Sews about the same as last month on strips of muslin.

Grace Newville

Had an infected hand part of the time, she shows no improvement does not do as well as at first; she has filthy habits & will make use of her sewing for a handkerchief, if not watched.

Dec. 1902.

### Lillie Olson

Put strings in twenty three candy bags, hemmed seven ~~candy~~ hand towels quite well has improved a little in taking smaller stitches. She laughs and whispers a great deal but does not like to be reproved for anything.

### Margret O'Toole

Made one chair pad, eighten candy bags, three pillow cases, repaired three suits for entertainment. and worked on the lace, she is a very careless sewer and one of the hardest girls in the class to manage, she is rough in manner, lazy at times and can see no good in law & order.

### Mary Poyman

Made twelve candy bags, two sheets and three pillow cases. nicely

### Jessie Padden

Stitched five towels and two pillow cases on the machine poorly, she will never make a neat sewer.

### Edith Poole

Made one wide border lace handkerchief and lunch cloth double hemstitched and caught again in middle of drawn work, it was done beautifully. She is the best worker in the class

### Pearl Pelce

Made six towels by hand, she has improved some on last months work, she is willing and obedient.

Dec. 1902

### Laura Rice

Stitched two towels on the machine, hemmed six by hand, she is careless about her sewing and does not seem to remember what is said to her, hardly while you are telling her, thus she does not improve.

### Rosa Rondestvedt.

Wound thread on twenty three lace bobbins evenly put strings in five candy bags, made two sheets, has had a sore hand part of the time and could not sew.

### Marie Schaffer.

Hemmed one towel by hand fairly well with supervision partly made a pillow case, it was miserably done and had to be taken out; does not use the machine. She is always saying and doing things in a sly way to make the children laugh, but tries to appear inocent herself.

### Hazel Shuman

Ripped ten flour sacks. hemmed three towels by hand poorly, complains of her eyes hurting her, so she cant sew much of the time, if they want extra help in the laundry her feet hurt so she cant stand up; how much of her trouble is put on I am not able to say.

### Anna Schwarz.

Hemmed six towels by hand quite well and made one pillow case by hand, part of it had to be taken out & done over again, when finished it was done fairly well for her first pillow case. but she has no patience and wants to give up entirely if it is not satisfactory the first time, so she wept over her pillow case and did not want to try another.

Dec. 1902.

Annie Schisel

Made eight candy bags, one sheet and one pillow case, they were poorly done, does not take time to do her work well, she wants to do every thing with a rush, but most of the children are not troubled that way, so it may not be a bad point after all.

Oscar Skog.

Hemmed three towels by hand quite well. He is usually a good boy to work.

Ignatius Stegerowski

With considerable urging managed to hem one towel fairly well, he gets lazier every day, he is quick well and strong and could accomplish more than any other boy in the room if he would, but will not work unless it suits him, thus he is a draw back to the others, and no benefit to himself.

Grace Tuttle

Made seventeen candy bags and three pillow cases, she does her work pretty well, but in manner seems to grow more simple minded every day.

Olivevia Wifflin

Hemmed three towels by hand the first was poorly done, the other two showed some improvement on the first; she is quiet, and think she will improve in work.

Dec. 1902.

Emma Wascher

Ripped twenty nine flour sacks, made one towel by hand and worked in the second lace pattern, and can make it alone.

Julia Wallace

Sews in strips of muslin, she is willing but hasn't any idea of sewing, she will roll the hem over and over and then sew all over the cloth.

Laura Yould

Made twenty five candy bags, stitched three towels, eight window towels, one sheet and nine pillow cases. She is doing very well in sewing but is very dull at lace work.

Jessie Yeoman

Worked in the lace and does quite well at it.

Irene Parquette

Made twenty two candy bags, eleven towels four sheets and nine pillow cases. She is developing a very ugly disposition at times she is very disagreeable to get along with, being both impudent and lazy.

Made the most of a large lace Doily and finished working a gingham sofa Pillow she does very good work.

Pearl Pelve

Hemmed three towels by hand and made two pillow cases, the pillow cases were not neatly made but were the best she could do.

Laura Rice

As one of the dullest girls in the class, she does not seem to think at all for herself, can do nothing at the lace only as directed. It is the same with sewing she will sit idle for any length of time if not constantly reminded to keep at work then she will go at it in an absent minded way & do careless work, in the four months that she has been in the class can not see that she has improved any. Hemmed two towels poorly.

✓Rosa Rondestvedt.

Made one towel, two sheets and seven pillow cases. She is quite awkward about her work but it was quite well done when finished.

Marie Schaffer

Was three weeks, over sewing one half the length of a pillow case, she is one of the laziest girls in the class also one that gives the most trouble She likes the lace work & wants to work on it; but will not keep her mind on it long enough to learn, she is so afraid she will miss something going on in the room if she is attending to her work.

Jan.
1903.

Hazel Shuman.
In the Hospital this month.

Annie Schwarz.
Hemmed nine towels by hand, they were done some better than her previous work but there is still room for improvement, she is a girl who does not like to be corrected for any thing and always resents it; though she is very careless about all she does, both in sewing and calisthenics.

Annie Schisel
Stitched five window towels, and made two pillow cases, also worked on the first lace pattern and is now learning the second.

Oscar Skog.
Not in the sewing class, he required more time in the school room, so gave up the industrial work.

Ignatius Stegoscowski
Basted one and two inch hems on three sheets ripped the cord out of six flour sacks, made a roll of about fourty yds. of two inch selvedge and rolled it very smooth and even, hemmed one towel and has a pillow case partly made, when he wants to can sew better than many of the girls in the class, on the whole has done better work this month and been a better boy than usual.

Annie Sunenberg.
Hemstitched two bureau covers, made six window towels, two sheets and four pillow cases she is very anxious to learn the lace but does not remember from one lesson to the next about it so is always making mistakes and does not get on with the lace work.

Made seven sheets, two pillow cases and worked on the lace, she works steady does pretty good work.

### Nina Elliott

Made three sheets, six pillow cases, sewed the centers in two handkerchiefs worked on a sofa pillow and made lace, she does not work fast at all, does not feel like doing very much.

### Emma Fretlum.

Made two towels by hand and one pillow case nicely but does not seem to have any ideas herself about going a head with work she has done many times but always waits to be told and directed in the work. some times she will have the hem of a pillow case turned on the wrong side.

### Angelina Gorham.

Made four sheets and one pillow case she did not do as much work as usual worked on the first lace pattern but does not make it alone.

### Barbara Gatzke.

Made three pillow cases, nine sheets and worked on the lace she has done pretty well this month.

April 1903

### Gladys Holman

Made five sheets and four pillow cases, this is doing very well for Gladys she has improved considerable in sewing.

### Hannah Haaganson

Finished a pillow case and hemmed four towels nicely, she is doing better work.

### Minnie Hanson

Repaired two operetta suits, made one sheet one table cloth. and one hundred and sixty seven table nopkins. also worked on the lace

### Lottie Jacob

Made two sheets and three pillow cases she has been quite careless about stitching many times the seams were so crooked they had to be taken out and sewed over again.

### Enoch Kohlie

Hemmed one towel poorly, he has not done as good work as usual, often has to be urged to keep at work, will sit idle as if half dazed looking around the room.

### Mary Livingstone

Works on the lace, makes all the patterns but forgits if changed to another pattern she has not worked on recently until she has been shown about it, then it comes back to her.

### Mary Liddle

Sewed centers in lace hdk. border, made two button holes in repairing skirts, three sheets, six pillow cases, finished the corners of thirty six table napkins and worked on lace.

April 1903.

Laura Miller

Made eleven towels ten sheets, ten pillow cases finished the corners of fifty table napkins

John Miller

Hemmed nine crash towels nicely

Hazel Mc Keown

Hemmed three towels by hand she did them very well and started on a pillow case also worked a little on the lace she is inclined to be lazy. Has been out part of the time for operetta practice.

Mary Mc Laughlin

Hemmed three towels by hand fairly and stitched a pillow case on the machine but the seam was stitched too near the edge so she had to rip the work out again, she seems to have reached her limit in the sewing line.

Nellie Mc Govern

Made ten towels, nine ~~towels~~ Pillow cases, nine sheets & finished the corners of twelve table napkins, she does quite well at sewing but seems very backward about learning the lace

Annie Nelson

Hemmed two towels fairly well she is slow but think she will improve.

Isabel Norgaard

Hemmed one towel by hand poorly, she is very apt to begin ravelling the goods out instead of turning & basting the hems

April 1903

Lillie Olson

Hemmed six towels by hand basted the hems on one sheet and started on a pillow cases she is learning the first lace pattern but does not make it alone yet, but will learn it.

Margret O'Toole

Made four towels, six sheets, two pillow cases and thirty table napkins, two table cloths, she can make the lace very well but is rather lazy about working at it, would rather do something that she does not have to pay such close attention to her work.

Mary Poyman

Hemmed five towels by hand, made three sheets and two pillow cases on the machine, wound thread on twenty lace bobbins evenly, she does not seem to be advancing any.

Jessie Padden

Hemmed eight towels by hand she has not been doing neat work of late so I told her unless she took more pains with her work we could not keep her in the sewing class, the few last ones were very much better done than before.

Edith Poole

Partly made three pair of drawers made one fancy skirt with ruffles of insertion and lace made twenty two table napkins and worked some on the lace

April 1903.

Pearl Pelve

Hemmed four towels by hand basted the hems on one sheet, and started a pillow case she is improving slowly in her work.

Laura Rice

Made thirtem towels by hand basted the hems on one sheet, made one pillow case and started on another she hemmed the side & end but when it came to turning the two inch hem could not get it straight at all, but had a measure to go by, she basted it over several times but did not succeed this time although she had done it before, she runs the machine some but is poor in hand sewing so have kept more on hand sewing to learn how.

√Rosa Rondestvedt.

Hemmed one towel by hand made nine sheets and six pillow cases on the machine. they were done well.

Marie Schaffer

Made six hand towels, one pillow case, basted the hems on one sheet finished the corners on fourty nine table napkins, she makes the first lace pattern, she is about the lagiest girl in the class.

Hazel Shuman.

Hemmed four towels by hand she does poor work I think her eyes are defective she seems to have a hard time threading her needle

April 1903

Anna Schwarz.

Hemmed eight towels by hand and one pillow case she has not learned to sew neatly yet but dislikes very much to be corrected for any thing nearly always resents it.

Annie Scheipl

Hemmed four towels by hand made three sheets and two pillow cases on the machine finished the corners on sixtem table napkins, also worked on the lace. she makes the second lace pattern.

Ignatius Stezercowski

Made three towels and basted the hems on one sheet he is decidedly lazy at sewing. A few days ago he brought in two of the largest wire nails he could find and some yarn that he had raveled out of some thing, and wanted to know if he could knit the doll a shawl, I told him he might practise on the material he brought until he knew how to do it, then I would give him some nice yarn and good needles to work with if he would be particular to wash his hands clean before he came to work, he is rather careless about it. he has been quite interested in the knitting and if he can keep up the interest long enough will knit the doll a shawl.

Agness Buechner

Hemmed one towel, then raveled out the edge of the others I gave her to work on, trying to turn her hem, so took the crash away & gave her finer material Glass cloth that would not ravel out easy, she is hemming this quite well

April 1903.

Olivia Wefflin.

Made four towels, finished the corners of sixteen table napkins, started on a pillow case she is learning the first lace pattern

Emma Waschen

Is making a pillow case but did not finish it, she has learned the fourth lace pattern and takes quite an interest in the lace she wants to learn them quick so she can make lace handkerchifs for her friends she says.

Julia Wallace

Hemmed four towels by hand quite well she was absent part of the time. she seems industrious and wants to learn.

Elizabeth Mc Govern

Hemstitched two handkerchief centers nicely made ten table napkins, four table cloths, is working a sofa pillow on huckaback, makes all the lace patterns. she is willing and quite quick at work, She has spasms quite often.

Laura Gould

Made six sheets, two pillow cases, finished the corners on seven table napkins she does quite well at sewing but does not make any headway with the lace.

Jessie German

Works on the lace has made a narrow handkerchief border, several collars & worked on the edging also.

Irene Parquette

Hemmed seven towels by hand, made eleven sheets, eight pillow cases, finished the corners of four table napkins. she has been very disagreeable this month grumbling and impudent when she was careless & had to baste her hems over again.

May June & yearly report. 1903

## Katie Buck

Does about the same work she did last year she makes towels sheets & pillow cases on the machine fairly well but is very slow, she does fully as well as last year but can not see that she does any better.

## Annie Birch

Can hem towels very nicely and think now she can try making pillow cases by hand, she is not good in calisthenics, when asked which is her right or left hand she can tell you, but when a command is given in the exercise to use a certain hand or foot she will use the wrong one nearly every time.

## Martha Brainard

Has learned to hem towels very neatly during the time she was in the sewing class, she has not been well so has not been in the past three months but goes out to walk with the little folks instead, began sewing during July of last year, she is nervous but may out grow it if she works moderately.

## Alice Blake

Does not seem to be able to put her mind on her work she has sewed on strips of muslin or remnants of crash the past nine months but I can see no improvement in her work. she can not turn a hem properly & when she over sews, will sew in one spot until it is like a heavy cord, can not learn to baste the hems in the ends of the towel only but will put a clumsy hem all around & when told to take it out may take the scissors & cut holes in the cloth, she is extremely slow at sewing she will

Yearly report 1903.

work for days on a few inches of hemming.

## Brownie Bean.

Has made several garments for her doll, a dress, skirt, drawers, chemise & handkerchief she hems towels also very neatly, it takes her some time to make anything she is so very slow, but seldom has to do her work over, she seems to understand directions and does not forget but keeps her mind on what she is doing.

## Mary Beaton.

Began work early in the fall could not turn a hem or baste it, her hands seemed stiff, she would throw her work down & say she could not do it. It was very hard to keep her at work, she also had a bad temper. She has learned to make towels very well and sews now about as quick as the average child in the school, hemmed seven towels last month and keeps at work pretty well, but still displays considerable temper if corrected for anything or not allowed to have her own way. On the whole she has improved very much.

## Beatrice Bailey.

Began work in Oct. She could turn and baste a hem pretty. I tried her on the lace. she seemed very helpless about handling the bobbins. She has improved very much in making the lace and can handle the bobbins very well she can make the first lace pattern almost entirely alone & is quicker at work, she has not improved as much in sewing although she is very willing to learn, but hems towels fairly well

Yearly report 1903

Myrtle Davies

can do very nice hemstitching, makes sofa pillows, does good work on the machine, has learned several lace patterns makes the wide handkerchief border, at times she works very well, but has many days when she is irritable and does very little. She has improved in her work during the year.

Marion Daly.

Does plain sewing on the machine, has learned some new lace patterns can make them all but needs assistance at times, she works pretty well but is very careless about breaking the bobbins off has to tie on several each day & makes more knots in the lace than there ought to be.

Nina Elliott.

Has not been well and has not worked all of the time in fact does very little, she can do good work when she feels well.

Emma Fruttens

can take very small stitches, but will not always do as she is told, sometimes will try to sew with out basting the hem, then her work is crooked and drawn and after it is sewed with such small close stitches nearly ruins the work to take it out & do over again. She has done this several times or made the hem on the wrong side of a pillow case because she did not show the work to me after it was basted she is very heedless and can not see any improvement in her work over last year.

Anglina Gorham.

Does very good work on the machine and she is quick at basting hems and geting them straight. She is slow at the lace work but wants to learn it. she makes the first lace pattern but needs assistance at times with it.

Barbara Gatzke

Does about the same as last year, does plain sewing & machine work, has learned a few lace patterns but is not ambitious or quick, she tried hemstitching but was not neat about it can see no marked improvement.

Polly Galzke

Has not been in the sewing class much the past has learned a few more lace patterns sews fairly well by hand might do better if she had good control of her nerves. she does plain sewing on the machine but has not had much practise.

Gladys Holman.

Has improved in sewing can turn one and two inch hems more even than she used and stitches quite well on the machine, has worked on the lace more or less but does not seem remember from one day to the next, how to make it.

Hannah Haaganson

After she had been here a week could turn & baste a hem and sew it poorly, she has improved in sewing & can hem a towel very well. she is slow and rather stiff in her movements.

Yearly report- 1903

Minnie Hanson

Is one of the best helps in the class, has made sofa pillows done hemstitching, makes all the lace patterns has learned a few new ones during the year, the hardest thing for her to do is to sew lace on to a garment on account of her crippled hands, but other sewing does not bother her, she is a very good worker and is usually good in deportment.

Enoch Kohler

Has not done as good work or as much of it as before, would sit idle & often had to be urged to keep at work.

Mary Livingstone

Has knit several shawls during the year has learned a few new lace patterns can make most any of them, but if she changes from one pattern to another does not seem to remember or depend on her self untill she has had directions about making it, she is neat and does good work, some days she is quite fussy and many times has spasms at work.

Mary Little

Is extremely slow about anything she does, she makes several lace patterns, can not put her on orders as I can not depend on her to make the lace without mistakes, does plain sewing but does not depend on her self but needs considerable supervision and really does very little work.

Laura Miller

Makes towels sheets and pillow cases on the machine has tried the lace but has not succeeded in learning the first pattern, she makes a great many mistakes in learning does not seem to keep her mind on her work, but has done better with sewing this year than last, turns straighter hems & does better machine work.

John Miller

Hemms towels nicely tried making pillow cases but gets them very dirty before they are finished and does not make them as well as the towels perhaps because it is finer work. He behaves quite well and is industrious.

Hazel Mc Keown.

Does pretty good work, but has not been as industrious the past year as before, many days seemed tired and did not want to work. Has worked on the first lace pattern but can not make it alone and seems slow at learning the lace.

Mary Mc Laughlin.

Makes towels sheets and pillow cases on the machine but can not be depended on to do good work, do not think she ever will make a neat sewer.

Nellie Mc Govern.

Does about the same as last year can do plain sewing on the machine, but is more accurate about turning hems & stitching straight but has not succeeded in learning the first lace pattern, does not remember from one day to the next about weaving the lace

Yearly report- 1903

## Annie Nelson

Began sewing on strips of muslin she can hem a towel fairly well now, and made three the past- month.

## Isabel Norgaard

Sews on strips of muslin has improved a little in taking stitches but- does not- sew well enough yet- to hem towels her improvement is very slow.

## Lillie Olsen.

Began hemming towels in Nov. and sewed poorly she has made a few pillow cases but they were not- well done, she is rather careless about her work but- thinks she has improved a little in over sewing towels she is also learning the lace and think she will soon be able to make the first- pattern.

## Margret- O'Toole

Is very careless about her work, will never do as she is told unless closely watched, she can make several lace patterns but is lazy about working at- it, as she has to pay close attention to her work if she makes the lace properly and this she will not- do, so she is very little help when working at- the lace she wants to see all that is going on around her, she is rough in manner and hard to manage and can not- be depended on.

Yearly report 1903

### Jessie Padden.

Will never make a neat sewer she has done about the same work for the past four years. when she tries she can take fine stitches, but just as soon as my back is turned she rushes her work through in a careless way.

### Edith Poole

Does very nice work she is the best in the sewing class and can be depended on to do it well and seldom forgets after she once learns how to do a thing and can do most any thing in the sewing line, also makes all the lace patterns and is quick at work.

### Pearl Pelow

Hemmed towels poorly in Nov. she has improved, has learned to make pillow cases & turn one and two inch hems on sheets, though she does not take as fine stitches as she ought.

### Laura Rice

Does poor hand work she is very heedless & does not remember any length of time what you say to her, though she seems willing to work, she does fairly good work on the machine has not learned the first lace pattern.

### Rosa Rondestvedt

Does plain sewing on the machine and fairly good over sewing she is slow and awkward about her work can not see that she has improved any to speak of the past year.

Yearly report- 1903

## Ignatius Slezircowski

Is very fickle, he is very ambitious when he first- tries to do some new thing but soon wears off and he is ready to try some thing else, he will never stick to any thing long enough to succeed. He learned to hem towels fairly well + could baste hems on sheets also learned the first- lace pattern, but was always making mistakes after he had learned it because he would not- pay attention to his work + could not- take out mistakes without mixing the bottom up worse than they were in the start of the mistake he has not- been in the sewing class the past- two months.

## Agnes Buchner

Is Jan. could not- turn or baste a hem properly, she sews on strips of muslin but can turn + baste a hem and sew fairly well she is slow but seems industrious + think she will improve.

## Marie Schauffer

Began work in Dec. She could hem towels fairly well with supervision then she tried pillow cases but has never made one neatly she has learned to use the machine lately but keeps her on hand work part- of the time so she will learn to sew mates, she likes the machine work + does fairly well for the short- time she has used it. She has learned two lace patterns but often makes mistakes because she tries to see what- others are doing + make lace at- the same time. she is better in deportment- than in the past but there is still plenty of room for improvement
