johnston and I told him then he told me all about the chickens at home and he has never forgotten the word, he remembers when it is his time to go to the singing class and just the minute he hears the bell he will start, music means a good deal to him he is very fond of it, He never gives me any trouble in school,

Sept. 1901. 1st to 3.

Duffield

Ray came in my room the last day of the month

Harding

Gladis has been in the hospital nearly all the month,

Hopps

Don has been in school all the month. report on page 22.

Halvorson

Emma has been in school all the month she has done very little literary work, for two or three days she has been folding strips of paper in four lengths and did it very well, can use the scissors quite naturally, she never gives me any trouble in school.

Hilgerson

Lillie has been in school nearly all the month she is very slow about taking up any kind of work but will do better work with her hands than with her mind. she never gives me any trouble in school only that she will not apply herself,

Sept. 1901 1st to 3.

Langdon

Sarah has not returned from home

Langan

Mamie has been in school all the month, has not done any thing

Sims

August. has only been in one day

Miller

Edgar came in the last day of the mo.

O'Connor

George Has been in all the month he assorts the colors builds the stick pen does not do any literary work is not any trouble in school.

Peterson

Alfred. came in the last day of the mo.

Roemer

Leopoldina

Has been in school all the month she assorts the colors, builds the stick pen, make designs with the wood tablets does very good work in the calisthenic drill, Does not give me any trouble in school

Rosenwald

Lillian came in the last day of the month.

Sept. 1901 1:30 to 3.

Steiner

Susie has been in all the month she, has been trying to write her name has not the slightest idea of making the letters, only as I help her. can trace the letter with the pricking needle quite well. I think she will learn something about the drill in calisthenics. does not give me any trouble in school.

Shull

Ervin has been in school all the month he does not do any literary work, He make almost any thing he wants to with the colored blocks, one day it will be the cars another time it will be a barn with a fence around it, may be the nept day he will make a church, he is busy all the time does not give me any trouble in school

Smidt

Alfred, came in school the last day of the month

Swensen

Ralph has been in school all the month, he will never do any kind of literary can string beads, about the colored sticks, Make designs with the colored wood tablets can trace a copy with the pricking needle can not write Department good

Sept. 1901 12:30 to 3.

Wall

Willies report is on page 25.

Peterson

Waldemar Has only been in this school one day

Wagner

Dena has been in school all the month, she has not done any literary work assorted colors made designs with the colored tablets and made the stick pen with the sticks. Her department is very good

Oct. 1901 8-30 to 10

Betcher

Sarah has done good work this month she reads in the Werner Primer in the book she has had twenty words, but much of her work in reading has been from the board and in that way she has learned many more words she also learned quite a little about making sentences for her self. for example I would give her a word and ask her to tell me something about it. and while she is slow about it, yet she does her own thinking, she has done well in writing and is anxious to do her best, Spells the words she has in the book, does not have a very good idea of measurement her drawings are not well done does good work in calisthenics her work in numbers is very simple She has been in school all the month, I took the class to the farm one morning & the next morning I had each girl tell me what she saw. Sarah gave quite little history of her trip, She has been interested in her work, and is anxious to learn, deportment good.

Oct 1901 8 30 to 10

Buere

Emma has done good work in school, she reads in the Werner Primer knows the twenty words she has had in the book and also other words that came in the language lesson she can make quite good sentences when I give her a word and ask her to tell me something about the work, she is improving in her writing very much takes her writing lessons from the reader she has very little idea of measurement her drawings are not good, is doing very good work in calisthenics she can make the numbers 1 2 3 4 5 6 7 8 9 10, but does not have very much talent for doing any thing with them, does very very good work in calisthenics, has been in school every day this month, deportment good,

Braun

Annie has done good work in school she she reads in the Taylor first reader, lesson on page twenty two, she can spell all the words she has had in the book and write them on the board twenty words, she is improving quite a little in her penmanship, forms very good short sentences in her language work, has not done very much with the rule, has not much idea of measurements does good work in calisthenics

Oct. 1901 8 30 to 10 A.M.

and seems to enjoy it, her work in number is very simple can write the numbers to twenty but when she comes to combine them she finds it very hard for her, she has been in school all the month & deportment good,

Gorham

Angie has done good work this month she reads in the Werner Primer knows all the words in the book she has had writes them nicely, and aside from that she has learned many more words from the lessons on the black board which I think has been much help to her in having her make her own sentences, she does not find it nearly so hard to make sentences now as she did when she first began of course I give her words in the lesson and have her tell me some thing about it and then it is written on the board and all the class can read it, she writes very well indeed spells but slowly, has not much idea of measurements, she is becoming to like the drill in calisthenics and is doing very good work she was absent three days this month was in the hospital, deportment very good,

Oct. 1901 8 30 to 10

Hendrickson

Emma Has done good work in school this month, has learned to build her lesson with the letters and write the lesson from the book; has improved very much in her penmanship Reads in the Werner Primer, she does not get along as well as some of the class, she is quite hard of hearing and looses much that the others get, she is industrious and will learn, can write the numbers to 20, but knows very little of their value, does very good work in calisthenics. Has very knowledge of measurements, her deportment in school is very good has been in school all the mo.

Joslin

Clara Has done good work in school this month. She is anxious to learn and tries her best, she is very slow but is improving a little she reads in the Werner primer knows the words she has had in the book 18 or 20 and many other she has had in the language lesson on the board, she is learning to put words into sentences she is slow in all her work is doing good work in calisthenics. Give good attention during class, her work in numbers

Oct. 1901 8 30 to 10

is quite limited and knows very little about measurements, can write quite well from a copy, her deportment is good Has been in school every day this month,

Padden

Jessie I think has been more interested in her work this month than she ever has, she reads in Taylor first Reader has had the first twenty pages knows all the words and can spell them, writes her spelling on the board has improved very much in her penmanship and is trying her best learn the vertical and if she continues to work as well has she has this month she will overcome her bad penmanship, she is not good in measurements, does good work in calisthenics and is getting to like it, she is quite good in number that is for my class of children she will never do much with that branch, she forms so good sentences in language work, so many in this class has formed the habit of leaving off the articles, a & the In telling what she saw when she went to the farm she mentioned the Maple, Oak, pine, apple, elm trees and many other things I think as much as any normal child would have remembered, her deportment in school is good Has been in school every day.

Oct 1901 8:30 to 10

Parquette

Irene has never worked so well in school for one since she has been in this room as she has this month, while she can not keep up with the other two girls in her class she works harder than they and has improved very much she has learned all the letters but sometimes she is troubled with d, b, p, & g. she reads in the Taylor First Reader she reads quite well she lisps and of course there are some words she does not speak plainly, she writes her lessons very nicely does not always get it just right but is improving. She is trying to learn the vertical writing and will if she keeps her interest, she can spell many of the words in the lessons she has had, she does better drawing than the other girls in the class, is doing nicely in calisthenics, her record in numbers is not very good, in telling one what she saw on her trip to the farm she mentioned the apple, Maple, elm cottonwood, willow trees gathered flowers for Miss Hamm, and told of other things she saw She has been in school all the month, deportment as good as she could make it.

Oct, 1901 8:30 to 10

Rondestvedt

Rona has been working hard this month she reads in the first reader (Werners) she keeps up with the class knows all the words she has had this month in the book and many more that has come in the language lesson I am trying to get her in the habit of using the articles a and the, she when asked to say an egg, or a cup or the dress &c &c. she will only say the last word I think she can overcome that I in making sentences she is quite original, She is improving in in her spelling and penmanship copies her lessons from the book and does it nicely knows the letters by name, does not know very much about making the four inch rule, but tries, numbers she find hard, she does good work in calisthenics and is much more interested than ever before: she has been in school every day this month. deportment good in telling of the things she saw when she went to the farm she mentioned, an ox, waterpipes. chickens sewing machine a lady picking up the carpet flowers in the garden, pumpkins little kitten dog a man digging potatoes a grindstone to grind the ax on, and a man on the porch,

Oct 1901 8:30 to 10

H Sunnenberg

Annie reads in the Taylor Primer she is doing good work, she knows all the words and the letters by name, aside from the words she has had in the lessons on the board, when given a word with which to put in a sentence she does it nicely she is so anxious to learn she can spell the words on the book, she copies her lesson from the book and is improving very much in her penmanship. She has a better knowledge of numbers than any one in the class yet she does not understand very much but I am in hopes she will learn, she understands more about forms than many of the class, does not know much about measurements, she does good work in calisthenics and likes it much more than she did at first, She has been in a shoal all the time her deportment is not always the best she has rather a jealous disposition and if she thinks I have not shown her quite enough attention she is apt to be a little ugly, she could what she saw at the farm more intelligently than any child in the class it seemed that nothing escaped her eyes.

Oct. 1901 8:30 to 10.

Wright

Mabel reads in the Taylor Primer on page 37 with all her class she has learned all the words in the book that has come in those lessons and many that have come in the language lessons, that they have in connection with the reading lesson, when I have given her some word that she had in the lesson & asked to tell me something and put that word in the sentence, she has been quite original, in this experience I hope to get many of the class in the way of using the with ales a, an & the I can see a little improvement in Mabel. she can spell her words on the book copies her lesson from the book and is improving some in her penmanship. builds her lessons nicely, can write numbers to 20. but finds it very hard to put them to use she can combine numbers if she can take her time to it, is very slow does not know much about measurements, she has been in school every day this month deportment quite good, does good work in calysthenics, she told of seeing the green boys and of seeing some of the folks cleaning house mentioned different things that were in the yard,

Oct. 1901 - 10.30 to 12.16

Brady

John works well in school reads in the Werner Primer and keeps well with the class, can write his lesson from the book very nicely much better than I had thought he could in such a short time can build his lesson some times he does not have just the right letter, but his intentions are good, he talks so indistinctly that one who is not very familiar with him can not understand him at all, he dictates his own letters enjoys the letters he gets from home he does the best he can in calisthenics never refuses to take the exercise, does not know much in numbers, his measurements are not very true deportment good.

Claflin

Richard was out of school four days this month, he is anxious to learn but I can't see that he has made very much improvement this mo. he seems bright enough in industrial work and is trusty enough to be sent on many errands but so far he has done very little literary work, yet he seems anxious to learn he writes well from a copy but it is all imitation does not know the words he has written can build a few words the same way takes the drill in calisthenacs nicely deportment good.

Oct. 1901 10.30 to 12.15

Brighton

Willie has done very good work this month but I do not think he did his best he is I think rather inclined to want to shirk, so often he wants to do just the opposite thing that he should do, He reads in the Taylor First Reader, has taken the first twenty pages, he knows all the words does not articulate well so it not pleasant to hear him read, can spell all the words he has had, and writes them on the board beautifully and quickly in numbers I think he does not do as well as he might, he can add very well and is not nearly so slow as many in the class, but he does not like the work, does good work in calisthenics much better than last year, is not much interested in any kind of word where he has to exert himself, His work in measurements is not very good, dictates and writes his own letter and reads those he gets from home, he has been in school every day this month, deportment much better than last year

Oct. 1901 10³⁰ to 12¹⁵

Foote

Raymond has been quite interested in his work this month, he reads in the Werner Primer, last lesson on page 37 he knows all the words in the book and has had many more on the board, he can form some very sentences in the language lesson I give him some one he has had in the reading lesson and ask him to tell me something about it, and he will make quite an original sentence is, learning to use, the, an and a, builds his letters writes quite well, I think he is doing good work in calisthenics it is a little more work than he really likes to do yet he does not give me any trouble in the class. his work in numbers is as good as any of the boys in the class he he does not do any things with the kind of objects, I think he draws a better build than some of the boys yet it is not good, he dictates his letters home and enjoys getting the answers, has been in school all the month Deportment good,

Oct 1901 10³⁰ to 12¹⁵

Frushtman

Charley has been much more interested in his school work than any time last year, he reads in the Werner Primer and is doing good work, know all the words he has had in the book, his last lesson is on page 37. has learned many words from the lessons on the board, he seems to enjoy making sentences and show quite a little originality in this work, writes his lesson very nicely, can build it with the letters, Does good work in calisthenics is better in numbers than many of the boys in the class combines any number to ten, so far he has not done much in the measurements. Has been in school all the month deportment good

Haacek

Gustav has worked well this mo. He reads in the first reader (Taylors) last lesson on page 21. know all the words and can spell them writes his lesson well on the board, and is anxious to learn is always busy, in reading he does not articulate well many words are hard for him to say I think he is overcoming it a little, he works well in numbers that is he will stick to it he does not always get his work all right but he is improving can combine

Oct. 1901 10.30 to 12.15

numbers to twenty is always willing to try he is slow and must use objects to help him Does good work in calisthenics and is always ready, draws quite a good rule but not perfect know the simple forms, Has been in school all the month Deportment good

Hopps

Don, has done very good work this month, has taken quite a little interest in the work. Reads in the Werner primer knows all the words in the book, last lesson on page 35. aside from the lessons in the book has has taken quite an interest in the lessons on the board and in that way has learned many other words and had the drill in forming sentences, and the use of the articles a. an & the, which is so hard for so many in the class he has quite good ideas of making sentences (what one of course) he can build his lesson with the letters also write it either on paper or the board, in numbers he does quite well that is in adding does not accord with out the objects or marks to help him, his work in calisthenics is much better than last year I thing

Oct. 1901 10.30 to 12.15

it is helping him to give better attention, His idea of measurements is not very good, He has been in school every day this month. Deportment in school very good,

Mapp

Tomie has done very good work for him, it has always been hard for him to apply himself very much, I can see a little improvement along that line, he reads in the Werner Primer, last lesson on page 37, does not know quite all the words but is doing his best can build his spelling lesson also write it, he has quite a decided taste for drawing and can write words that he does not know, he has done very good work in calisthenics and is learning to like the drill much better than last year, He does very little in number and what he does do he must have some thing to help him. his measurements on the rule is better than many in the class, He has been in school all the month Deportment good in school,

Oct. 1901 10 30 to 12 15

Alson

Bennie has worked well this month has kept up his interest he is very deaf and slow loose much in class that the other boy, who can hear, get he knows the word he has had in the book reads in the Werner Primer his last lesson was on page 37. I find in having a written lesson on the board that he is quite interested in forming sentences using the word I give him in the sentence he builds the spelling and can write quite well. He does very good work in calisthenics. His measurements have not been very good Has been in school all the month Deportment always good in school.

Alson

Edwin is such a queer boy I hardly know what to say about him but I can see that he has made quite a little improvement this month, reads in the Werner Primer knows all the words in the lessons he has had the last lesson is on page 37, but when I have the written exercise on the board he does not seem to take any interest in it yet he is a boy who knows more than he seems to, he has made

Oct. 1901 10 30 to 12 15

quite a little improvement in writing his lesson and building it with the letters, he is always busy in some way, this month he has improved much in his personal appearance, has never come to school without washing his hands and always come to me and shows me that his hands are clean, he does not take the drill very gracefully in calisthenics but goes through with it with the class I think he does it better than when he first began has not accomplished much in numbers, work in measurements is not very good, has been in school every day, His deportment is good,

Astrander

Bennie has worked well this month, Reads in the first reader (Taylors) on page 21 know all the words reads quite well has spelled all the words in the lessons and can write them on the board, can build his words with the letters, has improved in his penmanship, is always busy His work in arithmetic has only been in addition he can add the number but it takes him a long time he must always have some kind of objects to help him, he is slow in every thing

Oct. 1901 10 30 to 12 15

he does and not nearly so tidy with his work as the other boys of the class, He does quite good work in calisthenics yet he does not have the life about it that I wish he did have, his work in measurements is not good, He has been in school all the mo, Deportment good in school,

Reisswig

Eddie is in school only a part of the session, he reads in the first reader it is not any trouble for him to learn to read, writes quite well builds his lesson with the letters can spell all the words he has had, aside from his reading lessons he does not take very much interest in his school work, can add numbers but uses his fingers always yet he is quick about it there is not a boy in the class who can add as quickly as he, does not take much interest in the calisthenics yet he goes through the drill all right Has done very little in measurements, He has been in school all the months Deportment always good,

Oct. 1901 10 30 to 12 15

Kangan

Herman is a new boy in school has only been in school here eleven days, has been in school before coming here Reads in the second reader spell all the words in the lesson up to page twenty one writes very well can build his lesson with the letters writes his spelling on the board has good articulation seems anxious to learn does about the same number work that the rest of the class does does well in the calisthenic drill writes his letters to his parents in german, is a very pleasant boy to have in school

Smith

Burt has done very good work this month and has worked willingly, He reads in the Taylor First Reader on page 21 knows all the words he has had, can spell them, that is has spelled them and written them on the board writes a good hand and does his work very neatly reads quite well does not say all the words distinctly writes this letter from a copy when I have time to help him dictates his letters and reads some of the letter he gets from home, he works quite well in the number work he has had but like the rest of the class must have the objects to help him but he will stick

Oct. 1901 10:30 to 12:15

to the work for an hour if he can have to much time does not seem to get tired of it, Does good work in calisthenics, is more interested in the specials than last year, work in measurement not very good He has been in school all the month. Deportement good

Duffield 1:30 to 3

Ray is inclined to be inattentive so far I have found that he gives better attention with the class than when taken alone, he recites in all his classes with the class knows such words as pony, black, sell but I do not think they mean any thing to him assorts the colors and names them in writing he holds his pencil very well and can make some thing that looks like a. does very good work in calisthenics and in that he shows quite a little attention, does not give me any trouble in school

Harding

Gladis seems anxious to learn but she is very slow but still she is much brighter than many in the class she knows all the words she has had this month can write a word or two holds the pencil nicely and I am in hopes

Oct. 1901 1:30 to 3

she will learn to write quite well assorts the colored stickes and names them she can make 1 2 3 4 5 and known them by name, she will tell the number of mark on the board without stopping to count them, to fine Does very good work in calisthenics has been in school all the month Deportment very good,

Halvorsen

Emma does very little school work I think if her eyes were in a better condition she might learn more, she is very diffident and hard to get interested in any thing assorts the colors does not name them can not write but holds the pencil very nicely and it may be in time she will learn to write, she does good work in the calisthenics and gives good attention Has been in school all the month Deportment in school very good,

Wilgerson

Lilla does not read nor write holds her pencil well, but she does not have the least inclination to think one instant about any thing know one & two in number assorts the colors if I stand beside her and make her keep her mind on her work can not name them does quite well in calisthenics Has been in school all the month Deportment good, that is for a child of her disksition,

Oct. 1901 1st to 3.

Langan

Mamie will never do any thing in school, she assorts and names the colors some times she will read two sentences in her book and may be the next day she will not know one thing about it know nothing in numbers, some days she can write and again she can not, she does a little in calisthenics but her work there is done in the same in attentive way Has been in school alll the month Deportment quite good,

Lins

August shows quite a little interest in his work can not read but I think he may learn a little after a while, he does not write but holds the pencil well and does not scribble the work he has on his paper looks neat, he can make 12345, does not know the names, I can fold the strips of paper in four equal parts and does it very nicely, uses the scissors well and is careful with his work Does quite good work in calisthenics not as well as many of the other children has been in school all the month,

Oct. 1901 1st to 3.

Miller

Edgar is a good boy in school and may be does his best but he learns very slowly know the words in the reading lesson, does not write very well but yet one can see what he was trying to make keeps his paper nicely holds the pencil well can make 12345, does very good work in calisthenics Department good, can fold the strips of paper in four equal parts and cut them with the scissors uses the scissors well,

Marrissey

Margret

Has only been in school a short time, she know color can write her name from a copy writes the number 12345 knows them by name recognizes four objects, read in the primer and seems to know quite a little, works well in calisthenics folds the strips of paper in four equal parts and cuts them uses the scissors well Department good she is not very energetic,

Oconnor

George Does not do much in school works most of the time in the hall Does not give me any trouble in school,

Oct. 1901 1:30 to 3.

Peterson

Alfred has done very good work and seemes quite anxious to learn, he does not speak so that he can be understand yet I think he will learn a little he recites with the class knows a few words, pony, black, white, can write a cat very nicely holds the pencil well, makes 1 2 3 2 4 5 6 can fold the strips of paper in four equal parts and cut them uses the scissors well Assorts the colors can not name them, does very good work in calisthenics has been in school every day, Department good

Roerner

Leopoldine has tried she does very little work she can assort the colors does not name them can not write but uses the pencil well does not scribble but tries to make some thing and keeps her paper nice can make 1 & 9, can fold the strips of paper in four equal parts and cut them uses the scissors well and keeps the work nice, Does good work in the calisthenics, Has been in school all the month Department good,

Oct. 1901 1:30 to 3

Rosenwald

Lillian Has done good work this mo. she is anxious to learn and likes to be busy knows the words she has had on the chart, writes from a copy well keeps her paper very nice can make 1 2 3 4 5 knows the names recognizes four thing without stopping to count Assorts and names the colors folds the paper strips better than any one in the class, and does her work better she is very careful of any kind of work she does works well in calisthenics, has been in school all the month,

Steiner

Susie does very little work of any kind she just can not and it seems almost too bad to expect anything of her, she will trace her name with the tracing needle tries to write but has not the least idea what she is doing keeps her paper nice and does not scribble Assorts the colors if I stand by her and keep her mind on the work, Does quite good work in calisthenics can fold the papers in four equal parts and cut them but does not do it nicely,

Shull

Erwin is always busy with some kind of work that he does with his hands, can write from a copy quite well,

Oct. 1901 1:30 to 3.

Schmidt

Alfred has done very good work for him, he is a kind of a dreamy child will seem to forget that he lives, but if I get his attention he will work along very nicely, he know all the words he has had in the reading, can write a few words not well. can 1 2 3 4 5 know their names assorts and names the colors folds the strips of paper in four equal parts and cut them nicely with the scissors, does very good work in calisthenics has been in school all the month

Swenson

Ralph I think will never do very much school work, it is almost impossible to get him to look at the board when he is reciting his lesson, can not write, holds the pencil very well, does not know any thing about numbers can assort the colors if I help him to hold his attention, can fold the paper strips and cut them in four equal parts uses the scissors very nicely His work in calisthenics is quite good for him Deportment good Has been in school all the month

Oct. 1901 1:30 to 3.

Von Custer

Fred is the brightest boy in the class can read the lesson without any trouble. writes well but not as well as some of the others that is does not form his letters but I think he knows more about what he has written can write the number 1 2 3 4 5 6 7 8 9 10, know six objects without stopping to count them takes calisthenics nicely. folds and cuts the paper strips uses the scissors well assorts and names the colors this is his first month in this school does not give me any trouble in school I think he will do good work.

Wall

Willie has not done very good work in school he is so inattentive it is almost impossible to have him look at the work on the board he seems not to know how I am sure I do not know what to do with him he can assort the colors can not write just scribbles over the paper, can make 1, 2. but does not know their value can fold and cut the strips of paper uses the scissors quite well does very good work in calisthenics has been in school every day Deportment good.

Oct 1901 1:30 to 3

Waldurn

Peter is a difficult child to work with it is so hard to get his attention for only a little while learns a word now and then, but does not have any idea of reading; does nothing in writing only scribble in pencil he makes an effort to copy them, folds the strips of paper if I help him can use the scissors holds the pencil very nicely in calisthenics he does very well Has been in school every day Is a very good boy to have in school does not give me any trouble

Wagner

Dena has not made any improvement in school she works with the class does not read, can not write holds the pencil very nicely folds the strips of papers and cuts them uses the scissors very well assorts the colors can not name them. does quite good work in the calisthenic drill Has been in school all the month never gives me any trouble in the school room

Nov. 1901 8:22 to 10 A.M.

Betcher

Sarah is keeping up her interest and improves slowly cannot be hurried reads on page 64 in the Werner Primer writes her lesson much better than she has done before, is learning the vertical hand, adds number to twenty is learning to carry tens to the next column can spell her lesson from the book knows all the letters by name, enjoys any games we may have in school as well as the drill in calisthenics Has been in school all the month. deportment very good.

Bruer

Emma I am glad to say is doing good work in school and is pleased to know that she is really learning of course she cant be pushed she must have her time. She reads on page 64 in the Werner Rinner and can spell more than half of the words she has had without the book and all with the book, reads very well is improving very much in her writing can read her lesson in the script as well as the print Is doing good work in calisthenics Enjoys any of the games we have in school, she has been in school all the month. Deportment good

Nov 1901 8:30 to 10 A.M.

Braun

Annie is doing good work, she reads on page 50 in the Taylor first reader can spell any word she has had and write them on the board she is improving in reading and writing as well, does not do very good work in drawing the four inch rule, but will learn I think in time I find this one of the most difficult work that any of the children have to do, In numbers she does very nicely has only had addition Does very good work in calisthenics always enjoys any kind of game I may have in school, Has been in school all the month except one day. Deportment in school good!

Gorham

Angie has done very good work this month, reads in the Werner Primer on page 64. she reads and understands better than any one in the class, writes her lesson well, spells the words she has had from the book. In the lessons where there are words to be supplied she does it readily, and in number work, she is the best in any of the classes, has only had addition she does not have to objects to help her, and if, for instance she had 7+6 she will not begin with 1 2 3 4 5 6 7 8 9 10 &c. but will begin with the 7 and add. She write well, Does good work in calisthenics Deportment good

Nov. 1901 8:30 to 10 A.M.

Hendrickson

Emma, has improved in reading quite a little and very much in writing can build her lesson with the letters, does not know all the letters by name, but know the words she has, she a little deaf and a little stuborne which makes it hard to know just how much she does know has not done much in number works well in calisthenics, has been in school all the month department very good,

Joslin

Clara is doing as well as she can, but gets along slowly, reads in the Werner Primer on Page 57 she know the words can spell them on the book knows her letters, Writes quite well, has not done much in numbers, has done very good work in calisthenics, takes part in any of the games I have in school room has been in school all the month, department good

Morrissey

Margret does not work as well as I think she might, she reads in the Werner primer on Page 57. can build her lesson, and write it very well, she is improving in writing can write her lesson on the board. can read fine lessons on the chart write her name. can write numbers to 10 know any number of objects to 6. Has been in school all month Department good,

Nov. 1901 8:30 to 10

Paddock

Jessie Has done good work this month Reads on page 50 in the Taylor 1st II Reader can spell any word she has had she has improved in her writing still she does not write well, in drawing the four inch rule she has the idea but is careless with it just because she does not like to do that work she can add a column of numbers and carry the tens. does very good work in calisthenics. has been in school all the month Department good,

Parquett

Irene has worked hard this month and her work shows it too, she reads well in the Taylor 1st II reader and can spell her words from the book and does not find it quite so hard as a month or two ago, she does not do very good work with the rule, writes very well can write her lesson on the board, many words that ends in s. she has learned to say and at first she just knew she never could say them. is doing very good work in calisthenics. takes part in any games I have in school, Department very good Has been in school all the month

Nov. 1901 8-30 to 10 A.M.

Rondelstuedt

Rosa works well when she feels well, she has improved very much in her writing writes her lesson on the board or with a pencil can build her lesson with the letters, reads in the Werner Primer on page 46 she knows the words she has had, she can write the numbers to 10 from a copy does not do much with numbers, Her work in calisthenics is very good has not much idea of measurement Has been in school all the month except one day. Deportment good

Sunneberg

Anna has been absent five days this month, she reads in the Werner Primer on page 64. she can learn her spelling in a very short time but just will not try, she wants to read all the time and thinks if she can only get through the book that she is learning all she needs to know, she can learn numbers quicker than any girl in the class yet she will not try, writes quite well, can do good work in calisthenics, I think she is so determined to go home that she does not care for anything else, Deportment is usually very good

Nov. 1901 8:30 to 10 A.M.

Wright

Mabel is doing good work reads in the Werner Primer on page 46. does the best work of any one in the class can spell her word from the book can build her lesson with the letters and writes the lesson well, of course she copies it from the book, she has improved very much in her writing, does good work in calisthenics, can add number with the objects, has not done much with measurements, is always willing to take a part in any kind of games, has been in school all the month Deportment very good;

Nov. 1901 10³⁰ to 12¹⁵ A. M.

Brady

John has done good work this month he has worked hard and his work shows it too, he does not speak so that many can understand him but if one of the children does not know a word when they are reading John will speak up and tell them, can write very well has improved in that quite a little will write his lesson on the board and it looks very nice for him can build the lesson with the letters, reads on page 47 in the Werner primer Has been in school all the month Deportment good,

Claflin

Richard has done his best work in school this month, but that is not very much, still it is quite encouraging to see that he is improving a little he does not seem to know how to do literary work, reads in the Werner Primer on page 56, knows many of the words, is learning to keep the place while the other boys are reading, is improving a little in writing, and in building his lesson, does not do much with numbers his work in calisthenics is good. Has been in school all the month, Can draw a good 4 inch rule.

Nov. 1901 10³⁰ to 12¹⁵ A. M.

Crichton

Willie is not one of those energetic boys who wants to be busy all the time but still he manages to keep up with his class partly because he must, he reads in the Taylor first reader on page 37 can build his lesson with the letters and writes the lesson better than any boy in school Spells the words without the book, He adds numbers quicker than many of the boys in the class yet he can not be hurried can carry tens, Does good work in calisthenics, Has quite a little taste for drawing can draw quite a good four inch rule, Has been in school every day this month, his deportment usually good,

Foote

Raymond Work very well in school can build his lesson with the letter or write it on the board. reads in the Werner Primer Page 56 knows all the words he has had he reads very slowly in fact he does all his work slowly in number he can add and carry tens, does quite well in calisthenics, His work in drawing is not good yet I think he does try and will improve, has been in school all the month his deportment is good,

Nov. 1901 10³⁰ to 12¹⁵ A. M.

Fruchtman

Charlie is a boy who wants to learn has done very good work this month reads in the Werner Primer on page 56 reads better than most of the boys in the class can build his lesson with the letters, or write it with the pencil, spells the lesson on the book in numbers he does very well that is in addition you understand that he is slow as are all the boy in the class, Does good work in calisthenics His drawing on the rule is not the best but he has the idea. Has been in school every day. Deportment very good

Haack

Gustav Has worked well I think I can say of him, that he is never idle. He reads in the Taylor first reader on page 37 can build his lesson, or write it, write the spelling on the board without the book does it very nicely can write some of his letters but in that he needs help, Reads quite well, In numbers he can add a column of figures of five or six numbes and not have any mistakes carry the tens to the next column, His drawing on the rule is quite good Does good work in calisthenics Is in school every day Deportment good in school.

Nov. 1901 10³⁰ to 12¹⁵ A. M.

Hopps

Don of he learns any thing he very seldom forgets, he is doing very good work for a boy of his temperament he is becoming much more quiet then when he first came to school and can hold his mind longer on one thing He reads in the Werner Primer on page 56, can build his lesson with the letters and also write it with the pencil, writes a good hand, reads better than almost any boy in the class, does quite good work in numbes but is slow, know the numbes to ten can write them can spell many of his words from the book, does not have a very correct idea of drawing the 4 in. rule, His work in calisthenics is very good one good thing about him he will try Has been in school all the month, Deportment good

Hangan

Herman Has been rather absent minded this month is not doing as good work as I had hoped he would, he can do good work if he will apply himself. He reads in the Taylor 1st Reade on page 37 can spell the words of the lesson and write them on the board, reads very well, and writes quite a good hand can write his letters home, I do not know how well they are gotten up as they are written in German or some other language Does quite good work in calisthenics.

Nov. 1901 10³⁰ to 12¹⁵ A.M.

He is quicker in his number work than any of the boys in his class, can write the numbers to twenty addes readily I think he does it on his fingers but if he does he is not long about it, know how to carry the ten to the next column, can make the best rule in the class, it is just about as good as any one can make it with the rules we have Has been in school all the month Does good work in calisthenics Deportment very good,

Mapp

Somies mind does not run to literary work so much as it does to drawing, he will work for days on a calendar and never seem to get tired of it will stand on a chair and hold the paper he is copying it from, he can make some very good drawings he reads in the Wehner Primer has improved some, can build his lesson, but does not like to do it reads on page 56 know the words can not spell them, can combine quite simple numbers, 1+2 2+2 and so on, writes quite a good hand, Draws quite a true rule. Does very good work in calisthenics Has been in school all the month Deportment good,

Nov. 1901. 10³⁰ to 12¹⁵ A.M.

Alson

Bennie works very well and of course does improve some but slowly I think he will never do a great deal more than he does now. He reads in the Werner Primer and know the words he has had can build them with the letters and write them, write a good hand any one can read it, his lesson is on page 56 can add numbers but is slow Draws quite a good rule much better than many of the boys, Does good work in Calisthenics Has been in school all the month Deportment very good,

Edwin

Alson is always busy is learning to write copies his lesson from the book and does it quite well for him, Reads in the Werner Primer on page 56 he reads the print much better than the script nearly all the class reads one as well as the other, can build his lesson with the letters but does not always do it as well as he know for if he does not find just the letter he wants he will put in some other Does not do much with numbers Draw quite a good rule, knows what should be done, if he does not get it just right, He is not very exact in his work in calisthenics but he gos through with it Has been in school all the month Deportment good,

Nov. 1901. 10^30 to 12^15

Ostrander

Bennie H as worked in his usual every always busy at something Reades in the Taylor 1st Reader on page 37 can write his spelling on the board when I give him the words, he is writing better, reads very well does very good work in number as well as many of the class but is very slow, he must have the eye to help him I do not see how I can brake my children of that way of getting their numbe work, He has drawn quite a good rule not just as it should be but he has improved on it very much, since last month Can do good work in calisthenics but does not always care to, Has been in school all the month Deportment good,

Reuben

Eddie likes to read and spell and does it well reads in the Baldwin First Reader on page 37, He reads better than any one in this class and does better number work can tell what number comes next with out going back and counting each number, for instance he knows that 5, comes after 4 and so on. Writes a good hand can write his own letters home if he will I helped him this month a little, can draw quite a good rule, does very good work in calisthenics, Has been in school all the month Deportment good,

Nov. 1901 10^30 to 12^15 A.M.

Smith

Burt is doing very good work and improves some, He reads in the Taylor first reader on page 37, knows all the words and writes them on the board as I give them to him write a good plain hand, puts his work beautiful, does very good number work if I give him a number of examples on paper or on the board he will never think of leaving them until they are finished, and they are nearly always correct, Does good work in calisthenics Draws a good rule very nearly correct, Has been in school all the month except the last four days. Deportment good

Nov. 1901 1:00 to 3. P.M.

Duffield

Ray I think has done some better work this month yet he is not capable of doing very much work he will do his part in the lessons we have on the board, when they have a little story about something they have seen as for instance the other day the pony was out where they could see it George was giving it a little exercise. so we took that for our lesson each child telling something about the pony, he was quite original about what he had to say, reads on the chart lesson 5 know many of the words can assort & name the colors counts 11. does quite good work in the calisthenics. Has been in school all the month Deportment good.

Harding

Gladis has done as well as she could but she is very slow and never seems to understand what I say to her, she can read the last lesson on the chart. 5, and always will take a part in the story and write on the board if I have time wait on her, but she is so slow. she writes a little from a copy not well knows the numbers by name can make knows some objects, take the calisthenics drill nicely. Deportment good Has been in school all the mo.

Nov. 1901 1:00 to 3 P.M.

Halvorsen

Emma has done very little school work she will take part in any of the games we have in school, and enjoy them, but she will not do any thing in a literary way I can hardly get her to talk, I did manage to get her to say what she wanted for Xmas by helping her along she does the drill in calisthenics very well at least the best she can she will match the colors, and can wind the yarn on the cards to make the colored balls. Deportment good Has been in school all the month

Hilgerson

Lilla does not do any literary work she will take part in any games we have and seem to enjoy them, if it is to catch the ball she will try or if to toss it in the basket she will do that she can fold the paper quite well and cut them with the scissors, does the calisthenics very nicely. Deportment good Has been in school all the month except one day.

Langan

Mamie does just what she did last month. can fold the papers on cut them never does anything well. In school all the time Does not give me any trouble.

Nov. 1901 1:30 to 3 P.M.

Sims

August has learned very little in reading this month he counts 12 assorts the colors and knows them, can fold the strips of paper in four and cut them he does that beautiful keeps his work nice, uses the scissors well takes the drill very nicely in the calisthenics He has been in school every day D eportment quite good asked for his Xmas present,

Miller

Edgar has done very good work can read the 5th & 11 lesson on the chart, is original in the sentences he make when we write a lesson story on the board, does not write much, can fold the papers and cut them in ½ in. strips does it well uses the scissors well D oes the drill in calisthenics very nicely. D eport ment very good H as been in school every day

A connor

George does not do any thing in school is only in a short time, asked for his Xmas presents D oes not give me any trouble in school when he is in he will try to go through with the calisthenics,

Nov. 1901 1:30 to 3 P.M.

Peterson

Alfred does not articulate well many thing, or rather words, he tries to say I can not understand at all, in class he is usually awake and ready with some kind of an answer, if he could only make himself under stood, in the games he is more than energetic, in fact if he could have the ball at least four fifths of the time he would not think he was at all selfish, when we are writing the lesson story on the board he can suggest very original thing to be said about the subject, writes a little I can easily read what he has written does good work in calisthenics, folds and cuts the paper very nicely uses the scissors well assorts and names the colors H as been in school every day this month, D eportment good,

Roemer

Leopoldina H as not improved very much in literary work, but has learned to be more careful with her other work folds the strips of paper well and cuts them uses the scissors well, has not done much with writing, D oes good work in Call. enjoys the games and is much interested in them counts 12. knows the colors H as been absent four days D eportment good.

Nov. 1901 1:30 to 3. P.M.

Rosenwald

Lillian Has done good work this month, she is always busy and of course improves, can read lesson fine on the chart, and in the lesson stories we write on the board she reads and is very quick to help and many times sugests many original thing to be written about the subject. writes her name, Lillian without a copy and the other with help, counts and knows all the numbers to ten recognizes 1.2.3.4 objects without stopping to count them, folds and cuts the paper strips better than any one in the class winds the yarn ball beautifully could not be done better, she does very good work in calisthenics does her best, enjoys all the games in school, and when we go to walk she never will say that she is tired for all that she is so lame, Deportment good Has been in school all the month.

Stiner

Dwight I think she does her best in school, but she cannot say one word, can trace her name but not write it, assorts the colors, folds the paper strips and cuts them does not do it well but much better than at first uses the scissors quite well, asked for Xmas present that is made signs so that I knew

Nov. 1901 1:30 to 3 P.M.

what it was that she wanted. She is much interested in the basket ball we play and can put the ball in the basket quite often I think she shows more interest in that game than any thing she does in school. she takes the drill in calisthenics as well as she can and gets the exercise out of it. Has been in school all the month Deportment good.

Shull

Erwin, Is always busy in school at some simple work that he likes to do His mother sent him some colored pencils for his birthday and he has taken much pleasure with them drawing pictures and coloring them as he wishes, has made some quite good pictures, has been in school every day Deportment good.

Schmidt

Alfred Does good work in school read fine lesson on the chart and can read any lesson we put on the board, is quick to tell something to write about the subject and is quite interested in the lessons knows what to say and if you try to make him think he is wrong he will not give up. Does the best number work of any of the children in the class. Writes very nicely, folds and cuts the paper strips as well as any one in

Nov. 1901 1:30 to 3 P.M.

the class, He is not one of those wide awake children but rather the opposite, rather dreamy yet when we have the games he will enter in to them with quite a little interest He has been in school all the months Department good

Swenson

Ralph I do not know what to say about this child, he is so very different that if he does know any thing he will not let me know, when he comes to class and I ask him to stand on read, it is all my life is worth to have him to even look at the chart one second much less, long enough to say one word, enters in the games with quite a little interest and can catch the ball and toss it back to me, takes the drill in calisthenics very nicely folds and cuts the paper in that he has imprisoned does it much better than at first, Has been in school all the month, Department very good

Von Kuster

Fred, is quite a bright boy is the brightest boy in this class, he reads any of the lessons, the class has and is quick to suggest something to put in the lessons on the board can write his name known how to

Nov. 1901 1:30 to 3 P.M.

spell it when I wrote it once with a C. instead of K he said no. write it this way Von Kuster, he is not always careful with his work will break the stick or fold the papers over and over again until they are not good for any thing He works well in calisthenics Does not give me any trouble in school.

Wall.

Willie I think is learning to give a little more attention to his work, yet he can improne in that and still not be to bright in that one thing, One day when the children were winding the yarn ball, he said Miss Johnston they look like doughnuts, when we are writing the lesson story on the board if it about something he knows he will suggest quite original things to write down, he is learning to put words together better, takes the drill in Calisthenics, as well as he can enjoys the games better than any of the children particularly the ball he is almost wild when we play basket ball and he can toss the ball in the basket much better than many of the boys in that I can see that he gives quite a little attention Has been in school all the month Department good

Nov. 1901. 1st to 3

Waldum

Peter tries but is very slow, knows some of the words in the reading lesson, will try, and says the words after one if he does not know them tries to write, folds the paper much better than at first uses the scissors quite well takes part in the games and enjoys them works well in the calisthenic drill, get the exercise, helps with the lesson stories. Deportment good Has been in school all the month.

Wagner

Lena I think is becoming more interested in her reading lesson one day she said two or three words and in number work in learning to combine objects and think of some thing that she does not see has. one cow & two cows are three cow she did her part but is very slow I find this not only helps her to think of numbers but it also helps her to talk, so many of the children in this room can not put three words together, and I think in some cases it is just because they do not try. she does very well in calisthenics folds and cuts the paper strips cuts out the scissors well. Deportment good is in school all the time,

Dec. 1901 8:30 to 10 a.m.

Betcher Sarah has worked well this mo. reads in the Werner Primer on pag. 89 can build her lesson with the the letters or write it on the boar has improved in all her work Has done good work in calisthenics, her work in numbers is not what I would like yet she does much better than many in her class, the thing she took the most interest in this month was christmas, she knew what she wanted and asked for it, deportment is good.

Bruce

Emma reads on page 89 in the Werner Primer, she has done good work and is showing quite a little interest in her work since Sept. she has learned to spell from the book knows all her letters & can write her lesson on the board, or build it with letters Draws quite a nice rule, does good work in calisthenics her number work is no as good as I think she could do but she does not like that branch of her school work, she has improved in writing was more interested in Xmas than any thing else this month she knew what she wanted and asked for it Deportment good

Dec. 1901 8:30 to 10. a. m.

Braun Annie has been in school all the month she has worked well at any rate she has done as well as could be expected with all the excitement there was about Christmas. reads on page 72 in the Taylor first reader can build her lesson with the letters writes quite well can spell the words of her lesson with the book reads quite well Has not much idea of drawing the rule, Has done good work in calisthenics, she does very little independent number work must have the objects before her but then she knows what she is doing Deportment good

Gorham Angie reads in the Werner Primer on page 89, she know all the letters can write her lesson on the board write a very good hand, can spell her words without the book, but she cannot be rushed she must have just about so much time, can draw a rule quite well, knows the forms that she is most familiar with, her work in calisthenics is quite good but not the best, she knows more about numbers than any girl in the class, Does not give me any trouble in school

Dec. 1901 8:30 to 10 A.M.

Hendrickson

Emma a nice Dept she has made quite a little improvement she knows her letters in the script and print, reads in the Werner Primer on page 56, she does not hear very well, but for that, I think she would learn much faster she can build her lesson with the letters and write it on the board, she writes a very good hand, she has done good work in calisthenics her work in numbers does not amount to much does not give me any trouble in school,

Joslin

Clara I think does her best but I think will never learn very much she knows her letters and can build her lesson she is very slow and cannot be pushed, reads in the Werner Primer on page 56 can read the script and print Does her best in calisthenics but that is not very good will try any of the movements does not do much in calisthenics, she showed quite a little interest in the christmas things asked for what she wanted, Her deportment is always good

Dec. 1901 8:30 to 10 A.M.

Morrissey

Margret can learn but so far she has not done a great deal she is learning to say her words more distinctly, she is very timid and when she does speak it is hard for her to be understood I think she knows more than she seems to know, she takes calisthenics but does not like the exercise would much rather not take it Her deportment is as good as any of the children.

Padden

Jessie Has done very good work for all the excitement about Christmas, she reads in the Taylor first reader on page 71 can spell all the words without the book writes a good hand can build her lesson or write it Her work on the rule has not been good yet she has tried, she take the calisthenics very nicely yet she is not very fond of it, she is a girl who never tell me she wont do a thing I ask of her she will try and usually does her best, she does not do very much in numbers and what she does do she must have the objects to help her. Her deportment is good,

Dec. 1901 8:30 to 10 a.m.

Parquett

Irene I think tries to learn but does not work intelligently for example she will study her spelling and if she doe not know the name of some letter in the word she will call it some other name and not seem to know it makes any difference. I think she has outgrown that a little yet I think she does not learn intelligently she can read quite well in the Taylor 1st reader. I think may be better than the other girls, but I wonder if it mean as much to her, she can not keep up with them in spelling she can build her lesson or copy it from the book, & does very good work in calisthenics, Numbers are hard for her and she never does any kind of number work in dependently she was very much interested in Christmas and knew what she wanted and if she could not have what she asked for she did not want anything she has a very ugly disposition Deportment is quite good for her.

Dec 1901 8:30 to 10 a.m.

Summerberg

Annie can do good work but she does not always see fit to do so. the things she likes to do she does well she can read any lesson in the Werner primer but is not so good in her spelling yet one has made a great improvement in that within the last two months, she writes very well, she knows more about numbers than any girl in the class can add. Subtract Multiply & Divide in simple numbers. She does very good work in calisthenics and does it because she thinks it is for her good, her Deportment is usually very good

Wright

Muriel reads on page 56 in the Werner primer she knows all the letters can write her lesson on the board she has improved a great deal in writing since the first of September she can spell the words in her lesson reads better than any girl in the class and is anxious to learn she does simple number work her work in calisthenics is very good, & she never gives me any trouble in school.

Dec. 1901 9^{50} to 12^{15} A M,

Brady

John has done very good work since the first of Sept, Reads on page 59 in the Werner primer and is doing well can keep the place anhild the rest of the class is reading and may time will prompt a boy if he can not call the word can build his lesson with the letter write his lesson on the board very nicely any one could read it has written two letters to his sisters wrote them from a copy reads as well as he can take the drill in calisthenics nicely, the work he does in numbers is very simple Department very good

Claflin

Richard is very slow in school work but I can see that he is beginning to see what it is to read he can keep the place and know quite a number of words, is in the class with John B. lesson on Page 59. in the Werner Primer, is learning to build his lesson with the letters, know very little of number does good work in calisthenics can draw a better rule than any one in the class can write from a copy Department very good.

Dec 1901 10^{30} to 12^{15} A. M.

Crichton

Willie has not been well much of the time this month, he went through his work, but did not take much interest in it, he Reads in the Taylor 1st reader on page 45. can spell the words when he studies them, knows the words but does not speak distinctly, I think that is some thing he can not overcome all together, Writes his lesson beautiful and easily, knows more of number than any of the boys in the class, he of course does very simple work in that study Takes the drill in calisthenics but does not care for it only does it because he must know he must Department very good.

Foote

Raymond learns very slowly but manages to keep up with his class, he can follow the class as they read and be ready to read or prompt another boy when he is called upon builds his lesson nicely with the letters and can copy the lesson from the book Does very good work in calisthenics, Has been out of school much of the time this month, helping about the house. Department very good,

Dec. 1901 10:30 to 12:15 A.M.

Fruechtmann

Charlie has been much more interested in school this year than last has done good work and seems to enjoy it, is keeping up his interest in his school work, Reads in the Werner Primer can keep the place while the rest of the class is reciting all the work he does is very simple yet I can see he is getting something out of it does good work in Calisthenics Department is very good

Haack

Gustav This month has been so broken up that none of the children have done as they may have there is nothing lazy about Gustav in school he studys his lesson can spell all the words and writes a beautiful lesson on the board, reads very well, write his letters home (nice) copies them, but dictates them first know what he wants to say in fact I do not know what he would have in his letters if did not bring the letter to close, does good work in calisthenics, does very nicely in numbers but is very slow, Deportment good

Dec. 1901 10:30 to 12:15 A.M.

Hakes

Dorris is doing very good work in school of course this month has in a way been broken up so that he has not done as well as he could have, he reads in the Werner primer know all the letters and can spell many of the words he has had, his does his lesson well with the letters and write very nicely can copy his letters if I have the time to help him dictates his letters Does good work in calisthenics, Deportment good,

Hangarn

Herman has worked well in school, reads in the Taylor 1st reader on page 45 reads quite well, write a nice lesson on the board can spell any of the words if he has his mind on what he is doing, He knows more of numbers than many in his class and I think he understands the work much better, he is doing well in the calisthenics, does not draw a very good rule, dictates his letter when he does not write them himself in his own language, I am sure I do not know what he writes them and I think may be he does not know himself, Deportment good

Dec. 1901 10:30 to 12:15 A.M.

Makp.

Jamie has spent much of his time this month drawing Santa Claus on the board, which when the boys would come in from the other rooms to march out he perfectly passed to stand and look at every day it was just as new as if they had never seen it before and was just as real as if it had been done by the best artest in the land, Since the first of the year he has done very good school work, has given more time to his work and less to play does very good work in calisthenics Deportment good,

Olson

Bennie has kept up his interest and I think is doing his best which is not very much, he reads in the Werner Primer can keep up with the class and I think if he could hear better he would do much better work, he will try to do any work I ask him to do, dictates his letter to his father, asked for what he wants for Xmas, does very good work in calisthenics Never makes any trouble in school

Dec. 1901 10:30 to 12:15 A.M.

Olson

Edwin has done very good work he is always busy, I find that I must watch him or he will form the habit of thinking if he cannot find just the letter he wants when he is building his lesson that that just any letter will do, as it is I know had to find just the letter one wants now that every letter must be turned right side up, so when he get tired of looking he takes any letter when he knows very well that it is not right, he has learned to write nicely from a copy and sometimes attempts to write his lesson from the book He is not very graceful in Caliathenics but he goes through with it every time, Deportment very good,

Astrander

Bennie Has kept up his interest and is doing good work for him, this month with being called out to help about the work and the excitement that Christmas always brings he has not gotten along as well as in the months passed I do not find him unwilling to work in school He never gives me any trouble,

Dec. 1901 9[30] to 12[15] a.m.

Rensaw

Eldie is a boy who if he only had a little ambition, could do very good school work, I think, he reads well in the second reader and can spell any word he has had, write quickly can write his letters if he will only think, he knows some thing of numbers but he seems to have reached his limit does good work in calisthenics but it is an effor for him, His deportment is good

Smith

Burt is a boy who has done good work this year he is always busy in school, of course he is slow about many things, Reads in the Taylor First Reader and can spell any word he has had, or rather he has spelled the words he remembers quite well, he writes a beautiful lesson on the board, can write all the numbers, builds his lesson with the letters, does good work in calisthenics, dictates his letters, knew what he wanted for xmas, his deportment is very good

Dec. 1901 1[30] to 3. P.M.

Duffield

Ray has done about the same work he did last month, he has been very much interested in Xmas and wanted to hear about Santa Claus every day he likes to listen to a story if it is something he can comprehend I do not know what he will do in school work, he will take the calisthenics quite well, does not give me any trouble in school

Harding

Gladis has not been in school more than twelve days the last of the month she did very little work Her deportment is good,

Halvorsen

Emma has been in school all the month she can fold the strips of paper in four equal parts and cut them, and makes some quite pretty designs with the wood tablets, she is not lazy in the chart class she will recite with the class and seems to be quite interested in it, but will not say one word alone, she takes the drill in calisthenics very well, Deportment good

Dec. 1901. 1[30] to 3. P.M.

Hilgerson

Lila is one of those children who never has her attention on one thing more than a second at a time I am sure that I do not know what to do with her she recites with the chart class, but I dont think she know what she is doing takes the drill in calisthenics after a fashion. Does not make any trouble in school

Langdon

Saral just returned.

Langan

Mamie has not improved any she recites in the chart class some days she she can read the lesson and may be the next day she will not know any thing about it, she does not care for game where it takes any thought. She does not give me any trouble in school.

Sims

August will take part in the lesson where it is written on the board and the children make sugestions, he does not know very many words that he will remember from one day to the next, he takes the drill in calisthenics so that he gets the exercise will keep busy with the busy work does not make any trou-

Dec. 1901. 1[30] to 3 P.M.

Miller

Edgar has worked very nicely he reads in the chart class on the tenth lesson he is not as quick to learn as many of the other in the class but he manages to keep up. he likes games and takes quite an interest in them. he is one of those diffident children in class. so I find it hard to get him to do his best. Does very well in calisthenics, never refuses to do what I ask him. is a good boy in school.

Margret

Marrissey, Is another diffident child she will hardly speak so that I can understand her, yet I think she is learning a little. This is written upon page 97

O'Connor

George Does not do any thing in this room, helps the hall girl nearly all the time

Peterson

Alfie is a child who likes to be busy will work at all kinds of busy work, folds and cuts the paper strips for the kindergarten well, make designs with the wood tablis and when we are making up the lessons he is the first to make sugestins and tell all he knows about the subject, he can not talk so that he can be understood but he know what he would like to say

Dec. 1901 1:30 to 3 P.M.

Leopoldina Roemer

Works well with her hands but so far she has not showen any inclination to learn literary work she folds and cuts the paper for the Kindergarten very nicely and take the drill in calisthenics as well as any one in the class, she does not give me any trouble in school.

Rosenwald

Lillian reads on the chart the tenth lesson she does not read easily but can keep up with the class, she work well with her hands folds and cuts paper strips for the kindergarten just as they should. Can write her name and make the numbers dictates her letters. asked for what she wanted for christmas. Is fond of games, likes to do what ever she see the other children do is contented with her home here, never gives me any trouble

Steiner

Susie I have been trying to have her write her name but so far I have not succeeded she will trace it but when I want her to write it alone she cant do it She likes some of the game and shows quite a little interest in them does not give one any trouble

Dec. 1901 1:30 to 3 P.M.

Shull

Erwin work when he wants to in school and does the things he likes some times he comes to class and will read quite well is always busy with something does not give me any trouble

Schmidt

Alfred reads on the chart the 10th lesson knows the words and can tell something about the lesson story I am sorry to say he is not a boy who is ampious to learn, he will not work at anything very long if it takes thought or attention. some times in calisthenics he will stop and stand and seem not to know that he should be taking the exercise until he is spoken to and for all this he seems to learn a little, can write his name and make the numbers from a copy Department is good.

Swanson

Ralph has not done much, he never will learn a great deal he will not apply himself he comes to class and recites with the other children but if asked to recite alone he can't he will go through with the calisthenics but in a careless way Does not give any trouble in school

Dec 1901 1:30 to 3 P. M.

Von Kuster

Fred reads in the chart class on page 10 can say all the words and I think always he he could do better than he in the chart class that is in reading but he is about the only one in the class that can, when I find him stick to work with he brakes them and does to care fun then and in fact he has not shown any interest in any kind of work he does with his hands He has not given me any trouble in school

Wall

Willie does very good work with his hands can fold the paper strips and cut them and does it very well too, and with the wood tablets he can make some very pretty designs that shows he thought what he was doing, he is very fond of the ball game and can throw and catch a ball as well as any boy in the class except Don and Alfie Petersen and I think none of the class can do better than he in putting the ball in the basket I have not given him as much attention as I would like for every child in the room should have individual attention and with as many one child does not get a good deal

Dec. 1901 1:30 to 3 P. M.

I think he is beginning to think more about reading. he will say a few words when he is sitting alone; and one day when the class was ready to recite, I was called to help some child and he wanted to read, and he said come hurry up Miss Johnston lets read he does not always go through with the exercises in calisthenics just as they should be but he always tries, he is usually busy with some kind of work. Is obedient Deportment good

Waldron

Peter does about the same work he did last month he is not at all ambitious will work if he has something before him does not do any thing well, reads on the chart but not well and when I ask him to read aloud he will look at me instead of the lesson,

Lena

Wagner I do not think will ever learn any thing in school she does not seem to know how to apply her self none of her work is done well, + Does not make any trouble in school,

Jan. 1902 8:30 to 10 A.M.

Betcher Has done good work in school this month, she is busy all the time, can build her lesson with the letters, spell the words in the lesson and write the lesson either on the board or on paper reads on page 77 in the Werner primer, she is improving in penmanship, does not do very good work in number, yet I am sure she has a better idea of the value of number she is quite interested in calisthenics, and works at it because she thinks it will make her stronger she is always interested in the games in the school room, in drawing the rule so far she has shown very little intelligence in measurement seems to think just so she makes something that resembles the rule that is all that is required instead of accuracy, she has been in school every day, Deportment very good

Buere

Emma I am glad to say has done good work and has accomplished quite a little, she reads on page 97 in the Werner Primer while she can not read quite so well as the other girls she is doing her best and will soon do the same work she know all the letters and can write her lesson on the board or with a pencil and can build her lesson with the

Jan. 1902 8 30/11 to 10 A.M.
letters, dictates her letters to her friends and she knows wh she wants to say to them, she could copy her letters if I could take the time to help her a litt Does not do much work in num bers. Her work in calisthenics is good, for all she was much opposed to it at first, has no much of an idea of exact measurements, Has been in school all the month. Her deportment is very good.

Anna

Braun has done good work in school, she reads on page 91 in the Taylor 1st Reader, can build the lesson with the letter and write it either on the boar or with the pencil she has improved in her reading and spelling & writing, has not done as well in number, She is doing good work in calisthenics, in the special work she is taking sh does well and I am in hopes to see a decided change in her by the close of school she is quite stooped shouldered, but not so bad, but that she could overcome it if she will use her will power with the help of the exercise, Her work on the rule is not good does not seem to get

Jan. 1902 8 30 to 10 A.M.
the idea of exactness, she is glad to take a part in any games I have in school, does any of the busy work well I am glad to be able to say that she keeps up her interest in her work if it happens that she misses a lesson she never gives up until she is up with the class, She dictates her letters to her friends, and could copy them all if I had the time to help her a little, she has been in school all the month except one or two days Her deportment is good

Gorham

Angeline works well in school and is anxious to go on with her work she reads in the Werner Primer on page 97, can build her lesson with the letters, and write it on paper beautiful, can spell all the words and know them all by sight, does not read with much expression, but still she is not a bad reader, she knows more about numbers than any child in the room is quicker tell the nos. than any of the class At first she thought she could not learn calisthenics, but now she is changing her mind about that, and is doing very good work, She likes any of the games we have in school, deportment good, Has been in school all the month,

Jan. 1902. 8 30/11 to 10, A.M.

Hendrickson

Emma is doing good work notwithstanding she is quite deaf she reads in the Werner Primer on page 74, can build the lesson with the letters knows the letters by name can write her lesson on the board or with the pencil on paper and does it quite well, she works hard when she feels well; does not do much with numbers, Work well in calisthenics and remember the changes quite well, in drawing she is not good but tries she those exercises in calisthenics where the children sing. Her department in school has been good. Has been absent one day

Joslin

Clara has been in school all the month, she is very slow but I can say for her that I think she does her best, but she will never learn enough to do her very much good she in the class with the girls who reads on page 74 in the Werner Primer know many of the words Her work in calisthenics is not very exact but she takes the exercise and gets the good out of it, never make any trouble in school

Jan. 1902 8 30 to 10 a.m.

Morrissey

Margret is not very anxious to learn and of course she does not try very hard, she does not talk very distinctly, she reads on the Werner Primer on page 74, she knows many of the words, she is quite timid and easily flustrated, she can fold the paper strips and cut them of the Kindergarten she takes the drill in the calisthenics but not well, she has an infirmity that hinders her very much as she is out of the room much of the time. She can write her name quite well. She has been in school all the month Deportment good,

Padden

Jessie has doene good work in school this month, She reads on page 97 in the Taylor first Reader can, build the lesson with the letters, write it with a pencil on paper or write it on the board spells all the words in the lesson and reads quite well, she is improving in her writing quite a little, she is not fond of numbers but can add and subtract the simple numbers, can do good work in calisthenics, her work in drawing is not the best, like nearly all in the class she does not know how to be exact. One

Jan. 1902 8 30/11 to 10. A.M.

thing the rule does not mean any thing to her and for that reason she does not try, she dictates her letters to her sister and copies them, She likes to help me in the school room Has been in school every day Deportment good,

Parquett

Irene I. can say for her that she has worked well in her reading and spelling, she has learned not to substitute a letter in a word when she can not remember the name of the right letter and some days she can spell all the ~~words~~ in the lesson and not miss all one letter, reads quite well, can write her lesson either on the board or with a pencil, write a good hand, does not like numbers, can do very good work in calisthenics, but does not always like it, can not draw a very good rule yet, enjoys any game we have in the school room, she is improving in her deportment in the school room has been in school all the month, Reads on page 69. in the Taylor 1st 11 Reader

Jan. 1902 8 30 to 10 A M

Rondestvedt

Rosa is working well in school, she reads in the Werner Primer on page 77 she know all the words builds her lesson with the letters, write well. If she feels well she is always busy and understand what she is doing does quite good work in calisthenics does not accomplish much in numbers, enjoys the games in the school room and becomes quite interest in knowing how they are going to end Her deportment is always good

Sumenberg

Anna is doing very good work, she reads in the Werner Primer on page 97 know all the words and letter in english. can spell the words in the lesson and write many of them on the board, she has made quite an improvement in her writing dictates her letter to her friends reads the letters they send to her, she understands the value of numbers better than any girl in the class can combine number to ten and add, subtract, and multiply simple number to ten Does good work in calisthenics, has a good idea of form that is the things she sees around her every day. enjoys the games in school Has good use of her hands can toss up two balls and keep them going for several minuts, catching first

Jan. 1902 8.30 to 10 A.M.

one and then the other, she is in school all the time I think she has not been out but one day on the account of sickness, She has been very good in school this month

Wright

Mabel, is doing the best work of any girl in her class, the reader on page 74 in the Werner Primer, is improving in her writing. Builds her lesson with the letter, knows all the letters by name, can spell many of the words in her lesson without the book, she is slow but when she feels well, she is nearly always busy Does very good work in the calisthenics drill and is willing to take it, does about the same number work as last month, she knows the forms that she is most familiar with Does not give me any trouble in school.

Jan. 1902 1.00 to 12.15 A.M.

Brady

John is working well in school, he is anxious to learn can build his lesson with the letters and write it on the board so that one can read it, knows the letters by name, has improved in all his work, he is better in oral number work than many of the boys who are much in advance of him in reading, he articulates so badly that many words he can not say at all only for that he would make a good showing, is much interested in the games and always anxious to take part, Does as well as he can in calisthenics and get the exercise tries to go through with all the changes. Dictates his letters to his home people remembered to tell them all he got for Xmas and to tell of the good time he had here, he never gives me any trouble in school,

Claflin

Richard comes to school every day but many times he is call to work in some other department, so that he has not gotten all the school work he might of had, yet I do not think he will ever learn very much in a literary way, The work he does with his hands is the best of all the boys in this school (B.) can draw a good 4 inch rule, knows the forms he is most familiar with can write from a copy, Dictates his letters

Jan. 1902 10³⁰ to 12¹⁵ A M

to his friends know just what he wants to say in the letter is a good errand boy in school, can be trusted does good work in calisthenics never gives me any trouble in school,

Brichton

Willie lacks ambition and push he makes up his mind that he can't do a thing then he will not try, He reads in the Taylor first Reader on page 52, his articulation is so poor that he does not like to read aloud I find it very hard to understand him, he writes well. can build his lesson with the letters or write it on the board or on paper, there is not a boy in the class who can write as well as he, can spell the word in his lesson when he studies them, He has a better idea of number than almost any of the boys in oral work can add, subtract, divide, and multiply to ten with 2, He take the drill in calisthenics very well for all he dislikes it very much dictates his letters to the family and writes them from a copy has been in school all the month,

Jan. 1902 10³⁰ to 12¹⁵. A M.

Foote

Raymond Has worked well and done as well as he could this mo. but he is so slow, he reads in the Werner Primer on page 81, he does not read well but can say the words, builds his lesson or writes with a pencil, he gives more of his time to his lesson than he used to, he has almost given up drawing pictures and gives that time to his work the pictures were not any thing that would ever amount to any thing Dictates his letters to his mother and father and could copy them if I had the time to help him, he does not do much number work, goes through with the drill in calisthenics very nicely Has not given any trouble in school,

Fruchtman

Charlie does very good work he reads in the Werner Primer on page 81 Builds his lesson with the letters, writes a little but not well can spell his words on the book counts twenty, can add number to ten but slowly Does very good work in in calisthenics, enjoys the games in the school can throw and catch a ball. can put the sliced pictures together has been in school all the month does not give me any trouble.

Jan 1902 10:30 to 12:15 A.M.

Haack

Gustave Has done good work this month, he never looses any time but opens his book and begins his work, he builds his lesson with the words builder or writes all the lesson on the board, writes a good hand, has a neat lesson on the board dictates his letter to his friends and can write them from a copy but does not always do it. Can draw a good 4 in. rule, does good work in the calisthenics, in numbers he can combine, subtract, divide and multiply, with two, to ten can count 100, know and tell the names of the forms he sees around him, enjoys all the games in school. He has been in school all the month has not given me any trouble.

Don

Hopps Has been in school all the month, he has done very good work, reads in the Werner Prime on page 81. can build his lesson or write it with a pencil from the book, know all the letter and spells the words on the book can keep the place while each boy spells his word, that he found quite difficult at first for he can not keep his mind on any one thing any longer at

a time he also reads 16 lessons on the chart, counts 11. combines 2 with any number to 10, has not a very good idea of measurements does good work in calisthenics, is a good errand boy in school can put the boxes & books away as well as I, and does other things, is very fond of games and takes a great interest in them does any kind of busy work well Has not give me any trouble in school,

Haugan

Herman has done good work, has been in school all the month, he reads in the Taylor First reader on page 54, can build his lesson with the word builders, or write it with a pencil, writes his spelling on the board does not always have all the word just right but then he knows enough, that if they are not right he will have to work at them until he can spell them, and gets to work & does it, He has quite a little Tales for numbers, can add, subtract multiply and divide in this he is one of the best in the class but for all that he is slow & easily flustrated, but it is not guess work with him, he really thinks, Draws quite a good rule, Does good work in calisthenics, Know the forms that

Jan. 1902 10^{30} to 12^{15} A.M.

he see every day, is much interested in the games we have in school, Has not given me any trouble in school,

Mapp

Tomie learns more from hearing the other children recite than he does from hard study, he reads in the Werner primer on page 80 he does not know all the words but I can't see any other thing to do but let him go on, he can build his lesson with the letters and can write it with the pencil he writes a very good hand, he dictates his letters to his friends and some times he copies them when the class is spelling in turn he can keep the place which has been quite a difficult thing to do, for attention is not one of his gifts, Does very good work in calisthenics enough to get the exercise he needs, Does not know much about numbers has quite an idea of form can draw pictures very well never to have had any training in that line, Has been in school all the month, Has given me no trouble,

Jan. 1902 10^{30} 12^{15} A.M.

Alson

Bennie has been in school all the month, is doing very good work I think is doing as well as he can Reads in the Werner Primer on page 80 know all the words and letters can build his lesson and write it either on paper or on the board can keep his place in the reading lesson if he hears the one who reads, His work in numbers is not as good as I think he is capable of doing, but being so deaf he loses much of the oral work, can draw quite a good rule, Does very good work in calisthenics, any kind of busy work he does well enjoys the games in school, Never give me any trouble

Edwin

Alson has been in school all the month does good work in reading, Is not careful with building his lessons, he knows what to do, but if he does not find the letter he wants he will put in any one rather than have the word look unfinished. he knows all the words in his lesson, but read in one tone never varies in the slightest does not take any interest in numbers. he takes the work in calisthenics but in a very

Jan. 1902 $10\frac{30}{11}$ to $12\frac{15}{-}$ A.M.

awkward manner, but he get the exercise that is needed enjoys the games in his way and will enter into them if asked, does not give me any trouble in school

Ostrander

Bennie has worked well this mo, is busy all the time always knows where his lesson is and begins to work without being told read on page 51 in the Taylor 1st Reader can write his lesson on the board or on paper when he builds the lesson with the letters he never has a mistake. has improved in writing & spells readily all his words without any help, The number work he does is very simple, and he does nothing independently must have the objects before him, can tell the forms if he has ever seen them, Does very good work in calisthenics, Never gives me any trouble in school.

Reusswig

Eddie is not as energetic as I wish he was I can see know reason why he should not learn much more than he does if he would only apply himself, he reads spells & writes well, but does not take any interest in any thing

Jan. 1902 $10\frac{30}{11}$ to $12\frac{15}{-}$ A.M.

else, his number work so far does not amount to any thing Does quite good work in calisthenics know the forms that he sees every day Does not give one any trouble in school.

Smith

Burt has done good work in school this month has not had any of those stubborn spells that he used to have, but as soon as he comes in school he begins his work Reads in the Taylor 1st Reader on page 51. Builds his lesson with the letters does it well, or writes it on the board or with a pencil on paper, when he puts his lesson on the board it is done as well as any one would wish to have it, spell the words of the lesson and reads very well, if he can take his time and have the objects before him to help him out he will do very good work in numbers. Draws a very good 4 inch rule, His work in calisthenics is very good he is always ready to take the drill, enjoy all the games in the school, Does not give me any trouble in school.

Jan. 1902 1:30 to 3. P.M.

Duffield

Roy is one of those children who never keeps his mind on any one thing longenough to give it any thought at all, he reads in the chart class, with the class, lesson sixteen in that many I think he will after a while learn to do as some of the others do, can count 11 but is so easily confused is not sure does not know any of the charactors by name, I think he will never do much real school work. He does not take any interest in calisthenics goes through the drill very poorly, Department usually good,

Harding

Gladis can read the 16th lesson in the chart has read all up to that lesson, she will never do much in literary work, she counts ten knows the characters and can manke some of them quite well she folds the paper strips for the kindergarten and cuts them with the scissors, does not have very good use of her hands Does quite good work in calisthenics that is for her, she does not give me any trouble in school,

January 1902 1:30 to 3. P.M.

Halvorsen

Emma will recite in concert but never alone as far as literary work goes she will never do any thing that will ever benefit her any in the first place she does not seem to have the ability and then her eyes are not good, she does simple busy work and is busy all the time if she has something on her desk to do she does very nicely, in calisthenics can use the scissors in cutting the paper strips,

Hilgerson

Lillie reads or rather sits in the chart class, she will read in concert, not that she know one word, but I am in hopes in that way to have her get in the habit of saying words, so far she has not learned any thing in a literary way she tries to take the calisthenics, she gets exercise but that is about all she uses the scissors quite well in cutting the kindergarten strips, she takes part in the games in the same indifferent way, she does not give me any trouble in school,

Jan. 1902 1:30 to 3. P.M.

Langdon

Sarah has been in school all the month, she has done very little school work, she can repete short sentences over after me but does not remember the words until the next morning, she is another child who has not learned to give her attention, she will take the blocks, or sticks or anny of the busy work and amuse herself with it but never do anny one thing that is asked of her She is quiet in school,

Langan

Mamie is at home.

Sims

August has been in school all the month, he read on the chart, with the class, the 16th lesson he does not know all the words but is learning to say words and to repete after me short sentences such as I am a little girl, can count 13 does not know the charact is not sure that is, easily confus if asked to pick up 1 2 3 or 4 blocks can do it, he folds the paper strips for the Kindergarten well and cuts then uses the scissors well is careful of his work, does not like calisthenics but will try to go through with it. does not give me any trouble in school

Jan. 1902 1:30 to 3. P.M.

Miller

Edgar reads on the chart with the class the sixteenth lesson, he does not know all the words, but he learns a few and I think is learning to put words together and make short sentences putting in the little words where they should be Instead of saying, little girl, he can say, I see a little girl, can count 12 if he counts right along but it does not mean anything to him, he is careful with the work he does with his hands, folds the papers well uses the scissors as they should be handled. goes through with the calisthenics after a manner but tries never makes any trouble in school

Morrissey

Margret has been in school all the month, in the morning she reads in the Primer on page 74 and in the P.M. she reads on the chart with the class, lesson 16 she knows the words and to day she read the story I think she articulates better can write her name quite well counts ten and knows the names of the characters, she is very timid and will not speak out, she takes the drill in calisthenics quite well can fold and cut the Kinder garten strips uses the scissors very well. Deportment good

Jan. 1902 1:30 to 3 P.M.

O'connor

George has gone back to his old habits of tormenting the other children and keeping all on the lookout for him he surely must be crazy I can do nothing with him.

Peterson

Alfred will amuse himself with the fussy work but never do any thing that helps him to think very much does not talk, can fold the paper strips for the Kindergarten nicely and cut them, he does not like to do any work where he has a special thing to do, Works well in calisthenics, that is he does not drag, Deportment is good,

Roemer

Leopoldina is in school every day she has not made any improvement, she is in the chart class but will never say one word or show the least interest in the lesson, with the colored tablets she shows a little thought, she makes some quite pretty designs, She takes the exercises in calisthenics Does not give me any trouble in school.

Jan. 1902 1:30 to 3. P. M.

Rosenwald

Lillian has been in school all the month, she has worked well reads on the chart the sixteenth lesson and know the words she of course is slow but is learning counts 100, knows the names of the characters, can pick up 1, 2, 3, 4 or 5 objects or if I hold up any one of the set, she can tell how many very quick, she folds and cuts the paper strips better than any one in the class, she is very careful of any kind of work she has to do uses the scissors well does the best she can in calisthenics, never gives me any trouble in school room,

Steiner

Susie has been in school all the month she simply does nothing in a literary way, I have tried to have her write her name and so far she has not the least idea of forming the letters except to trace them after I have written it, she folds the paper strips but not well uses the scissors quite well I am sure I do not know what to do with her She does not give me any trouble in school

Jan. 1902 1:30 to 3 P.M.

Shull

Erwin to day read nearly all of lesson sixteen on the chart he counts 5 can pick up 1, 2, 3, 4 objects seems quite glad to be in the class he is always busy with some kind of work, Dictates part of his letters, always seems glad to get his letters from his mother Does not give me any trouble in school

Schmidt

Alfred reads in the chart class the sixteenth lesson, counts 14 knows the names of the chairs can give me 1, 2, 3 or 4 objects quickly, he enjoys cutting out pictures from picture papers does not do it as well as many children but then he shows some thought when he will bring the pictures in to school and ask for the scissors to cut them out, he folds and cuts the strips for the kindergarten in calisthenics he seems to forget to work and will just stop and stand until I speak to him Does not give me any trouble in school.

Jan 1902 1:30 to 3. P.M.

Swenson

Ralph I cant see that he has done any thing to report, he comes to the class and will recite in concert but never alone just will not look at the chart, he counts ten if he get started but it does not mean any thing to him may be another time he can not count three, will not try to write, folds the paper strips for the kindergarten and cuts them, takes the drill in calisthenics but not well Does not make any trouble in school

Von Kuster

Fred can read all the lessons on the chart to the sixteenth, counts to thirty, if asked to pick any number to six he will do it or if I hold any number of blocks to six he will say what it is without stopping to count them, he is quite a bright little boy but very peculiar if I give him any kind of busy work he is more than likely to distroy it, does not seem to do it to be mean but in an absentminded way, he takes the exercise in calisthenics quite well, if I give him the paper strips to fold and cut, he will fold them over and over until they are spoiled or cut them in little bits, He is not troublesome in school

Jan 1902 1.30. to 3. P.M.

Waldmm

Peter is in school every day. Reads in the chart class the 16th lesson does not give his attention to the lesson knows a few words or rather says a few words does not look at the chart only when I insist and tell him over and over again that he must look at the word and not at me I think he will never do anything in literary work Counts 1234, does not know the manner of the character folds the strips of paper for the Kindergarten and cuts them but not well can use the scissors quite well, tries to take the drill in calisthenics get the exercise if the work is not well done, does not give me any trouble in school

Wagner

Dena I think she tries to learn but does not seem to know how to apply herself. she comes to the chart class and recites in concert but never alone, like so many of the children in this class she can some times count ten then again she can not, she folds the paper strips and cuts them, she does not seem to do any thing with very much energy, goes through with the calisthenics and get the exercise. Never gives me any trouble in school.

Jan. 1902 1 30/11 to 3. P.M.

Wall

Willie is in school every day he does work in the chart class but not well. I hardly know what to think of him for he is always willing work and is nearly always busy. He shows he has an idea of form by the way he puts the sliced pictures together and builds the sticks into different forms, can match the colors, he remember the words on the cards he learned last year, but if he sees the same word on the chart he will not know it he counts with out knowing what he is doing, Folds and cuts the paper strips for the Kindergarten uses the scissors very well, he has never been able to go through the calisthenics right just because that he can not keep his eyes on one person long enough to make the changes He is never the least trouble in school and never shows any mean side. He is very fond of the games enters into them with more zeal than any boy in this room, he is especially fond of ball, or any game where the ball is used

Feb. 1902 8:30 to 10 A.M.

Retcher

Sarah has done good work this mnd she with two others have finished the Werner Primer she know all the words and can spell many of them but not all, she has improved in her penmanship, writes her lesson very nicely, or build it with the letters, she keeps up her interest is very seldom idle if she is puling well. Does her work in calisthenics as though she liked it. her work in numbers is not good yet she can understand something about it. Deportment very good. has been in school all the month.

Buer

Emma has never taken more interest in her school work than she has this month, she has finished the werner Primer with two other girls, while she can not spell without the book as well as the other two she has done I think better work than they, In the beginning they were quite a little in advance of her, and she has very nearly come up to them in reading and spelling too. Has improved in penmanship quite a little. can write her lesson on the board very well, or build it with the letters Does good work in calisthenics and seems to enjoy it now, does not do very good work in number. Has been in school all the month.

Feb. 1902 8³⁰ to 10. A.M.

Braun

Annie has kept up her interest in her work, she has done good work in her reading always know the spelling and knows all the words in the lesson and can tell the lesson story quite well which shows that she knows what she is reading about has improved in her penmanship, can write her lesson from the book, and can copy her letters to her friends, that takes her a longtime as she do not always do that, as I can make two one writing answer, she is doing very good work in calisthenics, is always willing to try and I think she knows it is doing her good, I would be glad if she could be taught more in the number work, but so far she has got accomplished very much, she has been in school all the month her deportment is very good

Gorham.

Angaline has done quite well this month she, she has finished the Werner Primer she has spelled all the words in the book, but can not do it now, but she can remember how to spell quite a good many she reads very well, her penmanship is good can write her spelling in the board without the book she does the best number work

Feb. 1902 8³⁰ to 10. A.M.

of any girl in the class, she seems to have some idea of the value of the number and what they are for she is doing very good work in calisthenics, in school her department is usually very good, she has been in school every day this month except one.

Hendrickson

Emma I think emma has not done better work any time this year than she has done this month. She has improved very much in her penmanship, can write her lesson quite well, and builds it with the letters when she does not write it, she reads on page 91. in the Werner Primer can spell some of the word without the book and can keep the place while the rest of the class is reciting, know when her turn comes, she does very good work in calisthenics and remember the changes as well as any one in the class, her work in number is not very good, I think if she could hear better she would learn more about the work she has been in school all the month, Deportment is good,

Feb. 1902. 8 30 to 10 A. M.

Joslin

Clara is doing as well as she can. She builds her lesson with the letters, is very slow with anything she does, she cannot be rushed, she reads with the class on page 81. does not know all the words, but learns some of them and when she takes the lessons over with another class she will be able to remember quite a good many of them. She can write quite well. Takes the drill in calisthenics and gets the exercise but does not do the work very gracefully. Has been in school all the month, Deportment good.

Rondestvedt

Rosa has worked well this month she reads in the Werner Primer on page 81. knows all the words and can spell many of them, she has improved very much in penmanship, writes her lesson on the board keeps it on a straight line, when the class is reciting she can keep the place and is ready to read when she is called upon, Knows all the letters, she does better in numbers than some others in the class yet she does not do very much Does good work in calisthenics, Has been in school all the month except two days. Deportment good.

Feb. 1902 8 30 to 10 a.m.

Sunenberg

Annie Has not been in school this month. but two days.

Wright

Mabel has worked well in school this month Has done the best work any in the class, reads on page 81. in the Werner Primer knows all her words and can spell all the words in the lesson Has improved in her penmanship, writes her lesson well on the board or builds it with the letters Does good work in calisthenics. Has never refused to take the work, She does simple number work on her desk with the number and objects to help her. She has been in school all the month, Her deportment is very good.

Feb. 1902 10^30 to 12^15 A. M.

Crichton

Willie Has been in school all the month he has done quite good work for him. If he could articulate I think he would read quite well, but from the fact that he does not say his words well, he rather hesitates about either reading or talking I think he has improved in writing he does not write so large, can spell quite well. Dictates and copies his letters knows what he is writing & if he comes to a word he does not know he will stop and ask about it, In writing his letter for him to copy I had written the same word twice and he noticed it as soon as he come to it and said Miss Q. you have made a mistake, I think he has a better idea of number than any one in the class, if he would only become interested in the work. I am sorry to say he does not like to work is doing better work in calisthenics than when he first commenced & I think really likes it, He has been in school all the month. His deportment is usually quite good

Chaflin

Richard Has not been in school regular enough to have made very much improvement. When he is in school he works as well as he knows how In a general way he is quite bright can be trusted with an errand. Does not give any trouble in school.

Feb. 1902 10^30 to 12^15 A M

Brady

John has worked very well this month he reads in Werner Primer on page 43 he does not know all the words but I can not keep the class back for a few and when he takes the book once more I think he will know all the words and understand the lesson much better. He can build the lesson with the letters, and write it on the board, he improves in penmanship and is always glad when he can put his lesson on the board does not do much in numbers, His work in calisthenics is as good as he can do, he never refuses to take the drill Has been in school all the month His deportment is good

Foote

Raymond has been in school all the month. He has done quite good work, he reads on page 83. in the Werner he knows all the words and reads as well as any one in the class yet he could not be to read well, his articulation is not good, and he is naturally very slow, can build his lesson with the letters, and can write it very well, he has not done much in number work, I think he never will, Does quite good work in calisthenics. Deportment in school is good.

Feb. 1902 10³⁰ to 12¹⁵ A.M.

Fruchtman

Charlie is taking more interest in school now than he did at the beginning of the year he reads in the Werner primer on page 83 knows the words and reads about as well as any one in the class, can keep the place while the others in the class read builds the lesson quite well with the letters, can spell the words on the book, he has a better idea of number than many in the room, yet he is slow, knows the gill measure also pint quart and gallon, is doing good work in calisthenics. Has been in school all the month, Department good

Haack

Gustav is doing good work in school. he is always busy and has his lesson the best of any boy in the class, and is always willing to do any work that I ask of him, he reads in the Taylor first reader. can build his lesson, or write it on the board, spell the words without the book, he does very good number work, in a very simple way. does good work in calisthenics, he is a good boy to have in school, if sent to do an errand he does it quickly and is back. Has been in school every day, his deportment is good,

Feb. 1902. 10³⁰ to 12¹⁵ A.M.

Hopps

Don is always busy in school and does any of his work well, he is slow but that is not his fault, he has learned to give attention and is trying to learn Reads in the Werner Primer on page 83 he is one of the best in the class. can write a beautiful lesson on the board knows all the words in the lesson, and can keep the place while to rest of the class is reading, which quite a step for him to have taken can build the lesson with the letters, dictates his letters and can copy them with a little help, his work in numbers is not very good, but I think he is not to blame for that, never refuses to take the work in calisthenics, has been in school all the month, his deportment is good.

Hangan

Herman has worked quite well this month, the fact is none of the children have done as well as they would have if there had not been so many new children in the school and took up the time, He reads in the Taylor First reader he always has his spelling, and reades well writes very nicely. can build his lesson with the letters. His work work in number is much better

Feb. 1902 10³⁰ to 12¹⁵ A.M.

than the maporty of the boys in the class, Does good work in calisthenics. Has been in school all the month. Department good

Mapp

Lonnie I can't see that he has made any marked progress this month. he would rather look at a picture book, than do any kind of work, he has a little talent for drawing but I dont know whether it will ever amount to any thing with him or not, he reades in the Werner Primer, but very poorly, can write from a copy very well, last week he copied the letter he sent to his mother and did it without any help. his number work does not amount to any thing His work in calisthenics is quite good. Has been in school every day His department is not the best, he has the habit of toeing and seems to think he must have his way before he will can stop.

Olson

Bennie has done good work for him this month. he is always busy at something, and I think may be he does his best, but he cannot be rushed, reads in the Werner primer page 83. Has been in school all the mo. Department good

Feb. 1902 10³⁰ to 12¹⁵ A.M.

Olson

Edwin is busy all the time, but does not always do his work well. if he is building his lesson and does not find the letter he wants just as soon as he wants to he will take any letter to fill up the word, while he knows it is not right, he reads in the Werner Primer on Page 83. knows all the words but reads in a monotone writes quite well. one day this week he came by the schoolroom door and found me reading after school and he must have thought that was his chance to have a letter written so he came in and asked me to write for him and just would not be put off. so to get rid of him I wrote the letter, and he took it to the office, then he came back with a piece of paper and wanted me to write a note to Miss Todd so he could go to the store, I succeeded in making him understand that he must have the money first. His work in numbers is not the best, he is such a difficult child to get at, takes calisthenics quite well that is in his way. He has been in school all the month. He never gives me any trouble

Feb. 1902 10³⁰ to 12¹⁵. A.M.

Astrander

Bennie has worked well this month he does not spend any time sitting with his hands folded, he reads in the Taylor First Reader. can build his lesson or write it on the board. has imprened in writing, can spell the words with out the book Can build his number work with the numbers. he is slow with it. and does not under stand much about the value of number just can not think fast does good work in calisthenics. & deportment good Has been in school all the month.

Renshwig

Eddie is in school ever day he reads in the first reader can spell any word in the book and read any lesson and tell the story, writes very well, dictates his letters and writes them from a copy. I think he could not compose a letter himself yet he knows just what he wants to say to his people. he just will not take any interest in number just will not try unless I sit beside him and help him, does not give me any trouble in school as in school every day.

Feb. 1902 10³⁰ to 12¹⁵

Smith

Bert has worked well in school this month, he is busy all the time, reads in the Taylor 1st Reader. spell the lesson with out the book. writes well the lesson on the board, or builds it with the letters any kind of work he does is very well done, look so orderly on his desk, builds his number work with the numbers he can. do better work in number than Bennie, does good work in calisthenics and does not grumble about it any more, in fact I think he has grown to enjoy the exercise, Dictates his letters to his friends and could copy them but does not always do it. as I can do it quicker myself and I do not have the time to spend in helping him. Has been in school all the month. does not give me any trouble in school.

Feb. 1902 1:30 to 3 P. M.

Duffield

Ray has been in school every day I don't see that he improves very much, he comes to the chart class but does not know any of the words intelligently some time he will remember a word or two, but then he is not sure of them, can name the colors and count ten. He can fold the paper strips for the Kindergarten and cut them does it very well, uses the scissors naturally. Does not give me any trouble in school.

Harding

Gladdis will never learn any thing in school, she reads in the chart class, can not might can assort the colors and can pick up any number of sticks up to six can fold the strips of paper and cut them for the kindergarten uses the scissors quite well. Has been in school all the month does not give me any trouble in school.

Halvorsen

Emma does very little work in school she comes to the chart class but will never recite alone and if she could do any thing she has such head eyes that I am sure it would be impossible for her to work. She is in school all the time, does not give me any trouble

Feb. 1902 1:30 to 12:15 A. M.

Hilgerson

Lila does not do any thing in school except when I help her. She has been in school all the mo. does not make much disturbance in school.

Langdon

Sarah does not do any school work when I try to teach her any words she does not give the least attention she has been in all the month does not make any disturbance in school

Langan

Mamie just returned from her visit home to day.

Sims

August Har been in school all the month. He reads in the chart class but does not know any words to be sure of them. he will work at any kind of busy work and not give up, folds and cut the kindergarten paper very well aided when the scissors naturally, takes the drill in the calisthenics when he thinks he must, can assort the colors. Does not give me any trouble in school.

Feb. 1902 1:30 to 3. P.M.

Miller

Edgar is in school every day learns very slowly. can assort and name the colors count ten and can tell any number of objects up to five with out stopping to count them, is in the chart class knows only a few words and is not sure of them. can put the sliced pictures together. folds and cuts the paper strips for the kindergarten uses the scissors well never gives me any trouble in school.

Morrissey

Margaret does quite good work in school the reader the chart class the eighteenth lesson she know the words does not speak distinctly, writes her lesson very well indeed can build it with the letters, names all the colors can pick any number of objects to ten, has quite an idea of number Once this month she did not want to do what I wanted her to do in school so she ran away from me out into the yard, but I brought her back and insisted on being obeyed and since that I have not had the least trouble with her, nor did before.

Feb. 1902 1:30 to 3 P.M.

A. Connor

George Has not been in school this month,

Peterson

Alfred does not talk well enough to do good school work, he reads in the chart class, can write quite well assorts the colors. can pick up any number of objects up to ten. can put the sliced pictures together is always busy with some kind of busy work. does not give me any trouble in school Has been in all the month.

Roemer

Leopoldina I don't think will ever succeed in regular school work, she seems to have no mind for art, she can tell yellow, purple & orange. can not count, she can fold and cut the paper strips for the kindergarten uses the scissors quite well. Has been in school every day. deportment good

Rosenwald

Lily does quite good work in school reads in the chart class on page or rather lesson 18. does not know all the words but knows enough to understand what she is reading assorts and names the colors. can pick any number of sticks or any small objects to ten can put the sliced pictures together, folds and cuts the

Feb. 1902 1:30 to 3 P.M.

paper strips for the Kindergarten beautifully, better than any one in the room. can wind the yarn on the card board for the Kindergarten balls, puts the sliced pictures together, is a good child & has been in school & on hour in all the month.

Steiner

Susie has been in school all the month she has not improved any she does not show the least inclination to want to learn she will work if I give her something to do but every thing she does is from a copy. she can not assort the colors or count, she can fold and cut the paper strips for the Kindergarten. does give me any trouble in school,

Shull

Erwin is not doing any thing in school only as he chooses to work, he is busy all the while with busy work, some times he will make very pretty designs his work is carefully done is in school every day does not give me any trouble

Feb. 1902. 1:30 to 3 P.M.

Schmidt

Alfred is in school all the month he reads on the chart the 18 lesson he knows all the words, can write from a copy, can assort and name all the colors count ten can hold up two objects, can put the sliced pictures together, He is work so far as understanding it in calisthenics is not good, he seems to have no mind for it in the least. Sideport ment in school is quite good.

Swansen

Ralph is in school all the month he is in the chart class, but so far he has done nothing does not have the application, can put some of the sliced pictures together, in the colors he can pick out red, yellow & orange His work in calisthenics is not the best but he gets the exercise. does not give me any trouble in school

Von Kuster

Fred read all the lesson on the chart up to and including the 18th reed intelligently understands what he reads. can write the lesson, writes his name. can assort the colors. if I ask him to pick up any one of the colors he can do it. but can not name them all if asked to. know all the numbers to 20. by name puts the sliced pictures together Has been in all the month, does not give me any trouble,

Feb. 1902 1:30 to 3 P M.

Wall

Willie can assort the colors, and put some of the sliced pictures together he is in the chart class still recites with the class and I think he gives a little more attention does not read alone and I dont think he will in a long time, he likes to be busy and will work well with the busy work such as the colored tablets (some times makes some very pretty designs.) or the colored sticks or block, he likes to sit beside me when I write his lesson and will tell me some things to say He has been in school all the month Does not give me any trouble

Waldmm

Peter I can't see that peter does any thing in regular school work he can fold the paper strips for the Kindergarten and cut them uses the scissors quite well, and will build designs with the sticks and wood tablets. Has been in school all the month. does not give me any trouble,

Wagner

Lena does not improve very much she seems to want to learn but does not know how she folds the paper strips and cuts them very well Has been in school all the month Does not give me any trouble

Feb. 1902 9:30 to 10 A, M.

Paddock

Jessie has done very good work this month has always known her spelling and and reading lessons well has nearly finished the, Wonder Primer, Taylor First Reader reads on page 112. has improved in writing very much, can build her lesson with the letter and write it either on paper or the board, she does not care for numbers and does not take any interest in that work. she can do good work in calisthenics. dictates her own letter and writes them from a copy she has been absent two or three days. Does not give me any trouble in school.

Parquett

Irene has really tried this month with her reading and spelling and has really accomplished quite a little, where she was in the habit of substituting a name that did not belong to a letter when she was spelling, she has put about that some that fault and to day knew her lessons well, she writes a good hand sometimes when she puts the lesson on the board she will make her letters a little large Does very good work in calisthenics can draw a better rule than any in the class Has been in school all this month, Deportment very good.

Mar. 1902 8:30 to 10 A.M.

Brann

Annie has been in school all the month, has done good work in reading spelling & writing, she has finished the Taylor first reader and has reviewed more than half the book has spelled all the words and written them, over the board she has kept up her interest in this much of her school work. she does not like numbers & it is a burden for her to even try she will do the work when she feels that she must. she does very good work in calisthenics and I think it has done her good, she tries to overcome being round shouldered and I know if she would use more will power she would make a much greater improvement her deportment is usually good in school,

Betcher

Sarah has kept up her interest in her school work, she has taken up the Taylor first reader and can spell & read to page 29. writes quite well, in writing her spelling on the board she does it well but is slow, she is better in number than Annie B. yet she will never do any thing in that line that will be any use to her does good work in calisthenics and never refuses to work. When I take the class out to walk she can remember almost every thing she saw and tell me when she

Mar 1902 8-30 to 10. A.M.

gets back to the school room she never gives me any trouble in school and is always drilling to work if she fels well, has been in school all the month

Buell

Emma is improving in her reading and writing and spelling, can spell the words she has had without the book and write some of the words on the board, she is anxious to keep up with the class and really works hard for a child of her class of children. She does very good work in calisthenics and likes the work, she is one of those children who would not let you know for any thing that they were anxious to learn, but really are much more than some who make a great pretensions. she gives me very little trouble in school. Has been in school all the month. Reads on page 31 in the Taylor 1st Reader

Gorham

Angeline has worked well in school has finished with her class she has taken all the lessons in the Werner Primer and taken the Taylor 1st Reader reads on page 31. can spell all the words writes her lesson on the board without any help from the book, writes a very good hand and keeps her work

Mar. 1902 8.30 to 10. A.M.

looking well reader better than any of the boys of the class she has a better knowledge of number than any in the class or in fact in the room I think for all she does as well as she does, she could accomplish very much more if she would only use a little more will power, does quite good work in calisthenics. She does not have the very best disposition. yet so far I have managed to get along with out much trouble with her she has been in school all the month

Emma

Hendrickson Works well she builds her lesson with the letter or writes it either on paper or the blackboard she really has done much better work than I ever expected she would. She reads on page 92 in the Werner Primer and knows nearly all the words, can write her name, Her work in number is not very good Works in calisthenics is quite good yet she does not do it as well as many of the other children she has a very disagreeable order about her that makes it very unpleasant to work her. She gives me very little trouble in school she has been in school all the month.

Mar. 1902. 8³⁰ to 10 a.m.

Joslin

Clara has worked as well as she could, this month she reads in the Werner primer on page 92 she can read the lesson and spell the words on the book, she want to learn, she writes quite well and can spell some of the words in the script. she take the work in calisthenics so that she get the exercise. She has been in school all the month never gives me any trouble

Morrissey

Margret Reads in the Werner Primer in the morning on Page 92 and in the afternoon she reads on the chart the 2ᵈ lesson she does not speak very distinctly but I think she is overcoming that quite a little she never speaks in a very loud voice at any time and when she reads she she is especially timid. writes her lesson very well and can build it with the letters, she has a better idea of number than most of the girls in the room, does very good work in calisthenics has not given me any trouble in school. has not been absent this month.

Mar. 1902 8³⁰ to 10 a.m.

Padden

Jessie has finished the Taylor primer and has reviewed nearly two third of it, she know all the words and has spelled all up to page 78. she can write her spelling on the board with out any help has improved in her penmanship a little every month, while she writes so that her work is easily read yet she will never write well She does not have any desire to learn measures will take the lesson but not willingly and of course does not do it well after we have been to walk she can come back and tell what she saw as well as any one could do. Her number work is very simple. & does good work in calisthenics, has been in school all the month, has not given me any trouble

Powell

Irene has worked well in her reading & spelling, articulation and writing. She now know all the letters by name sometimes she does not call them right but she knows when she makes a mistake. She reads on page 87. in the Werner first reader she really works with her reading. she

writes her lesson very well, she has quite a little taste for drawing especially flowers, has made some quite pretty pictures, has worked quite well in calisthenics for all she finds it quite an effort her number work is very simple Has been in school all the month. Has not given me any trouble,

Rondestvedt

Rosa has kept up her interest in school she reads on page 92 in the Werner primer and she reads quite well too, Writes a good hand spells her words without the book, builds her lesson and writes it either on the board or paper does it very nicely, Does good work in calisthenics. Her work in number is very simple, When one hears her to walk she can tell who she knows as well as any child, She does not always do good work Some days she seems not to know anything and will not even try to work, She has been in school all the month. Has not given me any trouble,

Mar. 1902 8:30 to 10 A.M.
Wright

Mabel has worked well this month She reads in the Werner Primer on page 92 she can spell her words without the book but is very slow about it knows all the words she has had. reads better than any one in the class. Has improved in her writing can keep on the line if she is careful to think She does quite good work in the calisthenic class, does very simple number work. Can tell what she saw while out walking. Has been in school all the month & deportment good.

Mar. 1902 10³⁰ to 12¹⁵

Brady

John has woked well this month. he improves in his writing and reading and spelling can keep the place while the rest of the class is reading or spelling. he builds his lesson withe the letters very well which very good training for his hands. Does the best he can in calisthenics. does simple number work. Has been in school all the mont never gives one any trouble

Claflin

Richard is not in school very regular so that he does not get much good of his school work this month he learned the words in the 23 lesson on the chart. can build his lesson and is learning to write. can draw the best rug of any boy in the class. he dictates his letter and do it intelligently. We were cutting straws in inch lengths for the kindergarten and he did his well. Never gives me any trouble in school.

Mar. 1902 10³⁰ to 12¹⁵

Brichton

Willie lacks ambition I am sure he could learn much more than he does it he would only apply himself. he reads in the Taylor first reader on page 75. this class of boys are so irregular that they have not done as much work in school as they could have. He writes his lesson on the board and it as well done as any one could wish. In oral number work he is among the best has a much better idea of numbers than many of the boys. he can build his lesson nicely with the letters, he dictates his letters in a way is very slow in telling what he wants to say copies the letter well, He did good work in cutting the kindergarten straws in inch lengths uses the scissors naturally. Has done good work in calisthenics. Has not given me any trouble in school, has answered to the roll call every day but after was taken out to help about other things.

Bombeck

Fred Has not been in school very much this month, he does not know very much in a literary way. reads on the chart is learning to build his lesson. can match the colors does not name them. He does not give me any trouble in school, will try to do what he is asked to do.

Mar. 1902 10:30 to 12:15 A.M.

Beach

Oliver has answered to the roll call every day but has spent much of his time in the hall because there was not room for him in school, he can build his lesson with the letters reads on the chart (not well) writes a little dictates his letters & in oral number work he is among the best, he is not very anxious to learn, takes the drill in calisthenics very well Does not give me any trouble in school.

Ekwall

August has been in school all the month, he reads in the Taylor 1st & 2nd Reader can spell any word he has had, (lesson on page 75) can not write, has not good use of his hands, in Oral number work he is among the best in the room Does very good Calisthenic work for him can dictate his letters and enjoys getting a letter from home Never gives me any trouble in school,

Fronte

Raymond has been called out of school so much this month that he has not done any thing in school.

Mar. 1902 10:30 to 12:15 A.M.

Charlie

Fruchtman has worked well in school this month, he reads in the Werner Primer on page 93 builds his lesson well with the letters, writes a little spells the words on the book and can keep the place while the rest of the class are reading knows nearly all the words he has had in oral number work he does quite well but is slow in cutting the straws for the Kindergarten he cuts his very even (one inch) is doing very good work in calisthenics, has been in school all the month Does not give me any trouble in school,

Ekwall

Antone has been in school every day this month he reads on the chart, he is apt to learn the lesson from memory rather than know the words, is overcoming that a little tries to write and would learn if he could use his hands well, does quite good work in oral number work, take the drill in calisthenics very well I think it is doing much to straighten him up, he dictated a very good letter know what he wants in it and enjoys the letters he gets from home, does not give me much trouble in school

Mar. 1902 10³⁰ to 12¹⁵ A.M.

Hodge

Johnnie Has been in school all the month, that is he has answered to roll call but has been taken out much of the time to work in the hall because there was not room for him in the school room, He reads a little in the Werner Primer answers quite well in oral number work, could measure and cut the Kindergarten straws very well has done quite good work in calisthenics, has not given me any trouble in school

Hanson

Andrew Has been in school all the month, he has never done much school work before he came here he reads on the chart is learning to build his lesson with the letters, does not articulate well is very diffident about either talking or reading can match the colors does not name them, takes the calisthenic drill as well as he can always tries, does not give me any trouble in school

Mar. 1902. 10³⁰ to 12¹⁵ A.M.

Haack

Gustave has spent as much of his time out of school this month that he has not accomplished as much as he could if he had been in he reads on page 75 in the Taylor First Reader can write his spelling on the board as quickly as many a brighter boy could, writes a good hand is industrious when in school dictates his letters writes them from a copy, his number work is very simple and he works very slow but understands what he is doing, measured and cut the Kindergarten straws well was very careful of them, Does good work in calisthenics, Never gives me any trouble in school, can be trusted to do a errand,

Hopps

Don has worked well in school he reads in the morning in the Werner Primer on page 93 he know the letters, can spell some of the words without the book kept the place while the rest of the class is reading and will correct any mistake that is made, writes his lesson well, also builds it with the letters, his work in numbers

Mar. 1902 10:30 to 12:15 A.M.

is very simple. Does very good work in calisthenics. Measures and cuts the Kindergarten straws in inch lengths very well, has not given me any trouble in school has been in school every day.

Haugan

Herman is doing very good work in school reads on page 75 in the Taylor 1st. Reader can build or write his lesson writes his spelling on the board without the book, writes quite a good hand, reads very well measured and cut the Kindergarten straws very well kept them even. Does very good work in calisthenics. He does much better number work than many of the boys in the class he has a much better idea of the value of numbers. He is not hard to manage in school. He has been in all the month.

Holmstrom

Hubert has been in school all the month he knows very little about school work, he does not seem to have any power of application, he has been in 1st reader but for want of room he has spent much of the time in the hall.

Mar. 1902 10:30 to 12:15 A.M.

Mapp.

Lonnie Has not been time enough in school this month to make any improvement.

Eggler

Robert seems to be a boy that will improve he works well, can talk, reads on the chart lesson 23. can build the lesson with the letters has quite an intelligent idea of numbers, does very good work in oral number, enters into the spirit of the games, In measuring the kindergarten straws he had a way of his own and cut them very good was careful, I think he will be rather an interesting boy Takes the drill in calisthenics well, Does not give any trouble in school,

Olson

Bennie has done good work this month has been very careful, writes very nicely, and shows that he really tried, reads on page 93 in the Werner Primer builds his lesson with the letters and writes it beautiful, can keep the place while the rest of the class is reading i.e. as long as he can hear, spells the words on the board, Cut the straws for the Kindergarten even and carefully

Mar. 1902 10[30] to 12[15] A.M.
does very good work in calisthenics, his number work is very simple because he does not hear well. Has been in school all the month never makes any trouble.

Olson
Edwin has improved a little this month is much more careful when he builds his lesson, does not make nearly so many mistakes and is learning not to substitute a wrong letter in a word when he can not find the right one. Reads in the Werner Primer on page 93. knows all the words but does not read with the least expression can keep the place while the rest of the class reads or spells, is learning to write he is in too much of a hurry when he writes to do it well can spell his words on the book, does not do any thing in numbers now with the rule, rather enjoy the calisthenics and will suggest some special exercise he wants to take. Is in school every day Never gives me any trouble.

Mar. 1902 10[30] to 12[15] A.M.
Astrander
Bennie has been in to roll call all the month but has spent much time out of school helping in other parts of the house, he works well when he is in school Reads in the Taylor First Reader, on page 75, builds his lesson with the letters or writes it on paper or the board has improved in his writing, writes his spelling on the board without the book Cut the kinder straws in inch lengths very well uses the scissors naturally, does good work in calisthenics, he is very slow in number never gives me any trouble in school.

Rime
Gilbert has never done anything in school work so far one reason there was no room for him and then he is very deaf and can not take in any thing that is said to the other children does not talk if any very little he is very quiet. does not like to palish but will do it without making any trouble.

Mar. 1902 10[30] to 12[15] A. M.

Renswig

Eddie I must say does not like to work, can read and spell any word in the Baldwin First reader writes well, in numbers he is slow or will not try can add numbers to 100, and not make any mistake and also write to 100, but farther than that he does not seem to take any interest in the work. Dictates his letters and copies them writes a very good hand, measured and cut the kindergarten straws in inch lengths, takes calisthenics but does not like it, it is too much exertion for him, can read the letters from his people Has been in school all the month Does not make any trouble

Rossman

Henry has done very little work in school he is one of the boys who has been sent out to polish the hall because there was not room for him in school, He can match the colors but does not name them He has complained of being sick much of the time I wonder whether he really is or if he does it to keep from work. He has been in school all the month he does not make any trouble,

Mar. 1902 10[30] to 12[15] A. M.

Smith

Burt has not been in school regular, but was present at roll call when in school he is always busy Reads in the Taylor First Reader on page 75, builds or writes his lesson well any thing he does is done well, writes his lesson on the board and very seldom has a mistake, writes his spelling without the book, he is slow in his numbers but if he can hand his time can accomplish quite a little measured and cut the straws for the kindergarten nicely can not handle the scissors as well as many of the other boys Has done very good work in calisthenics, gives very little trouble in school

Smith

Raymond I don't know what to say for him, so far he seems a child who will never learn any thing in a literary way he does not seem to have any concentration it is all that I can do to keep him in line quietly until his line passes, he just seems to have mind enough to walk along, yet he may in time make a change, he has been in school all the month Does not give me much trouble.

Mar. 1902 10:30 to 12:15 A.M.

Findale

Charlie has not been in school regular because there is not room for all that come at this time he reads on the chart the 23. lesson, can build it with the letters does it well, can match the colors, but can not name them, measures the kindergarten straws in inch lengths and cuts them uses the scissors very well, takes the calisthenics very well, his work in number is very simple yet I think he will learn a little in that line Has never given me any trouble in school

Venske

August does not talk at all in english if he can talk and he seem to be very hard of hearing, she has walked quite a little in the hall, does not like it very well. writes his letters in german and his friends writes to him in german the reader his own letter and is so happy when he gets one he copies words in english I do not know how much he understands what he is writing, he takes the exercise in calisthenics quite well, is a pleasant boy and has never given me any trouble,

Mar. 1902 1:30 to 3. P.M.

Duffield

Ray reads on the chart that's he is in the class that reads the 23 lesson, he only reads when the class all reads together I think he does not know two words he likes to be in the class, but he will have to change a great deal if he ever learns to read. He can sometimes remember a few words but they do not mean enny to him the same in number he can count ten but it does not mean any thing, some busy work he will try to do but never succeeds at any thing. is not much trouble in school more than he can not learn.

Harding

Elsadis has not made any improvement this month she does what she did last month writes a word or two. can write her name reads on the chart lesson 23 know nearly all the words when she comes to a word that she does not know if I spell it for her she will say the word counts ten, knows 1 2 3 4 5 objects if you give her time. Does not give me any trouble in school Has been in school all the month

Mar. 1902 1:30 to 12 P.M.

Halverson

Erna's eyes are in no condition to do any kind of school work they are sore all the time she enjoys the games and likes to take part in them Has been in school all the month, never gives me any trouble can fold the strips of paper in four lengths and cut them for the kindergarten.

Hilgerson

Lilla Has not made any improvement this month.

Langdon

Sarah has done very little work she can trace her name with the pricking needle and make these 1 1 1 0 0 0 after a copy she has very little application, is in school every day Does not make any trouble.

Langan

Mamie has not improved any she comes to the chart class and will stand up and read all the lesson, and if I skip about and ask her the words she will not know one, she can fold the paper strips and cut them for the kindergarten Has been in school all the month does not give any trouble.

Mar. 1902 1:30 to 3 P.M.

Kins

August. 2 can't see any great improvement in this child he does just about the same work folds the paper strips and cuts them for the kindergarten chains assorts the colors, Has been in school all the month Does not make any trouble in school

Miller

Edgar Reads the 23d lesson on the chart with the class, he is very slow I think he has improved a little he will not remember all the words he has had but I think he knows a great many that he will keep Counts ten, folds and cuts the strips of paper for the kindergarten very nicely and keeps his work neat Has been in school all the month does not give me any trouble

Morrissey

Margret Has done very good work she, she reads in the Werner primer in the morning. knows her words and I think she articulates better then when she began school in the afternoon she reads the 23d lesson on the chart and can write her lesson or build it with the letters, she knows more about numbers than any child in the class yet her knowledge is not very great She folds

Mar 1902 1:30 to 3 P.M.

and cuts the paper strips for the kindergarten and keeps them neatly takes the calisthenics very well enjoy all the games. when she goes to walk she can remember many thing she saw while she was out Does not give me any trouble in school Has been in all the month

Peterson

Alfred I think if this boy could talk he would do quite good work in school, he does not say one word that I could understand if I did not know what he is trying to say, can write quite well, make the numbers to ten is always busy with some thing. Is very fond of games and especially ball and tenpins can match the colors and is quick about any thing he does does good work in calisthenics. Has been in school all the month does not give me any trouble in school.

Roemer

Josephine I can't see that she has made any improvement she comes to the chart class but does not take any interest in it. she can cut and fold the paper strips for the Kindergarten, Has been in school all the month. Does not give me any trouble,

Mar. 1902 1:30 to 3. P.M.

Rosenwald

Lilian works well in school she really tries to learn reading on the chart the 23d lesson she knows nearly all the words she is not as quick to say the words as many in the class yet I think she knows more of the meaning of the lesson than some of those who can say the words faster she counts 100, as well as any one can make the numbers from a copy takes the drill in calisthenics very well, enjoys all the games in the school. Has been in school all the month never gives me any trouble

Steiner

Susie can fold and cut the paper strips for the Kindergarten very nicely assort the colors and and things of that kind but I have not yet succeeded in getting her to write her name I write it for her and have her prick it with a pricking needle but I can see that she has not yet gotten the idea of the letters I hope it may come to her some time, she takes calisthenics very well for her. Has been in school all the week. never gives me any trouble in school, likes the games

Mar 1902 1:30 to 3. P.M.

Shull

Ervin comes to the chart class and some days will read quite well, then again he will not do any thing, he can fold and cut the paper strips for the Kindergarten over it nicely, he is busy all the time with something, yet his school work will never be much help to him enjoys the games in school, Has been in all the month, Does not give me any trouble,

Schmidt

Alfred is in school every day he works very well, reads on the chart the 23d lesson know the words and reads the best in the class except Fred Vorkirsten write very well can make the numbers to ten, counts 16; assorts the colors can put the sliced pictures together and cut the Kindergarten strips, he is a strange boy does not seem to take any interest in anything yet he learns quite a little, in calisthenics he will do just as little or he can, and when we are playing games he does not seem to know they are going on, half the time, Does not give me any trouble in school

Mar 1902 1:30 to 3. P.M.

Swenson

Ralph has taken quite a little interest in his work this month that is for him, Some times he will say a word or two in the chart lesson without any help, he seems to want to learn and will ask me to let him take his turn in reading, he counts ten, knows and objects when held up before him, can fold and cut the paper strips for the kindergarten and does it very well too, takes calisthenics very well, enjoys the games in school. He has been in school all the month does not give me any trouble in school

Von Kuster

Fred is quite a bright boy, he reads the lesson on the chart very well do not talk plain but he know how to read, writes the lesson knows more about number than any one in the class, likes to draw pictures is interested in the games takes calisthenics as well as he can, he is a very nervous child is never still, has learned to fold and cut the paper strips very nicely but he does not like to do it. He has been in school all the month. Does not give me any trouble.

Mar. 1902

Wall

Willie has done very much the same work he did last month he does not seem to know how to apply himself, some times he will do very well, now this month I have succeeded in getting him to look at the word while he is trying to read. he is very easily distracted when he seems to be think of the thing you want him too, let the least thing happen and he has forgotten what he was doing He has been in school all the month. Does not give one any trouble. Is very fond of games especially ball.

Waldum

Peter does the work where he uses his hands very well. folds and cuts the paper strips for the kindergarten nicely and keeps them all in one place uses the scissors very good Reads on the chart but not very well when he is listining to some one read he will often correct them or help them them but when he attempts to read himself he does not know just what he should do. Does very good work in calisthenics Has been in school all the months. does not give me any trouble in school.

Mar. 1902 1:30 to 3 P.M.
Wagner

Dena has done quite good work, to day she recd quite a little in the chart lesson more than she has ever done. I am in hopes now that she will begin to learn, she counters, folds and cuts the kindergarten paper strips over it very even and neat, and she enters into the game in the school with quite a little interest She takes the drill in calisthenics as well as she can, Has been in school all the month,

April 1902. 8:30 to 10 A.M.

Betcher

Sarah has been in school all the month, her work has been satisfactory. Reads on page 49. in the Taylor's first rieder can write her spelling on the board very nicely, she is slow but that is something she can hardly overcome writes quite a good hand, knows all the words she has had always does good work in calisthenics, She never gives me any trouble in school.

Brier

Emma is improving in her school work. She reads on page 49 in the Taylor First Reader she knows all the letters and spell very nearly all the words without the book and can write her spelling on the board, has improved in writing. She is very likely to think she can't do a thing when she can she lacks confidence, but is overcoming that quite a little. Does very good work in calisthenics and takes the work quite pleasantly now. Her number work is very simple she can throw and catch a ball very well enjoys the games. Has not given me any trouble

April 1902 8:00 to 10 A.M.

Braun

Annie Worker well has finished reviewing the Taylor First Reader and taken up Nature's Story Book reads on page 21. can spell all the words and write them on the board, she does not write well but has improved, one can read what she has written readily. She enjoys the games can pitch and catch a ball plays Ten Pins very well and with much interest. Has done good work in calisthenics, her number work is very simple she will try to do the work I give her and if she can take her time she will combine as far to twenty and carry the tens but she is very slow and does not always do her work well Has been in school all the month Does not give me any trouble in school

Gorham

Angeline Reads on page 49 in the Taylor First Reader she can spell all the words and write them on the board writes a good hand and is not so slow as many of the class, reads quite well but if a stranger is in the room she is very apt to be a little shy and not do

April 1902 8:30 to 10 a.m.

her best I think she reads the best of any in the class, she is always interested in the games and they do her good she can pitch and catch a ball, Has done good work in calisthenics. Has been in school all the month Does not give me any trouble.

Hendrickson

Emma is doing good work in school, she reads on page 100. in the Werner Primer shows quite a decided interest in her work, she knows nearly all the letters, in the lesson and can write the lesson well with pencil and paper on on the board spells some of the words with out the book, is always glad to when it is her turn to recite Her number work is very simple She does very good work in calisthenics, Enjoys games and takes quite an active part in any game we play can throw and catch a ball, Has been in school all the month Has not given me any trouble.

April 1902 8:30 to 10 a.m.

Joslin

Clara reads on page 100 in the Werner Primer, she improves a little, but not so much as any of the others in the class but she tries and does well all she can Has been in school all the month never given me any trouble in school, does the work in calisthenics very well for her enjoys the games and is always glad to take part.

Marrissey

Margret reads on page 100 in the Werner Primer, she knows her letters and can spell all the words on the book + sometimes she will spell a word or two without the book writes quite well, puts her lesson on the board can write her name, in oral number work she is quicker to give the answer than any in the class except Angeline can make the numbers, always enjoys the games and takes a very active part in all them, does quite good work in calisthenics, Never gives me any trouble in school Has been in school all the month

April 1902 8:30 to 10 A M

Bodden

Jessie reads on page 21 in the Natures Story Book She know all the words and can spell them and write them on the board she works well with her reading and spelling, but is not as careful with her writing as many of the other children She takes very little interest in numbers adds and carries the tens but is not very thoughful about this work. Enjoys all the games can throw and catch a ball after she has had a little game she work much better Has done good work in calisthenics Has been in school all the month. Gives me very little trouble in school.

Parquett

Irene I think she has done her best this month in her reading She reads on page 92 in the Taylor First reader, Now she knows all the letter and can spell her words without the book also writes her lesson on the board, she has improved in writing She does not like to do any thing where she must express any, but will if she sees she must Has been in school all the month Has not given me any trouble,

April 1902 8:30 to 10 a. M.

Bondertrecht

Rosa has done good work in school this month reads on page 100 in the Werner Primer she writes her lesson well can spell the words without the book reads better than any one in the class, she is not very good in number yet I think she improves a little. does good work in calisthenics as far her enjoys the games and takes a very active part in all dictates her letters to her friends Has been in school all the mo. gives me very little trouble in school,

Wright

Mabel. Has not missed well all this month, yet she has been in school all the time she reads on page 100 in the Werner Primer. knows all the letter and spell many of her words without the book reads quite well but slow, she has improved in writing, can combine number if she has the objects to help her, does quit well in calisthenics, if she feels well she enjoys the games. Has been in school all the month. Has not given me any trouble,

April 1902, 10³⁰ to 12¹⁵ A.M.

Bomback

Fred has worked well when he was in school, he reads on the chart, can build his lesson with the letters,. Writes a little I think he will do good school work when knows what is expected of him, Does very good work in Calisthenics, enjoys the games as a good boy in school,

Brady

John has been in school all the month, except one day he was not feeling well. He works well in school, has improved very much in writing and is anxious to learn to read, in class he keeps the place, he knows nearly all his words, He is very fond of the games in the school and is always glad to take a part and if his side comes off victorious he shows his delight very readily, in oral number work he is quite good, Does as well as he can in Calisthenics Never gives me any trouble in school,.

Claflin

Richard has not been in school this month is helping outside,

April 1902 10³⁰ to 12¹⁵ A.M

Crichton

Willie has not done much real school work this month, he in the first does not like to work very well, and he has been very irregular, much of the time he helps the hall girl polish, I think he worked first as he pleased, when he tries he can do well in school, enjoyes the games, does very good work in calisthenics and is one of the best in oral number work, has not given me much trouble in school

Beach

Oliver too has been quite irregular in school much of the time he helped the hall girl polish the floor and then he was sent other places to help,. he reads on the chart can write his lesson or build it with the letters, is very slow in all his work does quite good work in calisthenics but he does not like it, rather enjoys the games and takes quite an interest in them In oral number work he does quite well, He is inclined to be drowsy and I have to watch to see that he has something to do, only for that he never gives me any trouble in school.

April 1902 10³⁰ to 12¹⁵ A.M.

August

Ekwall has been in school all the month, reads on page 88 in the Taylor First Reader know all the words and can spell them without the book, does not have very good use of his hands and can not write very well but tries, in Oral number work he is about the best in the class does very good work in calisthenics for him, he never gives me any trouble in school.

Foote

Raymond has not been in school enough this month to make any report for him. He helped Miss Require with her children at that time,

Fruchtgran

Charlie has worked very nicely in school, reads on page 100 in the Werner Primer can build the lesson with the letters or write it on the board, can write his name spells the words in the lesson on the book, know all the words, does not do much in numbers, His work in calisthenics is quite good enjoy the games in school, Has been to school all the month. Does not give me any trouble,

April 1902 10³⁰ to 12¹⁵ A.M.

Antone

Ekwall has been in school all the month he reads on the chart know nearly all the words in lesson four, if he is not watched carefully he will read from memory and not think of the words at all, he tries to write but his hands are not in any condition for him ever to do much in writing, has tried to trace his name, in oral number he is quite good. is very fond of the games and is learning how to play them too? think he does his best in calisthenics but that is not much Does not give me much trouble in school,

Hodge

Johnie has been in school almost all the month has helped outside a few days, he is not much in love with work, he can build his lesson with the letters or write it, Writes his full name, does quite good work in calisthenics and in oral number work, is very fond of game and is always glad to take part can throw and catch a ball, In making a four inch rule he does quite well make straight lines Do not give me any trouble in school.

April 1902 10:30 to 12:15 A.M.

Hanson

Andrew has been in school all the month he has done very good work for him, he is not very fond of any thing if it is any trouble to him, he reads on the chart lesson 4, when he stands to read himself one can hardly understand him but when some other child is reading and does not say the word just as quick as he should Andrew is sure to tell him especially if I have asked the class to keep still and see how much the child knows. he can write a little. can't do very much in calisthenics does not give me very much trouble in school.

Haack

Gustav has helped Miss Dillingh much of the time this month and has also helped in other departments so that he has not done much school work this month but when he is in school he does very good work and is never idle Never gives me any trouble can draw a very good picture I think the best of any one in the school,

April 1902 10:30 to 12:15 A.M.

Hopps

Don Hop worked very well in school, he has finished one half of the chart lessons (24) and reads in the morning in the Werner Primer on page 100. builds and writes his lessons beautifully can spell many of the words know the letters by name. I am sure he likes the games better than any child in the class pitcher and catcher shall well play a good game of ten pins, he is wide awake when he is playing games Hop not given me any trouble in school

Hangarn

Herman can do good school work, he reads in the Taylor First Reader on page 96. can spell all the words of the lesson and write them on the board reads quite well, write a very good hand he has not been in school very regular this month has been called out to help in other departments His number work while simple is about the best in the class shows a better understanding to the value of the work work in calisthenics is good. He is very fond of games and is wide awake when that work is on hands does not give me any trouble in school.

April 1902 10³⁰ to 12¹⁵ A M

Hornstrom

Hubert has not application enough to do any thing, he has spent most of his time with the hat girls, does not make very much trouble in school

Maspp

Lornil has spent much of the time out of school this month while he was in he did very well, but did not have the same interest he would if he had yet I think he is better to take different work, he will never do a great deal of literary work has drawn two, or three pictures on the board that were quite a piece of art. for a child like him, He has not given me any trouble in school

Eggler

Robert has been in school very nearly all the month he improves a little. he reads on the chart, can build the lesson well, and in good time, writes some. Takes the drill in calisthenics very nicely I think he will improve quite a little in time does not give me any trouble in school.

April 1902 10³⁰ to 12¹⁵ a. m.

Akron

Bennie Har done good work in school he is always busy builds his lesson with the letters and writes it beautifully reads on page 100 in the Werner primer can build his number work with the number builders, enjoys the games in the school room does very good work in calisthenics. Has been in school all thy month occasionly he was taken out to work in some other department, he is always willing to do what is asked of him Does not make any trouble in school.

Olson

Edwin Har been in school every day to answer to name but several times he was taken out to work in some other department, He reads on page 100 in the Werner Primer knows all the words, can keep the place and be ready to read when called upon, write many of the words does not always get them just right, does not do any thing in number, does not show any interest in the games, takes calisthenics so that he gets the exercise. Never gives me any trouble in school.

April 1902 10^{30} to 12^{15} A.M.

Astrander

Bennie Has kept up his interest in school, has been in when his name was called but has been taken out many to assist in some of the other departments, he is a good boy and never refuses to do what he is asked, he reads on page 46 in the Taylor First Reader writes his spelling on the board reads the lessons & builds his lesson with the letters also builds his number work with the buildings, does quite well in calisthenics enjoys the games, never gives me any trouble in school,

Rine

Gilbert has been in school all the month he is very deaf so that I find it quite hard to get him to understand me, I think he will learn, he reads the fourth lesson on the chart, he is a pleasant child to have in school, He is learning the drill in calisthenics, is very slow, Has not given me any trouble in school,

April 1902 10^{30} to 12^{15} A.M.

Kenswig

Edward has been in school every day when his name was called but was several time taken out to assist in some other department, Eddie does not like to work in school he has finished his first reader and taken another book can spell any word in the book he finished reads all the lessons, writes well, copies his letters to his friends after he has dictated the letter to me know what he wants to say, writes a good hand recites the 2^s, 3^s, 4^s, 5^s, and parts of the 6^s's in the multiplication table and does good work in oral number, yet he will not do a great deal of thinking, takes the work in calisthenics because he must, can draw a very good three in rule has the idea of what is needed to be done, likes games, does not give me any trouble in school

Rossman

Henry Has not been in school regular was out a few days because he was sick, and a few days he helped in the hall he does not like to work any place, he is learning the calisthenics, drill he is in the chart class, I think he will learn a little after awhile, Department good.

April 1902 10^00 to 12^15 A.M.

Smith

Burt has answered when his name was called every day but one, but was taken out a number of time to help about the house He has kept up his interest and done good work Reads in the Werner First Reading on page 86 knows all the words and writes his lesson all on the board beautifully. can combine any number to twenty and carry the ten if he can take his time he can not be hurried in number work. can draw a very good 4 inch rule makes very straight lines His work in calisthenics is good. and he does it with out any trouble enjoys the games in school Has not give me any trouble

Smith

Raymond Has worked in the hall all the month. I hardly think he will ever learn literary work, so far he has done nothing, Deportment is better.

Tisdale

Charlie Has been in school every day to answer to his name but several times he was take out to work in some

April 1902 10^00 to 12^15 A.M.

other department he is rather a bright boy reads on the chart and in the primer he builds his lesson with the letters very nicely and can write with the lesson on the board quite well writes his name, can put the sheep pictures together does good work in calisthenics and does not give me any trouble in school.

Venske

August has spent nearly all the month helping the hall girls, she likes to be busy in school, will write his lesson from the book, he is so very hard of hearing that he never get any thing from hearing the other boys recite, he does good work in calisthenics and is always willing to work, Does not give me any trouble in school

April 1902 1:30 to 3 P.M.

Duffield

Ray has been in school all the month I cant see that he has made any improvement he will work at something if he knows that he must does not like to do any kind of work i.e. if it called work any game he will take as much interest in as any boy. is not a troublesome child in school

Harding

Gladis I think has learned all she will ever know, she does not seem to take any interest in any thing she reads with the class that have finished 24 lesson on the chart she knows many of the words and can read quite a little but I think it does not mean any thing to her she will take a part in the games and shows quite a little interest in them for her Does not give me any trouble in school.

Halvorsen

Emma can do things with her hands strings the beads alternating with. 1. 2. 3. 4. draws quite straight lines with the rule make very pretty designs, she always takes part in the calisthenics and does it quite well. doe not give me any trouble in school

April 1902 1:30 to 3 P.M

Hilgerson

Lillie Has been in all the month has made no marked improvement she will do or rather try to do any simple work I give her but she has not applisation enough to do any thing right not even the simplest changes in calisthenics she does not give me any trouble in school

Langdon

Sarah has tried to trace a copy does not do it intelligetly but will in a away follow the line anything she does she never seems to give it any thought. Does not make any trouble in school.

Langan

Mamie has been in school all the time I can't see any improvement Is usually quiet in school.

Sims

August has not learned much in a literary way does better work with his hands. folds and cuts the papers for the Kindergarten well can draw quite a straight line with the rule strings the beads, puts some of the slice pictures together Does not give me any trouble in school

April 1902 1:30 to 3. P.M.

April Miller

Edgar has read withe the class 24 lessons on the chart, knows many of the words, writes so that one can see what he is trying to write, is very careful of his work. folds the paper strips for the kindergarten and cuts them uses the scissors well and naturally has done very good work in colisthenics exercises put the sliced pictures together in fact he does anything where he can use his hands well. Is a very good boy in school. Has been in all the month

Peterson

Alfred Has been in school all the month, he is not lazy is always busy and something can write quite well, knows many of the words in the lessons he has had, while he can not speak so that he can be understood, if I ask him to point to a word he can He is very fond of games I think I never knew a boy who like to play ball as much as he knows how to pitch and catch the ball any work he does with his hands he does well. Deportment very good

April 1902 1:30 to 3 P.M.

Raemer

Leopoldine has been in school all the month she does not improve very much does not know any of the words on the chart. can string the beads alternating one cube one cylinder when she tries to write she does not seem to know any thing about forming the letters. She does very good work in colisthenics ie. she gets the exercise. Deportment good.

Rosenwald

Lilian Has been in school all the month she has read with the class 24 lessons on the chart, has improved quite a little writes very nicely and is always busy in school any kind of work she has done has been well done she is very careful, folds and cuts the paper strips for the Kindergarten as well as any one can, string the beads alternating 1, 2, 3, 4, 5 she can put the sliced pictures together, cuts out pictures with the scissors better than any one in the class Has never given me any trouble in school, she is very fond of games can catch a ball,.

April 1902 10th to 3. P.M.

Steiner

Susie has been in school all the month she has learned to make the letters S and W but I do not know whether she does it intelligently or not, but she can do it, she folds & cuts the Kindergarten paper very good. String the beads and alternates one square and one cylinder, & takes more interest in the games than any other work she has. does not give me any trouble in school.

Shull

Ervin does just what he likes sometime he will come to class and read quite well then again he will not do any thing, has not made any disturbance in school

Schmidt

Alfred has been in school all the month, he has read all the lessons on the first half of the chart knows all the words writes very well can build his lesson with the word builder folds and cuts the Kindergarten strips, puts the sliced pictures together. does not care any thing for games would sit through a game of ball and not seem to know it was going on unless

April 1902 13th to 3 P.M.

I insisted on his taking a part Has never given me any trouble in school

Swenson

Ralph has been in school all the month he knows a few words in the primer, seem anxious to learn to read and is always to recite but I really don't think he gives it any thought or know why he wants to read, only that he hear the other children and wants to do what they do Does better work with his hands Has not given me any trouble in school,

Von Kuster

Fred can read any lesson on the first half of the chart intelligently writes quite well, takes much better care of the school material puts any of the sliced animals together, folds and cuts the strips for the Kindergarten, understands any thing that is said to him Enjoys all the games like to play ball takes the drill in calisthenics but not well get the exercise Has never given me any trouble in school, Has been in all the month.

April 1902 1st to 3. P.M.

Wall

Willie has been in school all the month, he has taken quite an interest in the reading lesson on the chart and some days will say a few words one day he read a short sentence I don't think he will ever learn to read, Can string the beads alternating with one red cube & one yellow cube, he rather likes to be busy with the colored wood tablets he has made some quite pretty simple designs, puts the sliced pictures together is very fond of the games and always wants to run after the balls and to have his turn about four fifths of the time, He has not much idea of how to make the changes in calisthenics but manage to get the exercise if he can run or jump any thing where can make a noise he is happy Has never given me any trouble in school.

Waldron

Peter Has been in school all the month, he read with the class on the chart known a few words, when he stood to recite he did not know as many words as when some

April 1902 1st to 3 P.M.

other child was reading, if they would stand and not say the word many times he would tell Did quite well in calisthenics Enjoys the games can catch the ball and give a very good one in return. Has not given me any trouble in school.

Wagner

Lena has been in school all the month, she has shown quite a little interest in the chart lesson and has learned several words I am in hopes she will learn to read anyway if she ever once learns what she must do, she will, she folds & cuts the paper strips for the Kindergarten very well but does it just the same way the strips must be just the same length or she knows nothing about what she should do, she is a good child and has never given me any trouble.

May 1902 8³⁰ to ten A.M.

Berndt

Emil, this is his first month in school came the third of the month he is rather peculiar, I can hardly tell yet what he can do, he seems bright in some ways. I think he does not comprehend what is said to him, he I think would talk in his native tongue, he will sometimes say one or two words after me in english, but is not at all interested in any thing the class does. Likes to play ball and can pitch + catch the ball naturally, has not learned any think about it as they sometimes he will try. I do not find him hard to manage, yet he shows that he has been quite pet at home.

Hoversen Albert

Has been out of school all the month except six days.

Holmstrom Hubert

Has not been in school very much this month.

Halvorsen

Emma Has gone home.

Hilgerson

Lillie Has been out quite a little.

May 1902 8³⁰ to 10 A.M.

Harding

Gladis has been in school all the month I think since the school has been regraded, and she is in a class where all the children grade with her, that she is doing better work. yet she is very slow. she reads in the chart class, When we make our own lesson story on the board she will help, and make quite good sentences, she never gives me any trouble in school

Joslyn

Clara Has been in school all the month she has worked well remembers what the lesson on the board from day to day when we make one lesson story she will remember nearly all the new words and is always ready to help make a new lesson she is quite original in telling her story. she likes to help in the schoolroom to pass out to gather up the books and any little errand that I want to have done in the schoolroom

May 1902 8³⁰ to 10 A.M.

Lantgraw

Mamie has been in school all the month she has done just about the same as last month,

Langdon

Sarah Has been in school all the month, I think she has done much better this month since she is in a class that grades with her. she will read in the chart class with the rest of the class, she can say a short sentence. A red ball my blue ball, until just lately she has never been able to do that she seems to be more interested in her work than at any other time. Does not give me any trouble in school.

Rine

Gilbert has been absent most of the month,

Rossman

Henry has begun to take quite a little interest in his lesson can say almost any short sentence and is quite a little interested in the lessons we make on the board, knows, soft, hard round & small, tries to write, has been in school all the month. Does not give me any trouble.

May 1902 8⁰⁰ to 10. A.M.

Bodmer

Dena has been out of school sick part of the time this month, while she was in I think she showed that she was more interested in the work since, she has been in a class that do about the same work that she does, she can say short sentences now which she has not been able to do before, She does not give me any trouble in school

Smith

Raymond in the last two or three days seems to be taking some interest in his work, to day he talked more than I have ever heard him. he can say short sentences after me, maybe he will make a change for the better and learn after all. If he should I would be greatly pleased and more than surprised does not give me any trouble in school,

Steiner

Susie can make the letters Spr. I am not sure that she knows what they are, but she has practiced on them until she can do that much She does about the same work she has done for sometime Does not give me any trouble in school

May 1902. 8⁰⁰ to 10 A.M.

Shull

Erwin is always busy with some kind of busy work of course he does just what he wants to the most some times he will read quite well in class, Has been in school all the month Does not give me any trouble in school

Wagner

Dena. Has been out nearly all the month.

Johnson

Arthur. is out sick.

May 1902 10:30 to 12:15 A.M.

Brashn

Anna has done the best work in school this month, that she has done this year, she has been able to spell all her words in the reading lesson; some of them were quite hard too, has read well for her, and I think has improved in her writing learned the 2's + 3's in the multiplication table, and has shown in every way that she was trying has not given me any trouble in school.

Buell

Emma has never worked as well in school as he has this month or shown so much interest. I told her that all those who did their best could have their name in the paper and she was very anxious to have her name among those who were mentioned in the paper. she very seldom miss one word in her spelling and many of the words were quite hard, her writing is quite good too, she will copy her spelling and take it to the play room and learn it. she has not given me any trouble in school,

May 1902 10:30 to 12:15 A.M.

Betcher

Sarah worked well the first part of the month then she got sick so she could not keep up with her class, she will do good work if she keeps well. Has not given me any trouble in school,

Brichton

Willie has not been in school

Ekwall

August has been in school all the month, has done good work. reads in the Taylors first reader with the class, the are reviewing, he can spell any of the words he has had, reads quite well, knows his number work, write a little does not give me any trouble in school.

Fruchtman

Charlie has worked well this mo. I think has shown more interest than at any other time has been working to get his name in the paper. Reads on page 107 in the werner primer. does not know all the words but is learning well he has been in school all the month never given me any trouble in school.

May Fowle — 1902 — 10[30] to 12[15] A.M.

Raymond the first of the month did very good work and seemed quite interested but the last of the month he has been out. so that he does not keep up with the class. Has not given me any trouble in school

Finch

Dudley has only been in school three day I do not know what he can do.

Gorham

Angeline has worked her best this month She reads on page 69 in the Werner First reader and can spell any word she has had, has not missed a word this month, reads well. writes well and has had her number work well, can say the twos & three's in the multiplication table has been in school all the month. Has not given me any trouble.

Hodge

John has not been in school this month, but a few days

May 1902 — 11[00] to 12[15] A.M.

Habeck

Gustave has done his best work this month I think he has not lost a minute has been reviewing his first reader reads on page 69 (in the Wiener First) can spell all the words he has had has not missed one this month has read very nicely done very good number work can say the 2's 3's & 4's in the multiplication table. writes well. has not given any trouble at all. has been in school all the month.

Hangan

Herman Has gone home

Parquett

Irene Has not been in school all the month while she was in school did good work. has gone her best work as she is in a class where the children know just enough to make her want to keep up and she has done so Deportment good

Astrom der

Bennie Has been in school all the month he has worked as well as he knew how and has kept up with the class, he is reviewing the Werner first Reader can or rather has spelled all the words he has had is improving in his writing His deportment has been good.

May Paddin — 1902 10^30 to 12^15 A. M.

Jessie has never worked better than she has this month, she is reading in the Natures Story Book, some of the lessons are quite hard, but she has had them every time I think she did not miss one word in the spelling all the month, and has read the lessons well, has tried to write her best, she knows the 2's in the multiplication table, She has been in school nearly all the month, has been out two days & did not give me any trouble in school

Rensswig

Edward has been in school all the month. for all that he does not like to apply himself he has done his best for me this month. He reads now in a class with two other children who can do as good work as he and they work harder so that he feels that he must do some work so that they will not leave him behind. he is reading in the Natural Story Book and reads well can spells all the words he has had. Knows the multiplication table to the 7's Has not given me any trouble in school.

May Ride — 1902 10^30 to 12^15 A. M.

Nathan has been in school all the month he has worked well reads in the Werner Primer on page 107 has his lessons well can spell the words in the lesson write quite well does good work in number knows the table to the 8's. has not give me much trouble this is the first month he has been in this school.

Rondenbrendt

Rosa Has been in all the month except the last week. She has worked well and has improved write well knows her spelling Reads in the Werner primer on page 107 and has the best lesson of any in the class, she has not given me any trouble in school

Smith

Burt has only been out one day this month. he has worked well reads in the Taylor First reader (reviewing) on page 58. knows all the words always knows his spelling missed only one word this month, write his lesson on the board beautifully does not like numbers very well but at he does take him quite a little time. Has not given me any trouble in school.

May 1902 10³⁰ to 12¹⁵ A.M.

Tisdale

Charlie has done very good work in school this month he has not been in school very long but I think he will learn quite a little reads in the Werner primer on page 107 can spell or rather has spelled all the words he has had and read about the best in the class except Rosa R. write his lesson and builds it with the letters. has not given me any trouble in school

Yould

Laura has worked well this month, she is new in this room so she has worked to keep up with the class. Reads in the Werner primer on page 107, she will write her spelling on paper and take it out of school so she will be sure to know it. she was anxious to have her name in the North Star, for good work in school she write very well has not given me any trouble in school. Has been in school all the month.

May 1902 1²⁰ to 3 P.M.

Bondback

Fred has not been in school only a few days.

Beach

Elmer has not been in school

Brady

John has been in school all the month, has done good work he reads in the Werner primer on page 107 can spell the words in the lesson and reads quite well has improve very much in writing knows more about numbers than many who seem to be much brighter than he he is always busy can build his lesson with the letter and keeps his place in class while the rest are reading, never given me any trouble in school.

Claflin

Richard has not been in school

Eggler

Robert has worked very well when he felt well he has spoken of his ear troubling him, he reads on the chart the 9th lesson and builds it with the letters also reads in the Werner Primer with the class on page 107 is doing quite good work does not give me any trouble in school.

May 1902 1:30 to 3 P.M.

Ekwall

Antone has been in school all the month, he has improved quite a little reads on the chart the 9th 11 lesson and can build his lesson with the letters, he knows already all the words and is anxious to learn, in oral number he is par good or any in the class. he likes to talk quite a little and when he gets started to tell any thing it is almost impossible to have him stop. but so far I have been able to manage him.

Hendricks

Wilbert has been in school all the month he reads in the Werner primer on page 107, can spell all the words without the book reads well, that is he knows how to read but does not read loud enough to be heard unless one stand very near him an listens very closely, he has only been in this class this month I do not know what he is able to do will try to do any thing I ask him. Is a new boy in the school has never given me any trouble,

May 1902 1:30 to 2:15

Hendrickson

Emma Has done well this month until the last week she has been out sick. she reads in the Werner primer on page 107. can spell nearly all the words without the book, writes her lesson very well, likes to be busy and is showing quite an interest in her work has not given me any trouble in school

Hoops

Don, I think he is doing as well as he can, he reads in the Werner primer, knows all the words on the book, can not spell without the book only a few words writes his lesson from the book, without help, on the board beautifully builds the lesson with the letters is always busy, Has been in school all the month. Department good

Hanson

Andrew Has done quite good work this month, was out a few days sick, he can build his lesson with the letters quickly and in good order, reads 9 lessons on the chart, and is becoming quite a little more interested in the school work, at first he did not seem to care, or may be did not know how to work, His department has been good.

May 1902 1:30 to 3. P.M.

Morrissey

Margret has been in school all the month, has done good work reads on page 107 in the Werner Primer knows all the letters can write her lesson on the board from her book and can spell many of the words. she understands what she reads can build her lesson with the letters in oral number work she is the best in her class has not given me any trouble in school,

Mapp

Tomie has been in school all the month, he has worked well and has improved, where he was in the habit of reading from memory, and not know the words when he saw them, he has overcome that and is depending on his eyes more yet he can improve in that respect very much yet. He has done as well if not better this month than at any time Deportment very good Has done very well in calisthenics.

May 1902 1:30 to 3 P.M.

Alston

Bennie has worked well in school this month. Reads in the Werner primer on page 107 know all the letters, and all the words that he has had any new word that comes in the lesson he has to be drilled on because he does not hear well enough to hear it when any other child is reading. Writes his lesson beautiful his number work does not amount to very much from the fact that he does not hear. Deportment always good has been in school all the month,

Olson

Edwin Has been in school all the month does about the same work reads in the Werner Primer on page 107 can say all the words but does not know all the letters by name can write his lesson quite well and can build his lesson with the letters, but is careless and when he has looked for a letter about as long as he care to, he will take any letter and use it yet he knows better. He never gives me any trouble in school,

May Swenson — May 1902 1:30 to 3. P.M.

Ralph has been out of school eight days this month. he I am sure works as well as he can, but he has not the mind to help him out he wants to learn and is always anxous to stand and say the words on the chart, but I dont think he will ever learn to do any kind of literary work will work at almost any kind of busy work. Does not give me any trouble in school.

Venske

August has been in school all the month, he has never spoken one word to me and will not try. when I sit beside him and try to have him say a word or answer my questio he will look at me and shake his head and frown. He can copy any of the lessons he has and writes his own letters and I think reads the ones he receives, he will let me know if he does not have a pencil and paper, to write his lesson or his letters. Deportment good.

Mary Wright — May 1902 1:30 to 3 P.M.

Mabel has done quite good work for her, she reads in the Werner Primer on page 109, can spell many of her word without the book know all the letters writes very nicely. I think she never feels very well, yet she wants to keep up with her class, she builds her lesson with the letters and writes it on the board. Has been in school all the month Does not make any trouble in school

June 1902 8:30 to 10 a.m.

Bennett

Emil has been so homesick, that even if he had wanted to work in school I could not, he comes to class and will say the words after me but never alone he does not understand english very well, I think may be he he will do better when he has been in school longer, he has only been in school about 28 days he will take part in the ball game can catch the ball if he really wants to, and can return a good ball, but he does not always choose to do it, takes the drill in calisthenics very well, string the beads but not in order, he does not seem to be interested in anything, has not always been orderly in school, not because he wanted to be mean but just does not know how to behave, is not hard to manage, and will do what I ask of him and has respect for what I say.

June 1902 8:30 to 10 A. M.

Hoversen

Albert has only been in school sixteen days, he reads on the chart a little, writes a little not well, names them to 10 ten and can make them, string the beads 5 & 5. can put some of the simple sliced pictures together, those of three or four pieces, can fold and cut the kinder paper strips, in fine in lengths, when the scissors well. Does very good work in calisthenics, enters into the game readily. Matches the colors. does not name them. Has never given me any trouble in school

Holmstrom

Herbert tries to read with the class but does not do very much, when we are making up the lesson he will say two or three words about any subject, "ball is round" and I am sure he is beginning to see or rather understand something about the lesson. He can put the sliced pictures together, fold and cut the paper strips for the Kindergarten, does this work in the calisthenics, but not nearly as well as many of the children but he gets the exercise and change of work which is good for him. can count five, can string the beads but not in order with out help, matches the colors, does not name them likes green the best. Has been out of school part of the time. Does not give me any trouble in school

J. Halversen

Emma has been out of school the last two months, and much of the time through the year she was not able to do much school work, she was quite interested in making the reading lesson on the board and really seems anxious to learn. but she learns very slowly, could write her own name (Emma) Put the sliced pictures together. Folds & cuts the kinder garten papers nicely has done very good work in calisthenics, enjoyed the games in school and takes much interested in them, matches the colors string the beads, makes quite pretty designs with the wood tablets. Has never given me any trouble in school.

June 1902 8³⁰ to 10 A. M.

Hilgerson

Lillie has been as much interested in the lessons on the board as any thing in the school she can say the words in the lesson and will help make the lesson, and can say quite a long sentence, for example (We have folded orange orange paper this morning) can put the simple sliced pictures together, uses the scissors very well in cutting the paper strips Has worked as well as she could in calisthenics, likes the games in the school strings the beads not in order without help, can match the colors does not do any thing in numbers, has not given me any trouble in school Has been out this month.

Jollin

Clara reads on the chart and is quite a help in making up the lesson on the board can always think up her own story, writes a little. can count 10 and write the number puts the sliced pictures together folds and cuts the strips of paper for the kindergarten does her best in the calisthenics. & like the games and is glad

June 1902 8³⁰ to 10 A. M.

to take part in them, counts and matches the colors names them, her choice is purple string the beads alternating the colors 4+4 she is a good girl and tries to learn, never give me any trouble in school

Langan

Mamie will never learn any thing in school, she can say almost any thing I tell her to and is good to help make the lesson on the board that is she can think of many things to say about the subject, but I full sure that she does not really know one sight of the words written words do not mean any thing to her does not know one sight from another, can only put the very simple sliced pictures together and is not always sure of getting them right, can fold and cut the Kindergarten papers very well Her work in calisthenics is never good, when they gets her hands up she dont know how to get them down and if they are down can't put them up, the fact is she can't do it, she does not know how to play the games can not give her attention to any thing. She can count 15 but it does not mean any

June 1902 8³⁰ to 10 A.M.

could not give me four sticks can match the colors and some times name them. her choice in color is blue. can string the beads alternating 1+1. does not give me very much trouble in school.

Sarah

Langdon has improved slowly she helps make the lessons on the board, has learned to put words together so that now she can say. "I can fold orange paper this morning can not write. can not put the sliced pictures together unless they are very simple takes the drill in calisthenics not well, count ten but can not pick up 3 objects. enjoys the games, can assort the colors, red is the one she likes best. string beads alternating 1+1 has not given me any trouble in school except that I can not make her learn faster. Has been in school for the last two months

Pine

Gilbert has been out of school quite a little, He is a child who could learn quite a little if he could hear well, he speaks in a very low tone, can hardly make himself understood, yet he is not such a very dull boy

June 1902 8³⁰ to 10 A.M.

He reads on the chart and also the lesson on the board, helps to make the lesson up and can read any sentence, puts the sliced pictures together, folds and cuts the strips for the kindergarten work does the work in calisthenics nicely String the beads 4+4 some times can count ten, but is not sure. enjoys the games and shows more life in those than any other work I have in school, can match the colors, his choice of color is orange strings the beads alternating 4+4 Does not give me any trouble in the schoolroom

Rossmann

Henry has been out of school quite a little this year, is at home now Work with the class that is beginning to learn to put words together he is learning, can read a little and is learning to write. can put some of the simple sliced pictures folds and cuts the paper strips counts ten, strings the beads Has not given any trouble in school

June 1902 8:30 to 10 A.M.

Roemer

Dena reads in the class that is learning to put words together when she began school in the fall she could not put two words together now she can say a sentence like this. We can fold orange paper this morning and will talk quite a little, she is much interested in the lessons and I think, in these lessons she will not only learn to read but to talk also. Can not write. Can put the sliced pictures togeth Does very good work in calisthen ics and never refuses to take the exercise. Can count five. With the colored tablets she has made some very pretty designs, she has learned to be busy. I always glad to be in any game and does her part. Matches the colors Orange is the one she likes best string the beads, alternating 4+4. She has learned to be interested in her lessons and is always glad to do any work I give her. Folds and cuts the paper strips very well keeps her work in good order. She never gives me any trouble in school.

June 1902 8:30 to 10 A.M.

Smith

Raymond is a child that know more than one is apt to think he knows, he is in the class that is beginning to put words together he speaks in a very low tone it is hard to understand him He tries to take the exercise in calisthenics sometimes if I keep at him but if left to himself he will stand and not seem to know that any thing is going on. strings the beads but not in order, I think he could match the colors if he would only try but he is so listless I am sure I do not know what to think of him. He has learned to mind what is said to him in school

Susie

Steiner will never be able to do any thing in school in the first place she can not talk and is she could I am sure she would never learn enough to do her any good I have tried to teach her to write her name, but she can not do it can Make S. M. I am not sure she knows what they are for all I tell her over and over a gain, can put some of the sliced pictures together Can fold and cut the paper strips

June 1902 8:30 to 10 A.M.

for the kindergaiten she always stands up over her best in the calisthenics, but never does it well. takes part in the games and really enjoys them. can match the colors, likes red the best, strings the beads alternating 4+1. Never give me any trouble.

Shull

Ervin can read a little and writes his name without help his mother once told me that she did not care to have him do any more than he wished so I have managed to keep him busy with something so that he would not get into mischief Can put any of the sliced pictures together, folds and cuts the paper strips as well as any one can expect his work nicely. Never likes calisthenics. counts 10. enjoys the games assorts and names the colors. Green is his choice name the colors. String the beads 5+5 does it quickly Has not given one any trouble in school.

June 1902 8:30 to 10. A.M.

Wagner

Dena has really improved she is in the class that is learning to talk and put words together she can be taught to say sentences like this. We can fold red papers this morning and quite a number of such sentences, and is showing quite an interest in the lessons we put on the board. Can put some of the sliced pictures together Can fold and cut the paper strips for the Kindergaiten does quite good work in calisthenics Can count 10 I dont think she knows the value of numbers Is always pleased when ever we are going to play any game, all the children like Hall the best. Matches and names the colors. Red is her choice, strings the beads 3+3 she shows much more interest now in her work than at any time through the year of course she as well as all the children in her class is very slow But never gives me any trouble in school.

Johnson

Arthur has not been in school enough to make any improvement I think he is a child who will never do much school work

June 1902 8³⁰ to 10 A.M.
Harding

Gladis has kept up her interest all the year and has done her best, which is not very much She reads in the class that is learning to make sentences she of course is much better than many, but she will never know much more than she does now. can put the sliced pictures together. Fold and cut the paper strips, is careful with her work uses the scissors well. Does very good work in calisthenics. counts 10. know the names of the characters, strings the beads alternating 4+4. Can make the number and name them. Cannot and names the colors. likes red the best. She has never given me any trouble in school. her health is not good she seems to be running down.

June 1902 10^30 to 12^15 A. M.
Brann

Annie reads in Leaves From Nature's Story Book. She finished and reviewed the Taylor's First Reader, and now reads on page 59 in the new book. She can build her lesson with the word builders, has spelled every word in the spelling and wrote it on the board, can tell me quite a little of the lesson story. reads very well, has improved in her writing, and kept up her interest in all her school work all the year. She is slow in numbers can add, subtract, multiply and divide in simple numbers. if she can have her time for it, she can not be hurried know the 2^s + 3^s in the multiplication table. Has done very good work in calisthenics this year, and I am sure if she has the will power she can become as straight as any child, she surely is much improved. Assorts & names the colors, Spike red the herd, knows the directions North South East & West can name the days of the week & dictates her letters to her people and writes them from a copy. She has given me very little trouble in school

June 1902 10^30 to 12^15 A. M.
Padden

Jessie has kept up her interest in her school work all the year and has improved very much she has finished and reviewed the Taylor First Reader and taken up the Nature Story Book which is quite a little harder than the other book. reads on page 59 has spelled every word in the spelling lesson and wrote them on the board. has improved in her writing. Dictates, and writes her letters to her sister from a copy knows what she wants to say & is not long about it. She is not interested in her number work can add, subtract, multiply & divide very simple numbers if she can have all the time she wants she can not be rushed she can say the 2^s & 3^s in multiplication table but it is hard for her. does good work in calisthenics and does it willingly if she is well Assorts and names the colors does any kind of busy work & can tell how many days of the week. East, west, North & South. Has never given me any trouble in school. is a kind good hearted girl appreciates what is done for her.

June 1902 10^30 to 12^15 A.M.
Renewing

Edelic, reads in the Natures Story Book page 59, with Annie and Jessie while he reads better and writes much better he has not been as much interested as they, he is not at all energetic could do much more than he has done if he would only apply himself, can build his lesson quickly and keeps it in order, I think he will never know much more than he does now and if he should be taken out of school he will retrograde for the want of ambition, in number he can add, subtract multiply & divid is good in oral work cannot be hurried knows the the multiplication table to the 7^s does good work in calisthenics but does not like the work there is about it can spell any word in his lesson and write it as well and quickly on the board as any one, knows the colors and forms can be trusted to do a errand, knows the directions, Has given me very little trouble in school except that he would not do his best,

June 1902 10^30 to 12^15 A.M.
Buell

Emma has kept up her interest all the year and has improved very much, builds her lesson with the word builders and can write them on the board she has the two last months spelled all the words in her lesson if she thought them quite hard to learn she would write them down and take them to the play room and learn them, she has done her best and her work shows it. she has finished the Werner primer and has the Taylor First reader reads on page 68. has improved in writing dictates her letters and writes them from the copy is not good in numbers, can count ten make the numbers and names them can give me 1 2 3 4 5 or 6 objects, does good work in calisthenics, accepts and names the colors, purple is her choice, will work at any kind of busy work but would rather have her reader, knows the directions E. W. S. N. days of the week, asks me to walk after we get back she can tell much that she saw on the trip Has not given me any trouble in school

June 1902 10^{30} to 12^{15} A.M.

Butcher

Sarah has finished the Werner Primer and reviewed it, taken up the Taylor First reader, reader on page 68 has spelled all the words and wrote them on the board, can build her lesson with the word builders, has improved in all. She is slow in numbers can count ten write them, knows them by name, and their value. can give me any number if asked to pick them up. Work in calisthenics is good she enjoyed the drill, any kind of busy work she does well, such as putting the sliced pictures together and assorting the colors, cutting the paper strips &c. she likes yellow best. She has kept up her interest all the year & shows a greater interest the last two months than at any time Has done good work all the year Never gives any trouble in school. Writes her name

Crichton

Willie has not worked nearly as well as many of his class, always has some excuse for not working, He could, I feel sure be as good, if not the best in the class, if he would only try, lacks ambition, reads in the Taylor First Reader on page 68

June 1902 10^{30} to 12^{15} A.M.

is reviewing with his class, reads and spells well when he tries, builds a good lesson, writes the best hand of any in the class, would not care to have him write any better, is quite good in oral number work, can add, subtract multiply and divide in simple numbers, know the multiplication table to the 4's. Make all the characters know them by name and their value. He was very much aversed to the exercise in calisthenics at first, but has overcome that and is doing good work. Does any kind of busy work well, such as folding the paper strips, putting the sliced pictures together &c. &c. assorts and names the colors does not have any choice like them all, knows the directions N. S. E. W. know eight different forms by name. I have had very little trouble with him in school this year.

Ekwall

August Works very well in school there are ab many things he can not do, because his hands shake so badly Reads in the Taylor First Reader on page 68 can spell any word he has had reader well that is he knowall

June 1902 10 30 to 12 15 A.M.

the words has not much expression yet he understands what he has read. He is very good in oral number work. adds. subtracts multiplies and divides, knows the table to the 7's. His work in calisthenics is not good, but he does his best, can't write to amount to any thing. Assorts and names the colors, choice yellow,

Gorham

Angeline Has worked well all this year and kept up her interest to the last. Has finished the Werner Primer and reviewed it, Reads in the Taylor First reader on page 68, can build the lesson with the word builders. Spells all the words without the book writes a good hand, her work is always done neatly, reads very well, counts twenty, knows all the numbers by name, makes them, does good oral work better than many in the class, can pick up any number of objects to ten, Has done good work in calisthenics, any kind of busy work, such as putting the sliced pictures together cutting the strips of paper from the Kindergarten, etc, assorts and names the colors, her choice is purple, She has given me very little trouble in school,

June 1902 10 30 to 12 15 A.M.

Haack

Gustav Reads in the Taylor First reader on page 68 is reviewing, he has worked well all the year & seems more interested at the last than at any other time builds his lesson with the word builder. writes a good hand, his work on the board always looks well, dictates his letters and can write them from a copy, spells all the words in his reading lesson, if he think he can not learn the spelling, he will copy it on paper and take it to the play ground and learn it there, He is slow in numbers, yet he understands their meaning, can add, subtract multiply & Divide in simple numbers if he can have his time, knows the table to the sevens, knows all the numbers by name and makes them can, pick up any number of objects to ten, knows form can match them names seven knows. N. S. E. & West, Does good work in calisthenics, All kinds of busy work he does well assorts and names the colors, choice red, has never give me any trouble in school,

June 1902 10:30 to 12:15 A.M.

Haugan

Herman has been out of school the last two months. is at home now for the vacation Reads in the Taylor 1st Reader has done good work can spell all the words he has had writes a good hand builds the lessons with the Builder Has a better knowledge of number than almost any in the class does good oral work, know how to correct any mistake he makes, while he is does not always get the correct answer it is not guess work with him, His work in calisthenics is good never refuses to do any kind of work I ask of him. is very fond of all kinds of games like ball the best. Dictates his letters. reads the letter he gets from home, and with a little help can write his own letter never has given me any trouble in school. Know all the forms he sees around him tell the directions can be trusted to do an errand, talks so as to be understood,

June 1902 10:30 to 12:15 A.M.

Estrander

Bennie has worked well all the year and kept his interest to the last, he reads in the Taylor First Reader on page 68. reviewing with the class. has spelled all the words he has had, if Bennie learns he must work much harder than the rest of the class, he has not the power to keep his mind on one subject very long at one time so he really must do some good hard work if he kapt up with the class. which he has done. builds his lesson with the letters, which has been a great help to him. has improved very much in writing writes his lesson on the board very well. As very slow in number he must have the objects before him if he does any thing, know the names of the characters and makes them can pick up 8 objects and tell me how many quickly, knows the directions. N. S. E. W. Matches the colors, picks red, know four can match them. fond of games has done good work in calisthenics. I find that a great help to him in keeping him wide awake in what he does in other work He has not given me any trouble in school

June 1902. 10^30 to 12^15 A.M.

Parquett

Irene I think is more anxious to learn than any child in school she lacks understanding. she surely does apply herself. she reads in the Taylor First reader with the class on page 68, she has learned the letters by name and how to write them, write quite a good hand, he lesson on the board usually looks well she sometimes does not make the letter all right in a word but that is because she was not giving her attention to her work, she has spelled all the words in her lessons. Can write her name. Know the names of the number to ten, makes them, counts ten. She has done good work in calisthenics for her she does not like to exercise so much is not fond of games never cares to take any part in them, does he because she must assorts and names the colors likes Green the best, matches form. Has not given me any trouble in school

June 1902 10^30 to 12^15 A.M.

Rice

Mathew has only been in my school two months do not know what he has done through the year, he reads in the Taylor First Reader on page 68 with the class that are reviewing. write his name quite well can build the lesson with the builders, dictate his letters & spells all the words in the lessons, counts 100. by 2. has quite a little knowledge of the value of numbers. know the multiplication table to the sevens Does good oral work in simple work, he works quite well in the calisthenic drill. So very fond of games she cant work very well with any kind of busy work from the fact that he has only one hand to work with. Has assorted and named the colors choice purple. Department could be improved upon.

Smith

Burt has worked well all the year kept up his interest to the last. he is a child who is always busy at some kind of work, does not confine himself just to his reader as many want to is reviewing the Taylor First Reader with the class lesson on page 69 reads very well. know the

June 1902 10^{30} to 12^{15} A.M.

Spelling. write a good hand this lesson on the board is better done than any one in the class. I would not care to have him write better build his lesson quickly with the letters. Is slow in number must have his time. can not be rushed, can make the numbers to ten. recognizes 6 objects quickly Does good work in calisthenics. and all kinds of busy work he does well and quickly. Makes some very pretty designs with the wood tablets, assorts and names the colors. Choice Red. matches forms. knows directions N. S. E. W. dictates his letters to his friends Deportment usually very good.

Foote

Raymond Reads in the Werner Primer. he has finished the book with the class. I think he has done very good work for him may be he has done his best. he is not very attentive, can spell some of the words in the lessons. can build the lessons with the word builders. writes his lesson on the board or paper can

write his name very well. counts twenty knows the numbers by name to 10. If I hold up six object he can tell how many quickly. Has worked well in calisthenics, enjoys all kinds of game and like such busy work as making designs with the wood tablets has made some very pretty designs matches forms matches the colors names them choice orange Deportment good.

Fruchtman

Charlie is doing better work now than when he began in the fall Has finished the Werner Primer with the class, he can build his lesson with the letters. spells some of the words without the book, he works slowly, writes his name quite well counts twenty does not know much about numbers. Has done very good work in calisthenics. like all kinds of games and will take a part in them Assorts and names the colors orange is his choice. Has always been good in school and seemed contented.

June 1902 10^{30} to 12^{15} A.M.

Hodge

John Has been out of school much of the time the two last months. Came in to school in March. He reads with the class that has just finished the Werner Primer. He seems like a boy who might do good school work he can spell some of the words he has had read quite well does not know all the words. Can build his lesson with the letters writes his name well, counts 100, knows the characters by name when I hold up 8 objects he can tell how many quickly Does quite good work in calisthenics could do better. likes all kinds of game assorts and names the colors, chooses yellow He has not given me any trouble in school.

Rondenbredt

Rose has worked well all the year He has finished the Werner Primer with the class she builds her lesson well writes it. can spell the words with out the book never losses her place when the rest of the class is reading and can prompt them when any one comes to a word they do not know. arithmetic is quite often. Writes her name nicely

June 1902 10^{30} to 12^{15} A.M.

Does very simple number work with the number builders counts 16 knows the characters by name. Works well in calisthenics. assorts and names the colors, puts the nice pictures together. She likes to be busy. Has improved very much in all her work and kept up her interest to the very last. Deportment good.

Disdale

Charlie came in school in March He reads in the class with the children who have just finished the Werner Primer. reads quite well. spell nearly all the words without the book is quite bright in numbers does very good oral work does not guess know what he is doing. If I hold 1 2 3 4 5 or 6 objects he can tell me quickly He has done good work in calisthenics. writes his name well works in any kind of busy work. matches forms names & matches colors and names them. Red is his choice. I think he is a boy who will do good work in school he has been out quite a little the two last months He has never given me any trouble.

June 1902 10³⁰ to 12¹⁵ A.M.

Ypsilanti

Laura has only been in my school the two last months she has worked well succeeded in getting name in the North Star for good work Reads in the Werner Primer with the class that just finished it. reads very well spell her lesson many times without the book, takes her spelling on paper to the play room so as to be sure she will know it Write her lesson nicely can write her name. counts 50. Matches form names eight. done good work in calisthenics, assorts and names the colors. Blue is her choice like all kinds of games Has never given me any trouble in school.

June 1902 1³⁰ to 3 P.M.

Bombaeck

Fred has been in school since March has been out of school much of the time. he reads in the Werner Primer with the class that is just finishing the book for the first time reads quite well. builds the lesson quickly with the letters can spell some of the words without the book. counts 29. can make the numbers is not quick to understand them. puts simple sliced pictures together folds and cuts the paper strips from the kindergarten well, writes from a copy assorts and names the colors. Green is his choice. Department good

Beach

Oliver has been in school since March and much of that time he has been absent. He is not at all ambitious. Reads with the class that is just finishing the Werner Primer for the first time. he know many of the words but does not read well. can spell some words, can write his lesson. is quite good in oral number work know what he is doing when he stops to think, can pick up any number to test quickly. folds and cuts the paper strips, puts simple sliced pictures together can assort the colors not name them Red is his choice Department good.

June 1902 1:30 to 3. P. M.

Brady

John har improved a great deal since Sept. Har worked well and kept up his interest all the year. Reads in the Werner Primer with the class that is just finishing the book the first time he builds a good lesson with the word builders, writes the lesson on the board well. Has learned to write this year, if his hands did not shake so badly he would write a splendid hand can spell some of his words from the book. keeps the place while the rest of the class is reading, and will prompt any one who stops, to spell a word. Count 20. reads the number to 20 write them, can tell any number of objects to 6. quickly almost as soon as he sees them. Does his best in calisthenics never refuses to take the mats. puts any of the sliced pictures together, can fold and cut the paper strips nicely because of his hands shaking. knows the colors. likes Green the best Dictates his letters to his friends. Deportment good

June 1902 1:30 to 3. P. M.

Claflin

Richard Har not been in school

Eggler

Robert has been in school since march builds the lesson with the word builder reads in the Werner Primer with the class that is finishing the book for the first time, writes his name, plays his lesson from the book very nicely has a good idea of numbers counts 12. can make the numbers does not name the characters when written if I hold up 1 2 3 & 5 6. 7 & he will tell quickly what the number is. Does good work in calisthenics puts the sliced pictures together, dictates his letters accounts and names the colors. Reads his choice Deportment very good.

Hendricks

Wilber Has only been in school two months, and has been absent a week of that time, he has a very diffident manner, speaks very low, one must listen closely if they hear him at all, he is not a dull boy by any means, for all he appears to be. Reads in the Werner primer with the class that is finishing the book, he read well, knows all the words. and can spell any word in the lesson. can build the lesson with the letters. Write

June 1902 1:30 to 3. P. M.

his name nicely, can write the lesson, Does very well in calisthenics, he would do better if he was not so diffident, will not stand straight and look one in the face. folds and cuts the paper strips, Dictates his letters home and could write them from a copy if I had the time to give him assorts and names the colors Red is his choice. Knows the directions N. S. E. & W. Deportment good.

Hendrickson

Emma There is not a child in this class that has improved more than Emma. She has finished the Werner Primer for the first time. Builds her lesson, and can write it on the board write her full name. improved very much in her writing. She is rather slow in numbers. think she would get along better in that is she could hear better puts the sliced pictures together folds and cuts the paper strips, Dictates her letters, to her friends, assorts and names the colors Purple is her choice. Has done very good work in calisthenics. Deportment good tells the directions. N. S. E & West.

June 1902 1:30 to 3. P. M.

Hopps

Don Has done quite good work this year and kept up his interest to the last. Has finished the Werner Primer for the first time builds the lesson beautifully, can spell all the words in the lesson, the day he has it I do not think he will remember them all read very well write his full name also write his lesson from the book does it as well as I wish him to never makes any mistakes and when the work is all on the board it looks beautiful. Dictates his letters and can copy them. counts ten. does good oral work in numbers but must have his time can not be rushed. Does good work in calisthenics any kind of busy work he does well. Such as putting the sliced pictures together folding and cutting the paper strips for the kindergarty, assorts the, Purple is his choice Knows the direction north, east, south, west, can be trusted to do errands, Deportment always good,

June 1902 1st to 3d P. M.

Morrissey

Margret has been in school all this year. She has made some improvement, she has a affliction that will hinder her from ever being a child that any one would like to have around, and that also tends to make her timid and she does not do her best. She reads in the Werner Primer with the class that has just finished the book, she can build her lesson and write on the board, spell many of the words, has quite an idea of numbers is very good for her in oral work, know what she is talking about does not guess of course the work is simple, can add subtract multiply & divide put the sliced pictures together fold and cut the paper strips assorts the colors, likes red the best. Does very good work in calisthenics. Dictates her letters to her friends. Department good

Mapp.

Jamie I think will never do much in a literary way in school, he reads with the class that has finished the Werner Primer, I have allowed him to do this hoping in that way to get him to learn words

June 1902 1-30. to 3 P. M.

when he seer them in print, and I think it has helped him a little yet he is very apt to learn the word from hearing the over and over in the class and say them from memory, he can not read he is also in the chart class, he can build his lesson with the letters writes his full name. Dictates and and write his letter home from a copy. Can make the number well from a copy counts 18, does not know anything about the value of number can draw pictures on the board from one week to another if allowed to some of them are quite good to matches the colors, likes red the best, folds and cuts the paper strips. Puts the sliced pictures together Does very good work in the calisthenics Department good

Olson

Bennie Works well in school and improves I presume a little at any rate he has not gone back Reads in the Werner Primer with the class that has just taken the last lesson, he reads very well spells many of the words builds the lesson with the word builder nicely writes his full name also write his lesson either on the board

June 1902 130 to 3. P.M.

or paper writes a good hand any kind of work he does is done neatly, keeps his book clean can make the numbers. does not know much about that subject. from the fact he is so hard of hearing I can hardly make him understand me at all I am sure he never hears any thing that is said in the class. dictates his letters. Assorts the colors. puts away the sliced pictures together folds and cuts the paper strips Does very good work in calisthenics Deportment always good

Olson

Edwin is a boy who will never do any thing in school to amount to any thing, he reads in the class that has just finished the Werner primer he knows all the words, but I dont think they mean any thing to him. he can build his lesson with the letter when he really tries, but he is not at all careful, if he does not found the letter he wants he will substitute any letter, so than I am never sure he will have his lesson right. the same is true of his writing he will not be careful with his work

June 1902 130 to 3. P. M.

he can write if I stand beside him & dictates his letters. after he has waited about so long and he does not get an answer to his letter he will watch until he finds me in my school room after school and come in and insist upon me writing for him and refuses to leave the room until I have to give up and write the letter then he is happy it the only thing he show any interest in. know very little about numbers can put the sliced pictures together assort the colors, fold and cut the paper strips. His work in calisthenics is not good yet he always tries. Deportment good but any thing he does is done in good order.

Wright

Mabel Has done some good work through the year, she has been out of school quite a little and I think much of the time she has not felt well, has been out all this month, she reads in the Werner Primer with the class that has just take the last lesson, she builds her lesson well with the letters, and sometimes writes it, has improved in her writing, spelled all the

June 1902 1:30 to 3. P. M.

words in the lesson and read better than any one in the class her work in numbers is very simple. Done very good work in calisthenics; she puts the sliced pictures together folds and cuts the kindergarten paper. Dictates the few letters she has written. Deportment good.

Swanson

Ralph is in the chart class never until this month has he ever said a world alone in the class and several times he has reed a sentence which surprised me very much, he may never do it again, he does nothing else unless I help him folds and cuts the papers, but not well, sometimes he will succeed in putting some of the simple sliced pictures together His work in calisthenics is quite good she, tries at any rate, his is so diffident that he will hardly look at me His deportment is quite good.

June 1902 1:30 to 3. P. M.

Ekwall

Antone has been in school since March, he is quite a bright boy in some ways, is very original in what he says, has much better language than any one in his class and in a general way he knows more than any in the class. He reads on the chart with four other boys. before coming here he must have had some kind of school training for he wanted to call his reading lesson with the and I could see he had learned the words from memory and did not know the printed word, he has over come that quite a good deal and can read twelve lesson on the chart know nearly all the words & has improved quite a little. he tries to build his lesson with the letter but can't his hand shake so badly that when he tries to put one letter down he put all the others out of place, can not write for the same reason has tried to trace a copy. work in calisthenics is not good nor ever will be yet he tries and gets the exercises and change of work he know quite a little in numbers all oral work

June 1902 1:30 to 3 P.M.

of course I have not a child in school who will answer as quickly as he. he can add subtract divide & multiply in simple number understands the value of the numbers, he dictates his letters and knows just what he wants to say his letters are not at all like any other childs letter he is very anxious to get his name in the North Star. puts some of the sliced pictures together, can mate the colors. likes red the best. Has not given me much trouble in school.

Hanson

Andrew came in March. he he reads on the chart, builds his lesson nicely, and is quick about it, writes quite well from a copy, can write his name, well. know the word on the chart in twelve lessons, or has known them, he is rather diffident, does not articulate well, some words he can not say at all. he has only one hand that he uses, is also lame in one foot, so he can not do much in calisthenics, but tries, counts ten, matches the colors. likes red the best. Department quite good

June 1902 1:30 to 3 P.M.

Venske

August came in march he is quite deaf can hardly make him understand me, he has been in school before coming here. he write his letter in some foreign language and reads the ones he receives, never has spoken a word to me. can write his lesson in english over it very nicely writes his full name. likes to be busy, can put the sliced pictures together matches the colors. likes red the best. likes calisthenics. do the exercises very nicely never has given me any trouble in school.

Keiffer

Lyle Has only been in school twelve days I should judge he had never been in school before, seem like rather a bright child can use both hands is not lame talks well in english does not seem to know what to do in school, talks to me about his home on the farm the names of the cows, horses his dogs name is McKinley said their neighbor wanted it Bryan but he would not do it. I think he will learn in time, will help me find the letters when I am helping him build

June 1902 1:30 to 3 P. M.
he tries to learn in calisthen
ics and will do it all
right when he has had
a little more practice
He is a very good natured
child always in a good
humor.
