In the matter of Proposed Rules
Relating to Regulation LSB-55,
Sale and Distribution of Biological
Products and Antigens

STATEMENT OF NEED

The above captioned rules are amendments to existing rules of the State Livestock Sanitary Board. The last time the above captioned rules were amended was December, 1945.

The need to adopt these rules arises because of technical advances in the development of vaccines which makes it impractical to limit the use of all vaccines to veterinarians, and to the changes in the livestock industry which makes it economically not feasible to have all vaccines administered by only veterinarians.

STATE LIVESTOCK SANITARY BOARD

In the matter of the Proposed
Adoption of Rules of the State
Livestock Sanitary Board, LSB-55
Governing the Sale and Distribution
of Biological Products and Antigens

FINDINGS OF FACT

The above-entitled matter came on for hearing before the Livestock Sanitary Board of the State of Minnesota on the 30th day of October, 1974, at 10:00 A.M. in Conference Room A, Veterans Service Building, St. Paul, Minnesota, after proper notice required by M.S. 1971, Section 15.0412 was served upon all persons, associations and other interested groups registered with the Secretary of State for that purpose.

After affording interested persons an opportunity to present written and oral data, statements and arguments, having heard all of the testimony, having considered all of the evidence adduced and upon the records, files and proceedings herein, I find the following:

1. Authority to promulgate the above-captioned rules is contained in M.S. 1971, Section 35.03. That section directs the Board to protect the health of the domestic animals of the state, employing such means and making such rules and regulations as it may deem expedient to that end. These rules are hereby found to come within that authority.

2. This regulation assures that the policy of the State of Minnesota to protect the health of the domestic animals of the state is continued in a reasonable manner.

3. The present regulation has not been amended since 1945 and is out-dated with respect to present day biological products.

4. The amendment adds a provision whereby biological products may be sold to persons other than veterinarians on the written prescription of a veterinarian. Some of the present biological products do not require administration by a veterinarian, and in some cases administration by a veterinarian is not economically feasible.

5. The amendment does prohibit veterinarians from writing prescriptions for all antigens and for certain biological products that should be administered only by veterinarians.

6. The amendment requires that written prescriptions shall be maintained on file by the issuing veterinarian for 2 years.

7. Biological products and antigens manufactured and sold exclusively for use in poultry are excluded from the provisions of the regulation, but the Board reserves the right to impose restrictions on the sale and distribution of such products if deemed necessary to protect the health of Minnesota's livestock and poultry.
