STATE OF MINNESOTA

DEPARTMENT ATTORNEY GENERAL

Office Memorandum

TO : Mike Miller
Special Assistant
Attorney General
Department of Administration

DATE: Nov. 14, 1974

FROM : Richard A. Wexler
Special Assistant
Attorney General

SUBJECT: Submission of Fee Regulations for Approval

Attached for your review and approval are Minnesota State Board of Health proposed rules for services, licenses, permits, registrations, and examinations, and effective, renewal and expiration dates therefor.

Minn. Laws 1974, ch. 471, effective January 1, 1975, gave the Board authority to adopt such rules. In the same legislation, all existing statutory fees and renewal dates for licenses and other credentials were repealed, also effective January 1, 1975. Please note that although the proposed regulations are submitted for approval prior to January 1, 1975, they will not become effective until that date.

The regulations are straightforward. Only two were changed after the public hearing. The Findings of Fact should pretty well summarize the situation.

If you have any questions, please feel free to call. If you could review and approve in less than 20 days, it would be helpful to Health Department staff. Please note that the pre-hearing forms show a joint hearing with the Board of Podiatry. That Board also adopted fee regulations. They were submitted to you separately.

PROCEDURAL RULES FOR HEARING

The purpose of the hearing is to allow interested parties to express their views and present facts bearing upon the proposed regulations. So as to provide for an orderly presentation of evidence, the following rules will be in effect during the hearing specified in the attached Notice of Hearing:

1. Anyone wishing to be heard should indicate by signing the speaking sheet, listing his name, address, and the group which he represents. The speaking sheet will be available at the main entrance to the hearing room. It is requested that each group select one speaker only to present its views.

2. The first time the witness makes a statement he should spell his name and identify the group he is representing. Prior to making any subsequent statements he should state his name and the group which he represents. He may be sworn upon his request but it is not required. If he elects not to be sworn, that may be considered in determining the weight to be given to his testimony.

3. By giving testimony, a witness, including one who may also be a member of the panel, subjects himself to questioning by the panel. However, he is subject to cross-examination by non-members of the panel only if he affirmatively consents to being so examined. A refusal to be cross-examined may be considered in determining the weight to be given to his testimony.

4. All parties interested in introducing any written matter may do so by having it marked as an exhibit and then introduced for the record. Unsworn written matter may be received, but the fact that it is unsworn may be considered in determining the weight to be given it.

JOINT
STATEMENT OF NEED

The above-captioned rules, while being amendments to existing rules of the State Board of Health, are the first rules of said Board relating to fees and effective dates for licenses, permits, registrations, examinations, and services. The regulation of the State Board of Podiatry Examiners and Registration is new.

The need for the State Board of Health to adopt its proposed rules captioned above arises because of Minn. Laws 1974, ch. 471. This law authorizes the State Board of Health to prescribe by regulation reasonable application, examination, issuance and renewal fees for permits, licenses, registrations and certifications issued pursuant to its authority. The expiration and renewal dates thereof shall also be prescribed by regulation

The law becomes effective January 1, 1975. Besides granting the above authority, it deletes as of that date all fees previously established by statute. Failure to promulgate these rules by January 1, 1975, will force the State Board of Health to issue the licenses and other authorizations without payment of a fee. This would cause severe problems

as the funds received from these fees are used to administer the licensing programs. Accordingly, the fees proposed in the rules are necessary for the operation and administration of each subject licensing program or service provided.

The need for the State Board of Podiatry Examiners and Registration to adopt its proposed regulation arises because the fees presently charged registrants fail to provide the necessary funds to administer the registration program. A special grant from the Legislative Advisory Committee was required this past year to enable the Board to pay necessary expenses for the year. Minn. Stat. § 214.06 (1973 Supp.) permits the Board to increase its renewal fee by regulation so that the fees collected will as closely as possible equal anticipated expenditures.

FINDINGS OF FACT OF THE STATE BOARD OF HEALTH

The above-entitled matter came on for hearing before the Minnesota State Board of Health (hereinafter "Board") on the 19th day of August, 1974, at 9:45 A.M. in the Board Room, Minnesota Department of Health Building, 717 Delaware Street S.E., Minneapolis, Minnesota 55440, after proper notice required by Minn. Stat. § 15.0412 (1971) was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose and also upon other persons, associations and groups of which the State Board of Health was aware of as possibly having an interest in the above captioned rules. The hearing was held jointly with the State Board of Podiatry Examiners and Registration. These Findings of Fact, however, are limited solely to the regulations proposed by the Board.

After affording interested persons an opportunity to present written and oral data, statements and arguments, and having heard and considered all of the testimony and evidence adduced and upon the records, files and proceedings herein, the Board makes and enters the following findings:

1. The authority to adopt the above captioned regulations is contained in Minn. Laws 1974, ch. 471. Section 1 of the Act gives the Board authority to establish by regulation all application and examination fees for permits, licenses, registrations and certifications (hereinafter "credentials"), and renewals thereof duly issued by the Board. The Board was also given authority to establish by regulation the expiration and renewal dates for the above enumerated credentials.

2. The remaining sections of the Act deletes statutory language relating to fees and expiration and renewal dates for various affected credentials. Thus, chapter 471 gives the Board authority to establish reasonable fees, including late or penalty fees for failure to submit applications at the required time, either above, below or at the same level as the fees had been under statute. The only real limitations is that the proposed fees may not produce monetary receipts significantly above the cost of administering each credentialing program involved. Further, the Board may now change the dates for which each credential will be effective.

3. The effective date of chapter 471 is January 1, 1975. At this time existing statutory fees will be repealed. Unless fees are established by regulation prior to that time, the Board would be unable to charge any fees for its credentialing services. This would cause severe operational problems since the fees cover the expenses of administering the credentialing programs. Accordingly, the proposed fees are necessary for the operation and administration of each subject credentialing program or service provided.

4. Minn. Laws 1974, ch. 471 § 1 requires all fees proposed by regulation to be approved by the Commissioner of Administration. Said requirement was satisfied with the approval of the Commissioner of Finance pursuant to Minn. Stat. §§ 16A.04 subd. 3 and 16A.07 subd. 4 (1973 Supp.) and Department of Administration Reorganization Order number 47, dated May 31, 1974.

5. The fees for services provided by the Section of Vital Statistics proposed in MHD 7 (r) are reasonable and justified by the record. The projected income from the fees will not exceed the costs of providing the services.

6. The master and journeyman plumber license fees and expiration dates proposed in MHD 139 (c), formerly MHD 113, are reasonable and justified by the record. The projected income from the proposed fees exceeds by only one and a half percent the projected costs of administering the licensing program. This is not a significant excess nor is it unreasonable. In addition, the fees are identical to those established by Minn. Laws 1974, ch. 205, effective July 1, 1974. This gave the Board authority to charge the increased fees between July 1, 1974, and December 31, 1974.

7. The license fees and expiration dates proposed in MHD 76 (b), formerly MHD 10631 (b); MHD 44 (v) and (w); and MHD 392 (b) for hospitals and related institutions, nursing homes and boarding care homes, and supervised living facilities, respectively, are reasonable and justified by the record. The fees do not exceed the costs of the licensing program.

8. Hospitals, nursing homes, and boarding care homes are surveyed for purposes of both state licensure and federal certification. All costs related to certification

are reimbursed by the federal government; however, there is no federal payment for the state licensure program. Thus, the proposed license fees are not providing a system of dual income for the same regulatory services.

9. Supervised living facilities is a new classification of health care facility established by the Board. We take judicial notice of the fact that the regulations requiring the licensing of such facilities and setting operational standards have not yet become effective. Their final approval and filing with the Secretary of State and Commissioner of Administration should occur shortly before the fee setting regulations are approved and filed. Consequently, it is not possible to determine what the income will be from the licensing of this class of facility. However, the estimated income from the other facilities (hospitals, nursing homes, and boarding care homes) falls approximately $28,000 short of the program expenses. It is not likely that the additional income from supervised living facilities will exceed this by a significant amount. Further, the licensing activities of this type of facility could well increase the program expenses. Thus, the proposed supervised living facility license fee is reasonable.

10. The hospital administrator registration fees and expiration dates proposed in MHD 36 (f), formerly MHD 72, are reasonable and justified by the record. The fee has been reduced from $50, as proposed at the public hearing, to $40. Thus, the projected income will definitely fall below projected program expenses.

11. The mobile home park and recreational camping area license fees and expiration dates proposed in MHD 188, formerly MHD 153, are reasonable and supported by the record. The fees for mobile home parks and recreational camping areas

have been changed in part from what was considered at the public hearing. The evidence clearly demonstrates the existence of a large number of establishments which operate on a seasonal basis, i.e., six months or less. While the efforts involved in issuing the primary and renewal licenses are the same regardless of the length of operation during the year, that some establishments will be closed a portion of the year would reduce their need for regulatory services. Accordingly, even though the projected income under the fees as initially proposed fell far short of meeting program expenses, it is considered reasonable to reduce the license fee for seasonal establishments by twenty-five percent of the amount paid by establishments which operate on a year-round basis.

12. The food and beverage establishment and lodging establishment license fees and expiration dates proposed in MHD 165, formerly MHD 150, and MHD 155, formerly MHD 143, respectively, are reasonable and supported by the record. The fees do not exceed the costs and expenses of the two licensing programs.

13. The resident trainee, mortician funeral director, and funeral establishment registration license or permit fees and expiration dates proposed in MHD 21 and 22, formerly MHD 11011 and 11013 respectively, are reasonable and supported by the record. The projected income from the proposed fees exceeds by less than two percent the projected costs of administering the licensing program. This is not a significant excess nor is it unreasonable.

14. The water well contractor examination fee proposed in MHD 211 (b)(2) is reasonable and supported by the record. The projected income from the fee will not exceed the cost of the program.

15. The ambulance service license fee and expiration date proposed in MHD 234 (a) are reasonable and supported by the record. The projected income from the fee will not exceed the cost of the program.

16. The water conditioning contractors and installers license fee and expiration date proposed in MHD 234 (b) are reasonable and supported by the record. The projected income from the fee will not exceed the cost of the program.

17. The only regulations which were modified or changed after the public hearing were the ones relating to hospital administrators and to mobile home parks and recreational camping areas. The changes were based upon written or oral comments presented to the Board and in the record of the public hearing. In each instance the change resulted in the credentialing fee being reduced. The modifications are not substantive in nature and are in keeping with the spirit and intent of the regulations as presented at the hearing.

18. The proposed regulation is in keeping with and will help fulfill the policy of the State of Minnesota by increasing the receipts of the Board to a sufficient amount so that the total fees collected will as closely as possible equal anticipated expenditures.

STATE OF MINNESOTA

DEPARTMENT HEALTH

Office Memorandum

TO : Frederick F. Heisel, Director
Division of Environmental Health

DATE: May 31, 1974

FROM : Edwin H. Ross, Senior Hydrologist
Ground Water Quality Control Unit

SUBJECT: Department Fee Setting Authority
Water Well Contractors Licensing - Chapter 156A

In accordance with the memo by Richard A. Wexler, Special Assistant Attorney General, on this subject and specifically related to the licensing of water well contractors, the fee setting requirement of Chapter 471 is applicable only to Section 156A.07, Subdivision 1, which pertains to the water well contractors' application fee. His memo states that the water well contractor license fee and drilling machine registration fee stated in Minnesota Statutes § 156A.07, Subdivisions 5 and 7, may not be changed by regulation.

Section 156A.07, Subdivision 1, states that the filing fee shall be $50. The rules and regulations relating to licensing and regulation of water well contractors adopted by the Board of Health on April 11, 1974, states that the application shall be accompanied by the filing fee prescribed by the Act.

The filing fee is now $50 as prescribed by the Act. It is recommended that the fee to be included in the regulations required by Chapter 741, Minnesota Session Laws of 1971, be continued at $50.

In discussing this with Mr. Wexler, he stated that all of the details included in Section 156A.07, Subdivision 1, would not be necessary for inclusion in the fee rules, therefore, the following rule is submitted.

> Any person not already licensed as a water well contractor under Sections 156A.01 to 156A.08 who desires to be so licensed shall submit an application for examination accompanied by the filing fee of $50.

It is expected that we should not ordinarily have more than 12 new applications for examination each year. The total revenue produced from the applications would, therefore, not be more than $600 per year. The specific task performed for the examination procedure would involve contacting the references to check on the competency, honesty, and integrity of the applicant; a meeting of the Advisory Council to review the applicant's qualification; and the preparation, presentation, and grading of an examination.

The total program for licensing and regulation of water well contractors, which includes administration, enforcement, education, and securing water well records and other geological and water quality data, costs approximately $34,000 per year. The revenue derived from annually licensing water well contractors and registering water well contracting machines is as follows:

296	Licensed Water Well Contractors @ $50	$14,800
707	Registered Drilling Machines	
296	No Fee	
411	Registration Fee of $5 Each	2,055
12	New Applicants per Year @ $50	600
	Total Income per Year	$17,455

The above figures are accurate as of May 29, 1974, and do not include approximately 16 nonrenewals, nor do they include applications pending. The fees, therefore, do not exceed the cost of the program.

When presenting the amendments to the Legislature in 1973 it was pointed out that much valuable resource data would be provided to the State which would compensate for the cost of the program in excess of revenues derived. The Legislature was most concerned that the annual fees for licensing should not be too high.

It is suggested that this schedule be adopted on an interim basis until a determination can be made as to whether administrative costs can be reduced.
