

BOOKSY BIZ PRO

Luis Chevere vibes with Booksy Biz

For Luis Chevere, it's the look and feel of Booksy Biz Lite that really stands out. The new software is easier to navigate because of the sleek design and the placement of the features.

“My favorite feature is the scheduling. I can not only see my day now, but I can see my week and month.”

In Luis' words

Describe your experience with Booksy Biz Pro.

I really enjoy the sleekness of it. Everything is really easy to get to. I can see my analytics and my sales, I can review my clients and my receipts. My favorite, favorite, favorite feature is the scheduling. I can not only see my day now, but I can see my week and my month.

What advice would you give to new users?

Do a full app walk-through before you sign up, before you start adding services or anything like that. Before you set it to live, make sure you've set up everything you can within the app.
