Note: Use of Force Records not kept before 4/28/2002

Note: As of 2017, DOJ requires documentation when a subject or Officer is admitted to hospital for medical treatment. There are no such cases that match this criteria.

Note: OC exposure with no other injury is not listed as being "injured" during use of force

Note: OC exposure treatment listed as Paramedic/Fire but could have been Emergency Room in place of Fire. Data not kept on that topic prior to 2015

Note: Wrap use/ pointing firearm/ display of firearm tracking began in 2019

Note: Categories 1 & 2 force or restraint type totals could be different than Race totals if more than one restraint or force type was used on the same person
