EDU 181 Repealed. Reserved for future use.

EDU 182 Certification of Eligible Pupils. No change.

EDU 183 Aid Limitation. No change.

EDU 184 Eligible Pupils. No change.

EDU 185 Determination of Costs. No change.

(a) No change.

(b) In addition to the transportation costs, depreciation aid shall be paid to each eligible district. Depreciation shall be calculated at ten percent per school year in each year of the ten following the year of purchase on each eligible school bus. ~~of more than sixteen passenger capacity covered by the minimum conventional school bus standards.~~

Such depreciation aids shall be paid in a lump sum in the month of September. For purposes of transportation levies, the last available depreciation amount shall be used.

(1) ~~The~~ Type I conventional ~~type~~, forward control and pusher type vehicles of more than sixteen passenger capacity which conform to the established state minimum standards are eligible to earn depreciation aid in accordance with the rules established by the state board of education.

(2) Recoded as (3).

(2) Type II or Type III re-structured vehicles of sixteen or less passenger capacity are eligible to earn depreciation aid only when, and as, approved by the commissioner of education. (Effective date: July 1, 1975.)

(aa) Definition: Re-structured. "Re-structured" means a vehicle produced by a chassis manufacturer which is converted into a school bus by a second manufacturer and upon completion shall meet or exceed the Static Load Test Code for School Bus Body Structure. See CONSTRUCTION, Edu 262(i), item (3).

EDU 190 Regulations Relating to Equal Transportation

(a) No change.
(b) No change.

(1) No change.

(2) shall provide transportation aid in accordance with Edu 180 through Edu 199 for transportation provided by the school district for resident pupils attending eligible schools located outside of but in an adjacent contiguous ~~the~~ district, provided that the aid shall be for only so much of the trip as is within the district of residence and, provided further that transportation aid may only be provided for such pupils within the limits specified in Edu 190 (c). This limitation is not applicable to transportation of handicapped children.

(3) No change.
(4) No change.

(c) An eligible resident pupil shall receive free and equal transportation to the appropriate school district boundary if there is no non-public school within the district maintaining grades or departments that are maintained in an adjacent contiguous district school ~~which is available to such pupil~~, or if attendance can more safely, economically, or conveniently be provided by such means.

(1) No change.

(2) The public school administration shall annually and as necessary consult with the appropriate non-public school administration ~~within the resident district~~ on attendance areas, safety, economics, conveniences and availability of space for the pupils.

(3) No change.

(d) No change.

(1) No change.
(2) No change.

(e) No change.

(1) The resident school board's responsibility relative to such contracts shall be limited to the pro-rata cost per resident pupil based on mileage traveled within the resident district as the mileage relates to the total number of miles traveled. Equal transportation is not to be defined in terms of numbers of children transported or numbers of miles traveled or the average cost per pupil for the transportation of eligible pupils attending public schools.

(2) No change.
(3) No change.

(4) The resident district may transport eligible non-public pupils to a non-public school located in an adjacent contiguous district provided the non-public school shall pay the cost of that portion of the trip which is outside of the resident district boundary.

(f) If a school board provides transportation for public school pupils to an approved secondary vocational center ~~in another district~~, it shall also provide transportation for shared time pupils between the public secondary school and the approved secondary vocational center. ~~in the other district.~~

CHAPTER FOURTEEN: EDU 260-279

DESIGN OF SCHOOL TRANSPORTATION EQUIPMENT, STANDARDS

EDU 260 DESIGN, GENERAL. No change.

~~(a) The minimum standards for design of school buses are intended to apply to all types of school buses: (a) conventional type body on chassis vehicles; (b) forward control and pusher type of vehicles; and (c) small vehicles.~~

(a) New School Buses:

(1) The minimum standards shall apply to new school buses purchased for use in Minnesota after the effective date of these standards and buses complying with these standards when purchased new for use in Minnesota need not comply with any standards established by regulations adopted subsequent thereto except as specifically provided.

(b) Used School Buses:

(1) Any used school bus purchased for use in Minnesota shall conform to the Minnesota minimum standards that were in effect on the date that the vehicle was purchased new and, in addition thereto, any standards established by regulations adopted subsequently which are applicable to school buses purchased new for use in Minnesota as set out in Edu 260(a).

EDU 261 SCHOOL BUS CHASSIS. No change.

(a) AIR CLEANER. No change.

(b) AXLES. No change.

(c) BATTERY. No change.

(1) No change.

(2) No change.

(aa) OPTION: Battery system of at least 90 ampere hours may be installed in engine compartment and shall be used only in combination with generator or alternator of at least 120 amperes. (See GENERATOR OR ALTERNATOR, Edu 261(q), (1).)

(3) When battery is to be mounted outside of engine compartment, it may be temporarily mounted to chassis. ~~Battery~~ Body company will permanently mount battery on sliding tray located so that center line of battery is 52 inches back of cowl. One piece, one gauge battery cables shall be provided by chassis manufacturer, such cables to be at least 36 inches longer than normally required, to accommodate battery when located 52 inches to rear of cowl.

Exception: small vehicles. No change.

(d.1) BRAKES. No change.

(d.2) THE FOLLOWING PROVISIONS FOR BRAKES SHALL SUPERSEDE THOSE SHOWN ON ALL SCHOOL BUS CHASSIS MANUFACTURED AFTER JANUARY 1, 1968. No change.

In the matter of Amending Rules Relating to Chapter One: Title, Edu 4 (a), (c) (3), (d); Edu 5 (b) (1) (2); Edu 6 (a) (c); 8 (b).

STATEMENT OF NEED

The above captioned rules are amendments to existing rules of the State Board of Education.

The need to adopt these amendments in Chapter One is a result of 1971 Minnesota State Legislative amendments to M.S. 120.05 to include a middle school classification. This necessitates adding the word "middle" to the above captioned rules in Chapter One to provide a consistent classification identification. Also, to eliminate sex discrimination in the curriculum and to implement the changes in M.S. 215.31 and 412.222 (1971) relating to state public examiners and public accountants.

In the matter of New Rules
Relating to Edu 30-32

STATEMENT OF NEED

The above captioned rules are new rules of the State Board of Education relating to middle schools.

The 1971 Minnesota State Legislature amended M.S. 120.05 Public Schools, Subdivision 1, to include a middle school classification. This was a new school classification heading. M.S. 120.05, Subdivision 2, Definitions (2) relates to the definition of a middle school and states in part "... standards established by the state board of education." New rules Edu 30-32 are the state board standards for middle schools.

The above new regulations (Edu 30-32) makes it necessary to amend the Title of Chapter Two to include "Middle School."

Relating to Edu 43 (a)(2)(dd)

STATEMENT OF NEED

The above captioned rules are amendments to existing rules of the State Board of Education. The last time the above captioned rules were amended was March 11, 1974.

The need to adopt this amendment arises because of an omission of this statement as a part of a previously submitted change in graduation requirements. It was the intent to have this clause included as a part of graduation requirements submitted in the previous Public Hearing, but the clause was omitted in the process of preparing the printed materials.

In the matter of Amending Rules
Relating to Edu 44

STATEMENT OF NEED

The above captioned rule is an amendment to existing rules of the State Board of Education.

The need to adopt this amendment arises because of the policy of the State Board regarding regulation of the six-hour school day. The policy that employment-related community-based programs be regulated according to State Board for Vocational Education policy by the Vocational-Technical Division and that non-employment-related community-based instruction be regulated by the Division of Instruction was adopted in February, 1974.

Relating to Edu 66 (a) (2)

STATEMENT OF NEED

The above captioned rule is an amendment to existing rules of the State Board of Education.

The need to adopt this amendment arises because of the sex discrimination involved in the current regulations.

Since the proposed Chapter 4 is planned to become effective on July 1, 1975, this amendment would eliminate the unequal treatment of the two sexes from November 1974 to July 1975.

STATEMENT OF NEED

The above captioned rules are amendments to existing rules of the State Board for Vocational Education.

These changes in secondary and adult vocational education are needed to increase the emphasis on student opportunities and decrease the differences in program policies. Post-secondary materials will be included in Chapter 4 and will be submitted to a later hearing.

State Board of Education

In the matter of the Proposed Adoption of Rules of the State Board of Education Governing Adoption of Edu 1-8, 30-32, 43, 44, 66, and 160-162.

FINDING OF FACTS

The above entitled matter came on for hearing before the State Board of Education of the State of Minnesota on the 23rd day of August, 1974, at 9:30 a.m. in Conference Room A, First Floor, Capitol Square Building, 550 Cedar St., St. Paul, Minnesota 55101 after proper notice required by M.S. 1971, Section 15.0412 was served upon all persons, associated and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, having heard all of the testimony, having considered all of the evidence adduced and upon records, files and proceedings herein, we find the following:

1) The legislature has established a classification for middle schools so it is necessary to include this classification in Minnesota State Board of Education regulations.

2) Some State Board regulations have included sex biased statements so it becomes necessary to clarify the need for providing courses from which students cannot be eliminated on the basis of sex.

3) State law has changed the name of state public examiner to state auditor and changed the definition of a public accountant as one who has five years instead of three been engaged primarily in the business of public accounting. This has caused the regulation of the State Board of Education to be changed to comply with this definition.

4) Since the legislature has provided for a classification referred to as middle schools, a completely new regulation became necessary in order to establish regulations for staffing and program of studies.

5) Following the public hearing which was held on December 8, 1973, proper statements allowing credit to be offered for physical education and health education were inadvertently omitted. With the August 23, 1974 public hearing this omission has been clarified.

6) Interpretation of the length of the school day for secondary schools has needed clarification. The new writing of Edu 44 clarly states that community-based programs may be approved as all or part of the school day by the State Board. Employment-related community-based programs shall be supervised through the Vocational-Technical Division and nonemployment-related community-based programs shall be supervised through the Division of Instruction. This should clarify the length of the school day for secondary schools.

7) Prior to public hearing, home economics has been required of all seventh, eighth, or ninth grade girls. This has been a violation of sex equality in course offerings. This recommendation allows boys or girls to take either home economics or industrial education to fulfill this course requirement.

8) State Department of Education curriculum guides for health and physical education have been changed, and it seems appropriate to require each school system to have its own adopted guides for physical education and health. This recommended change provides for this flexibility. It also sets minimum time requirements for physical education programs in grades seven, eight, nine and ten.

The above findings indicate that the identified Minnesota State Board of Education regulations should be accepted and become a part of the operational procedure of this body. The proposed regulations as indicated above seem reasonable and should be adopted.

STATE OF MINNESOTA
COUNTY OF RAMSEY

BEFORE Dorothea M. Chelgren, et al
State Board of Education

In the matter of the Proposed Adoption of Rules of the State Board of Education Governing Adoption of Edu 69.

FINDING OF FACTS

The above entitled matter came on for hearing before the State Board of Education of the State of Minnesota on the 23rd day of August, 1974, at 9:30 a.m. in conference room A, First Floor, Capitol Square Building, 550 Cedar Street, St. Paul, Minnesota, 55101, after proper notice required by M.S. 1971, Section 15.0412 was served upon all persons, associated and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, having heard all of the testimony, having considered all of the evidence adduced and upon records, files and proceedings herein, we find the following:

1. The definition of adult vocational education currently includes the definition similar to that of the U. S. Office of Education.

2. It is the duty of the State to adopt regulations to provide opportunities for adults to expand their knowledge and expertise in accordance with the needs of those adults.

3. The proposed Rules and Regulations are reasonable and will provide opportunities for adults in this state in keeping with the philosophy of the State Board of Education, the State Plan for Vocational-Technical Education, as well as federal legislation relating to vocational education.

4. The proposed Regulation is reasonable and updates the current definition of adult vocational education and was not contested on any point.
