Oct. 4 Sept. 1902. 8 22/11 to 10 a.m.

Berndt

Emil has been in school since the first of Sept, he has done very little work of any kind. If I stand besid him while he is stringing the beads he will do what I tell him, as soon as I leave him he forgets all and put them on haphazard and any kind of work I have given him he has done in just the same way does not seem to have any application. His department is not good,

Eggersdorfer

Max has been in school since the first of Oct. Being deaf + dumb there is very little he can do in this school in a literary way. all the work I have given to do with his hand, he has taken up quite readily. Folds and cuts the paper strips for the kindergarten very nicely, can string the beads alternating with any number to four, takes the work in calisthenics well so far his department has been good.

Holmstrom

Herbert has been in school since the first of Sept. he really seems to be taking much more interest in the school work, He knows all the colors. folds the paper strips quite well and cuts them, can string the beads alternating one + one.

1902 8 30 to 10 a. m.

Oct + Sept From a copy he can write 1 + 2 s
the class has had seven lesson on
the reading chart and he has
given good attention, when we
were ready to leave the old lesson
he has known all the words, I
hardly think he is able to remember
them all yet. I think he is improv-
ing in calisthenics, he is very
inattentive and of course does
not always see the changes.
but I can see he is doing better
His deportment is quite good

Halvorsen
Emma has been in school since
the first of Sept. so far she has
done much better work than she
did at any time last year.
She strings the heads alternating
with one + one. 2 and 2 does it quickly
folds and cuts the paper strips
for the kindergarten well keeps
her work very neat. She is quite
interested in the lessons on the
reading chart has learned some
words. I am in hopes she will learn
to read before school closes this year
Writes quite well from a copy.
write her name + 1 2 3 4 5's Does
very good work in calisthenics
Deportment good.

Sept + Oct 1902 8 30 to 10 a. m.

Hilgerson
Dilla has been in school all the two
months, she will never do very good work
in a literary she has not the application
she strings heads alternating 1 and 1. but
has not yet been able to take 2 and 2. She
knows the colors. R. Y. O. G. B. P. by name
can assort them. can count 9. but if
asked to pick up nine sticks I don't
think she could do it. I am very
sure she could not do it readily.
she is folding and cutting the
paper strips for the kindergarten
quite well of course she must be
cautioned many time to be very careful
Her work on the reading chart is not
at all satisfactory. Deportment is
usually good Her work in calisthen-
ics not the best but I think is as good
as she can do.

Harding
Gladys has been in school all the
two months, she is always busy.
at some kind of work. she can
string the beads alternating with any
number to four does it quickly and
never makes a mistake. names all
the colors. R. Y. B. O. G. P. readily. Folds and
cuts the kindergarten papers nicely.
Know all the word on the reading
chart, in the lessons she has had
is learning to build her lesson
with the letters. counts 9. can write
1 2 3 4 5's. from a copy Does very good work
in calisthenics Deportment very good

Sept & Oct. 1902 8:30 to 10 A.M.

Johnson. Arthur has been in school since the first of Sept. So far he has not been interested in any thing. In stringing the beads he does it in early no boy has very little thought about it. The only thing he has shown the least interest in or tried to do is calisthenics, and that he will really try to do if I am careful to keep his attention. Does not give me any trouble in school.

Langan

Mamie there is nothing new I can say about this girl, she has been in school since school began. Does not give me any trouble.

Langdon

Sarah has not application enough to do any kind of work in any school. Does not give me any trouble. If she did it might be possible to reach her in some way.

McLaughlin

Daniel has been in school all of Oct. so far he has not shown that he can learn any thing, he says he wants to learn to read and for that reason he may learn after a while, any of the work I have given him seems new to him, he has very poor use of his hands and

1902 8:30 to 10 A.M.

Sept & Oct. it seems to me it is due to not using them enough. counts three, does not know how to use the scissors or to fold the strips of paper for the kindergarten, he seems always to have been petted a great deal has the actions of a child much younger than he is. He tries to do any thing I ask him. Deportment good.

Menard

Lily has been in school part of Sept. and all of this month. She does not talk so as to make herself understand, does not show any interest in any school work. In stringing the beads she only does it as it should be done while I stand by her and hold her attention for her. Some times she will fold the kindergarten papers quite well but can not depend upon her. does not know the colors, cannot count. can't write, Does not make any trouble in school, gives a little attention to calisthenics

Newville

Grace has been in school twelve days of this month. So far she has not shown that she can or is capable of learning. Does not talk has never had any school training she is quiet, and tries to do some thing I think may be she is more interested in calisthenics than any thing she has had. Has not given me any trouble.

Sept & Oct 1902 8:30 to 10 a.m.

Rinne Gilbert has been in school through Sept & Oct. His hearing is very defective only for that I think he would do good school work. he string the beads alternating one & one folds and cuts the kindergarten papers very nicely. writes from a copy a little can write 12345. so that one knows what he was trying to make counts fine. if I am careful to keep his attention in calisthenics he will do it well I think he does not like that work very well. can read any lesson he has had on the reading chart and can build his lesson with the letters from the primer. Does not give me any trouble in school.

Bozeman

Henry has been in school since Sept, he take quite a little interest in his work in school. String the beads 1+1. 2+2. Folds and cuts the paper strips for the Kindergarten does it neatly. counts 15. can write 12. writes his name from a copy so that one knows what he was trying to do. Reads the seven lessons the class has had on the chart tries to build his lesson with the letters. Does very good work in calisthenics & does not give one any trouble in school

Sept & Oct. 1902 8:30 to 10 a.m.

Roemer Dena has been in school through Sept. & Oct. She is quite interested in her work. She strings the beads alternating 1+1 2+2. does it quiely and without mistakes, Folds and cuts the paper strips for the Kindergarten, does it well and keep the work neatly on her desk, counts two, can not write. She sometimes reads very well and then another time she seems to have forgotten all she knew. Does very good work in calisthenics & does not give me any trouble in school

Smith

Raymond Has been in school through Sept. & Oct. he does not take any interest in anything not even calisthenics. when he string the beads he puts them on pist as his hands happens to pick them up, if I stand by him and insist upon his picking up the right color he will do it but only while I am by him Does not make any trouble in school

St. John

Willie Has been in school days so far I have not found that he can do any thing, tries to fold the kinder garte paper and cut them. will learn that, only takes calisthenics when he must. is not very quiet in school

Sept+Oct 1902 8:30 to 10 a.m.

Shull Irvin I can't say any more for Irvin than has been said He does very little in the literary work. Likes to be busy String the heads well and will help any boy who does not know how to do it. Any errand I want done in the school room he can do it and does it well, without any trouble & does not give me any trouble.

Swenson

Ralph has shown more interest in his school work so far than I have ever known him to. he seems anxious to learn to read and, will look at the chart while another child is reading. Can read quite well himself, while he does not remember all the words he has had he does remember quite a few, and seems so pleased to know that he can read just a little String the heads alternating 1+1. Folds and cuts the kindergarten papers well and keeps his work neat on the desk. counts ten. Does very good work in calisthenics. Likes to be busy Does any errand I want dont in the school room. quietly. Does not give me any trouble in school

Sept+Oct. 1902 8:30 to 10 a.m.

Wagner Dena Is is another girl who does not do very much work in school I think she does her best but it is not in her to be interested in any kind of work in my school work she can string heads alternating 1+1. if I am careful to remind her that she must watch she is doing. She folds and cuts the paper strips for the kindergarten and is learning to be very neat with her work. She comes to the Chart class but it is hard for her to remember the words sometimes she will read very well and maybe the next day she will not be able to say more than a word or two. She does quite good work in calisthenics Deportment good.

Sept. & Oct 10:30 to 12:15. a.M.

Braun

Annie has done good work in school since since the first of Sept. She reads on page 100 in. Natures Story Book can spell all the words without the book. writes her lesson on the board. can build the lesson with the letters in number she counts 100. knows 2's & 3's. in the multiplication table In writing she is improving Does good work in the calis thenics. Is always busy dictates her letters. can write them from a copy Deportment very good

Betcher

Sarah is doing very good work in school she reads on page 88 in the Taylor First reader she can spell the words in the lesson without the book if she is not bothered, her work in numbers is not very good. she is improving in writing. Does very good work in calisthenics. She builds or writes her lessons In numbers she can count 100 if she can take her time for it. Deportment always good.

Sept+Oct. 10[30] to 12[15] a m

Crichton

Willie Sometimes surprised me with having a very good lesson He reads on page 88 in the Taylor First Reader has spelled all the words without the book writes his lesson well on the board, writes all the numbers to twenty, counts 100. has a much better idea of the value of numbers than many of his class I think if he could speak his words so that he could be understood, he would do much better school work, when he can not make himself understood, he becomes discouraged and will not try. Can do good work in calisthenics, his deportment is very good

Ekwall

August has been in school a part of Sept. and all of Oct He reads on page 88 in the Taylor First Reader can spell all the words he has had readily, reads quite well, can not use his hands very well counts 100, know the, 2's 3's 4's and 5's of the multiplication table, In adding numbers from dictation he is very quick. His work in calisthenics is as good as he can do Deportment good.

Sept+Oct. 10[30] to 12[15] a.m.

Frischtman

Charlie has been in school since the first of Sept. so far he has been doing good work and I think is more interested than last year, he is just finishing the Werner Primer with his class he does not always spell all the words, but more than at any other time. can build his lesson with the letters. counts 20 in number. is improving in his writing, His work in calisthenics is very good. Does not give one any trouble in school.

Foote

Raymond was in school six days in Sept. and all of this month. He with his class is reading the last lesson in the Werner primer, he has spelled many of the words without the book, but I can not depend upon him some days he is better than others, can write his lesson very nicely, builds it with the letters. counts 100. is not quick to add numbers but can do it, He is improving in writing Does very good work in calisthenics, He is not a boy who will sit and not do any thing. and I think he is doing as well as he can. Does not give me any trouble.

Sept & Oct. 10 30 to 12 15 a.m.

Gorham

Angelina Has been in school since it opened in Sept. she has done good work in her reading and spelling, she has had the best lessons of any in the class and worked to do it too. She can build her lesson with the letters or write it on the board, In numbers she counts 100, is quite good in adding no: when given to the class orally Reads numbers to twenty. She is quite neat with her work. Is taking quite a little care with her writing. Does good work in calisthenics. Deportment good.

Hodge

Johnnie was in school when it opened in Sept, and has been in all this month. I think he is capable of doing very good school work, but he seems to be lazy and does not have the ambition I wish he had, he reads in the the Werner Primer on the last page when he tries he has his spelling lesson good, can build the lesson with the letters, In numbers he counts 100, and says the 2s in the multitication table. does very good work in calisthenics. Deportment very good.

Sept & Oct. 10 30 to 12 15 A. M.

Haack

Gustav Has been in school since it opened, he is doing good work. Reads on page 8 in the Taylor First Reader. has spelled all the words in the spelling lesson, writes his lesson well, can build the lesson with the letters, he of course, like all the class, is slow and must work if he has his lesson. I am sure he tries, Has learned the 2s 3s and 4s in the multiplication table count 100: reads numbers 20. Writes well and is very careful of his copy book Does good work in calisthenics. Never gives me any trouble in school

Ostrander

Bennie Has been in school all the two months he has worked well and his work shows it. He reads with the class on page 38 in the Taylor First Reader, can build his lesson with the letter, or write it on the board, he is trying to be careful with his writing in his copybook, in numbers he can count one hundred. Is slow in adding numbers. He is doing good work in calisthenics. Never gives me any trouble in school

Sept & Oct. 10 30 to 12 15 A.M.

Pelow

Pearl was in school eight days in Sept. and all of this month. she has been in school before coming here. Reads in the Nature's Story Book on page 100. spell all the words in the lesson, reads very well. Writes a good hand counts 100. knows the 2s in the multiplication table, in oral addition she is slow but can do it, does very good work in calisthenics, Has not given me any trouble in school.

Parquett

Irene has been in school all the time since school opened in Sept. She reads in the Taylor First Reade on pade 100, with the class. She has worked hard with her spelling and has spelled all the words she has had, she counts ten in numbers, and can write them from a copy, She is doing her best with her writing in the copybook, she does quite good work in calisthenics and the last month has improved in her deportment dictates her letters and writes them a copy.

Sept & Oct. 10 30 to 12 15 A.M.

Padden

Jessie was in school through Sept. and was absent seven days this month. She reads in the Nature's Story Book on page 100 she has done good work in reading and spelling, always know her words and can write them on the board as quickly as any one, she is not fond of number she counts one hundred knows the 2s in the multiplication table, she is trying to improve in her writing and I think she will succeed. Does very good work in calisthenics. Dictates her letters and writes them from the copy Deportment good.

Remsburg

Eddie has been in school from the first of Sept. he does good work in his reading and spelling. Reads on page 100 in the Nature Story Book. never misses a word in spelling if he has had the time to look the lesson over writes the lesson on the board the counts 100 or more reads and writes any number to the hundreds, know the multiplication table to the 6s. and is quite good in oral addition Work in calisthenics is good, dictates his letter and writes them from the copy. Deportment good.

Sept & Oct. 10[30] to 12[15] A. M.

Rice

Nathan has been in school since the first of Sept. He is doing very good work in Reading + spelling Reads in the Werner 1st Reader on page 88. has spelled all the words in the lesson he has had, can write the lesson on the board, he seems to like numbers work very much, I have found if he works very hard at it that he will have 4 pass's so I do not ask him to do any thing more than he wants to do! he can count 100. and does good work in oral addition, Has done very good work in calisthenics Department in school is never very good

Rondestuedt

Rosa has been in school all this month + Sept. she works well. reads in the Werner Primer on page on the last page in the book, She knows the spelling + reading the best of any of the class. her number work is not very good she counts 25 can make the numbers from a copy she is trying to improve in her writing. Dictates her letters. Does very good work in calisthenics Department good.

Sept. Oct. 10[30] to 12[15] a. m.

Simenberg

Annie Has only been in school a few days and when she was in did not feel able to work.

Smith

Burt has been in school all the two months. He is doing good work. Reads on page 88 in the Werner 1st Reader can spell all the words in the lesson and reads very well. write his lesson on the board well and can build it quickly with the letters. he counts 100 can make any of the numbers from a copy is writing well in his copybook Does good work in calisthenics. Dictates his letters to his friends. and can copy them with help. Deportment good

Tisdale

Charlie has been in school since the first of Sept. is doing quite good work in Reading + spelling. Reads on the last page of the Taylor First Reader. he is not so industrious as many in the class. can build his lesson with the letters or write it on the board. Counts 100. can say the 2s in the multiplication table writes quite well in the copybook Does very good work in calisthenics Deportment quite good

Sept & Oct, 10 8d to 12 15 A. M.
Gould

Laura has been in school the two months. She is doing her best in school, she learns very slowly but that is her misfortune for she really does try she reads on page 111 in the Werner Primer can or rather has spelled all the words she has had, she is so anxious to learn that she will copy her spelling and take it to the play room and learn it. She can build her lesson with the letters or write it on the board. In number she does not do much, counts 30. She is trying hard to have a nice copy book and to write well. Her work in calisthenics is good Deportment good.

Sept & Oct. 1:30 to 3. P.M.

Bomback

Fred has been in school all the two months. he is doing quite good work Reads on page 45 in the Werner Primer, can read the print & script builds the lesson with the letters. also reads seven lesson on the chart, Does very good work in calisthenics, writes a little from a copy one can read what he has written sometimes I think he will improve in his penmanship. dictates his letter to his friends. Deportment usually very good

Beach

Oliver has been in school all the two months, he is not very industrious, if he was I am sure he could do quite a little he reads in the Werner Primer on page 45. can build his lesson with the letter, but does not like to, Does not read as well as some of the others in the class, Writes a very good hand dictates his letters to his friends. Does very good work in Arab numbers. His work in calisthenics is very good. Deportment quite good.

Sept & Oct. 1:30 to 3 P.M.

Blake

Alice has only been in school a few days. she can spell her name, Takes calisthenics quite well, has not done any kind of school work. Deportment good

Claflin

Richard was in school six days in September and all of this mo. Reads in the Werner Primer on Page 45. he does not know all the letters, know the words better is learning the letters from build the lesson with them, he is very slow about reading, but I think he will learn if he stays in school any kind of occupation work, he has to do is done well folds and cuts the Kindergarten papers well could not be done better. does the work in calisthenics well Dictates a good letter knows just what he wants to say Deportment good, can write his name from a copy

Eggler

Robert has been in school all the month also Sept. has done quite good work. he reads on the chart and in the Werner primer on page 45. Builds his lessons with the letters and is learning to read. can read

Sept+ Oct. 1st to 3 P.M.

Eggler
seven lessons on the chart Folds and cuts the kindergarten paper quite well. Does good work in calisthenics Dictates a good letter Likes to do the errands in the school Deportment quite good, Writes his name.

Haagenson
Hanna Has only been in school a few days I have not learned yet what she can do. she has been in school before coming here. Can write her name from a copy Takes calisthenics quite well. I am in hopes she will learn Deportment good

Hendrickson
Emma was in school all of Sept. and six days of this month, she is doing good work, she can build her lesson with the letters and knows the letter is learning to spell her words without the book, can write a little but not well Does very good work in calisthenics. Deportment good

Hopps
Don has been in school all the two months, he is doing good work, reads in the Werner primer on page 45 can

Sept+ Oct. 1st to 3 P.M.
read better than almost any one in the class. builds his lesson with the letters and can write it beautiful on the board can spell many of the words without the book. folds and cuts the strips for the kindergarten does it well keeps his work in order, He does good work in the calisthenics. His deportment is good.

Hanson
Andrew Has been in school all the two months. He is taking much more interest in school this year than last. if I can only help him to keep up his interest, he may learn quite a little He can build his lesson with the letters quickly and nicely. writes from a copy. writes his name without a copy. Has only one hand to work with, so it is very hard for him to do many things we do in school, take the drill in calisthenics quite well. Reads in the Werner Primer and on the chart, there are some words he cannot say at all, and that makes him rather dislike to try to read at all, but I can see that he is overcoming that quite a good deal. Deportment very good.

Sept & Oct. 1st to 3 P. M.

Haverson

Albert has been in school all the two months. he reads seven lessons on the chart and on page 45 in the Werners Primer. can build his lesson with the letters very nicely and can copy the script quite well so that it can be read. He does very good work in the ~~calisthenics~~ calisthenics He is fond of ball and tenpins. Deportment good.

Joslin

Clara has been in school all the two months She reads on the chart and in the Werner Primer, can build her lesson with the letters does not always have just the right letters but if shown her mistake she will correct it. can read the script & print in her lesson writes her name from a copy quite well, she is very slow with all her work. she takes the work in calisthenics. not just as I would like, but she does the best she can, Deportment good

Sept & Oct 1st to 3. P. M.

Kiefer

Doyle has been in school all the two months. he is a child who is quite happy to just sit, and not do any thing. I hardly know what to do with him he can read on the chart knows many of the words, and seems to be a child who could learn, but so far he has not accomplished very much, he can build his lesson if I sit by and tell him what letter I want, but when I go he stops work. He takes the exercise in calisthenics after a fashion. Deportment good.

Morrissey

Margret has been in school all the two months. she reads in the Werner Primer on page 45 can spell her words and build the lesson, sometimes she is a little careless and does not get the right letter, but if shown her mistake she will get the letter. she does not talk plain, there are many words she cannot say. and for that reason. I think she does not like to read so she can be heard Does quite good work in calisthenics Deportment good

Sept & Oct. 1[30] to 3. P.M.

Mapp

Lonie has been in school the two months. I think he is taking more interest in his literary work than last year, Builds his lesson with the letters and can write it on the board, writes a good hand, Reads in the Werner Primer on Page 45. Does good work in calisthenics. Likes to do the errands in the school room. Has quite a taste for drawing will take a picture of an engine and copy is almost perfect on the board & deportment usually good

Pederson

John has been in school all this month has done no work at all, seems to have not the least idea of what it is to try to learn the school work, he did not make any disturbance and was rather a pleasant boy.

Swise

Matilda has just been admited

Sept. & Oct. 1[30] to 3 P.M.

Sigurdson

Sigurd has been in school all this month he of course does not do much literary work. but any thing he does with his hands, is well done, can build any lesson from the book, assort the letters know them all in form, he folds the Kindergarten papers and cuts them beautiful. writes his name. Takes calisthenics well likes to be busy. never gives me any trouble in school.

Wallace

Julia Has just been admited

Wright

Mabel has been in school all this month & Sept. she reads in the Werner Primer on page 45 knows all the words and can spell them. builds her lesson with the letters nicely. can write the lesson, but not as well as many others in the class. she spells the words of the lesson. Does very good work in calisthenics. Deportment good. Dictates the letters she wishes to have written.

Nov. 1902 8:30 to 10 a m

May

Eggerton does good work with his hands, can write from a copy, and assorts the colors, string the beads by 1st 2d 3d and 4th, does it quickly and without help, can put the sheed pieces together readily, folds & cuts the kindergarten papers and can weave the mats over one and under one. likes to have some kind of work to do does very good work in calisthenics, Deportment good.

Holstrom

Hurbut has not learned yet to keep his mind on one thing long enough to learn very fast, but I thinks he is overcoming that diffienty some he can string the beads, alternating with one or two beads using two colors and can put the very simple sheed pictures together, folds and cuts the kindergarten papers quite nicely write a little from a copy, his work in calisthenics is not the best, because of his not giving his attention Deportment is usually good

Halverson

Emma is more interested in her school work than she was last year She shows quite an interest in reading, while she knows only a few words yet, She wants to learn and will try, I am in hopes the

Nov. 1902 will be able to read quite a little in time, she strings the beads quickly alternating with 1-2 & 3. assorts the colors folds and cuts the papers for the kindergarten puts the sliced pictures together, does good work in calisthenics writes a little she does not have to be urged all the time, to get her to work. Department good

Hilgerson

Lila will never do much work in school she does not have the mind for it, when I stand by her and help her she will work quite well, work in the calisthenics is never well done Department very good

Johnson

Arthur in stringing the beads he will string all of one color but never alternating them, he never seems to be interested in in any thing, some times he will try to help Raymond Dimbt with calisthenics, Does not give me any trouble in school

Larson

Adena has not been in school enough to take any interest in any thing, can string the beads with a little help, and put the simple sliced pictures together Department good.

Nov. 1902 8:20 to 10 A. M.

Langan

Mamie does not seem to improve very much some times she will read quite well on the chart then again she will not know any thing she put some of the simple pictures together assorts and names the colors can string the beads alternating and she does not make any trouble in school

Langdon

Sarah can string the beads alternating with one red one and one orange and will put some of the simple pictures together, none of her work can be depended upon, she just can not give her attention more than a second at a time, her work in calisthenics is good Department good,

Menard

Lila so far has not shown much interest in the school work, does not string the beads well unless I sit beside her can put the simple sliced pictures together, she is new in school and may do better after a while, Department quite good,

McLaughlin

Dannie can string the beads alternating with 1-2 and 3 and does it quickly, folds and cuts the kindergarten paper very good

1902 Nov. 8 30 to 10 A.M.

can assort the colors, does not name them, she seems anxious to learn, but never has been taught so does not know how to apply himself, maye in time he will learn to read, time will tell, can put some of the sliced pictures together, the first time he tried he put the horse together His department is good,

Newvil

Grace does not speak her words plainly and may she can not say at all, and for that reason it hard to find out just what she can do, she know that it is hard to make herself understood and so will not try. any kind of work she does with her hands she does very nicely, folds and cuts the kindergarten papers as well as any child in the class puts the sliced pictures together easily strings the beads alternating with 3 red and 3 yellow beads, can take the work in calisthenics well, never gives one any trouble in school

Rine

Gilbert can read the fourth lesson on the chart, that is he knows the words this in reviewing the six lessons he has had, & strings the beads alternating with three red

and three yellow beads assorts and names the colors, Puts the sliced pictures together, folds and cuts the kindergarten papers, writes a little from a copy Is not very good in calisthenics. Department good,

Rossman

Henry knows all the words in the review lesson on the chart, fourth lesson, writes a little from a copy, can put some of the sliced pictures together strings the beads alternating with three red and three yellow beads, assorts the colors. folds and cuts the kindergarten papers, his work in the calisthenics is not good, but I think may be does his best, Does not give me any trouble in school,

Dena

Roemer will never do very much in the literary work, but now she is doing very good work in what she does with her hands She can string the beads alternating with three red beads and three yellow beads, does it quickly & without any help, puts the simple sliced pictures together assorts the colors red, yellow, blue, orange, green & purple, and takes the drill in calisthenics very nicely, Does not give me any trouble in school,

Nov 1902 8:30 to 10 A.M.

Smith

Raymond will not do any kind of work except while I help him, has no ambition will not even try to take the calisthenics, does not give me any trouble in school

St. John

Willie is quite contented to just sit and do nothing he can assort the beads, when I give him two colors to string he will string all of one color but will not alternate them one and any of the other work he as yet has not shown the least interest in, never takes calisthenics willingly, he of course does not make any disturbance in school, there would be more hope for him if he did,

Shull

Erin any kind of hand work Erin has to do he does well and quickly strings the beads alternating 4 + 4. puts any of the sliced pictures together, cuts the kindergarten papers, nicely, counts the circles and any help I grant in the school room he can do it. Does not give me any trouble in school

Nov. 1902 8:30 to 10 A.M.

Swansen

Ralph I can't see that Ralph has made any improvement sometimes he can string the beads and alternate 1 + 1. but I can not depend upon him. can fold and cut the kindergarten paper and can do that much better, can put some of the sliced pictures together, is careless in his work in calisthenics, sometimes I think he will learn to read and just when I begin to be sure of it he comes to class and will not know one words. does not give me any trouble in school

Wagner

Lena can string the beads alternating 1 + 1, but so far I have not succeeded in getting her to change to 2 + 2 she has learned to fold and cut the kindergarten paper well and to keep her work in good shape on her desk, can put the simple pictures together her work in calisthenics is not good but she gets the exercise, she does not give me any trouble in school.

Nov. 1902 10:30 to 12:15 A.M.

Braun

Annie has worked hard in her reading and spelling, she reads on page 120 in Natures Story Book she can write her spelling on the board but does it slowly, very seldom misses a word, reads slowly, can build her lesson with the letters, she is improving in her penmanship and is very anxious to write her letters so her friends can read them, she can say the tones in the multiplication table, but she will never do much in number, does good work in cal isthenics Is a good girl in school,

Ketcher

Sarah learns slowly but she really tries she reades on page 105 in the Taylor First Reader she has spelled all the words in the lessons to slow in both her reading & spelling, she stutters & of course that is one reason for that, she builds her lessons or writes them, she is improving in her penmanship and is careful with her copybook, does very good work in calisthenics does not make any trouble in school,

Nov 1902 10:30 to 12:15 A.M.

Crichton

Willie can do good work if he will, but he does not always will to pleasently, his reads on page 105 in the Taylor First Reader has spelled all the words in the lessons, can build his lesson and writes it on the board beautifully, when we have oral number work he is as good as any in the class of course all that kind of work is quite simple, he is not a child that likes to work he does very good work in calisthenics dictates his letter and writes them from a copy Department is not always good.

Ekwall

August the work he can do he does very well, he reads on page 105 in the Taylor First Reader he has the best lessons of any in the class never misses his speling and says his words quickly it does not take him five minutes to spell one word he does not read well, that is he reads in one tone, but he knows what he is reading about, in oral number he is the best in the class, his work in calisthenics is as good as he can do it Department good.

Nov. 1902 10:30 to 12:15

Fruehtman

Charlie is trying harder to learn than he ever has this class is reviewing the Werner Primer they are on page 54 he knows the letters and can spell all the words in the lessons he has had, he is very slow but manages to keep up with the class, builds his lesson with the letters, writes in the copy book and is improving, is doing very good work in calisthenics Department good

Foote

Raymond I think is doing better work than last month, he is reviewing the Werner Primer reads on page 54, he is very slow, but has spelled all the words in the lessons he has had, builds the lessons knows the letters by name, writes in a copy book and is improving any kind of hand work he does in school he does well his work in calisthenics is very good, dictates his letters to his mother and father Department good

Gorham

Angeline is working hard she reads on page 105 in the Taylor First Reader, she always has her lesson never has to take her spelling over, but

Nov. 1902 10³⁰ to 12¹⁵ A. M.

often does because the most of the class has to take the lesson again, she can write her spelling, or build it with the letters, She has improved in her penmanship and is careful with her copy book, In number she can add any numbe so that the columns are not too long carries tens and is very quick about it, she is quite good in oral number too, does good work in calisthenics. Deportment good,

Hodgel

Johnnie has done very good work this month he is reviewing the Werner Primer with the class reads on 54. knows all the letters by name and can build the lesson with the letters, spell all the words he has had, he is not very ambitious. Writes in a copy book and is doing very good work, his work in calisthenics is very good, he does very good work in any kind of busy work this mo. he has helped to make tags for the store, know how to use his hands Dictates his letters Deportment good.

Nov. 1902 10³⁰ to 12¹⁵ A. M.

Haack

Gustav is doing good work he is busy all the time, of course he learns slowly reads on Page 105 in the Taylor First Reader, has spelled all the words but sometimes he found it hard but is always willing to keep at it until he has learned to spell each word reads slowly, but know what he is reading, writes his lesson well on the board. Does good work in calisthenics and any kind of hand work he has in school he does well this month he helped with the tags for the store, Dictates his letters Is careful with his work Deportment good

Astrander

Bennie has worked well this month. Reads on page 105 in the Taylor First Reader, builds his lesson with the letters has not missed his spelling once reads quite well. Is improving in his writing and is keeping his copy book in quite good shape for him, he has been out a few days helping in some other department, Does good work in calisthenics Deportment good.

Nov. 1902 10^{30} to 12^{15} A.M.

Pelow

Pearl has done very good work this month, she reads in the Natures Story Book on page 120 She can write her lesson on the board or build it with the letters, she knows her spelling every day, reads very well and can tell the lesson story, she write in a copybook and is improving in her penmanship her work in numbers is not very good, she say the 2s in the multiplication table, but not well Does very good work in calisthenics & Department good

Parquett

Irene is slow but she has done as good work this mo. as she ever has, she reads on page 105 in the Taylor First Reader Has spelled all the words and now she knows all her letters writes her lesson, or builds it with the letters, she is improving in her penmanship. Dictates her letters and writes them from a copy, does not do as well in calisthenics as many in the class, Has improved in her deportment.

Nov. 1902. 10^{30} to 12^{15} A.M.

Padden

Jessie has worked well in school she reads in the Nature's Story Book on page 120 she always has her spelling lesson, it the exception if she ever misses a word, she does not read so well, but understands what she is reading and can tell the lesson story writes her spelling on the board as quickly as any one, her work in numbers is not good, she knows the 4s in the multiplication table but not well. writes in a copy book and is improving a little in her penmanship Does very good work in calisthenics. Department good

Ramsey

Eddie has been out of school about half of this month, he does good work in some things Reads on page 120 in Natures Story Book always knows his lesson, can write his spelling on the board as quickly as any one and, writes a much better hand than any one in the class, He can learn the multiplication table, but to say he knows numbers would be saying something he will never know, Dictates and writes his letters from a copy does good work in calisthenics. Department good.

Nov. 1902 10³⁰ to 12¹⁵ A.M.

Rice

Nathan is doing quite well in school, Reads in the Taylor First Reader on page 105 always has his lesson, it takes him so long to spell his word that I wonder if I will always have the patients to wait on him who my time is so short with the class he understands what he reads he would do quite well in numbers if it did not hurt him to think very hard. Dictates his letter and writes them from a copy is not at all neat with his writing Deportment never very good

Randerbrandt

Rosa works well in school she reads on page 54 in the Werner Primer (revised) she can spell all the words in the lessons she has had builds the lessons and can write it, she writes in the copy book, is improving in her penmanship, & does good work in calisthenics, dictates her letters Deportment good

Dunenburg

Annie Has not been in school but a few days

Nov. 1902 10³⁰ to 12¹⁵ A.M.

Smith

Burt has done good work this month, Reads on page 105 in the Taylor First Reader, always knows his lesson if he has had time to study it, write a good lesson on the board, does good work in calisthenics, write well in the copybook Dictates his letters and copies them when he has any kind of busy work he does it well, this month he helped make tags for the store Deportment usually good

Tisdale

Charley has not been in school much this month

Ypsilanti

Laura works hard in school but gets along very slowly I have not another girl in the class who is more anxious to learn, reads in the Werner Primer on page 54 but she finds it hard to keep up, she write quite well in the copybook, does good work in calisthenics Deportment good Dictates her letters.

Sherman

Hazel Has only been in school a day or two.

Nov. 1902 1:30 to 3 P.M.

Bomback

Fred I think is doing as much as he can, he reads in the Werner Primer on page 51 knows all the the letters and spells his words on the book and most of them off the book. builds his lessons with the words and keeps his work nice Writes quite well, Does good work in calisthenics, dictates his letter to his friends, Deportment good.

Beach

Aliner Has not been in school many days this month.

Blake

Alice I do not know what to say of Alice she comes to the class but so far she has not learned any thing she will sit all the session and never do anything on building the lesson she does not seem to see that one a looks just like another, She can count 29, Does quite good work in calisthenics, & Deportment good

Claflin

Richard Has not been in school very much this month.

Nov. 1902 1:30 to 3 P. M.

Eggler

Robert is not very anxious to learn, I am sure he could do much better than he does if he would only use a little will. reads on page 51. in the Werner Primer. can build his lesson with the letters know nearly all the letters by name and can spell some words off the book. does not read well. Does good work in calisthenics counts 24. writes quite well from a copy. Deportment not good

Haagenson

Hanna is doing very good work in school, she has ambition enough to want to do something, and if she can not do the thing she is asked she will try some other work. she can build her words with the letters. know some of the letters by name, does not read, knows some of the words. can count 100 and can give me any number of objects to ten does quite good work in calisthenics. does not give me any trouble in school,

Nov. 1902 1:30 to 3. P.M.

Hendrickson

Emma has worked well in school she reads on page 51 in the Werner Primer. know all the letters and words can spell the words in the lesson (review) builds her lesson with the letters, write very well she is busy all the time and is improving, work in calisthenics is quite well done, does not give me any trouble in school

Hoffs

Don has worked all right in school reads in Werner Primer on page 51 (reviewing) writes his lesson on the board beautifully, knows all the words and the letters by name builds the lesson in a very short time is careful with any thing he does Does good work in calisthenics Any kind of busy work he has is always well done, never gives me any trouble in school.

Hanson

Andrew is more interested in his work than at any other time he reads on the chart, and with the class in the Werner Primer, does not know all the words in the Primer but learns some every day can spell some of the words without the book Does very good work in calisthenics, Does not give me any trouble in school

Nov. 1902 1st to 3 P.M.

Hoversen

Albert is working very well in school this month, reads on page 51 in the Werner Primer, know the letters by name, can build the lesson with the letters and reads quite well I think he will do something in school work, his work in calisthenics is very good can write his lesson on the board Does not give me any trouble in school

Joslin

Clara Does about the same work as last mo she can build her lesson with the letters and reads very well writes a little work in calisthenics is as good as she can do which is not very well. Dictates her letter to her father. Deportment good

Kuper

Lyle is reading on the chart to day he knew twelve words I am sure he is improving a little and may do something yet. counts ten, the work he does with his hands is nicely done, this mo. the boys have been making toys for the store, he can put the strings in quickly and likes it does quite well in calisthenics does not give me any trouble in school

1902 Nov. 1st to 3 P.M.

Morrisey

Margret reads on page 51 in the Werner Primer, know all the words and can spell them, she is very unsatisfactory. she speaks so indistinct that one can hardly hear what she says writes and builds her lesson very well counts ten, does quite good work in calisthenics, does not give me any trouble in school

Mapp

Tomie I think he does his best in school, which is not very much he is reviewing the werner primer with the class reads on page 51. know the letters by name can build the lesson with the letters does not read well, spells his words. writes the lesson on the board well does quite well in calisthenics Deportment good

O'Toole

Margaret has only been in school this month. she seems like a girl who might learn quite a little she. Reads on page 51 with the class that is reviewing the book and she is better than many in the class can build her lesson and writes a little spells her words without the book does very good work in calisthenics counts ten, does not give me any trouble in school

Nov. 1902 1:30 to 3 P M

Pedeeson

John has not been in school enough this month to do a thing

Sigvardson

Sigvard works well with his hands, any kind of work he has done for me is well done, in making the tags for the store, he ruled the card board and cut them out as well I could have done it. does good work in calisthenics. Does not give me any trouble in school

Swiss

Matilda so far she has not learned much in the literary work, but any thing she does with her hands is so well done, with her one hand she will fold and cut the papers for the kindergarten as well as I can my self keep her work nicely she has never had any chance and I hope in time she will do good school work does her best in calisthenics. does not give me any trouble in school

Nov. 1902 1:30 to 3. P. M.

Wallace

Julia has done very little work she does not know how to take hold of any kind of school work so far, she will fold and cut the kindergarten paper quite well but that is all, she trips in calisthenics and will learn maybe Does not give me any trouble in school.

Wright

Mabel has worked the reading page 51 in the Werner Primer with the class that is reciving, she can build, and write the lesson better than any one in the class. spells all the words without the book, know all the letters and number by name, writes quite well I think she has improved a little in her writing, she has a better understanding of Numbers than any in the class. Does good work in calisthenics Does not give me any trouble in school

Dec. 1902 8:30 to 10 A.M.

Bennett

Emil Has not been in school this month,

Eggerton

May Has not been in school this month,

Harding

Gladis Has worked well this month does such work as cutting kindergarten papers for the daisy chains. cutting the snow paper in fact Almost any kind of hand work that I give her in school she does very well does coarse work best, Reads on the chart will learn to read the lesson on the chart before any of the other in the class, has done very much the same work as last month. Department good has been in school 14 days this mo.

Halverson

Emma Has been in school 15 days this month she worked well and is quite interested in the work she can string the beads 3 + 3 does it without help folds and cuts the kindergarten paper for the daisy chains is very careful with her work and keeps it in good order, Is learning to write and know many words on the chart, does good work in calisthenics, department good.

Dec. 1902 8 30/11 to ten A.M.

Halmstrom

Herbert has been in school sixteen day this month, he has done as well as he did last month he learns so slowly that I do not find much to report in two weeks folds and cuts the paper for the kindergarten daisy chains and is learning to keep his work in quite good order. he is such an inattentive child that I find it very hard to teach him any thing. He does quite good work in calisthenics. Deportment quite go

Hilgerson

Lila has been in school sixteen days this month, she has not made any marked improvement, yet she does not go back. she has folded the kindergarten papers better and kept her work in better shape than she has ever done. She will never do very much with literary work, her work in calisthenics is not good but I think she does her best. deportment very good,

Johnson

Arthur does very little school work sometimes he will try to do the simple work I give him, he tries to take the work in calisthenics. but it is never very well done Has been in school 16 days this mo, does not give me any trouble in school.

Dec. 1902 8 30 to 10 A.M.

Langan

Mamie has only been in school ten days this month has made no improvement.

Langdon

Sarah has been in school sixteen days this month she does very little work of any kind independently. her work in calisthenics is as far well done as she can do. her deportment is quite good,

McLaughlin

Dan has been in school fifteen days this month. he has not been well much of the time and has taken very little interest in his school work, he knows a few words on the charts, can dictate his letters to his people, takes the work in calisthenics quite well, that is he tries Deportment quite good,

Menard

Lila has been in school sixteen days this month, so far she has taken very little interest in any kind of school work, does not do any thing independently, has not learned to talk yet, does not always remember to come in to the school room when she should Deportment not bad.

Dec. 1902 8:30 to 10 A.M.

Newille

Grace Has been in school 14 days this month, she has the ambition to learn, but she can not say many words, and that is much against her for she will not do her best in the class, any kind of work she does with her hands is well done, folds and cuts the paper strips for the kindergarten nicely and quickly. Is not sluggish. Does good work in calisthenics & deportment good

Rine

Gilbert Has been in school 16. days this month he is doing very good work for a child who is so deaf as he, He knows the words in the six lessons he has had on the chart, does not read with any expression assorts the colors quickly, folds and cuts the strips for the kindergarten keeps his work in good shape and does it well, writes a little counts 5, can make the number to 5, strings the beads 14, works quite well in the calisthenics, Deportment is good.

Dec. 1902 8:30 to 10 A.M.

Rossman

Henry Has been in school thirteen days this month, he is rather a sluggish child, yet he does quite good work, knows all the words in the six lessons he has had, on the chart reads as well or better than any one in the class, he can write a few words, assorts the colors counts fifteen. can string the beads alternating three & three puts the sliced pictures together, (simple ones) does very good work in calisthenics deportment good.

Roemer

Dena has been in school as much as any of the children this month, She has done good work with her hands, folds and cuts the paper strips for the daisy chains & does it quickly and very accurate, uses the scissors well string the beads alternating with fours, seldom make a mistake can put the simple pictures together assorts the colors, and is a child who likes to be busy, does not like literary work very well, that is she can not learn words very readily does good work in calisthenics, deportment good.

Smith

Raymond does not improve any.

Dec. 1902 8:30 to 10 A.M.

St John

William Har not been in school this

Shull

Erwin works just as he wants to is usually busy and does not make any trouble in school

Swanson

Ralph has been in school 14 days this month he did very much the same work that he did last month, has learned to fold and cut the paper strips for the Kindergarten nicely strings the beads alternating one & one cut the paper sirkus for the stage, assorts the color puts the simple pictures together does quite good work in calisthenics. Deportment good

Waggoner

Lena Strings the beads 1+1 2+2 can put some of the simp pictures together and assort the colors, fold and cuts the kindergarten papers very nice takes the drill in calisthenics quite well Deportment good

Dec. 1902 8:30 to 10 A.M.

Clara

Weflin has only been in school a short time, she seems like a girl who would learn when she has learned the language.

Dec. 1902. 10.30 to 12.15 A.M.

Braun

Annie reads on page 136 in Natures Story Book, she has spelled all the words in the lessons she has had, can build the lesson with the letters, and write it on the board, she is improving in her writing and has done good work all the month. she has had school work 14 days can build her number work into the numbers, but is very slow. Has done good work in Calisthenics Deportment good, she is one of the girls who did the best work this month.

Betcher

Sarah reads on page 110 in the Taylor 1st Reader she has spelled all the words and reed the lesson writes her lesson very nicely and is improving in writing, has tried hard to keep up with the class, she does very good work in calisthenics, work in number is not very good, she dictates her letter to her friends, she is anxious to learn. does good work in calisthenics Deportment good, has been in School 13. days.

Dec. 1902 10.30 to 12.15 A.M.

Crichton

Willie works well by spells, some times he will surprise me by having his lesson very good, then may be the next day he will not know any thing, he can build his lesson with the letters, or write it on the board, his penmanship is good would not want it to be better, his work in oral number is good, that is, is much better than many in the class, does not like calisthenics but can do good work has been in school 16 days this month, dictates his letter and writes them from a copy does not usually give me any trouble in school

Ekwall

August does his best in school he reads on page 110 in the Taylor First Reader, can spell any word he has had reads very well and understands what he reads. can build his lesson with the letters can not write, on account of his hand shaking so badly, Does good work in simple oral numbers, can dictate his letter to his friend know what he wants to say Does as good work in calisthenics as he can. Deportment always good.

1902 Dec. 10^30 to 12^15 a.m.

Fruehtman

Charlie has been in school sixteen days this month, he worked well and has improved. he read on page sixty in the Werner Primer has spelled bill the words and read the lessons builds his lesson with the letters and know the letters by name, writes in a copy book and has tried to keep his book clean has improved very much. number work is not so good. does good work in calisthenics. deportment good

Foote

Raymond has been in school sixteen days this month. some days he would be called out to help about the house, but usually he was in most of the time. He reads on page sixty in the Werner primer (reviewing) he has taken quite an interest in his work, for him, builds his lesson with the word builder writes the lesson quite well, is improving in his writing in the copy book dictates his letters to his mother. does very good work in calisthenics. His work in numbers is not very good. Deportment good.

Dec. 1902 10^30 to 12^15 a.m.

Gorham

Angeline has worked well in school this month, she reads in the Taylor First Reader, she has spelled all the words and read the lesson up to page 110 she has the best lessons of any one in the class, can build her lessons, or write them, she is doing nice work in her copy book, can build the multiplication table with out any help, does good work in calisthenics. she is always busy if she is feeling well, never gives me any trouble in school. Has been in school sixteen days this month

Hadge

John has done some good work in school this month, reads on page sixty in the Werner Primer, knows the letters by name, can build his lesson with the word builders. Writes in the copy book is improving can spell the words of his lesson but works hard to do it. Has worked out the multiplication table to the sixes with very few mistake (not more the 4) any kind of work he has in school to do with his hands he has done well such as making tags for the store or cutting paper snow. Does good work in calisthenics. Has not given me any trouble in school

Dec. 1902 10³⁰ to 12¹⁰ A. M.

Haack

Gustav spends part of this period in the articulation class, has worked well while in school. he reads on page 110 in the Taylor First Reader has spelled all the words, writes his lesson very nicely, or builds it with the word builders. Has done good work in his copy book he is a boy who learns slowly but is always busy and his work is done well. Does good work in calisthenics never gives me any trouble in school. Has been in school sixteen day this month

Ostrander

Bennie Has worked well this month and his work shows it he reads on page 110 in the Taylor First Reade, builds his lesson with the letters, knows the letters all by name, spells all the words in the lessons he has had, can write his lesson on the board and is improving in his penmanship is trying to be careful with his work. He does any kind of busy work well. His work in calisthenics is good & does not give me any trouble in school Has been in school sixteen days this month.

Dec. 1902 10³⁰ to 12¹⁰. A. M.

Below

Pearl. Has been sent to Miss Stewarts room, did good work while in this room.

Parquett

Irene is working well this month I think she never did better work than she is doing now. She reads on page 110 in the Taylor First Reade, she has spelled all the words in the lessons and now know all the letters by name, reads very well, writes the lesson nicely or builds it with the letters, has done very good work in her copy book, Does not like number work, so of course she does not do good work in that, is doing very good work for her in calisthenics, Has not given me any trouble in school Has been in school sixteen days this month,

Paddon

Jessie Has been in school fourteen days this month. She has done good work, reads on page 136 in Natures Story Book has spelled all the words and read all the lessons and can tell the lesson story quite well, she write her lesson on the board or build it with the letters. She has said the 2¹ & 3¹ in the multiplication table and built them with the number does good work in calisthenics never gives me any trouble in school & always knows her lessons,

Dec. 1902 10^{30} to 12^{15}. A.M.

Renzwig

Eddie has not been in school any this month.

Rice

Nathen could do good work in school if he was not an epileptic. I find that when ever he does any kind of work where he has to think very much about it, that he is sure to have epilepsy. So I do not require him to do only what he wants to do. Read on page 110 in the Taylor First Reader write quite well in the copy-book does very good work in calisthenics and reads very good in school. Has been in school all the month that is sixteen days.

Rondertnedt

Rosa has done good work in school this month, reads on page sixty in the Werner Primer, can spell all the words she has had, reads the lessons slowly write well, builds the lessons with the letters. does good work in calisthenics and is a child who likes to be busy number work is not good. Has been in school all this month fifteen days. Has not given me any trouble

Dec. 1902. 10^{30} to 12^{15}. A.M.

Sumenburg

Annie has not been in school this month.

Smith

Burt is doing good work in school is always busy and has done well reads in the Taylor First Reader on page 110, can spell all the words he has had, write his lesson beautiful on the board. His work in his copy book is fine. Does good work in building has made the table without any help like to do any kind of busy work. he is a child who likes to be busy and always knows his lesson. Does good work in calisthenics. Has not given me any trouble in school. Has been in school sixteen days.

Shuman

Hazel has done very good work for a new girl. she reads quite well in the primer. writes a good hand. dictates her letter and copies them. can build her lesson with the letters. does quite good work in calisthenics. she may do good work when she is once settled in school. Does not give me any trouble. Has been in school sixteen days this month.

Dec. 1902 10^{30} to 12^{15} A. M.

Tisdale

Charlie has worked well this month, has been busy all the time. Reads on page Sixty in the Werner Primer, builds his lesson with the letters, writes the lesson with the book to help him. does not read as well or spell as well as many in the class but he tries and is improving very much. He worked out the multiplication table to the sixes alone and had only a few mistakes. write quite well in the copy book. Does good work in the calisthenics. Has not given me any trouble in school

Vonld

Emma has done her best in school she really works hard, but has not the mind to remember. She reads on page sixty in the Wirner Primer, sometimes she can spell all the words in the lesson then another time she can not. Is improving in her writing. Does very good work in calisthenics. Does not do much in numbers. Was in school fourteen days. Deportment good.

Dec. 1902 1^{30} to 3 P. M.

Bombach

Fred may be work as well as he can, but he is not ambitious he reads on page 60 in the Werner Primer. can build his lesson with the letter, does it very nicely knows the letters by name and can spell many of the words without the book. Is learning to write, knows very little about numbers counts 29, Does very good work in calisthenics. Has not given me any trouble in school. Has been in school 17 days

Beach

Oliver Has not been in school,

Blake

Alice has been in school sixteen days this month, she does not seem to have improved any, she I think would never look for any kind of work or try to do any things if she never did any thing, she will try when I help her but when I leave her she will quit and just build her hands, she knows her name when she sees it written Never makes any trouble in school,

Dec. 1902 1:30 to 3 P.M.

Claflin

Richard does not learn very fast, he has been in school seventeen days this month he reads in the Werner Primer on page sixty with the class but he does not know very much about the lesson. He can dictate his letter to his friends and know just what he wants to say. Does very good work in calisthenics He has not given me any trouble in school

Eggler

Robert reads on page sixty in the Werner Primer can build his lesson with the letters. can spell some words, write quite well in the copybook, writes the number from a copy some 20. He likes the work best that he can do with his hands and does it quite well. He helped make the tages for the store could use the pencil well or put the cord in the tags. Does quite good work in calisthenics. He has not given me any trouble in school.

Haagenson

Hannah Spent much of her time drilling for the Xmas exercises,

Dec. 1902 1:30 to 3 P.M.

Hendrickson

Emma has worked well in school this month, she reads on page sixty in the Werner Primer can build her lesson with the letters, and write it very well on the board, spells the words of the lesson. likes to be busy. Does good work in calisthenics; she is improving a little all the time, can make the number from a copy. does any kind of busy work well. Has not given any trouble Has been in school seventeen days.

Hoops

Don has been in school sixteen days, he reads on page sixty in the Werner Primer, build his lesson with the letter quickly and very well know the letters by name can spell many of his words and can write his lesson on the board better than any child in all my school, could not wish to have it done better can make all the numbers from a copy. does good work in calisthenics never makes any trouble in school,

Dec. 1902 1st to 3 P.M.

Hanson

Andrew has been in school seventeen days this month. He is more interested in his work than he has ever been and is trying to speak his words more plainly and louder. Can build his lesson with the letters, and reads quite well for him on page sixty in the Werner Primer. Writes very well from a copy, counts and knows that numbers. Has very good work in calisthenics. Has not give me any trouble

Howersen

Albert is not much inclined to like hard work, seems to want to do just the thing I do not want him to do. He can do quite a little, reads on page sixty in the Werner Primer. He can build his lesson with the letters, writes some, and can read the lesson slowly. Does not like calisthenics but can take the exercise all right. Makes the numbers from a copy, works well with any kind of busy work. Has been in school fifteen days. Deportment quite good

Dec. 1902 1st to 3 P.M.

Joslin

Clara H. has been in school eighteen days this month. She works and I think does her best. She tries to build her lesson with the letters and will get quite a few words all right, and can spell some words without the book. Writes a little. Her work in calisthenics is not well done but she gets the exercise. Does not give me any trouble in school

Kiefer

Kyle has been in school eighteen days this month. He reads on the chart, has had six lessons. Knows many of the words, but does not read well. He works better with his hands, and likes that kind of work and is careful when we were making tops for the store. He would fasten the string in them and do it quickly and I could cut the paper. Now he likes to be busy with his hands. Takes the drill in calisthenics very nicely. Does not give me any trouble in school.

Dec. 1902 1st to 3 P.M.

Morrissey

Margaret reads in the Werner Primer on page sixty she builds her lesson and can write a little, know the letter counts ten, does quite good work in calisthenics. Does not give me any trouble in school

Mapp

Jamie has been in school eighteen days this month he has spent much of his time making pictures of Santy Claus on the board, which were very good, the house he drew from memory, his ideas are good writes well, can build his lesson with the letters and reads quite well on page 60 he is not fond of literary work does very good work in calisthenics. Does not give me any trouble in school

A Poole

Margaret is doing good work in school, she reads on page 60 in the Werner Primer, she builds all her lesson with the letters does it quickly and without mistakes, can write the lesson and spell all the words she has had and reads quite well, she can

Dec 1902 1st to 3. P.M.

make the numbers from a copy. I think will learn quite well. Does the calisthenics work well. Gene makes me any trouble in school.

Pederson

John has been in school fifteen days. has done very little if any thing in school

Swisse

Matilda is learning she reads on the chart can tell all the words in the six lesson she has had can read some in script, she folds and cuts the paper strips for the daisy chains in the kindergarten and her work is well done and kept nicely, she likes to be busy. does her best in calisthenics never give me any trouble in school,

Sigurdson

Sigurd, does beautiful work with his hands, does no kind of literary work, fold and cuts the kindergarten paper and keeps them neatly was very careful with the tags he made for the stove, likes to be busy and will not await for his work if he knows what he is to do Makes very little trouble in school.

Dec 1902 1:30 to 3 P.M.

Wallace

Julia does not learn very readily, she complains of the eyes hurting her when she looks at the chart very low or when she is trying to write from a copy, she so far has not learned any words, she has learned to fold and cut the kindergarten papers very nicely, does quite good work in calisthenics has given no any trouble in school.

Wright

Mabel reads on page sixty in the Werner Primer, she builds the lessons with the letters, and writes it on the board, she has improved in her penmanship very much and is much more careful with it can spell all her words, seems anxious to learn, can make the all the numbers and know their value to ten, Does good work in calisthenics, Does not give any trouble in school,

1903. Jan. 8^{00} to 10 A. M.

Emil Brundt. Has not been in school this month

Eggersdorfer
Max has worked well with his hands, folds and cut the kinder garten papers and straws. the straws are cut one inch long and the paper 4 inches long, string the beads alternating five & five. Sent the strings in the tags for the store kuper. writes very nicely from a copy, takes the drill in calisthenics very nicely never gives any trouble in school,

Hatstrom
Hurbert Has been in school all the month seems to have a better idea of printed words knows quit a few, in writing he can make A. & O. has strung the beads alternately 5 & 5. but can not be depended upon, counts fine, assorts and names the colors. does very good work in calisthenics. Has not given one any trouble in school

Halverson
Emma Has not been in school only a few days this month.

Jan. 1903 8^{30} to 10 A. M.

Hilgerson
Lila comes to school ever day she will never learn a great deal, she can not remember her words from one day to the next, the work she does with her hands she does quite well folds and cuts the strips of paper for the kindergarten, strings the beads alternating one & one and sometimes two & two, assorts the colors in writing she makes 000. Does very well in calisthenics. Has not given me any trouble in school, knows the cube, ball & cylinder

Harding
Gladis reads twelve lissons on the chart can name all the words Does not write well, but knows what she is doing. she does good work in calisthenics. Strings the beads alternately with five & five assorts the colors Has not given me any trouble in school. Knows the cube cylinder & ball.

Johnson
Arthur has been in school all the month he works only when I help him, when left alone he will string the beads sometimes will pick out the colors sometime will try to take the exercise in calisthenics.

Jan. 1903 8:30 to 10 A.M.

Langan

Mamie has been home all this month.

Langdon

Sarah has not improved very much if any She takes the drill in calisthenics quite well can fold and cut the paper strips for the kindergarten daisies the colors count ten I do not think she know the value of thos numbs Does not give me any trouble in school. Knows the cube cylinder + ball.

Buechner

Agnis has only been in school a few days twelve days, she is new in the school, I think she has been in school before coming here, Does not read, writes a little from a copy, can string the beads alternating with 5 + 6, Assolts and names the colors counts five tries to take the exercise in calisthenics, Is rather inclined to want to work. Has not given me any trouble in school,

Jan 1903 8:30 to 10 A.M.

Claflin

Richard has been in school 14 days he reads with the chart class knows a few words, but not well. can write very well from a copy, counts ten can write the numbers to 10 from a copy Assorts and names the colors string the beads alternating with 5 + 6 Does good work in calisthenics, Is a good erassed boy in school can be trusted; know the cube cylinder and ball Does not give any trouble in school.

McLaughlin

Lonie has been out of school most of this month

Menard

Lillie has been in school all this mo. she has not made any improvement I do not know whether she will ever be able to, learn any thing or not, so far she has not shown any thought about any thing, She string the beads but not in order if I pick up 1, 2, 3 or 4, beads and ask her to do the same she can do it Can not do much with calisthenics Has not given any trouble in school

1903 Jan. 8:30 to 10 A.M

Newville

Grace If she could talk so that one could understand her I would have some hope of her learning something in a literary way, she know she can not talk so will not try to say a word more than two or three times then she will simply refuse to try. She may learn to write for she will try to do that in fact any work she does with her hands she tries to do it well Has done good work in calisthenics folds and cuts the kindergarten paper nicely. Keeps her work in good shape, assorts the colors, strings the beads alternating the two colors Has not given any trouble in school

Rinne

Gilbert reads on the chart about 10 lessons, he I think would read quite well and learn much faster if he could hear the others in the class read, when he does not he looses interest, writes quite well from a copy. works quite well in calisthenics folds and cuts the kindergarten papers and keeps his work in good shape on his desk assorts and names the colors strings the beads alternating with five beads, has not given me any trouble in school.

1903 Jan. 8:30 to 10 A.M.

Rossman

Henry has been out of school part of this month, been in school thirteen days, he reads on the chart has had ten lessons and know almost all the words, also the letters, does not write but can make all the numbers to ten, work in calisthenics is quite good folds and cuts the kindergarten paper and is careful to have it done well assorts and names the colors, strings the beads alternating with two colors he is not a strong boy and much of the time he does not want to work Has not given me any trouble in school.

Roemer

Dena works well and I think she does her best, but she does not have the power to learn any thing in a short time, she reads on the chart but she finds it hard to remember the words from one day until the next, this month she has learned to make A. & O. quite well, the work she does with her hands she does quickly folds and cuts the strips for the kindergarten and keeps her work so nicely, assorts and names the colors, strings the beads alternating 5 and 5. does it without help and quickly Does good work in calisthenics, Never gives me any trouble in school

Jan. 1903 8:30 to 10 A.M.

Smith

Raymond Surprised me to day when I was trying to see how many of the children could tell me whose birthday we were going keep Thursday by saying Mc Kinley. It is so unusual for him to speak so he can be heard he does very little in school Does not give me any trouble.

St. John

William has been in school eleven days this month this morning he read the third lesson on the board, but I am not sure he can do it again. assorts the beads but does not string them in order Does quite good work for him in calisthenics, Has not given me any trouble in school

Shull

Ervin Does not give me any trouble in school is always busy with some kind of work does not improve any.

Swansen

Ralph has been out of school all this month

Jan. 1903. 8:30 to 10 A.M.

Wagner

Lena does the work where she uses her hands quite well. assorts and names the colors string the beads in order counts 10. read in the chair class, she is never sure of the word some days she will read quite well then, may be for several days she will not seem to comprehend anything Does very good work in calisthenics does not give any trouble in school

Weflin

Alava has been been in school all the month. she has done good work Reads on the chart has had four pages. know nearly all the letters by name. writes quite well from a copy. counts 18. can make the numbers from a copy, string the beads from dictation 5+15- she tries to learn and really thinks of what she is doing. Does good work in calisthenics. any kind of work she has in school she does intelligently. Has not given me any trouble.

January 1903. 10^{30} to 12^{15} A.M.

Brand

Annie has worked well this month Reads on page 146 in the Natures Story Book, has spell all the words from dictation and wrote them on the board, her penmanship show that she has tried, can write the numbers from a copy and from dictation to ten, can build her number work with the number, works slowly in this work dictates her letters to her friends know just what she wants to say. Does good work in calisthenics. never gives me any trouble in school.

Betcher

Sarah is doing good work has been in school all the month. Reads on page 119 in the Taylor First Reader has spelled all the words from dictation and can write them on the board, but is very slow and easily confused. her penmanship shows she has improved in writing and neatness. Builds her lesson with the letters. Does good work in calisthenics. Knows the forms round square and cilinder. Deportment good.

Crichton

Willie has not been in school this month

Jan. 1903 10³⁰ to 12¹⁵ A M

Ekwall

August Has not been in school this month.

Fruchtman

Charlie Reads on page 67 in the Werner primer has spelled all the words from dictation, builds his lesson with the letters, and can write the lesson with the pencil Has improved in his penmanship and also in the way he has kept his copybook, write the numbers from a copy can count 20, and knows the value of the numbers. Does very good work in calisthenics knows the forms, ball, cube & cylinder, Has been a good boy in school.

Toote

Raymond has been in school all the month. he has worked well for him Reads in the Werner Primer on page 67 has spell all the words from dictation and writes the lesson, he I think will not have mind enough to remember all he has learned, but he tries, Has improved in penmanship and in keeping his copy book neat. Does very good work in calisthenics. Deportment good

Jan. 1903 10³⁰ to 12¹⁵ A. M.

Gorham

Angeline is doing good work in school, reads on page 119 in the Taylor First Reader. has spelled all the words from dictation and can write them on the board as quickly as any one in the class. She has improved in her penmanship and keeps her copybook nicely, can write numbers from dictation to 100. has made the multiplication table without any help. can add and carry the tens. Does good work in calisthenics, know the forms ball, cylinder, cube. Has been in school all the month. Deportment good.

Grow

Edward was only been in school the last two weeks of this month I have not found out yet just what he can do, can read in the third reader and reads well better than any child in my school, can tell the lesson story, To day he told the children about Mr. McKinley after he had read about him and did it very nicely. can write but not well I think he will never do that well takes calisthenics but not in good time. Deportment good

Jan. 1903 10:30 to 12:15 A.M.

Hadge

Johnnie is a boy who will work in school without being urged all the time. Reads in the Werner Primer on page 67. can write or build the lesson, spells the words from dictation does very good work in number writes numbers to 100, know the value of number. Is improving in writing keeps his copy book clean. Work in calisthenics quite good Never gives me any trouble in school.

Haack

Gustave is working well in school reads on page 114 in the Taylor Primer he is interested in keeping up with his class, has spelled all the words he has had, from dictation and can write them on the board nicely. he is slow in number but understands that they have value. can make the numbers from dictation. Writ a good hand copies some of his letters and always dictates them Does good work in calisthenics has been in school every day Never gives me any trouble.

Jan. 1903 10:30 to 12:15 A.M.

Ostrander

Dennie works well and is making some improvement. Reads in the Taylor First Reader. builds his lessons with the letters, quickly, spell all the words from dictation writes them on the board very nicely. Is improving in his penmanship. keeps his copybook in good order that is for him. he will never do very good work in number, yet he knows enough about them to know they have value, He can do good work in calisthenics but he often acts as if he did it because he must but not because he liked the work Has been in school all the month never gives any trouble

Parquett

Irene really does work and has succeeded quite well. She Reads in the Taylor First Reader on page 119 spells her words from dictation and writes them on the board, she is not as sure of her work as many of the class yet I think she know many time, if she could only be more composed. she knows enough about number, to know that they are not play work, yet she will never do much in that way. she never take the calisthenics well, but then I think she does her best. Has been in school all the month. Deportment good.

Jan. 1903. 10:30 to 12:15 A.M.

Padden

Jessie Has not been in school this month.

Reusswig

Eddie has been in school twelve days this month when he is in school he work well Reads in the Natures Story Book on page 146 spells all his words from dictation writes them on the board nicely and as quickly as any one could. Does not like calisthenics but can go through with the drill nicely. If he had more determination he could do something in numbers but since he has not the will I think he will not do much in that branch. Does not give any trouble in school.

Rice

Nathan has been in school all the month. He read in Natures Story Book on page 146 I do not urge him to do any thing. he is usually busy at some kind of work. I try to have him working at some thing that will not bother him any then he is quiet is usually good in school.

Jan 1903. 10:30 to 12:15. A.M.

Rondeau tredt

Rosie has been in school all the Mo. she works well. Reads in the Werner Primer on page 87. builds the lesson with the letters, and writes all of it either on the board or paper, spells all the words from dictation. She has not done much in Numbers can make them all from a copy and understands they have value Does good work in calisthenics, writes very nicely in the copy book. Does not give any trouble in school.

Dimenburg

Annie Has not been in school this Mo.

Smith

Burt has been in school all the month, does good work. Reads in the Taylor First Reade on page 119. he can build the lesson with the letters spells all the words from dictation and writes them on the board his work always looks nice. Does good work in calisthenics. Has not done anything in numbers. Writes well in his copybook and keeps the book in good order. he is busy all the time he is in school. Deportment good.

Jan. 1903 10:30 to 12:15 A M.

Shuman

Hazel has not been in school this month

Tisdale

Charlie has been in school all the month has done good work. Reads in the Werner primer on page 67. usually has his lesson well can build the lesson with the letters & write the words from the book and spells from dictation. Has made all of the multiplication table without any help. Writes quite well in the copy book and is keeping his work in good shape his work in calisthenics is quite good Does not give me any trouble in school.

1903 January 1st to 3 P.M.

Bomback

Fred was out of school six days this month. Has worked well in school Reads on page 68 in the Werner Primer, Builds his lesson with the letters, knows the letters by name often can spell all the words from dictation. Writes quite well from a copy has written his lesson when it was in script Has done very good work in calisthenics, Never given me any trouble in school,

Beach

Oliver has been in school all the month, he reads on the chart and in the Werner primer on page 68 can build the lesson with the letters, he knows numbers better than he can read, adds from dictation quickly reads numbers to 1,000, writes quite well from a copy, takes calisthenics well, Does not make any trouble in school

Blake

Alice works best when I work with her she is not at all energetic writes a little from a copy can write number to 10, she dictates her letters. Takes calisthenics well, does not read on the chart but not well Does not give one any trouble in school

Jan. 1903 1st to 3. P.M.

Eggler

Robert has been in school all the mo, he has worked quite well for him, he reads on page 67 in the Werner Primer does not know all the words nor all the letters, yet I think he learns more to be in the class than if he was by himself builds his lesson with the letters. Writes quite a good hand, writes the numbers to 10. assorts and names the colors. Does very good work in calisthenics Has not given me any trouble in school.

Harvey

George has been in school about two thirds of this month. he is new in school, I think he knows more then he appears to know. He assorts the colors, builds, designs with the colored sticks, cuts the straws for the kindergarten nicely is quiet will not speak out loud may be more when he is better acquainted with the school and the way of the school, Has not taken calisthenics yet. Has not given me any troubl

Haagenson

Hannah is in school part of the afternoon, she reads on the chart has had 13 pages she has improved quite a little this month. knows many of the letters counts can writes from a copy. Does good work in calisthenics does not give me any trouble in school

Jan. 1903. 1:30 to 3 P.M.

Hendrickson

Emma has been in school all the month, she works well. Reads on page 67 in the Werner Primer, knows all the letters and spell all the words from dictation and know all the words she has had, builds her lesson with the letters and writes it on the board, she does such thing as assorting the colors cutting the kindergarten papers, writes from a copy Does good work in calisthenics Has not given any trouble in school

Hopps

Dan Has not been out of school this month, he is working very well Reads in the Werner Primer on page 67, know all the words and the letters Spells his words from dictation writes his lesson beautifully, Builds the lesson with the letters. Does good work in calisthenics. can make the tags for the store, cut the straws & papers for the kindergarten and is a good errand boy in school, Has not given me any trouble in school,

Jan 1903 1:30 to 3. P.M

Hanson

Andrew has done good work this month, he reads on the chart has reed 13 pages knows the letters and all the words he is becoming more interested in his work, writes from a copy counts 10 and can make the numbers, takes calisthenics with one hand, Has made a good mat, on the weaving boards with wool cord did it beautiful he like to be busy Does not give me any trouble in school.

Howerton

Albert has not worked very well this month I think much of the time he does not feel well, then he is not very energetic any way never wants to do the thing he has in his hand think he would rather do what some other boy is doing & if I let him have his way he soon wants something else can count ten, and writes a little from a copy can build his lesson with the letters does not like calisthenics but will take the exercise, Does not give me any trouble in school

Jan 1903. 1-30. to 3. P.M.

Jorling

Clara has been in school all this month, she does her best reads on the Chart has had 13 pages and knows every word and reads very well know the letters can build the lesson with the letters. writes some words quit well can make the numbers to 19, dictates her letters, does he best in calisthenics but that is not as well as some of the children can do, is always willing to try any thing I ask of her.

Kiefer

Lyle has been in school all the month. he likes to work know the words in three lessons on the chart and can spell the words on the chart, counts ten and makes the number to ten from a copy does not know them by name, Writes a little from a copy, Does quit good work in calisthenics, does the busy work first to make the tages for the stove. Does not give me any trouble

Jan. 1903 1:30 to 3. P.M.

Morrissey

Margaret has been in school all this month has worked well, reads in the Werner Primer on page 67 she can follow the class and keep her place and read in her turn, builds the lesson with the letters, writes the lessons on the board from the book spells many of her words from dictation knows the names of the letters. Counts 10 names the numbers and writes to ten if asked to show me ten objects she can do it, does quite good work in calisthenics, Has not given me any trouble

Mast

Tannie Has not been in school but 5 or 6 days this mo.

O'Toole

Margaret was out of school eight days this month while she was in she did good work she reades in the Werner Primer on page 67, can build all the lessons and spell all the words she has had, can write from a copy counts 29 writes any numbe to 29 from dictation. Does good work in calisthenics, Is a good girl in school and is always busy

Jan 1903 1:30 to 3. P.M.

Pederson

John H has not been in school

Duirse

Matilda is doing very good work she has had 13 pages on the chart and knows many of the words and tries to learn, writes from a copy quite well counts 20 and make the number to ten, Does good work in calisthenics, for her, does her best H has been in school all the month Does not give me any trouble.

Sigvardson

Sigvard works well with his hands and likes to be busy makes the tages and put the string in them for the store, cuts the straws one inch in length is very careful to have them just right, and if some one should cut a few that were too long and put them in his box he see it and cut them over, cuts the papers for the kindergarten and keeps them in good order does good work in calisthenics, Is no trouble in school

Jan. 1903 1:30 to 3 P.M.

Wallice

Julia was out of school half of the month, she has not learned any words yet, she can count ten, string the beads alternately with one & one not always sure, She does quite well in calisthenics for a new child. Has not given me any trouble in school.

Wright

Mabel is working well in school she reads in the Werner Primer on page 67, builds her lesson with the letters, writes it on the board can spell all the words from dictation, she counts twenty and writes the number from dictation to 20, she is usually busy, & very good work in calisthenics, has been in school all the month. Never gives me any trouble in school.

Feb. 1903 8:30 to 10 A.M.

Buechner

Agnis has been in school all the month, so far she has not learned to apply herself any little thing that may happen in the school room will cause her to loose her interest in what she is doing. Some days she will seem to know quite a number of words and then another time she will not know anything she will learn to write, can form some words quite well, now. she learns the script I think more readily than the print, is doing quite well in calisthenics, she tries. can put the sliced pictures of four pieces together folds and cuts the strips for the kindergarten very well, assorts and names the colors, with the colored pegs she made a house, and put an fence around it, counts fine, does not give me any trouble in school

Eggersdorfer

May is in school every day he is always busy with some kind of hand work. cuts the straws for the kindergarten nicely. folds & cuts the paper strips. writes well from a copy, can put any of the pictures together, assort the colors and does it quickly Does not give me any trouble in school.

Feb. 1903. 8:30 to 10 A.M.

Claflin

Richard has been in school all the month he has improved a little, can read three lesson on the chart, but not well, builds the lesson with the letters and does it nicely does not know all the letters by name. Writes from a copy on the board or on paper Does very good work in calisthenics can fold and cut the paper for the Kindergarten, cuts the straws counts the salors, put the sliced pictures together, If asked to give me any number of objects to ten he can do it, never gives me any trouble in school.

Holmstrom

Hurbert has been in school all the month, he does not learn very fast but I think if I could only get him the apply himself just a little he would soon learn, he will tell the children in class the words but when it comes his time to read he is very apt to forget the words writes a little from a copy does quite well in calisthenics folds and cuts the paper strips but never does any thing well Does not give me any trouble in school.

Feb. 1903. 8:30 to 10 a.M.

Holgerson

Lilla has been in school all the month. She will learn to do some work with her hands but will never learn to read or write, it is not in her to do that kind of work. She does the work in calisthenics very well for her, can put some of the very simple pictures together strings the beads but not as they should be unless I tell her how and help her, she does not give in trouble in school

Harding

Gladis has been in school all the month, she reads fourteen lessons on the chart, knows all the letters by name. She has improved in her reading builds the lesson with the letters, Does very good work in calisthenics. folds and cuts the paper strips. Can pick up fine objects quickly string the beads alternating 5 and 5. Writes some but does not do it well but tries. Does not give me any trouble in school

Johnson

Arthur Has not been in school this month.

Keangan

Mamie Has not been in school

Feb. 1903 8 30 to 10 A. M.

Langdon

Sarah has been in school all the month. I cant see that she has made any improvement in school, she comes to the chart class and will pass the words over after me but they do not mean any thing to her she does not remember them one minute. Takes the calisthenics quite well. can put the sliced pictures together of four pieces folds the paper strips for the kindergarten and cuts them does not give me any trouble in school

McLaughlin

Dan has been in school all the month, he does not get along very fast some days he will do good work then maybe for two of three days he will not seem to care any thing about his work. has power for application is not very good knows a few words on the chart. white. black. one. a. is very slow. works as well as he can in calisthenics, he needs help with any thing he does. Deportment good.

Feb. 1903. 8 30 to 10. A. M.

Menard

Lila has been in school all the month. she has done very little work of any kind, and she does nothing well without help, has very little application. does not give me any trouble in school.

Newville

Grace has been in school all the month except one day she has done very much the same work as last month, the work she does with her hands shows that she can apply herself, strings the beads well. Makes designs with the colored pegs or sticks. does very good work in calisthenics. Deportment good.

Rine

Gilbert has been out of school two days this month. he is working well for him, he is so very deaf that it causes him to lose interest in his work, reads on the chart three stories, but not well. writes the lesson from a copy written on the board. takes calisthenics just as he does all his work lack of interest cuts, and folds the papers, strings the beads. counts the cubes and any kind of busy work he does very well. Does not give me any trouble in school.

Feb. 1903. 8:30 to 10. a M

Rossmen

Henry has not been in school this month

Smith

Raymond has not been in school this month

Roemer

Dena has been in all the month she is not doing very good work in her reading. Is improving in her writing will write from a copy on the board. Does good work in calisthenics, can put the sliced pictures together, assort the colors, folds and cuts the kindergarten paper nicely Strings the beads quickly alternating with 4+4, Does good work in calisthenics. Dartmit good.

St. John

Willie has been in school all the month he is a child who has not application at all, or if he has, has not learned how to use it. he needs help in every thing he does, has shown more interest in the sliced pictures than any thing. I think he may learn to go through with the drill in calisthenics.

Feb. 1903. 8:30 to 10 a.m.

Shull

Erwin is in school ever day but does not improve any is always busy with some kind of busy work but does not care to learn to read does not give me any trouble in school

Swenson

Ralph Has not been in school.

Wagner

Dena has been in school all the month, she does about the same work as last month. I was in hopes she would learn to read but think now she never will. she needs help in nearly all the work she does she can put some of the sliced pictures together of four pieces. string the beads and alternating one & one does very good work in calisthenics, does not give me any trouble in school.

Weflin

Alava has been in school all the month. she is improving, has learned all the words in four lessons on the chart, can build her lesson with the letters, from the chart on a book. Writes from a copy very well does good work in calisthenics Does not the busy work well can string beads alternating with 4 & 4, is anxious to learn never gives me any trouble in school

Feb. 1903. 10:30 to 12:15 a.m.

Braun

Annie has been in school all the months She has finished the first Reader in Natures Story Book, has spelled every word in the errors from dictation and written them on the board, she is improving in her writing she can count one hundred and read number to 100, she does not like number work but will try in oral work she can add, and take away will build her work with the numbers is doing good work in calisthenics, is interested in all her work.

Betcher

Sarah has been in school all the month. she is working well and is improving but slowly, she find it hard to learn but tries to keep up with her class. she has finished the Taylors first reader and is now reviewing the spelling she can write he lesson or build it with the letters is doing good work in writing, her work in number is not very good can count and read number to 100. know the value of number. does good work in calisthenics. is always busy. Does not give me any trouble in school

Feb. 1903 10^{30} to 12^{15} A.M

Crichton

Willie has been in school all the month with the class he has finished the Taylor 1st Reader but has not done it well, he has not had his spelling well at all, just would not try. can write all his lesson on the board from the book better than any one in the class, his penmanship is as good as any one would wish. Does good work in oral work (simple work) understands that number have value. can do good work in calisthenics. but does not always like to do it. deportment quite good

Fruchtman

Charlie has been in school all the month has worked quite well. Reads on page 85 in the Werner Primer has spelled the words from dictation, learns slowly but is improving, has improved in writing. has finished the no 1. copy book did good work and kept the book as nicely as he could to have been written with the pencil has not done very much in numbers Does very good work in calisthenics Does not give one any trouble in school.

Feb. 1903. 10^{30} to 12^{15} A.M.

Foote

Raymond has been in school 15 days this month. he is doing as well as he can, in reading and spelling. Reads on page 85 with the class does not read as well as many of the class, nor does will do much in literary work, in oral number work he is quite good, of course the work is quite simple but he understands that number have value, writes quite well. dictates his letters and can write them from a copy. Does very good work in calisthenics Has not given me any trouble in school.

Gorham

Adageline has been in school all the months she has done good work with the class she has finished for the second time the Taylor First Reader, can spell all the words and written many of them from dictation, has done good work in number. can add and carry the tens adds a column of 5 or six figures does simple work in subtraction multiplication & division, she likes to be busy. has finished, or nearly, the number copy book did good work. her work in calisthenics is good does not give me any trouble in school.

Feb. 1903. 10[30] to 12[15] a.m.

Grow

Edward is not a tidy child in any way while he know quite a little and much more than many of his class yet he does every thing in such a slovenly way, can read in the U.S. history but does it in such a careless way, his writing and number work never look well enough to be seen writes his letters and has them corrected then copies them, is good in oral number work can read number to 100,000 does simple work in number, His work in calisthenics is never done well yet he may do his best, Has not given me any trouble in sch,

Hodge

Johnie has been in school all this month has done good work and has improved a little, Reads on page 85 in the Werner Primer can build the lesson, and spell the words from dictation, he could do better than he does if he would work a little harder, does very good number work, has mast the multiplication table this month and did it well. of course he can not say it from memory Writes quite well. Does good work in calisthenics & deportment good.

Feb 1903 10[30] to 12[15] a.m.

Haack

Gustav has been in school every day this month he is doing good work, has finished the Taylor First Reader with the class spell all the words from dictation write the spelling on the board from dictation, he understands the value of simple numbers and can read numbers to 100, writes well and can copy his letters after he has dictated them to me does good work in calisthenics Deportment good.

Ostrander

Bennie has been in school all the month, has done good work has finished the Taylor First Reader with his class spelled all the word does not read as well as he might always builds the lesson with the letters and often writes it on the board he has improved in writing, Is quite good in simple numbers can read number to 100, Does good work in calisthenics, like to be busy with something never gives me any trouble in school,

Feb. 1903 10³⁰ to 12¹⁵ A.M.

Parquett

Irene has been in school all the month. She has done as good work this month as I have ever known her to do, she has really worked, finished the Taylor First Reader with the class has spell all the words, knows all the letters by name builds or write her lesson every day she has finished the minike 2 copy book and kept her book nicely dictates her letters and can write them from a copy, she can read numbers to 100. is doing better work in calisthenics Does not give me any trouble in school.

Padelen

Jessie has only been in school ten days this month, but has worked well while she has been in Will finish the reader with the class leaves from Natures Story book never misses a word in her spelling writes it on the board from dictation does it quickly, can do quite good oral number work reads numbers to 100. Does good work in calisthenics she is always happy Does not give me any trouble in school

Feb. 1903 10³⁰ to 12¹⁵ A.M.

Renswig

Eddie has been absent four days this month he works well in reading and spelling and does quite well in oral number work can add subtract multily & divide, reads numbs to 100,000 he is not quick about this work writes his spelling on the board from dictation well and very seldom misses a word, has finished the Natures Story Book. writes a good plain hand. can do good work in calisthenics, any kind of busy work in school he does well. never gives me any trouble in school

Rice

Nathan has been in school all the month he has done about the same work as last month can not be pushed in the least I allow him to work just as much as he wishes, so long as he keeps good order does very good work in calisthenics.

Rondestvedt

Rosa has been in school all this month she is doing good work. she reads in the Werner Primer on page 85 spells all the words from dictation and writes them from the book well is improving a little all the time builds her

Feb. 1903. 10^{30} to 12^{15} a.m.
lessons with the letters and is usually busy does only the simple number work work in calisthenics is good never gives me any trouble in school

Smith
Burt has been in school all the month he is doing good work, has finished the Taylor First Reader, has spelled all the words from dictation and written them builds his lesson with the letters does good simple number work but not as good as some of the class, he can add and carry the tens subtract and multiply, writes a good hand Dictates his letters and can copy them, does good work in calisthenics and any kind of busy work he does well, such as cutting the straws one inch long making the tags for the stove, as a good errand boy, has not given me any trouble in school

Inman
Hazel has only been in school a few days she can do very good work.

Feb. 1903 10^{30} to 12^{15} a.m.
Tisdale
Charlie has been in school all the month he has done quite good work reads in the Werner Primer on page 85, can build his lesson with the letters spell the words from dictation, writes his lesson well, his penmanship is very good he is usually busy does good work in oral number can read number to 100,000 understands that numbers have value, can do simple work in addition subtraction multiplication & division. Does good work in calisthenics. any kind of busy work he does well, Does not give me any trouble in school.

Yould
Laura has been in school all the month she works hard but finds it not at all easy to remember. I think there is not a child who tries harder to learn than she, she reads in the Werner Primer on page 85, spells the words from dictation and can write the lesson, penmanship good has finished the number two copy book, has not done much in numbers Does good work in calisthenics, Never gives me any trouble in school.

Feb. 1903 1:30 to 3. P.M.

Bomback

Has not been in school very much this month.

Beack

Aliver has been in school all this month. If I could only get him to be a little more energetic in school there is no reason why he should not learn. he has had 16 lessons on the chart, can build his lesson with the letters, or write it with the pencil does not read well just because he is not interested in reading. In number work he does better work, he can add subtract multiply, and divide simple numbers know what he is doing, read numbers to 100. is quick with this work. write well from a copy can copy his letters, and dictates them. does good work in calisthenics any kind of busy work she does well such as putting the sliced pictures together and cutting the straws for the kindergarten. Does not give me any trouble in school

Feb. 1903 1:30 to 3 P.M.

Blake

Alice has been in school all the month she has done very little good work so far she has not learned to read at all, in number she counts 20. can pick up 12345 stick and give them to me, it's not sure of any more. can put some of the sliced pictures together, fold and cut the kindergarten papers nicely tries to write I think will learn Does very good work in calisthenics. Does not give me any trouble in school I would have more hope for her if she did.

Ekwall

August has not been in school very much this month

Eggler

Robert has been in school all the month, he is inclined to want to rove around in the school room if he was allowed Has had 16 lesson of the chart can build the lesson with the letters over it quickly and his work looks well on the board counts 12 can pick up any number of sticks to ten can put many of the sliced pictures

Feb 1903 1:30 to 12:15 P.M.

together writes a good hand, can copy his lesson from the book does good work in calisthenics. and any kind of busy work. he does well Has not given me any trouble in school.

Harvey

George has been in school all the month, he is a peculiar child, will not take any part in the reading class, can talk but does not like to, answers when I call the roll, can fold and cut the papers for the kindergarten, cut the strans one inch in length nicely and likes to do it he will do any thing I ask him to do except talk, assorts the colors quickly Does not like calisthenics and would not take it until one day this week he had on new shoes and I got him to look how well his new shoe could mount, and he did much better than I thought he could, he does not like to mind but will can put the sliced pictures together the simple ones. Is usually good in school.

Feb. 1903. 1:30 to 3 P. M.

Haragenson

Hannah has been in school all the month, she is always out for the singing class, she is improving in reading a little reads 16 lesson on the chart does not know all the words, but will in time, can build her lesson with the letters can write very nicely from a copy. Parts some of the sliced pictures together, folds and cuts the paper strips and other busy work does quite good work in calisthenics Does not give me any trouble in school

Hendrickson Has only been in school a few days.

Happer

Don has been in school all the month has done good work reads in the Werner Primer on page 85, builds his lessons with the letters or writes it on the board spells his words from dictation and reads quite well, His penmanship is beautiful. His num work is very simple, can put the sliced pictures together and any kind of busy work he does well Does good work in calisthenics. Has not given me any trouble in school.

Feb. 1903 1:30 to 3 P. M.

Hanson

Andrew has been in school all the month, he is doing good work has read 16 lesson on the Chart I think if he could say all his words well he would take much interest in learning to read, can build the lessons with the letters, Does quite good work in Oral number, writes a little, can put any of the sliced pictures together, Does very good work in calisthenics, never gives me any trouble in school.

Hoverson

Albert has only been in school 4 or 5 days this month.

Joslin

Clara has been in school all the month; She has done good work, reads sixteen lessons on the chart and knows every word; reads quickly, builds her lesson with the letters, writes a little, does good work in calisthenics and works well with any kind of busy work & gives her, such as folding and cutting the paper put the Kindergarten was putting the pictures together Does not make any trouble in school,

Feb. 1903. 1:30 to 3 P.M.

Kiefer

Lyle has been in school all the month, he does not learn very fast, is in the chart class some times he knows a word or two but can not be depended upon, knows t, i, a, counts four knows, round & square, Does very good work in calisthenics names the colors. Does not give me any trouble in school.

Morrisroy has not been in school

Mappe

Lonnie has been nearly all the month, reads sixteen lessons on the chart, knows the letters so that he can spell from dictation, builds the lessons from the chart with the letters and can write all the lesson without any help, can write the numbers to ten, writes with both hands, his right hand has been deformed that is was bent at the wrist so that he had no use of it, but since he has been taking the calisthenics he has gotten so that he can use it quite, I am sure that exercise has been a great help to him he is very fond of drawing and some times make quite a good picture. Does very good work in Calisthenics Department good.

Feb. 1903. 1:30 to 3. P.M.

O'Toole

Margaret has been out of school part of the month but does good work while she is in school, Reads in the Werner Primer on page 85. knows all the words and does her work readily can build the lesson with letters nicely and writes the lesson from the book knows simple measures. can write them to twenty can add, subtract multiply and divide with two but not quickly but I can see that she knows what she is doing. Her work in calisthenics is good I think the best of any in the class, assorts and names the colors never gives me the least trouble in school.

Pederson

John has not been in school.

Sigvardson

Sigvard has not been in school

Swisse

Matilda has been in school all the month. She has a lesson on the chart can read three lessons quite well is not sure of all the words yet but will get them. Counts ten, knows three at sight, Does very good work in calisthenics always tries, assorts the colors, can not name them has learned to write her name independently and does it well, likes to be busy and does her work well, Department good.

Feb. 1903. 1 30 to 3 P.M.

Wallace

Julia has been in school all the month she does not learn very fast, she is in the chart class but so far has not learned any words. counts fine knows 1-2-3. objects at sight, takes the exercise in calisthenics, may be as well as she can always tries and never refuses when called upon Does not give me any trouble in school.

Wright

Mabel has been in school all the month she has done good work, reads in the Werner Primer on page 85. knows all the words and can spell them from dictation and write them she builds the lesson with the letters she has improved in writing counts twenty and can write any number to twenty from dictation, adds subtracts multiplys & divide by two slowly but she understands what she is doing She does good work in calisthenics, or any kind of busy work Does not give me any trouble in school.

March 1903 8:30 to 10 A.M.

Buechner

Agnes has been in school all the month. She does much better work with her hands than mind. Folds and cuts the paper strips nicely assorts and strings the beads, but very slowly. I think she takes a little interest in her reading. She is learning to write forms her letters well. With the pricking needle she can trace a line very well. can put some of the sliced pictures together. is improving in her work in Calisthenics. does not give me any trouble in school

Eggersdofer

Max has been in school every day this month, he does good work with his hands can write well from a copy, is usually busy. does not like to have the same kind of work day after day. cuts the kindergarten straws as well as it can be done. folds and cuts the paper stripes for the kindergarten any work he does at all he does well and quickly. puts the sliced pictures together. assorts and strings the beads or will string them alternating 5 & 5. with two different colors. Does not give me any trouble in school.

March 1903. 8:30 to 10 A.M.

Claflin

Richard has been in school all the month except one day, he is improving reads nine pages on the chart and and write from a copy the lessons in the primer on page 34 & 35. and can read the lessons and is learning to spell the words on the book knows nearly all the letters by name. writes quite a good hand. builds the lessons well and quickly learns to read very slowly. any kind of hand work he has is well done. Dictates and knows just what he wants said in his letters. I think with a little help he could write them from a copy he likes to be busy and can be trusted in school. Does not give me any trouble in school.

Holmstrom

Herbert has been in school all the month he does not overcome his inattentiveness as I had hoped he would yet he is doing a little better. he remember the words better when some other child is reading them when he is reading himself. in writing he can form some letters quite well. can trace the lines of a picture quite well with the pricking needle. he is slow with any of his work. Does not give me much trouble in school.

March 1903 8:30 to 10 a.m.

Hilgerson

Lila. Has been in school all the month she does so little work alone that I hardly know what to say for her, she does not trace well with the pricking needle but tries, she will try for a little while to do any simple work I give her but soon tires of it unless I help her. in reading class she gives very little attention, she will assort the colors but is so slow with any of her work as usually quite good in school.

Harding

Gladis has been absent one day this month, she reads nine lessons on the chart, knows all the words and the letters. Does not write well and I think she never will she has a way of her own of forming the letters and so far I have not been able to get her to change she can read the lessons on page 34 & 35 in the Werner primer both in script & print, any kind of hand work she does well. can build her lesson with the letters, fold out the paper strips string the beads and put the pictures together, I does not give me any trouble in school,

March 1903. 8:30 to 10 a m

Langan

Mamie has been in school fourteen days this month she has not improved any has been out of school since Xmas.

Langdon

Sarah has been in school all the month, she can trace the lines of a picture quite well but is not careful of her work and will prick the picture full of holes can trace a copy but can not write independently, not any of her work is well done yet she will try for a little while and some time does some things quite well but can not be depended upon, take the work in calisthenics so that she gets the exercise does not give me much trouble in school

McLaughlin

Dan. has been in school all the mo. He can trace the lines of a picture well and is careful of his work will not try to write independent he can not be depended upon some days he will know quite a few words on the chart then again he will not know any thing. and it is just now with his hand work. his work in calisthenics is not good but I think he does his best. Does not give me any trouble in school

March 1903 8³⁰ to 10 A.M.

Menard

Lily has been in school all the mo. she has done very little work alone and done it at all well she will work at things or rather seem to be working but she does not understand easily or what she is trying to do, never seems to give her attention to any thing her work in calisthenics is not good in fact she has not learned yet to give it the least attention she is quiet in school

Neiville

Grace has been in school all the month she is a child that I think would be able to learn quite a little is she could talk so that she could be understood she knows she does not talk well and is very sensitive and will not try. any thing she does with her hands she does well, she pricks the lines of a picture with the pricking needle well and is careful of her work, she can assort the colors and string the beads alternating the colours her work in calisthenics is as good as she can do. Never gives me any trouble in school.

March 1903 8³⁰ to 10 A.M.

Rime

Gilbert has been in school all the month, he reads nine pages on the chart, knows all the words and nearly all the letters by name. reads the lessons in the Werner primer on page 34 & 35 both in script and the print, builds the lesson with the letters nicely and quickly knows how to write from a copy and would write well if he had steady hands, he finds it quite hard to hold the chalk when writing on the board, he being very hard of hearing misses much that he would learn otherwise. He does not care for calisthenics and does not do it well is usually good in school.

Rossman

Henry has only been in school ten days this month is out of school now

Roemer

Dena has been in school every day this month, she has worked well with the hand work, but is very slow with her literary work, she does try and can read or rather know some words on the chart, does not take up writing as quickly and well as I had hoped she would she folds and cuts the strips of paper

March 1903. 8³⁰ to 10 A.M.

for the kindergarten well and keep the work in order on her desk, string the beads alternating with 1-2-3-4-5 of two colors. put the sliced pictures together and with either the colored pegs or sticks she will make simple designs on her desk she likes to be busy, some times I allow her to go to the board and make just what she wishes and she will draw her hand, and will be so interested in having it well done. she does good work in calisthenics. Does not give me any trouble in school.

Smith

Raymond was out of school two days this month he does very little work of any kind he will string the beads in order if I stand beside him and help him keep his mind on his work. he is not at all ambitious, some times he surprises me by asking me a question. I gave him the picture of the rat to put together and he picked up the the part that had the tail on and said, that is a snake miss Johnston, Does not give me any trouble in school.

March 1903. 8³⁰ to 10 A.M.

St. John

Willie has been in school all the month so far I have not found any thing that will interest him enough to have him keep his mind one any thing longa enough to even know that I want him to learn, sometimes I have been working with him and congratulating myself that at last I have found some thing that interests him and when I least expect it he will say Miss Johnston do you see my sore hand, my sore hand, He does not take the least interest in any thing His work in calisthenics is not good. Her Deportment not good

Shull

Ervine has been in school all the month, he does not do any literary work of any kind in school, but the work he does with his hands is well done he cuts the Kindergarten straws well folds and cuts the paper strips. will make all kinds of designs with the the colored stick and pegs, can assort the letters, and colors if he feels well he is usually busy. can write his name quite nicely. Is manually good in school.

Mar. 1903 8 80 to 10 A.M.

Swenson

Ralph has only been in school fourteen days this month and before he was out nearly two mo. he has not shown much interest in school work. If I give him a pencil and paper and tell him to make a letter or word he will not even make a mark of any kind and if I help him the minute I leave he stops. Does quite well in calisthenics, Deportment quite good.

Wagner

Dena has been in school all the month she has not made much improvement I think she never will do enought to be of any benefit to her. She will make quite straight lines from a copy and string the beads alternating with two colors 1+1 2+2, but she can not be depended upon to do that always. She does as well as any of the class in calisthenics but that is not much to say Never gives me any trouble in school only that she can not learn.

March 1903 8 30 to 10 A.M.

Weflin

Clara has been in school every day she improves right along, she reads nine lessons on the chart and know nearly all the letters, she has, by name. She is interested in her work and shows it, she can read the lessons on page 34 & 35 in the Werner Primer both in script and print and can copy the lesson from the book when it is in script writes quite a good hand and is improving in her writing, builds her lesson with the letters and does it quickly works well at any kind of busy work, does the best work of any in the class in Calisthenics, Deportment is good.

March 1903 10:30 to 12:15 A. M.

Brann

Annie has been in school every day
except one this month, She has
worked well and been interested
every day. In the the new second
reader that she took up the first
of the month, she has read to
page 33 and has spelled every word
in the lessons and read all the
lessons. has written the spelling
on the board from dictation.
she does not read as well as
she spells, but is improving every
day. Is improving in her writing
very much. she does very simple
number work can write numbers
to 100, is not fond of number
work but will do her best with
the simple work I give her, she
does very well in oral number
work. Does good work in calis-
thenics and is always ready
for it. dictates her letters to
her friends, and copies them
nicely. can tell the names of
the simple forms. Is learning
to keep her work nicely. Never
gives me any trouble in
the schoolroom.

March 1903 10^30 to 12^15 A.M.

Belcher

Sarah has been in school every day this month she has kept up her interest all the month Since the first of the month she has been reading in her new book Leaves from Natures Story Book so far she has spelled all the words in the lessons from dictation many times has written them on the board she does not learn as quickly as many in the class and she has to work to keep up and she does it too. she is improving in her writing very much Does quit good work in oral numbers. can write numbers to 19. Her work in calisthenics is good she always does her best in that, dictates her letter to her friend and can write them from a copy, knows the simple forms by name Deportment in school always good.

March 10^30 to 12^15 A.M.

Crichton

William Has been in school all the month, he has never done better work, than he has this month Since the first of the month he has been reading in his new book has read to page 26 and had the spelling from dictation he writes all his lesson on the board beautiful and in spelling if he can write his words on the board he can spell them but if he must spell them oral he is not so apt to get them right I think that is because of his bad articulation, he has worked to keeps up with the class, In number work he is better than many in the class can write numbers to 1000, and in oral work he is much quicker than most of the class. Has done good work in calisthenics for all he does not like it Dictates his letters to his friends and copies them, he has improved in his penmanship does not write so large. Deportment good.

Ekwall

August Has not been in school

March 1903. 10[30] to 12[15] A.M.

Fruchtman

Charlie has been in school all this month, has done good work since the first of the month he has been reading in the Taylor primer, has read to page 21 and has spelled many of the words from dictation, has not always been able to spell them all, he is working to keep up with the class. builds his lesson with the letters and can write quite well. Has finished one copy book kept it looking very well to have been written with a lead pencil. his work in numbers is not good can write them from a copy Does very good work in Calisthenics Deportment good

Foote

Raymond has only been in school the last five days did not accomplish very much for the class had gotten so far a head of him and he learns so slowly, he could not have the interest he would have had.

March 1903 10[30] to 12[15] A.M.

Forham

Angeline has been in school every day this month and has never done better work. this in the singing class so in order to have her spelling she copies from the book and takes it to the play-room and learns it she always knows her lesson can write it on the board from dictation does it nicely too she has been at the head of her class all the month. she reads better than any in the class since the first of the month she has been reading in her new book. Leaves for Natures Story book, she reads on page 26 She has a good idea of numbers can write numbers 1000, and can add, subtract multiply & divid in simple number. Does good work in simple oral work and rather likes the work. she likes to be busy and is always ready to have her lesson. her work in calisthenics is very good never gives me any trouble in school.

March 1903 10^{30} to 12^{15} A.M.

Crow

Edward has been in school all the month except one day. he reads in the second reader on page 33. has had this reader since the first of the month. spells and writes the words from dictation on the board. Reads very well understands what he is reading and can tell the lesson story very nicely. can build his lesson with the letters. Has a good idea of number does very good work in real numbers writes, and reads to 1000. can add. subtract. multiply + divide in simple numbers. His penmanship is not good, that is due to his not being able to control his mind when I stand by him and insist on his being careful he will do ever so much better. His work in calisthenics is very much like his writing and if I manage him in the same way he will do ever so much better work. Dictates or some times writes his own letters to his friends & read his letters that come from his friends. Can do all the different kinds of occupation work. Never gives me any trouble in school.

March 1903. 10^{30} to 12^{15} A.M.

Hadge

John has been in school all the month, he is not as ambitious as many in the class, but I think he is much more capable than some of them, if he would only do his best he reads in the Taylor First Reader since the first of the month. lesson on page 21. has spelled all the words from dictation but not readily when he tries to get his lesson can spell as well as any in the class, he does very good number work. Builds his lessons with the letters. his work in the copybook is very good. any occupation work he does well. such as marking out the tags and the cases for the back of the library book. uses the scissors well in cutting them out. can do very good work in calisthenics. usually he is very good in school.

Haack

Gustav has been in school every day he is out part of this time for articulation, he has worked well reads on page 26 in the Beaver from Nature's Story Book has had this book since the first of the month, has spell all the words from dictation and wrote them on the board he had to work hard to be able to do it too. writes his spelling on paper and takes it to the play

March 1903. 10^30 to 12^15 A. M.

room and learns it before he comes in school, he is always busy in school, he does not read as well as I wish he could, His work in numbers is very simple and he is very slow with it. Work in calisthenics is always good. Penmanship very good. Dictates his letters to his friends and can write them from a copy knows what he wants said in his letter any kind of occupation work he does well. if he ever has any time for it. Never gives me any trouble in school.

Ostrander

Bennie Has been in school all the month except one day. Has worked well always builds his lesson the first thing, does it quickly and well. Reads on page 26 in Beaver from Nature's story book has spelled all the words and wrote them on the board from dictation he is third in his class, he is always busy, writes his spelling on paper and takes it out of school to learn it. Is improving in his penmanship. His work in numbers is very simple. Does good work in calisthenics Never gives me any trouble in school.

March 1903 10^30 to 12^15 A M.

Parquett

Irene has been out of school two days this month. She is doing good work in school and is working hard, she reads on page 26 in the Beaver from Natures Story Book which she took up the first of the month, she has spelled all the words in the lessons from dictation she may not be able to do it now but she has improved very much can write her lesson on the board with the class has improved in her penmanship Does not like numbers and of course she finds it hard work she is doing better work in calisthenics. Has not given me any trouble in school,

Padden

Jessie has been in school every day this month. Is doing good work always knows her lesson many time she will go to the board and write it all from memory reads on page 33 in Baldwins 2nd reader which she took up the first of the month. reads quite well and can tell much of the story. She does not improve as much in writing as I would like to have her. She can read numbers to 1,000. and can add. Subtract multiply and divide in very simple work. Her work in calisthenics is quite good. Never gives me any trouble in school.

March 1903 10:30 to 12:15 A.M.

Renswig

Edward has been in fourteen days this month while he was in he did very good work in his reading and spelling, always has a good lesson in spelling, writes the spelling from dictation on the board, writes a good hand and spells readily. He is not quick in numbers but if he can have his time he will usually get the correct answer, he does better work in oral work than written, and I think it is just because he does not want to exert himself enough to do the work. he can do good work in calisthenics but if I do not watch him he will stand and not do anything, he surely lacks ambition. Never gives me any trouble in school.

Riel

Mathan has been in all the month except one day he does just about what he wants to do. I do not dare to urge him in the least. I know he would do quite good work in arithmetic if he could only be allowed to work at it, but as soon as he begins to try to do any thing at all he is afraid to have a spasm. He is not usually good in school, one reason is because he is not here at work

March 1903. 10:30 to 12:15 A.M.

Roosevelt

Rosa has been in school all the month she is doing her best. yet she does not work evenly some days she will seem quite awake and then for a day or two she will seem to be dreaming and her work will not be at all good. I think she is inclined to be a little hysterical she will cry without the least provocation and if asked what is the matter she will cry all the more. she reads on page 21 in the Taylor First reader. writes her spelling nicely and nearly always can spell all the words from dictation she is very slow always with her spelling. she is imploring in her penmanship. I dictate her letters to her friends could copy them if I could give her a little attention. Does good work in calisthenics. She will write her spelling and take it to the play room so that she will be sure to have it She never gives me any trouble in school.

March 1903 10:30 to 12:15 A.M.

Swanson

Charlie has been in school all the month, has done good work he reads on page 25 in the Leaves from Nature's Story Book, he usually has his lessons but has to work to keep up with nearly all in the class he is out part of the time for singing, so he writes his spelling on paper and takes it to the playroom. His penmanship is quite good, work in numbers is very simple I think he will never do any thing in number work that will amount any thing. Does good work in calisthenics. Department good

Smith

Burt was absent one day this month, He has done good work Reads in Nature's Story Book on page 25, writes all his lesson on the board, or builds it with the letters on his desk. writes the spelling on the board from dictation does it quickly and when he is through his work looks well his penmanship is good, He is much better in number than anany in the he can add and carry the tens, does not tire of his work of course it is simple yet he has the right idea if he

March 1903 10:30 to 12:15 A.M.

is not always correct in his answers Does good work in calisthenics and any kind of occupation work he has to do is done well does not often have time for that He dictates his letters to his friends and can write them from a copy and some times he will write quite a good letter alone, of course it would have to be looked over and corrected. Does good work in calisthenics Has not given me any trouble in school.

Shuman

Hazel has been in school all this month she is working well, reads in the Taylor First reader on page 21 she can write her lesson or build it with the letters, she can spell all her words from dictation some times she will not get the word right the first attempt but will in the end she reads quite well I think she will. do quite good work if she can be in all the time last month she was not in one day, she does very good number work for her. Work in calisthenics is good, she dictates her letters and writes them from a copy her penmanship is quite good Does not give me any trouble in school.

March 1903. 10[30] to 12[15] A.M.

Tisdale

Charlie has been absent two days this month, he does not do the best work in school is not as ambitious as many in his class but he can learn when he tries, he reads in the Taylor First Reader on page 21, builds the lesson with the letters, and can write the lesson if it is in the script & spells the words from dictation, he is very apt to keep a word if he once learns it & especially if he has worked to learn it, Writes quite well in the copybook and has kept the book as nice as could be & use a lead pencil to write with Does quite good work in calisthenics, and in numbers he does much better work than those who read better than he. his deportment is usually very good.

March 1903 10[30] to 12[15] A.M.

Gould

Laura has been in school all the month I am sure she has worked harder than any other child in my school she always takes her spelling to the play room to learn it an she nearly always has it she has been at the head of her class nearly all the month and that meant hard work for her. she has surely improved. she builds her lesson with the letters and can write it, if she misses a word in her spelling she cries like her heart was broken. Her work in calisthenics is good she always tries to do her best. Her number work is not so good. she dictates her letters & can copy them, She is a child who knows it is hard for her to learn and is doing her best to over come it. She never gives me any trouble in school Reads on page 21 in the Taylor First Reader

March 1903 1st to 3. P.M.

Andrus

Florence has only been in school a day or two. I do not know what she may be able to do, she can read a little, Seems like a very quiet girl,

Bomback

Fred has been in school eighteen days this month, he is not very ambitious yet he will work always builds his lesson with the letters, Reads on page 75 in the Werner Primer knows all the letters by name so that he can spell his words on the book and some times he can spell the words from dictation can write the lesson when it is in script. Know the numbers to 10 by name can. can make them from a copy. If I ask him to give me nine objects he can do it but he does it slowly any of his work he does slowly. does not know all the words in his reading, can keep the place while the others are reading. Assorts the colors knows Red Green yellow blue. Dictates his letters to his friends. Does quite good work in calisthenics. Does not give me any trouble in school

March 1903 1st to 3 P.M.

Beach

Oliver has been absent one day this month. he is not at all ambitious with his reading and spelling. Reads on Page 51. in the Werner Primer, but not well known the words, but does not know all the letters by name, builds his lesson sheet and the work looks well on the desk. In oral number work he is quite good and better than some who read and spell much better than he any kind of occupation work he has he does quite well, such a cutting the straws and paper strips for the kindergarten. Does very good work in calisthenics usually he is quite good in school.

Blake

Alice has been in school all the month, she learns any kind of hand work much better than literary work, she has been having her reading lesson on the board about the Ball. I chose that subject because the children knew so many thing about it & that is the only way I could get their attention. she will tell a story about, the red ball,

March 1903 1st to 3. P M.

and what it can do and in that way she learns the names of the colors and many other words. she does not keep them all from day to day but each day it is a little easier for her, she will dictate a good letter knows just what she wants to say to her friends does very good work in calisthenics never gives me any trouble in school,

Eggler

Robert has been in school all the month, Reads nine pages on the chart and in the Werner Primer he has a lesson on page 51 he can build the lesson from the book with the letter, knows nearly all the letters by name writes well from a copy, dictates his letters to his father does very good work in calisthenics, any kind of busy work such as cutting the straws and folding and cutting the paper strips for the kindergarten and marking the cards and cutting them for the library book and the tags for the stool he does well, He is restless and in that way he gives me some trouble in the school room,

March 1903 1:30 to 3 P.M.

Haagenson

Hannah has been in school all the month part of the time she is in the singing class, she reads nine page on the chart. spell the words on the chart she knows nearly all the letters she has had, she has a lesson in the Werner Primer on page 51 she can build the lesson with the letters, does not recog well, but reads both script & print equally well, writes well from a copy counts thirty and if asked to pick up any number of sticks or beads to thirty she can do it; she knows the name of the number to thirty can make them from a copy accepts and names the colors and knows the simple forms cube, ball, cylander. She does very good work in calisthenics Dictates and writes her letters from a copy but copies very slowly. Does not give me very much trouble in school

March 1903. 1:30 to 3 P.M.

Hoaps

Don. Reads in the Werner primer on page 95 reads both script and print knows all the letters by name, build the lesson with the letters spells the words from dictation and writes them. knows the number by name and writes numbers to 15. any kinds of occupation work he does well such as folding and cutting the paper strips for the kindergarten. marking out and cutting the tags for the store. cutting the straws. He writes all the lesson on the board. his penmanship is good. Does good work in calisthenics is good and usually he likes the exercise.

Hanson

Andrew Has been in school all the month has worked very nicely reads 21 pages on the chart and spell the words, and reads on page 51 in the Werner Primer builds his lesson with the letters, on the desk. his work is always well done Does good number work orally has a good idea of addition Subtraction multiplication & division of course he works slowly Does very good work in calisthenics Has made another yarn rug on the little loom, and the work is so well done, he likes to be busy never gives me any trouble in school.

March 1903 1st to 3 P.M.

Howerson

Albert has been in school all the month he is capable of doing good but he is not very much inclined to hard work, he reads in the chart class can read nine pages and know all the words, writes a little from a copy can learn to write well if he will only try, can put the sliced pictures together fold and cut the paper strips for the Kindergarten and also the straws can do very good work in calisthenics He is not a very agreeable child to have in school.

Joslin

Clara has been in school all the month she works quite well in school she reads 21 pages on the chart knows all the letter and can read well knows all the words she has had, she reads on page 5 x in the Werner Primer, build his lesson lesson with the letters on her desk does it well, she likes to be busy Does her part in calisthenics Dictates her letters to her friends Never gives me any trouble in school

March 1903 1st to 3 P.M.

Kiefer

Doyle has been in school all the month, he has his lesson about the Ball on the board, in putting the lesson on the board I find this class does better work and will help with the lesson. he has learned several words such as round, ball large, small, rubber, roll, white, red etc. he will work at busy work, string the beads assort the colors, practice writing, and make designs with the colored pegs. Does very good work in calisthenics. Does not give me any trouble in school.

Mapp

Lonnie Works quite well in school he reads on page 5 x in the Werner Primer and 21 pages on the chart can build his lesson with the letters and can write the lesson nicely. Dictates his letters and writes them from a copy. Has drawn some quite good pictures he does not care as much for his lessons in the book as for the drawing. can fold and cut the strips of paper for the kindergarten, mark out and cut the cards for the library cards and the books. Does very good work in calisthenics does not like track work. Has not given me much trouble in school.

March 1903. 1:30 to 3. P.M.

P. Toole

Margret has been in school all the month she is doing good work Reads on page 95 in the Werner Primer. always knows her lesson. writes the spelling from dictation and does it quickly counts, and writes numbers to 29. does good oral work in numbers and puts the sliced pictures together fold and cuts the paper strips for the Kindergarten also the straw she does the best work of anyone in the room at this time. dictates her letters and writes them from a copy, does good work in calisthenics. does not give me any trouble in school

Swisse

Matilda has been in school all the month she works well with her one hand folds the paper strips for the Kindergarten not any one could do it better assorts and string the beads makes designs on her desk with the colored pegs. From her lesson on the board. has learned to read quite a little, such words a Ball, red white new old rubber hand soft round white &c. does quite well in calisthenics, never gives me any trouble in school.

March 1903. 1:30 to 3 P. M.

Wallace

Julia has been in school all the month, she has not made very much improvement, will assort the colored sticks or string the beads, and sometimes make simple designs on her desk with the colored pegs she has her lesson on the board with Matilda Hyde has learned a few words she likes to play with the ball, she folds the paper strips for the kindergarten and cuts them does it quite well her work in calisthenics is not the best but she gets the change and exercise. Does not give me any trouble in school.

Wright

Mabel has been in school all the month she reads on page 75 in the Werner Primer always has her lesson both reading & spelling write her lesson from the book with out help spells all her words from dictation, she does very good oral number work and any kind of busy work she does well, has improved in her writing quite a little she is a child who has learned to be busy with something does good work in calisthenics is. Does not give me any trouble in school.

April 1903 8^{30} to 10. a m

Buechner

Agnis has worked well all this month she reads the third page on the chart ten different words, she has a much better idea of what it is to read than many in her class, yet she learns quite slowly. can write her name so that one can tell what she was trying to do, writes from a copy, has done very good work in calisthenics and will try any of the exercises I give the class. This month the paper strips had to be cut by the rule. I marked the number of inches on the rule. and showed her what I wanted her to do and she learned to cut the papers well. She has been in school all the month Deportment quite good

Eggersdofer

Max is not as ambitious to work as Sigvardson, that is, he will not work at any kind of work as diligent. he will cut the paper strips for the kindergarten until he gets tired of the work & then he refuses to work any longer Writes from a copy nicely Does very good work in calisthenics almost any busy work he will do well like to have some kind of occupation. has never give me any trouble in school. Has been in in school all except days this mo.

April 1903 8:30 to 10 A.M.

Claflin

Richard has worked well reads ten pages on the chart slowly and in the Werner Primer he reads on page 47 ands writes the lesson from the book, he has inproved in writing writes with a pen and ink in the copy book is doing very nice work Does good work in calisthenics and is always willing to work, any kind of accupation work he does very nicely, such as cutting the the paper strips for the Kindergarten pasting the sliced pictures togetter &c &c Has been in school all this months Deportment good

Kolmstrom

Hurtunt sometimes surprises me by doing his work well but not very often, does not read well on the chart. when he stands to read alone he will not do nearly as well as when he is helping some one else, he will fold and cut the strips for the kindergarten and can put many of the sliced pictures to gether. he likes to do the errands in the school rooms for the reason that he does not like to sit still very long at one time. Has been in school all the months. does quite good work in the calisthenics Deportment not bad.

April 1903. 8:30 to 10 A.M.

Harding

Gladis has done as well as usual she reads ten lessons on the chart she knows all the words and is sure of them she reades the best of any one in the class and writes the poorest I think she will never learn to write well. she knows the letters by name. she never refuses to take the work in calisthenics but will never do that work well. it is not in her to do it well. all kinds of accupation work she will do quite well and keeps her work well on the desk Has been in school all this mo. Deportment very good.

Langan

Mamie will never do any more than she is doing now.

McLaughlin

Dan will never do very much real school work. Some days his work is good, then many he for days he will not take the least interest he will not try if he thinks he can not do a thing, yet he is always anxious to learn to read remembers that his mother wants him to read he learns slowly, does very good work in calisthenics for him gets the exercise has been in school all the mo. Does not give me any trouble in school.

April 1903. 8 30 to 10. a.m.

Menard

Lily will have to change very much if she ever learns any thing at all she never does any thing well unless she has help from the teacher. she comes to class but is not in the least interested in the work. In the calisthenic work she will simply stand and when I call her attention to the work she will may be hold up one hand but never does the work at all well any kind of occupation work she will work at but not in any kind of order. she has been in school all the month. Does not give me any trouble in school.

Rime

Gilbert is doing very good work in reading, reads ten pages on the chart and and 47 pages in the werner primer he knows the words as well or better than any in the class, he hears so poorly that he looses the interest he would have only for that, he can write quite well but does not care to. will write a few lines then quit his hands are not steady and he may become tired easily. Does no do good work in calisthenics but I think as why he does as well as he can Has been in school all this month Deportment good,

April 1903 8 30 to 10 a.m.

Keifer

Louie This is the first month she has been in school, she knows very little about school work does not read at all comes to the chart class I think she is showing a little interest in this work, she will learn very slowly. can not write any word. she is taking quite a little interest in calisthenics, and much of the occupation work she takes up quite readily, folds the papers well, this time the strips came too short to fold in the middle so I marked the rule for her and from that she folded them fine without any helps. never gives me any trouble in school

Kiefer

Laura This is the first month she has been in this school I think may be she has been in school before she came here. she knows a little more than Louie. but not much. she does not seem really to be as intelligent as Louie, she is in the chart class and know a few words, her work in calisthenics is not good but she tries and gets the exercise. the occupation work she does not as well as Louie yet in that she has improved a little. folds the paper with the rule after I had marked the place for her on the rule. She will never make any trouble in school.

April 1903 8:30 to 10 a.m.

Rossman

Henry Has not been in school enough this month to even keep up with the class.

Roesner

Dena while she is not at all quick about learning yet I can see that she is learning some every month she is beginning to take more interest in her work, she read in the chart class knows the words on three pages know some of the letters by name, any kind of occupation work she has she does well and keeps it in good shape on her desk, she has improved a little in her penmanship, she is speaking her words much better than when she first came to school Does very good work in calisthenics Never gives me any trouble in school.

Smith

Raymond while so far he has not done any real good work in school yet I think this month he has shown more interest than usual one day he had some colored sticks on his desk and with them he made a R.R. track and had the engines switching back and forward and was as much interested as if he had had the real thing, Does not give me any trouble in school.

April 1903. 8:30 to 10 a.m.

Larson

Adena has been in school this month all the month for the first time since she started to school, she has learned a few words on the chart and seems quite pleased to think she can learn, When she first came to school she would not try to do any thing and if I asked her to do any she would just stand and look at me and not even try to do any thing, especially was that true in calisthenics she would not lift a hand or foot until I did it for her now she will try almost any thing we do in calisthenics, and is doing good work She never gives me any trouble in school

Shull

Ervin has been in school all the month. he is nearly always busy with some kind of busy work folds and cuts the paper strips for the Kindergarten assorts and strings the beads, this month he took scraps of paper that were not the right length and made a paper chain with them did it very nicely. He made partitions in a box and put the strips of papers that were the same length all in one place. He does not care any thing about learning to read. Does not give me any trouble in school.

April 1903. 8:30 to 10. a. m.

Swenson

Ralph has not made any improvement does nothing well does as good work in calisthenics as any thing I think I am safe in saying that he will never learn much in literary work. Never gives me any trouble in school

Wefling

Alava is doing very good work in school she can read the lesson on page 47 in the Werner Primer and ten pages on the chart she has learned many of the letters by name and is interested in any of her work can build her lesson from the book with the letters keeps her work nicely on the desk, she writes with pen and ink in the copy book is doing quite good work, Does good work in calisthenics and did not find it hard to learn any kind of occupation work, she may have she does well. She has been in school all this month never give me any trouble.

April 1903. 10^30 to 12^15. A.M.

Braun

Annie has worked well in her reading and spelling she reads in the Baldwin Second Reader on page 60 she has spelled all the words in the lessons from dictation and wrote them on the board, she really works hard in school writes in the copybook with pen and ink and is careful with her work has improved in her penmanship very much, she has not learned very much in number yet she know a little about the work. Does good work in calisthenics, and is always ready to take the work She has been in school all the month never gives one any trouble in school

Betcher

Sarah has been in school all the month, she is keeping up her interest notwithstanding she is in the singing class and is out part of the period, She does not learn so quickly as many of the class yet she manages to keep up. She reads in the Natures story book on page 53 she has spelled all the words from dictation and many times has written them on the board, she writes with pen and ink in a copy book, Does good work in calisthenics Never gives one any trouble in school

April 1903. 10^30 to 12^15 A.M.

Brechton

William I do not know how to write this report, he can do good work but he so often will not try I sometimes think I will not try, but I know he can learn if he will, so I will keep trying, he reads on page 53 in The Natures Story Book, he articulates so poorly that he does not like to either read or spell orally I find many times if I let him write his spelling on the board he can when he could not otherwise, there is not a child in my class who can put the lesson the board better than he, Writes with pen and ink in the copybook, his work looks well any kind of occupation work he does well can build his lessons with the letters, does quite good work in oral numbers. can do as good work as any one in the class, in calisthenics when he will, he is I think inclined to dislike work of any kind. He may of course at times not feel well, he often speaks of his stomach hurting him. He has been in school every day this month He does not usually give me any trouble in school

April 1903. 10^{30} to 12^{15}. a m.

Fkruchtmann

Charlie does not loose his interest in his work, he of course learnes very slowly, but I am sure he tries he reads in the Taylor First Reade on page 28 he can spell all the words of the lesson on the book and many of them from dictation he find it hard to learn in school he can build his lesson with the letters and copy the script. he writes with pen and ink in a copybook. Keep the copybook very nice and is very careful with his work. His number work is not good Can do good work in calisthenics Has been in school all the mo. never gives me any trouble in school

Foute

Raymond has worked very well this month he reads in the Taylor First Reader on page 28. he is very slow does not talk well which is a great hinderance to him in both spelling and reading. he can spell the words from dictation but it takes him so long that I do not like to have him try. writes very nicely with pen and ink in the copybook & so far has been careful of his book Work in calisthenics quite good for him Work in oral numbers sometime pretty good. Has been in school all the month. Has not given me any trouble in school.

April 1903 10^{30} to 12^{15}. A. M.

Gorham

Angeline has stood at the head of her class all this month, she has done good work, she always has her spelling can write it on the board from dictation and some times she know it all by memory. she reads quite well on page 53. in the Natures Story Book, she is out of school a part of the period, to be in the singing class she can do quite a little in oral numbes Does good work in calisthenics. can write with pen and ink in the copy book. Dictates her letts and write them from the copy. She has not given me any trouble in school.

Grow

Edward is capable of doing very good school work at times He reads in the Baldwin Second Reader on page 58, always knows the spelling, spells from dictation and writes it on the board. Read better than any one in the class understands what he reads, he is very slovenly in his personal appearance and all the work he does, not any thing he does is well done or shows that he has been in the least careful. He does good oral number work, always takes calisthenics but just as he does all his work, has been in school all the month & does not give me very much trouble in school.

April 1903 10:30 to 12:15 a.m.

Hodge

John does not like to work as well as many of the class yet he keeps up with his class quite well. he reads in the Taylor First Reader on page 28. builds the lessons with the letters, and can write it from the book. spells all the words from dictation, he does very good work in oral numbers in this. he does much better work than many of the class writes with pen and ink in a copybook does very good work is careful of his book. Does very good work in calisthenics. Has not given me any trouble in school Has been in school all the mo.

Haack

Gustav Has done good work this month, he spends a part of his time taking this work in articulation and in order to keep up with his class he writes his spelling on paper and learns it out of school, he is at the head of his class all the time that is he spells all the words, he of course learns slowly does not read well, but would if he did not stutter a little, Reads on page 53 in Natures Story Book, writes his spelling from dictation on the board, writes with pen and ink in a copybook. does good work in calisthenics, has been in school all the month. never gives me any trouble in school.

April 1903 10:30 to 12:15 a.m.

Ostrander

Bennie is working well he reads in the Natures Story Book on page 53. writes all the lesson on the board from the book, and his spelling from dictation. he builds his lesson with the letters, he is improving in his penmanship quite a little writes with pen and ink in a copybook. he likes to be busy Does good work in calisthenics. never gives me any trouble in school Has been in school all this month.

Parquett

Irene is one of those children who wants to have her own way about any thing she does, and wants to be in every thing where she will make a show, yet she has such an ugly disposition the she misses much that she might share, she does not like to see any of the class doing better work than she, so she will work to keep up. while if she did as she wished she would not work at all. she has really done good work in school. Reads in the Natures Story Book on page 53. can write her words on the from dictation and she has to work to be able to do it. She write with pen and ink in the copy book, does good work in calisthenics (for her). has been in school all the month Deportment usually quite good

April 1903 10:30 to 12:15 A.M.

Podden

Jessie has worked well in school she reads on page 60 in the Baldwin Second reader, she always knows her spelling and many time when the lesson is not too long she will write it all on the board from memory while some of the other are writing from dictation. she reads quite well. she is careless with her writing there is not one in the class who has as bad looking copybook as she, Does good work in calisthenics, her work in oral numbers is not the best she is very slow. Deportment in school good has been in school all the month.

Parsons

Jonas has only been in school a few days. he reads in the Second reader quite well can spell all the words in the lesson, and write them on the board from dictation. he does not read so that one can hear him unless standing beside him, it is the same when he talks with you he is learning calisthenics will do good work. I think he will never give any trouble in school he is so very quiet.

April 1903 10:30 to 12:15

Rondestredt

Rosa has worked well in school she reads in the Taylor First Reader on page 28, she spell all the words from dictation often writes her spelling on paper and learns it in the playroom she is improving, but slowly can not be hurried, write with pen and ink in a copybook does good work keep her book nice she is usually busy if she is feeling well, Does good work in calisthenics. Her work in numbers is very simple. Has been in school all the month. Deportment good

Swanson

Charlie is doing good work in school he, like all in the class, is slow yet he knows that and does his best, he is always busy, reads in the Natures Story Book on page 53. writes his spelling on the board from dictation does it well works to keep up with the best in his class writes in a copybook with pen and ink keeps his book nice is careful with his writing Does good work in calisthenics. number work mostly very simple. has been in school all the month. never gives me any trouble.

April 1903. 10 30 to 12 15 a.m.

Smith

Burt is working well he stands at the head of his class in spelling Reads in the Natures Story Book on page 53. write the spelling on the board from dictation. and often writes all his lesson from the book on the board, write well in the copybook with pen and ink. dictates his letters and writes them from a copy Does good number work and likes it of course he is slow with it Does good work in calisthenics Has not given me any trouble in school Has been in all the mo.

Shurman

Hazel is working well in school reads on page 28 in the Taylor First Reader stands at the head of her class always has her spelling and reads quite well. she can build the lesson with the letters spells from dictation. writes quit well in the copybook with pen and ink Has a much better idea of number than many in the class. Does good work in calisthenics Has been in school all the month. Never gives me any trouble in school.

April 1903 10 30 to 12 15 a.m.

Tisdale

Charlie has worked very well in school he reads on page 28 in the Taylor First Reader. usually can spell all the words in the lesson from dictation. reads quite well. write in the copybook with pen and ink is careful with his writing. Does good work in calisthenics but does not like it, he has a much better idea of numbers than many in the class know that numbers have a meaning Has been in school all the mo. Does not give me any trouble.

Gould

Laura is doing her best in school of all the children in my school Laura works the hardest to learn. she know it is hard for her to keep up and that, that is one reason she is in this school, she will have her spelling written on paper for her every day and will just have it too she will write it herself and bring it to me so as to be sure she has made no mistakes and stands by me until it is done for her she reads in the Taylor First Reader on page 28. and is doing her best. Does good work in calisthenics. Has been in school every day. Deportment good

April 1903 1:30 to 3. P. M.

Andrus

Florence seems like a girl who will learn but she is so very homesick that she can't think of any thing She reads in the Werner primer on page 107, she comes to class and recites but does not take the slightest interest in her work. I think she can do good work if she ever gets over her wanting to go home, can build her lesson with the letters. Spells the words from dictation. She is learning to go through with the drill in calisthenics it is all very diffienlt for her but she tries and will learn. has been in school all the mo. is nice and quick in school.

Bomback

Fred reads on page 107 in the Werner Primer know all the letters by name and the words, reads very slowly spells some of the words from dictation builds his lesson with the letters. knows the colors r. y. b. g. o. & p. does very good work in calisthenics. Counts to 20 reads numbers to 9. dictates his letters to his friends, works at any kind of occupation work quite well. has been in school all this month Has not given me any trouble,

April 1903. 1:30 to 3. P. M

Beach

Oliver is not in school regular has been out eight day this month, He reads in the Werner primer on page 65. he can build his lesson with the letters and reads quite well, he is not very fond of school and does not accomplish as much as I think he is able to. does very good work in calisthenics writes in a copybook with a pen and ink has been careless with his book. he has been good in school.

Blake

Alice seems to be able to work in school and will work at any kind of occupation work I give her such as folding or cutting the paper strips for the kindergarten stringing the beads, &c &. but when it comes to her learning to read she just can not think of the words from one day to another and she will look at the chart each time as if it was the first time she had seen it. she knows her name if she sees it written and can write her name from a copy can count ten, she has been in school all the month. does quite good work in calisthenics, never gives me any trouble in school

April 1903 1:30 to 3. P.M.

Egglar

Robert reads on page 65 in the Werner Primer builds the lesson with the letters knows many of the letters by name, writes his name without any help, writes in a copybook with pen & ink keeps his book in good shape counts twenty know the colors, any kind of hand work he has in school he does well does very good work in calisthenics Has been in school all the month. likes to be the errand boy in school and is good know how to put the work away Does not give me very much trouble in school

Haagenson

Hannah is only in school a part of the periode she works well while she is in, she I think can learn to read in time, she reads in the Werner Primer with the class and also on the chart she has learned several words, Does very good work in calisthenics. any kind of hunny work she does very well, she has been in school all the month except four days. Does not make any trouble in school

April 1903. 1:30 to 3. P.M.

Hendrickson

Emma has only been in school three days

Hoops

Don is doing very good work for him, he reads in the Werner Primer on page 107 he builds the lesson with the letters, reads quite well, spells many of the words from dictation and all of the them on the book writes his lesson on the board better than any one in my school and does it quickly, knows all the letters by name. writes well in his copy book with pen and ink counts ten names the colors. Has been in school all the month, does good work in calisthenics, Does not give me any trouble in school.

Hanson

Andrew. has worked well in school Reads on page 65 in the Werner Primer builds the lesson with the letters nicely. I think if he could speak so that one could understand him he would read and spell as well as any in the class, he knows he can not so will not try, writes in a copy book well. writes his name with out help. counts 12. by two knows the numbers by name. Names the colors. Has been in all the month does his best in calisthenics. Never gives me any trouble in school.

April 1903 1:30 to 3. P.M.

Howerson

Albert has done very good work this month Reads in the Werner Primer on page 65. he know all the letters and spell the lesson from dictation and reads the best of any in the class. he write well from a copy Does very good work in calisthenics and any kind of occupation work he seem do well. writes the lesson on the board every day and does it well. has been in school all the month Does not give me any trouble in school

Joslin

Clara has worked well in school has her lesson on page 65 in the Werner Primer she can build her lesson with the letter on her desk, and spells some of the words from dictation and all from the book knows all the letters by name can write her name. Does good work in calisthenics counts 12 and the number by name to 12 can name the colors. Has been in school all the month. never gives me any trouble in school

April 1903 1:30 to 3. P.M.

Keifer

Lyle has been in school all the month he reads three or four pages on the chart usually he has his lesson on the board, he will help make up the lessons, with the lesson about the ball he will tell many things that a ball can do and will remember the words when we read the different stories, He will assort the colors and work at any kind of occupation work, does quite good work in calisthenics does not give me any trouble in school

Mapp

Tomie has been in school all the month has done quite good work. Reads in the Werner Primer on page 65, he builds the lesson with the letters and spells the words on the board. writes in a copybook with pen & ink writes well and is careful with his work dictates his letters to his friends and writes them from a copy If he could he would spend all his time drawing pictures some of them are quite good. he is doing very good work in calisthenics. Does not give me any trouble in school

April 1903 1:30 to 3 P. M.

O'Toole

Margaret does good work in school and is always busy Reads on page 106 in the Werner Primer, always spell the words from dictation and knows her reading lesson builds the lesson on her desk with the letters does it nicely writes quite well in the copy book, with pen and ink. counts 100. can read number to one hundred names the colors. any kind of occupation work she does well has been in school all the mo. Does good work in calisthenics Never makes any trouble for me in school.

Swisher

Matilda has done good work in school this month she reads on the chart and in the Werner Primer. she is learning a little every day and if she still keeps up her interest I am sure she will in time learn to read. she writes very well from a copy. any kind of busy work I give her she does well even to folding the paper strips and cutting them there is not a child in the class who does better hand work. she tries to do any thing we do in the schoolroom, never makes any trouble.

April 1903 1:30 to 3 P. M.

Sigvardson

Sigvard is always busy in school and any work he does is well done. cuts the straws for the kindergarten and is very careful to have them just the same length does not like to have any other boy work with him unless he thinks they can do as well as he. folds and cuts the paper just as nicely and puts them in a box. He does good work in calisthenics never gives me any trouble in school. He has been in school all the month.

Wallace

Julia has been in school all the month except the three last days. she is slow with any thing she does she has learned to do work with her hands quite well can string the beads. fold the paper strips. and put the pegs in the boards. she is in the chart class with Lyle and Alice. she does not seem to learn very much as yet she takes the drill in calisthenics quite well. Does not give me any trouble in school

April 1903 1:30 to 3. P.M.
Wright

1903

Mabel reads on page 106 in the Werner Primer, and is doing good work. She reads quite well knows all the words, can spell all the words in the lesson from dictation, she builds the lesson on her desk with the letters, and can write it from the book very well She has improved in her writing very much. Does good work in calisthenics, any kind of occupation work she does well, can write in a copybook with pen and ink I think writing with the pen is helping her to be more careful of her writing she makes a good errand girl in school she knows where the children sit and where the work is kept. I can see that she is much more interested in school than at any other time She has been in school all the month. Never gives me any trouble in school

May & June 1903. 8^30 to 10 A M.
Buechner

Agnes is rather a new child came in this room in Jan. she has improved in all the work she has had has learned to give her attention much better than when she first came in school. can read fine lessons on the chart, knows all the words she has had, can spell some of the words if she sees the word. Writes her lesson from a copy. does not write well. can string the beads from dictation alternating with 5 & 6. Assorts the colors quickly. knows the cube, ball & cylinder names the colors. is doing good work in calisthenics. Folds and cuts the paper strips for the kindergarten uses the scissors very well, traces a copy with the pricking needle keeping on the line, dictates her letters can not copy them, enjoys any of the games. likes ball and ten pins the best, can put any of the sliced pictures together and does it quickly, she may not be able to remember all she has done but will improve some in time to come. She is quiet in school.

1903 May & June
Eggersdofer

Max has had no literary work from the fact that he is deaf and dumb. he is not a dull boy by any means does any kind of work with his hands well. assorts and matches the colors and forms. can put any of the sliced pictures together and does it quickly can make the rugs on the little loom mark out the tags, and the paper pockets for the library books. cuts and folds the packets and punches the holes in the tags and puts the strings in them so they are ready for the storekeeper. has quite an idea for drawing. one day one had the gold fish in the globe in school and he drew a very good picture of it with the right number of fish in the globe. cuts the kindergarten straws in one inch lengths and folds cements the papers for the chains in the kindergarten will string the colored beads and alternate with any number of beads. Does very good work in calisthenics Has never given one any trouble in school. can write his name well his penmanship is good

1903 May + June 8:30 to 10 a.m.
Claflin

Richard has not been in school regular he reads in the Werner Prims on page 50 + 51 can copy the lessons from the book if they are in script, can write his name without a copy. uses ink and pen in his copy book penmanship is good, traces any copy with the pricking needle keeps on the line well. knows the names of many of the litters and if he can not call a word by name, if he spells it the name will come to him, has had ten pages on the chart and read them all, but he can not be depended upon if he is out of school a day or two he seems to have lost all he had gained yet it does not take quite so long for him to get it back. dictates his letters and can write them from a copy but is very slow and does not do it often. Can assoort and name the colors strings the beads alternating with 5. knows the forms ball cube and cylinder. he cuts the strows for the kindergarten, one inch in length folds and cuts the paper stripes. He makes a good erased boy in the school room does his work quietly Enjoys the games does good work in calisthenics Never gives me any trouble in school.

1903 May + June 8:30 to 10 a.m.
Holstrom

Hurbert has improved a little during the year, but he will never be able to do very much in a literary way. I think he is more attentive, when any other child is reciting he will prompt them when the come to a word they can not pay, but when he stands to read he seems to forget every word can write his name quite well from a copy. can trace his name nicely with the pricking needle. can count ten but it does not mean anything to him could not give me ten objects. can put the sliced pictures together, assorts and names the colors know the cube, ball & cylinder when I gives him the colored pegs he will make some very pretty designs can match the simple forms. folds and cuts the kinder garten papers keeps his work in good order on his desk. is very fond of games likes any game of ball, is also fond of tenpins. Does as good work in calisthenics as he can. I think he never will do that work well but always gets some exercise. Deportment very good

1903 May + June 8:30 to 10. A.M.
Harding

Gladis has done good work all the year, that is, she has done her best. she reads, ten lessons on the chart and knows all the words and is sure of them she reads the best of any in her class, she will never write well, yet she tries. she can trace a copy with the pricking needle does very good work for her in calisthenics, will never do the best work. Assorts and names the colors quickly, strings the beads 6 + 5: and is nearly always the first one to finish her string, folds and cuts the kindergarten papers nicely keeps her work in order on her desk. She builds her lesson with the letters knows the forms cube cylinder + ball; Does quite good work on the simple sewing cards can put the cutup pictures together enjoys games and likes to have a part in them she likes to have work of some kind to do. never has given me any trouble in school

1908 May + June 8:30 to 11 A.M.
Keifer

Lailie has only been in school since April I am sure I do not know what she may do. so far she has done very little does not seem to know how to do school work. I should think she was never in school before she came here, she learns very slowly. she names the colors, and assorts them, knows the cube, cylinder and ball, can string the beads from dictation by two's, can not count more than two, can put the cutup pictures together. she likes the games but all kinds of school work seem strange to her. she does her best in calisthenics, but that is not well done yet she will learn that I am sure with practice, can fold and cut the paper strips for the Kindergarten, Dictates her letters to her mother and knows what she wants to say enjoys the games, can throw + catch a ball, uses the scissors well, keeps her work in order on her desk. can trace her name with the pricking needle, can not write but tries and I think may learn, She never gives me any trouble in school.

1903 May & June 8:30 to 10 A.M.
Keifer

Laura came in school in April she has been in school before coming here. she has improved a little and I think may be in time she may do much better in school, yet she will not ever learn enough to be of much help to her she does not like literary work but will try if she thinks she must, She has learned the letters by name, reads fine pages on the Chart, she can trace & copy with the pricking needle and keep on the link does not write but can make some letters very nicely. Counts ten assorts and names the colors, knows the cube, ball, & cylinder. She find calisthenics very hard to learn and does not get it at all well for all she tries every day. She can put the Entrup pictures together. Dictates her letters to her mother, enjoys the games and is willing to take a part in them. Can fold and cut the strips for the kindergarten chains and has learned to be very careful with her work keeps it in order on the desk. She never gives one any trouble in school

1903 May & June 8:30 to 10 A.M.
Langan

Mamie Has made very little if any improvement this year she is in school every day and what she does is mostly by imitation she is not found of work yet if she has it on her desk she will do something with it Assorts and names the colors quickly, know the cube, cylinder and ball, has no idea of numbers nor how to take calisthenics and I feel sure she will never do calisthenics well. but may get a little exercise from trying to take it with the class, she never make one movement as it should be, She has improved in her deportment is much more quiet in school. She can dictate her letters, Has learned to fold and cut the strips of paper for the kindergarten chains and to keep her work in order on the desk, Can use the scissors. Enjoys all the games,

1903 May and June 8:30 to 10. A.M.
Larson

Adena Has improved very much in the last three months, when she first came in school she simply did nothing and then too she was out of school quite a little, She is very quiet never speaks loud in fact one must be quite near her if they can understand her at all. She reads in the chart class, that is, she comes to the class, but never has even tried to say one word until within the last month, and she has said several words when asked to read aloud and seems pleased to know she can try to reach She does not write but traces a copy with the pricking needle quite well, she tries to write but can not form any of the letters, counts four assorts and matches the colors matches the forms cube, ball and cylinder strings the beads by fours. Put the cut up pictures together quickly. In reading if she can not speak the word if I suggest some some object that she know she often will think of the name, she very often knows the word, and will not say as many of the children do just any thing but will wait until she hears the right words, she

1903 May & June 8:30 to 10. A.M.

does not speak readily many times can not say what she wants to, can throw and catch a ball well When I first began to teach her calisthenics I almost gave up ever trying to work with her. She would stand and look right at me as much as to say I can't and won't. but much to my surprise she finally began to take a little interest in it after I had stood behind her and moved her hands and lifted her feet for her, then had her watch me, until now she will try almost any of the exercises, except to run and jump, she just can not do that yet, but tries. She is much more active in school and will try any simple work I give her folds and cuts the paper strips for the Kindergarten chains and will make designs with the colored stick and pegs, She of course is very quiet in school and never gives me any trouble. You will understand that she is very slow in what she has done.

1903 May & June 8:30 to 10 A.M.

Mc. Laughlin, Dan is not at all satisfactory some time he does good work for a day or two the may be for several days he will seem to have no mind at all. He assorts and names the colors, knows the cube ball and cylinder, counts fine, strings the beads alternating with 5 & 6, from a copy. some days he will read quite well on the chart and will follow the others in the class and prompt them if they do not call the words right, but I can not depend up on him. he tries to write his name and form some of the letters very well, can not trace well, his hands are not at all steady. He dictates his letter know what he want to say, he can throw and catch a ball better than any child in his class enjoys games very much, let him be ever so careless about his work if I mention a game of ball he is the first out of his seat. He has never given me any trouble in school, can put some of the simple cutup pictures together, and can tell the names of the animals he has seen.

1903 May & June 8:30 to 10 A.M.

Menard

Lila I am sorry to say has done very little work of any kind she does not talk so that I can understand her and if she did I am sure she has not mind enough to express an idea so far I have not been able to get her attention at all when I work with her and try to have her speak or do some work on the desk she will not give the least attention, and if I try to get her to say some word, she is more likely than not to say some other word and will not say what I want her to. In trying to have her learn calisthenics she seems a hopeless case, if she ever does try she always does the wrong thing but she will not try very often she never does any thing as it should be unless I sit beside her and hold her attention for her. She will put the beads on the string but not in any order, she does not give me any trouble in school except that I can not find out how to make or help her to learn, that is trouble enough for any one child to make

1903 May & June 8:30 to 10 A.M.
Rinne

Gilbert has worked well thro the year for him. he is so very deaf that he misses much of the class work and from that fact he looses interest in much of his work especially the literary work Reads in the Werner Primer on Page 55, he knows the words, & the letters by name. reads on the chart sometime for a change can write the lesson when it is in the script writes his name does not like to write I think he finds it very hard work. his hands are so very unsteady. but for that he writes well. counts 5. assorts and names the colors. knows the cube cylinder ball. string the beads alternating 5 & 5. can put any of the cutup pictures together quickly. Throws and catches the ball well like games. His work in calisthenics is not at all good does not like the exercise. Is careful with any kind of hand work such as folding and cutting the paper strips and making the tags for the store keeper and punching the holes and tieing the strings in them. he does not make any trouble in school.

1903 May & June. 8:00 to 10. A. M.
Rosaman

Henry really has not had an fare show in school this year for he has spent so much time out of school, that he could not keep up his interest. When he first came in school I hoped I could see quite an improvement by the time the year was up, but as it is he has made very little When he was in school he knew all the words in four pages on the chart and was taking quite a little interest in writing would put some of the pictures together, string the beads alternating with three and three assorted and named the colors folded the paper strips for the Kindergarten chains and cut them nicely kept his work well on his desk. I did the work in calisthenics as well as he could always tried his best yet the work was not what I would like to have had it. he dictated his letter to his papa and knew just what he wanted to say. Never gave me any trouble in school.

1903 May & June 8:30 to 10 A.M.

Roemer

Dena has improved quite a little during the year. she has learned to read five pages on the chart and will follow any child who is reading and will prompt them if they do not know the word, she needs to have her lesson every day if she does her best work. if she is out of school for a day or two I find she has forgotten but it does not take her so long to remember as it did in the beginning of the year. She can form some letters quite well but not many. Traces a copy better than any child in my school she never misses the line once & the work is done beautiful. She strings the beads from dictation and alternates with 1+1, 2+2, 3+3, 4+4 5+5, can put the cut up pictures together quickly. Does good work in calisthenics. is very fond of games can throw and catch a ball as well as any child in my school Folds and cuts the Kinder garten papers beautifully keeps her work in good order on her desk. Her deportment is good

1903 May & June 8:30, to 10. A.M.

Smith

Raymond D. am sure has not made very much improvement, he has not done any thing well that he did without help. he can string the beads in order when I sit by him and caution him each time to be careful and say take the red one this time now take a yellow one and so on. If he wants to do something very much he will ask me to let him do it but that has not happened more than two or three times he has not the least idea of what it is to take the work in calisthenics some times I hold his hands or his feet and help him, but he will not do it alone.

Shull

Ervin has not made any improvement in school does just what he did last year does not talk so that one can understand him and I think for that reason he does not try to read, he is always busy with some kind of busy work. can put any of the cut up pictures together. Make all kinds of designs with the pegs or wood tablets writes his name well from a copy. Traces the copy nicely Has not given me any trouble in school

1903 May & June 8:30 to 10 A.M.

Swenson

Ralph has not made much improvement in any of his work in my room, he recites with the chart class. Some times he will read quite well, but usually he knows very little about the lesson has no application. Assorts the colors and names them, knows the cube, ball, & cylinder. can count ten number do not have any meaning to him. can put the cutup pictures together quickly His work in calisthenics is not good yet he has gotten some exercise out of the work. Folds and cuts the paper strips for the kindergarten, does that work very nicely keeps his work in order on his desk. he is fond of any kind of games can throw and catch a ball as quickly as any one in the room is not a hard boy to manage.

1903 May & June 8:30 to 10 A.M.

Weflin

Alava has been in school six mo's when she came she did not know the language and I think had very little if any schooling. She has made much improvement, at first she read on the chart. now she has the Werner Primer and can read, and spell the words from dictation on page 59 has learned all the letters she has had, writes in a copybook with pen and ink penmanship is good. String the beads from dictation alternating with 5 + 5, does it quickly counts twenty. builds her lesson with the letters keeps her work in order on the desk. can write the number from dictation or from a copy folds and cuts the paper strips for the kindergarten chains does it well. Dictates her letters. She is fond of games can throw and catch a ball. Assorts & names the colors Does good work in calisthenics she never found that hard to learn can put any of the cutup pictures together. has a good disposition never has given me the least trouble in school

1903. May + june 8.30 to 10 A.M.
Doyle

Elizabeth has only been in school about three weeks, she has been in school before she came here. can read in the Werner Primer on page 59. knows the letters spells the words from dictation. writes the lesson on the board from the book. know the meaning of the words in the lesson. write a very good hand writes the number from dictation to 14. know the value of the numbers to 14. can count 100. names the days of the week and names the month can tell right and left. dictates her letters know what she wants to say. is fond of games can toss the ball. Does not catch the ball. There is nothing I give in calisthenics, that she will not try to do. and she is doing very good work. Can fold and cut the paper strips for the kindergarten Builds her lesson with the letters Assorts and names the colors knows the cube, ball, cylinder, can string the beads from dictation alternating with 5+5 She is a child who talks quite a little but if she can be kept busy she will not talk. Is not a hard child to manage

1903 May & June 10:30 to 12:15 A.M.

Braun

Annie has kept up her interest all through the year. she has taken up the Leaves From Nature's Story-book and finished it spelled all the words and read all the lesson twice and sometimes more. than twice, she know the meaning of many of the words. can tell the lesson story so that I am sure she know what she is reading, yet she is not a good reader writes her speling on the board, just as well as any of the others in the class, she now has the Baldwin 2nd Reader has had about 100 pages has read and spelled all the lessons writes her spelling from dictation on the board, writes in the copy book with the pen and ink has done good work in her penmanship be careful with her copybook. She is not fond of numbers can count 100. and write any number to 100. she knows that number means work and she is willing to try. can add, subtract, multiply and divide orally with simple numbers. If I should ask her to bring me any number of heads to twenty she could do it yet I am sure she will never do very much in this work. She does very good work in calisthenics while she is in the class she can

hold herself up but in the playroom she is careless I think she wants to do what is right but find it hard to always be on her guard, she can match the forms. put the cut up pictures together. names the days of the week and the months of the year knows the directions E.W.N.S. assorts and names the colors. Enjoys all the games we have in school can throw and catch a ball. Dictates her letters and can write them from a copy any kind of busy work she has in school she does well. can build her lesson with the letters fold and cut the paper strips for the kindergarten. She has not given me any trouble in school.

1908 May & June 10 30 to 12 15. A M
Belcher

Sarah has done good work all the year and kept up her interest she has Read all the lessons, and spelled the word in the Taylor 1st & Reader twice and now has the Second Reader. Leaves from Natures storybook seventy Pages. she finds it quite hard but will write her spelling on paper and take it to the play room and learn it if she can find any one to help her she can build her lesson with the letters or write it on the board spells the words from dictation has not as good memory as many in the class so does not spell as well in a review lesson. She writes in a copybook with pen and ink, she has improved in her penmanship. In numbers she counts 100. can bring me twenty beads if I ask her, writes numbers to 15. she is slow in all of this work She dictates her letters and writes them from a copy some times has done good work in calisthenics. names the days of the weeks and the months of the year. assorts and names the colors enjoys all the games and likes to be in them She has not given me any trouble in school

1908 May & June 10 30 to 12 15 A. M.
Crichton

William has not been as studious as I had hoped he would be. He has finished the Taylor 1st & Reader with the class. he did not have his reading or spelling nearly as well learned as any of the others in the class. he does not articulate at all well. many time I can not understand what he says to me and I think that may be one reason he is not more interested in his reading. he does not spell at all well. but can write his words much better than spell them orally. I have not a child in school who can write as well as he or at least any better. can put his lesson on the board well. He now reads with the class in the Second reader. Leaves from Natures Storybook on page 70. He has a good idea of numbers counts 50. writes them to 20 knows something of addition Subtraction multiplication & Division all his work is done orally Does quite good work in calisthenics. Dictates & and writes his letters from a copy. like the games. enjoy ball the most then tenpins. Does any kind of occupation work well. keeps his work in order on the desk. His deportment is usually quite good but once in a while he oversteps the bounds.

1903 May & June 10:30 to 12:15 A.M.
Fruchtman

Charlie has been more interested this year than last and of course has done better work. Read on page 36 in the Taylor first reader, knows all the words, builds his lesson with the letters, which has been a great help to him in learning the letters by name and to be able to spell from dictation, he reads quite well, writes in the copybook with pen and ink is very careful of his book, has improved very much, counts 25 writes numbers from a copy any work he does in this is very simple. His work in calisthenics is good I think he holds his shoulders better than at the beginning of the year. Dictates the letters he wants written home can put any of the sliced pictures together, makes the tags and puts the strings in them for the store Assorts the colors. Is very fond of the games, especially ball in any game we have with it and ten pins. Any kind of occupation work he does well Has never given me any trouble in school.

1908 May & June 10:30 to 12:15 A.M.
Foote

Raymond has not been in school regular this year, he has kept up his interest quite well for all that. Reads in the Taylor 1st reader on page 36, builds the lesson with the letters which has helped him to keep his mind on one thing for a long time and has helped him to remember the names of the letters spells the words from dictation If he thinks the lesson is very hard he will write the words on paper and take them to the play room and learn them, Writes in the copy-book with pen and ink, his penmanship is good. Dictates and letters to his friends and writes them from a copy. Counts 100. and writes any number to 100. in number work he is very slow and will never do very much with it, yet if I could give him more time I think he would learn quite a little. Names the days of the week and the months of the year. He like the occupation work and is always busy with something, make very pretty designs with the wood tablets. Is very fond of the games and always is anxious to be in them all. likes ball, and tenpins. Deportment is good

1903 May and June. 10:30 to 12:15 A.M.
Gorham

Angeline There is not a child in my school who has done better work than she. Has finished the Taylor First reader, could spell all the words and knew all the words in the reading lessons Has taken the 2d Reader Leaves from Natures Storybook, she has spent much time in the Operetta yet she has kept up her school work and stood at the head of the class nearly all the time. She would write her spelling on paper and learn it in the play room She can build the lesson quickly with the letters, Writes very nicely in the copy book. Dictates her letters and writes them from a copy. Has a good idea of numbers can count 100, writes any numb to 100. Can add a column of figures of four or five figures and carry the ten, Subtracts, Multiplies and divides in simple number, like this work more than any one in the room. Does good work in calisthenics and has been much benefited by it, she remembers to hold her shoulders up. Names the days of the week & the Months, Enjoys the games Knows the forms such as the cube, cylinder, ball Deportment has been good in school.

1903. May & June 10:30 to 12:15 A.M.
Grow

Edward has been in this school since the middle of Jan. he does good work in school, has finished the Reader Leaves from Natures Storybook and taken on New Second reader (Baldwins) he reads well understands what he reads can tell the lesson story well always knows the spelling writes it from dictation on the board. He is the most slovenly boy in the class. I think he is happy in in his carelessness. his writing on the board and in the copybook all show this trait in him, his work on the board look badly yet one can see he knows the words. Know the meaning of the words in the lesson. Has a good idea of numbers. knows the multiplication table counts 100 or more writes any number to 100. can add and carry the tens. subtract and divide in simple numbers, nearly all this work is oral. Calisthenics is done in a very careless way, is easily excited will often be inclined to be loud & rough if I do not cautions him often, knows the day & months, writes his own letters to his friends enjoys the games. His deportment is not bad, he give me very little trouble, will mind when I ask him to do any thing he would rather not.

1903 May & June 10[30] to 12[15] A. M.

Hodge

John has done very good work this year at the same time I feel sure he might have done much better, he is a child who must be watched all the time if one gets the best work out of him. He has finished the Werner Primer and has the Taylor Primer reader on page 36. can build his lesson quickly or write it from the book, has spelled all the words from dictation, Writes in the copybook with pen and ink keeps the copybook quite neat. He has a much better idea of number than many in the class. has worked out all of the multiplication table alone and did it well. counts 100 and writes any number to 100 adds and carries ten. Subtracts and divides in simple oral work Can do good work in calisthenics, but lacks ambition to keep it up all the time and remember to always hold his shoulders up, He does all kinds of occupation work well such as making the tags for the storekeeper folding & cutting the strips for the kindergarten, like games very much and wants to be in them all. He has not given me any trouble in school,

1903 May & June 10[30] to 12[15] A. M.

Haack

Gustav Has kept up his interest all the year, has finished the Werner primer and taken the Taylors First Reader. reads on page 70 has spelled all his words and read the lessons. Gus does not articulate at all well which is very much against him in both reading and spelling. he is not in school all the period, yet he is so anxious to keep up with the class that he always writes his spelling on paper and takes it out of school and learns it, if he can find anyone to help him he is usually one of the boys at the head of the class can write his spelling from dictation on the board, his penmanship is good writes with pen and ink in the copy book, his work is always well done and he keeps himself neat and carefully dressed if he can neatness is one of his traits Has a good idea of numbers. counts 100 quickly writes any numbe to 100 from dictation. All of his work is done orally adds. Subtracts multiplies and divide in simple numbers. Names the days of the week. names the months, Does good work in calisthenics Enjoys game but not so much as many of the children. Dictates and copies his letters. Deportment good in school

1903 May & June 10:30 to 12:15 A.M.
Ostrander

Bennie has done good work all the year, keeps up his interest all the while. Has done good work in reading and spelling, finished the Taylor 1st Reader and took up the second reader leaves from Natures Story book reads on page 70. builds his lesson with the letters, spells the words from dictation and writes them on the board Has improved in his penmanship writes in the copybook with pen & ink has been careful of his book He is very slow in number and any work he does is very simple yet he understand that numbers mean something more than just to write them can count to 200 and write any numbe to one or two hundred. Adds. Subtracts and dividin if he has the objects to help him can learn the multiplication table, Has done very good work in calisthenics for all he does not like the drill, can put any of the sliced pictures together names the days and months. Enjoys all the games like ball and tenpins the best. Does any kind of occupation work well Has never given me any trouble in school

1903 May & June 10:30 to 12:15 A.M.
Parquett

Irene has never worked better for me than she has this year, she has improved in many ways and the most important improvement is in her deportment, she has a very ugly stubborn disposition and at time she would act so badly that I felt I could not have her in school, but for the last few months she has shown that she tries to do better and really deserves quite a little credit. She reads in the second reader leaves from Natures storybook. having first finished the first reader (Taylors) she has learned to call all the letters by their name it was a long time before she could remember d.b.p.q.i.m.n. and put them in the right place, she has been so anxious to keep up with the rest of the class that she would write her spelling on paper and take it to the play room and learn it and it was not easy for her either, if she did not succeed the first time she would keep trying until she got it, she will not remember them all now, but she has spelled them over and worked hard to do it. She reads much better than at any other time but is not a good reader, but

1903 May & June 10[30] to 12[15] A. M.

she understands the lesson when she is through with it and can tell quite a little of the story. She can write all her lesson on the board from the book does it nearly every day. Penmanship is very good writes in the copy book with pen and ink. Does not do much in numbers. counts ten, she has to take her time if she does any work at all in numbers. Her work in calisthenics is much better than at the first of the year. She dictates her letter and writes them nicely from a copy assorts and names the colors Folds and cuts the paper strips for the kindergarten. any kind of occupation work she can do, but would rather have her reader than any thing.

1903 May & June 10[30] to 12[15] A. M.

Padden

Jessie has worked well and never lost her interes once this year She finished the. Natures Story-book, she spelled every word in the lessons from dictation and could write them on the board as quickly as any one she is inclined to hurry over her reading otherwise she would read much better. she now has the Baldwin second reader reades on page 100. has never failed to have her spelling many times she will go to the board and write it all without the book She is always anxious to have her lesson She will help Annie B. and Angie G. with their lessons Can build the lesson with the letters. knows the meaning to all the words she has had can give a good definition. She does not care for numbers. Can count 200. write any number to two hundred. can add. subtract multiply and divide simple numbes orally, she does not find that easy work. Does good work in calisthenics. and usually likes to take the exercise. Is interested in any games we have in the sitting room. can match the form. cube ball. cylinder

1903 May + June 10^30 to 12^15 A. M.

or any form she may have on her desk. puts the cut up pictures together easily names the days of the week and the month in the year, can tell the time. knows all the changes of the bell. Knows North. S. E. W. right and left Assorts and names the colors Dictates her letters and can write them from the copy Enjoy all the games we have in school. Makes a good errand girl in the schoolroom. Writes in the copybook with pen and ink does not write a good hand writes in too much of a hurry does not have a nice looking book Any kind of occupation work she does well. She has not given me any trouble this year she is not always in order, but will obey if I speak to her

1903 May + June 10^30 12^15 A. M.

Parsons

Jonas has not been in this room more than six weeks. Much of the time he has not been well and when he is sick he does nothing and seems to forget all he ever knew, he will sit and some times press on his temples with his two thumbs and when he takes them away there will two swollen places come out. One day I asked to spell his lesson from dictation and he could not spell one word, and I said what is the matter Jonas you usually spell so well and he pointed to his head and said I can not to day. He is rather a bright child when he is well Has a good idea of numbers and does good oral work writes very nicely and can write his words from dictation on the board, Does quite well in calisthenics Has never given me any trouble in school

1908 May & June 10[30] to 12[15] A. M.
Reuswig

Eddie Has not been as much interested as I had hoped he would be. he seems to be a boy who could do so much but he has no ambition and just will not work unless I keep at him all the while. He has finish the Natures Storybook could spell every word and write it on the board from dictation. has taken up the Baldwins Second Reader. It is no trouble for him to spell and read. reads on page 100. he is not in a school regular yet he can keep up with the class in reading & Spelling His penmanship is very good. He writes his own letters and hands them to me to correct them rewrites them does not compose a good letter. can write numbers to 200. Adds and carry the tens. Does good oral number work. His work in calisthenics is good. Knows the days of the Week and the months of the year Likes the games and wants to be in them, any kind of busy work he does well, if I take it to him and tell him what I want done. He would never ask for any thing to do. Always obeys me when I tell him to keep good order

1908 May & June 10[30] to 12[15] A. M.
Rondestvedt

Rosa Has kept up her interest all the year. She has finished the Wenz Primer and is now reading on Page 37 in the Taylor First Reader she can spell the words of the lessons from dictation and builds the lesson with the letters. can write the lesson on the board nicely from the book writes her name independently. dictates her letters to her mother Counts 10 if I ask her to give me ten objects she can do it. Can write numbers to ten. Does very good work in calisthenics. can do any kind of occupation work I give but she would rather have her book than any thing. Writes in a copy book with pen and ink is very careful of her book. She enjoys all the games in school, but like the games we play with the ball the best. She has times when she does not care to do any kind of school work, She has given me very little trouble in school

1903 May & June 10:30 to 12:15 A.M.
Swanson

Charlie has only been in this room four months he has kept up his interest for all he has not been in school regularly. Reads in the second reader leaves from Natures Storybook. has worked hard to keep up with the best in the class & has succeeded, can spell all the words and write them from dictation on the board sometimes he will write all his lesson on the board. His work in numbers is very simple yet he understands that numbers have value can write them from a copy. His work in calisthenics is good. Can put any of the cutup pictures together dictates his letters. writes in a copy book with pen and ink. Enjoys all the games we have in school cuts and sews and make the tarjes for the store keeper. He has never given me any trouble in school

1903 May & June 10:30 to 12:15 A.M.
Smith

Burt Has worked well all the year and has kept up his interest Has finished the Taylors 1st Reader and taken the second reader leaves from Natures Storybook reader on page 67 he can spell all the words in the lessons he has had, and writes them on the board from dictation dictates his letters to his friends and writes them from a copy writes with pen and ink in the copy book. his penmanship is good could not ask for any better. has a good idea of numbers can add a long column of figures and carry the tens. count one hundred can write any number to three hundred, multiplies, subtracts and divides in simple numbers orally. know how to match the forms names the Cubes. cylinder, ball, put the cutup pictures together quickly. names the days of the week and the months of the year. know the directions North. S. E. W. Knows right & left. matches and names the colors. Enjoys all the games we have in school. catches the ball quite easily. he is always busy with something Has not given me any bad trouble in school

1903 May & June 10:30 to 12:15 A.M.
Shumaker

Hazel has only been in school five months. She has done good work in the first reader on page 38 (Taylors) she reads well, spell all the words from dictation Counts 100, she does good oral work in numbers adds and carries the tens. multiplies. Subtracts and divides but slowly yet she she understands what she is doing. writes any number to 100. Is doing very good work in calisthenics, learned it since she came here, can put the sliced pictures together. watches the forms knows the cube cylinder and ball. Knows the days of the week and the months of the year. Knows right and left. North South East & West. Dictates her letters and writes them from a copy. assorts and names the colors. writes in a copybook with a pen and ink. Enjoys all the games in the school room and is always glad to take a part in them can throw & catch a ball. any kind of busy work she does well. It has never given me any trouble in school.

1903 May & June 10:30 to 12:15 A.M.
Tisdale

Charlie has been in school all the year and has kept up his interest all the year. He finished the Werner Primer and has taken The Taylor 1st & 2d Reader reades on page 38. can spell all the words from dictation knows all the letters by name. write in the copybook with pen & ink dictates his letters and writes them from a copy. Counts one hundred can write numbers to 200, adds and carries the tens can make all of the multiplication table without help. Subtracts and divides but very simple. Does very good work in calisthenics. can put the cubes pictures together knows, names the days of the week. Enjoys all the games we have in school. Can throw and catch a ball. made the tags for the store keeper. make a good errand boy in the school room does his work quickly and in very good order. Has never given me any trouble in school

1903 May & June 10:30 to 12:15
Gould

Laura has been out of school the last two months, She works well all the year I have not had a child who was as anxious as she to learn and when she failed would cry and tell me how much she had worked to get the lesson and I knew she had worked too. She will have her spelling written on paper for her and take it to the play-room and have the children who know enough to help her, and when she comes to school she will build her lesson with the letters and try her best to learn the spelling and she usually succeeds in learning it, She would rather work at her lesson than do any other work in school. When she left the read in the Taylor first Reader on page 28. writes quite well. Does good work in calisthenics. Has a good disposition never give me any trouble in school.

1903. May & June 1st to 3. P.M.
Andriis

Florence has been in school four months. I think there is some hopes of her doing some very good work in school when she is once settled down. She has been so homesick all the time that she could not do good work, she knows a little about school work, I think her sister with whom she lived must have taught her to read. She reads in the Taylor 1st Reader on page 18 Spells all the words of her spelling from dictation and does it quickly can build her lesson with the letters. Has not learned to write but will print the words so that I know what she is doing. Can count 100. as quickly as any one in school, writes the numbers to ten. She tries to take the work in calisthenics but she can not do one thing right just can not see how it is done, can name the days and Months Knows right & left. Names the colors. Dictates her letters to her sister & has not given me any trouble in school.

1903. May & June 1st to 3 P.M.
Bombaek

Fred. has not been in school at all regular for the two last months he reads in the Taylor First Reader on page 16, and is doing very good work for him, of course he learns slowly but tries, remembers quite well what he has learned, can spell many of the words in the lesson from dictation, Builds his lesson with the letters nicely Writes the lesson when it is in the script, counts 20 writes numbers to 10. can make the numbers from a copy. Does very good work in calisthenics, much better than many in the class, Dictates his letters to his friends and always remembers the letters he has answered,. Names the colors. Is very fond of the games we have in school, can throw and catch a ball easily, any kind of occupation work he does nicely such as folding and cutting the paper strips and the straws from the kindergaiten He is a good boy has never given me any trouble in school and is always ready to do anything I ask of him,

1903 May & June. 1:30 to 3 P.M.
Beach

Oliver is one of the boys who is not in school regular, and that being the fact he does not take as much interest in his school work as many of the other children. He is not fond of school at his best. Reads in the Werner Primer on page 60. knows all the letters by name and can spell the words of the lesson on the book reads quite well, builds his lesson with the letters nicely and in doing this he has learned the letters by name and to spell. Writes in a copybook with pen and ink has been careful of his book. Counts 100. can write any number to 200. has a very good idea of numbers adds, subtracts multiplies & divides in simple numbs he knows more about number than many in the class the work is nearly all oral. Names the days of the week and the months. can tell the time. Dictates his letters and sometimes writes them from the copy, assorts and names the colors and does any kind of occupation work well. Enjoys the games we have in school. His work in calisthenics has been good. Deportment good.

1903 May & June 1:30 to 3. P.M.
Blake

Alice in the two last months has shown that if she will only try she can learn quite a little she lacks ambition. She is learning a little about reading reads short sentences of three or four words. Can build her lesson with the letters much better than I had expected she would can write her name, and if she sees her name written on the board know it. Can copy her lesson if it is in the script counts 30 readily, makes the numbers from a copy. When I asked her to give me ten sticks she could do it, any thing she does is done slowly. Her work in calisthenics is very good, names the days of the week Dictates her letters to her friends assorts and names the colors easily. Throws and catches ball. enjoys the games, uses the scissors well folds and cuts the paper strips for the kindergarten. Can put some of the cutup pictures together Has never given me any trouble in school.

1903 May + June 1:30 to 3. p.m.
Eggler

Robert Reads twenty five lessons on the chart knows the letters by name many times if he can not speak word in the lesson if he spells it he will get the word. Writes well in the copy book and can write his lesson from the book if it is in the script. Counts 20. If I ask him to bring me ten pencils he can do it. Any of his number work is very slowly done. writes numbers to ten. can do very good work in calisthenics, names the days of the week. not all of the months Assorts and names the colors. Dictates his letters and always knows what he wants to say He is always ready for any of the games in the school room puts any of the sliced pictures together and will work patently with the cow & roll Puzzle which is quite difficult to put together he does not always get it without help. any kind of occupation work he does quite well He has kept up his interest very nicely all the year. Had his name in the North Star. for good work in reading Deportment not always the best yet he is not hard to manage in school.

1908 May + June 1:30 to 3 P.M.
Haagenson

Hannah has not been in school at all regular yet she has managed to keep up her interest very nicely. She reads in the Taylor first Reader can build the lesson with the letters can names the letters counts 100. quickly, can write numbers to 20. can write her lesson when it is in the script, writes her name without any help. she reads the script assorts and names the colors. Names the days of the week, can add by 2's to twenty Dictates her letters. Puts some of the sliced pictures together. Assorts and names the colors. knows the cube. ball, cylinder, folds and cuts the paper strips for the kindergarten likes the games and is always glad to take part in them, she does very good work in the calisthenics drill, any kind of occupation work she does well. She seems to be a child who will do very good school work. Deportment good

1903 May & June 1:30 to 3 P. M.
Hendrickson

Emma Has not been in school at all regular but for all that she has kept up with her class and her interest too, She reads in the Taylor First Reader on Page 38. Knows all the letters by name, builds the lesson with the letters nicely, can spell all her words from dictation writes her lesson from the book writes her name without any help. Counts 20 and writes the number from dictation to ten if I ask her to give me twenty objects such as pencils she can do it names the days of the week assorts and names the colors puts the cut up pictures together matches the forms. Does good work in calisthenics. She is one of the most intelligent children in her class, that is I mean she learns better from the chart she hears, she is quite deaf and what she learns she has to do it herself. The she has such a disagreeable odor about her that many times I can not work with her and am obliged to send her out of the room, She never gives me any trouble in school

1903 May & June 1:30 to 3 P. M.
Hopps

Don has kept up his interest all the year, he does not learn easily but tries, is not a child who wants to just sit and hold his hands Reads on page 17 in the Taylor First reader, builds his lesson with the letters spells his words from dictation and any word he can spell he can write on the board. I have not a child in all my 60 or more who can write as well as he. When he puts his lesson on the board it is beautiful can write his name from dictation write number to 10. can give me ten heads or pencils, Assorts and names the colors, knows the cube, ball, cylinder, and match other forms can put any of the cut up pictures together names the days of the week. knows right and left. His work in calisthenics is good. Dictates his letters to his friends and can copy them He is very fond of all the games we have in the school, if I just hint that we will have a game he is the first one up and ready throws and catches a ball well

Deportment in school good

1903 May & June 1st to 8 P.M.
Hanson

Andrew has kept up his interest all the year, has done good work he is rather a bright child is so handicaped that he does not do as well as he might under better circumstances, his can not speak so that he can be understood very readily many words he can not say at all, When he is not able to use one hand but very little and is learning to. He reads 25 lessons on the chart, knows the letters and can spell the words on the chart, write very nicely in a copybook, and writes his name from dictation, dictates his letters to his friends and knows just what he wants to say and always remembers whether his letters have been answered or not counts ten can write the numbers from dictation does very good oral number work His work in calisthenics is not good but I think he does his best. Can put any of the cut-up pictures together can put The Cow Scroll Puzzle together alone in a very short time. It has 85 pieces assorts the colors, knows to cube, ball cylinder. He is very fond of

1903 May & June 1st to 8 P.M.

games can throw and catch the ball easily. With a little school lessons he has made two yarn rugs, one he put up and did all alone, the work could not be done better and he could use only the one hand, he enjoyed the work very much. The work he does best is his the work he does with his hand, His deportment is good.

1903 May & June 1:30 to 3. P.M.
Honerson

Albert has not been in school the two last months while he was in he usually did good work. He reads in the Werner Primer on Page 65. would have kept up with his class if he had been in school. He knows all the letters and spelled the words from dictation. He could read better than any one in his class. wrote well from a copy. His work in calisthenics was good could write his lesson on the board from the book very nicely. could put the cutup pictures together with very little trouble. Folds and cuts the paper strips for the Kindergarten cut the straws in one inch lengths for the Kindergarten. was very fond of the games in school I think he has not had a fare show in school, so much of the time he has not been in good health and it made him more or less irritable. He was not hard to manage in school

1903 May & June 10:30 to 12:15 P.M.
Joslin

Clara has made quite a little improvement this year she has been interested all the time. Reads in the Taylor First Reader on page 19. knows all the letters by name, and can spell nearly all the words in the lesson from dictation. is learning to to write her lesson nicely from the book. Dictates her letters to her father and remembers when her letter has not been answered counts 20. knows the numbers by name to ten. can make the numbers to ten from a copy. names the days of the week, not all of the months names and assorts the colors Builds her reading lesson with the letters. Knows right & left and East West North & South She does the best she can in calisthenics she will never do this work well. any kind of occupation work she does well. Enjoys the games in the school room. She has never given me any trouble in school. and is always ready to do any thing I ask her to do.

1903 May + June 1 30 to 3 P. M.
Kiefer

Lyle has not improved as much as I had hoped he would. I think if he had been in a room where he could have had more attention than I could give him he might have done better. I tried teaching him to read on the chart, but found it was not the way I could get the best results with him. He did much better when I put the lesson on the board and had him help me make up the lesson stories. We took any familiar subject such as the ball, dog, pony + etc. he would always have a little story of his own, something he thought of himself. He does the best work with his hands. When we make the tags for the store, there is not a child who is more anxious to help than he. he would fasten the string in them as quickly as any one. uses the scissors well. Assorts the colors. His work in calisthenics is good for him of course it is not the best. He has not given me any trouble in school.

1908 May + June 1 30 to 8 P. M.
Mapp

Tomie has not been in school very regular, he is not as fond of school as many of the children. Reads 25 pages on the chart, knows about half the letters by name. Can build his lesson with the letters and does it nicely. He writes in a copybook with pen and ink. His penmanship is good. Counts 14, writes the numbers to 10. He has done good work in calisthenics and it has been quite a benefit to him in helping to use his lame hand. he can hold the pen with that hand and write quite well, it probably is not all due to his work in calisthenics, yet I know it has been quite a help to him. Names the days of the week, and the months, matches the colors knows the cube, ball, cylinder. Dictates his letters and writes them from the copy, can put any of the forms together. He has quite a taste for drawing and has made some very good pictures on the board. Is very fond of the games we have in school. His deportment is quite good

1903 May & June 1:30 to 3 P.M.
O. Toole

Margaret has not been in school regular this month in fact she has not been in school at regular all the eight months she has been in this room. she has kept up interest all the time and has done very good work, she reads on page 19 in the Taylor First Reader, she knows all the letters, and builds her lesson with the letters, spells the words from dictation, and can write them. Counts 50. writes numbers from dictation to 30 Her work in calisthenics is good She does any kind of occupation work well, such as cutting the paper strips for the kindergarten, and the strayer which must be cut one inch, puts the slice pictures together quickly, Assorts and names the colors and the shades, Names the days of the week, Dictates her letters to her friends. I think if she will only do the best she can she will in time be able to good school work In number she can add, subtract, multply, divide with two. She has never given me the least trouble. in school She is very fond of games and likes to take part in them

1903 May & June
Suisse

Matilda has done very good work in school since november she was new at that time and she had much to learn in getting used to this home, she knew very little about school work, she has learned to read quite a little on the board, and was pleased to help make the lesson on the different subjects such as. The story of the ball. dog, pony, the class learned such words as soft, hard, round, bound black white. in fact many of the colors. Room walk spin, top, & etc. She has had a number of lessons on the chart but I found she did better work when she helped to make the lesson. counts twenty can make the number to 10. from a copy. any kind of occupation work she does well with her one hand. folds and cuts the paper strips for the Kindergarten beautifully. keep her work nice on her desk, likes to be in all the games and have in school. can assort the colors, string the beads alternating with five if she has a start. It has never given me any trouble in school

1903 May & June 1st to 8 P.M.

Sigvardson

Sigvard H. has not been in school for two months and has never been very regular at any time. he did good work while he was in school. His work was all hand work and he did that as well as any one could wish, he was very exact with all his work, when he cut the straws for the Kindergaiten, they were just one inch bro more or less and he did not want any other boys work in with his unless it was just as good, he was just as careful with the paper strips, or the tags that he made for the store keeper, assorted the colors could put any of the cut up pictures together quickly. enjoyed the games and liked to be in them. He gave me very little trouble in school

1903 May & June 1st to 3 P.M.

Wallace

Julia W. has not been in school since the last of April. She has never done very much school work she had her lessons on the board with Matild & Doyle learned a few words but no doubt by this time she has forgotten them, She did not know how to think very well. the least little disturbance in school would cause her to laugh aloud and clap her hands, and in that case, if she was having a lesson in any thing, it would all have to be done one again, She could assort the colored sticks string the beads, folded the kindergaiten paper strips quite well and cut them I think she will never do much literary work of any kind, She got some exercise out of the work in calisthenics. Has not given me any trouble in school,

1903 May & June 1:30 to 3. P.M.
Wright

Mabel has kept up her interest all the year she reads in the Taylor first reader on page 19 has spelled all the words from dictation and Builds the lesson with the letters nicely. Writes all the lesson from the book Writes in a copybook with pen and ink has done good work in her penmanship, Counts twenty Writes numbers to 20. Does quite good work in Calisthenics Puts any of the cutup pictures together. Folds and cuts the paper strips for the kindergarten. She is very slow in numbers yet she know something about the work she can Add. Subtract, Multiply and divid in simple works of course her work is all oral She dictates her letters. Names the days of the week and the months of the year, know right and left. has not given me any trouble in school

1903 May and June 1903
Gunderson

Guilda has only been in school during June she does not seem to know much about school work of any kind It may be that she does not understand the language yet. She is quite dificient, seems like a good girl, She tells me that she lives in the country and that she had a dog and that his name was Fido, says he is black, she knows the colors red and green counts five but is not sure, she does not take the work well in calisthenics, but will I think in time, Has no idea of writing She has not given me any trouble in school.

June 1904.

Andrus

Florence had been a good worker She has read to page 87 in Taylor's first reader. Her spelling is always good, seldom any mistake. It does not take her long to prepare a reading or spelling lesson. Reads rapidly. It is very difficult to teach her to write. She has been able to write the word on, at; letters a, i, on. She is very anxious about her work. I mean will write any where on a paper, and two or three times over it. She finds very hard to learn.

She has dictated a number of letters. Dictates rapidly, and forms her sentences easily and well.

She has tried hard to learn the first weaving pattern, but can not execute our stand correctly.

She is very awkward with the scissors. I have given her circles on plain white paper to cut for practice. She can not cut well enough to use the colored papers given which we cut circles and squares for the Kindergarten. She can fold the strips and cut them apart neatly. It is difficult for her to come any where

near following a line while cutting. She has taken a fancy to free cutting, and on several occasions has shown some originality.

She has been having number drills. I have used the cubes or other objects on drills in addition and subtraction.

She has done nicely in the sense games.

Florence does not seem to improve in calisthenics

June 1904.
Buechner,

Agnes has done good work. She is inclined to be nervous and easily confused. She lacks confidence in herself and is often afraid to attempt what she really knows.

She has been in the chart-class and I believe knows the words boy, girl, dog, cat, pony, mamma, papa rule, spin, top, Jap-doll, is, the. Sometimes she hesitates but usually knows these words when unknown by the others.

She knows all the colors, and recognizes groups of one and two objects. Also the figures one two and three. Knows the letters a b c e g i k t m n o r s t w x. She recognizes ball, cube, cylinder, square, triangle and oblong. Sometimes cannot name the circle.

She can prepare the kindergarten strips, but can not cut the circles well enough to be used. I give her practice paper. She has shown improvement.

She can write a few words from a copy, and has succeeded very nicely in writing her own name.

She dictates her letters. Has taken calisthenics nicely when she is attentive. Enjoys all the games plays etc. and is quick.

June 1904
Braun, Anna

Has been greatly interested in all her work.

She finished the second reader and has read to page 61 in the Hiawatha Story book.

I think she has improved some in her reading. She has always had good spelling both written and oral, but the oral is not so difficult for her.

She does pretty well in numbers when you have the drills, though she is a little slow about recognizing groups of numbers. She counts a little over a hundred, can tell the number of the pages in her reader.

She takes calisthenics nicely.

Her writing has improved a little, but it is not neat by any means.

She has learned to form her own sentences in letter writing, but finds it difficult to do with the letter in good form. Will repeat one letter after the other, and word after word till they are packed tight. I think in her last letter that she showed improvement in that respect.

June 1904

Annies work either pasting or cutting has not been good. She does not work neatly, gets paste all on her. is. I can not allow her cutting, I can not make use of, so she cuts circles and forms, but not for kindergarten material.

She skips she folds and cuts nicely. She shows she cannot measure correctly yet; with all my showing. Cannot cut them correctly alone.

Annie enjoys the games and puzzles.

She has been witness tid in all her work, and very cheerful.

June 1904.
Belcher.

Sarah finished the "Leaves from Nature's Story book" and commenced the "Hiawatha" book.

I believe her reading has improved a little. She hesitates and stumbles so often. Her spelling is good, written and oral.

She has counted to 70 without a mistake, and to 60 by 5's. She knows all of the alphabet but the last two or three. Can write most of them. Writes her lesson on the board.

Sarah writes her own letter. She forms each sentence slowly and writes very little. I think she is going to gain in letter writing, though slow.

She is very slow to understand any thing.

Sarah takes the exercises nicely, and knows how to use the games and puzzles.

Her cutting is fairly good when she just parks the kindergarten material.

June 1904
Burger.

Emma is reading on page 69, Wheeler primer. She had been using a first reader, upon her return to school but even she seemed to have forgotten a good deal of what she had learned and this book which was being used by one of the classes, was quite difficult enough for.

She is doing nicely. When she first returned did not seem to know how to write a word, but it is coming back to her and she writes most of the words in her lesson every day. Occasionally she can write a few from dictation.

She is greatly interested in her work, but is very sensitive, though she has seemed to have lost some of that pulling lately.

Emma can count to 30 and writes figures to 6. She recognizes groups of several objects, but is slow in all her doings.

She has done fairly well in calisthenics, and of late has taken a lively interest in the ball game.

She prepares the kindergarten material nicely, and can cut the straws.

June 1904
Bates

Elsie has done nicely for the length of time she has been with me. She is always happy and interested in her work, and I have an idea she will be able to do good school work before long.

Elsie knows the letters a, c, i, o, k, p, and can write a few. She dictates her letters and then copies them. Does very nicely. Can write a few words from memory. I put her in the chart class for the drill would go her good and the other classes were too far advanced for her. She counts to 27, combines numbers from 1 to 4. Recognizes groups of object from 1 to 6. She knows the colors red, orange yellow, but not the others.

The kindergarten material is nicely prepared, and the circles fairly well cut. Elsie has woven the first two weaving patterns, but the second is difficult yet for her.

She does pretty well in calisthenics when attention is paid, but is inclined to be inattentive. She enjoys all the games and plays ball nicely. Has sense games does well.

June 1904
Blake

Alice though slow shows improvement. It is difficult for her to remember words. She will know them one time and not the next.

She counts to 35, combines numbers from 1 to six. Writes the figures 1 and 2. Recognizes the figures 1 and 2. She knows all the colors and can almost do the little color puzzle which I arranged for the class. Doing the words with the colors. She can not do much of the number puzzle as she does not know but two figures and is very slow at it. She is not over ambitious. Can make her chart lesson with letters on her desk correctly, but if not watched will work slower & slower and calmly sit there with her hands folded. She has learned to write her name from memory, and do it nicely.

Alice can take the calisthenics nicely, though is slow to understand a new exercise. She joins in most of the games, and does very well. She can do some of the puzzles and, purposes, kindergarten material. She has woven the first two weaving patterns.

June 1904
Blasius

Nicholas is a nice little boy to work with. He has not been with me long, having been transferred from Miss Stuarts room. Has read to page 87 in Taylors first reader. Does nicely in both oral and written work in spelling.

He counts to 100 by 1's and 2's and to 55 by 5's. He understands addition, subtraction, and multiplication in simple numbers and has a good idea of forge, and knows colors.

Nicholas has improved in writing. His letters are formed better and his work is neater and cleaner. His hand is too jerky to use ink but he writes nicely with a hard pencil.

He does fairly well in calisthenics uses the puzzles, even the map puzzle, and enjoys the games.

In weaving he has done the first four patterns, the last being the plant which is quite difficult. He has also woven a cross in free weaving.

He folds the kindergarten material but does not cut very well, it is difficult for him.

June 1904
Bombach

Fred has not shown any special improvment. He read to about page 87 in Taylors first reader. He was very slow, and although he made this lesson neatly on his desk, and always correctly, yet in reading he hesitated. He did fairly well in spelling. His writing was neat, but it took him a long time. He could make a few figures, but could not recognize groups of objects about five or six. Numbers were difficult for him.

Fred dictated his letters and copied them.

He was good on calisthenics and games. A good ball player.

The kindergarten material was merely prepared. Fred was always a pleasant, obedient boy and very persevering with his work.

He used some of the simple puzzles.

June 1904
Collin

Cyril has been in Class B. such a short time, it is difficult to say much about him.

He sorts materials as to color and form correctly. Can use two colors in bead stringing. Using all one color first, then all of the rest. He cannot alternate the colors.

Cyril does not understand our language now, but I feel that in time when he can express himself he will be an interesting boy. He is anxious to work, and arranges the chairs for me at certain times. He knows where things belong in the room, for instance in placing chairs for class, or for close of school. Yet when coming in school can not place himself at all.

He invariably gets to the wrong place (the wrong period.

That seems strange to me for he is not stupid. Cyril seems to be nervous. In preparing the Kindergarten strips, he is very careless and in a fearful rush. He catches a ball nicely and throws straight. The throw is a peculiar performance. He looks, then drops his eyes and sends the ball as straight as an arrow. He laughs heartily

June 1904
Colin - continued

Cyril tries to take the calisthenics and does it a little. I think in time he will do nicely.

The cut pictures attract him, but he has not much idea of the picture. He does not at present appear to understand a picture, or see any thing in one. He has a mania for chasing every little thing on the board, and has no mercy on the large ones, if my eyes are not quick he has done the deed.

Cyril is quick to obey a command if it is made plane to him, he helps me a great deal and is quick. He is a nice boy, and always happy.

June 1904
Campbell.

Willie has certainly done good work this year, and has not lacked interest. He has a practical turn of mind, and is easy to reason with.

He has been in the chart class, and knows a few letters and words, though it comes a little hard for him. He can make the chart sentences on his desk with letters correctly, but does not like this work with letters. He knows the letters a, i, o, t, s, e, and writes a few. He can write his name, both first and second from memory.

Willie has had almost a mania for writing letters, or rather learning to write. He dictates a letter nicely and copies it from the one I write.

When this letter is sent I save the original to do as a practice letter for Willie during the week. He is content to do this and tries to improve as I think this is as good a way for him to write each day as another which he does not like. The other day he commenced a letter alone, and, with the headings, Forebank Farm, quite distinctly and in their right place. I believe

June 1904
Campbell- continued

Wilfie will soon write independently. He knows all the colors except purple. He hesitates a little. Counts to 39, combines numbers from one to six. He does nicely in the number drill, and writes several figures. He can write nicely almost any thing from a copy.

Willie is good in calisthenics, a good ball player and enjoys all the games. He does some of the Spizzles. Prepares kindergarten material, with papers and measuring in inches. His work is neat. In weaving he has woven the first two patterns and in free weaving a book mark. Though this with help. In sense games he is good.

June 1904
Crichton

Willie has always done good work in preparing his lessons but I think he has accomplished about all he will do in school work. He finished the "Leaves from Nakies story book" and would have gone on with others into the Hiawatha book but he felt it was too difficult for him & I thought so too. So let him go into a very interesting first-reader class where I knew he could not help but learn some new words and would be just as well off. His articulation is poor & so it is very difficult to understand him. His spelling both oral and written is good. His penmanship is very good.

Willie has been accustomed to having his letters written and then copying them, and at first did not like the idea of having to form his own sentences. He kept at it however and it became easier for him as he has written several letters every sentence formed by himself. But it takes several days. Though slow Willie is determined not to make the epistle any more short. He shows marked improvement since he is

letter writing, and has become more independent in any of his written and. he has written several stories, after we have finished reading them, and enjoys it.

He has done nicely in calisthenics and in the games. Puts the puzzles together, though not the map puzzle.

Willie can give the number of the pages as he reads, can write figures, and understands addition and subtraction of simple numbers. He does well in the drills.
