

# What's New at ChekOne For Security, Service and Inspection

The ChekOne App provides a feature rich solution solving contract compliance, regulatory compliance, payroll data collection, event and condition reporting and worker safety, while gaining efficiencies and cost savings on smart phones, PDAs, cellular or Wifi.

- ✔ Did my employee/contractor arrive on time?
- ✔ Did they complete assigned tasks?
- ✔ How long did it take?
- ✔ Are they safe?

## Why ChekOne™

ChekOne's technology creates a 24/7 connection between the office and the field to deliver accurate information in real-time, so it can be acted upon immediately.

ChekOne's is easy to use and deploy for a rapid return on investment.

Pricing models are cost effective.

## Real-Time Data Capture and Reporting

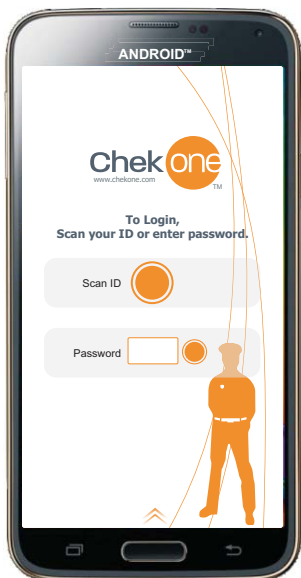

No more waiting for data to download at the end of the day. No more interpreting incomplete hand-written forms, just accurate data capture and automatic records.

## A Simple Device Anyone Can Use

Mobile workers learn to use ChekOne in minutes. With the push of a button and a quick scan, details are recorded (the job performed, the person on-site and the length of time taken to complete each task). ChekOne's simplicity and functionality pays off in the field and at the office.

## Total Control

The web-based dashboard makes it easy to manage communications. Each ChekOne device is assignable to a user and location, and can be suspended at any time. Phone numbers for the employee or location are updated automatically in the device when it is reassigned.

**On Your Device**  
See feature sheet for details

## ChekOne App

When ordering, please provide your make and model of your Android device.

Pricing and availability subject to change at the sole discretion of WiredTime Inc.  
All plans and options are available only with acceptance of the ChekOne Service and User License Agreement.

## ChekOne App

Suggested for **worker** or **supervisor** applications.

### SECURITY

#### ChekOne App for Patrol Guards

Patrol guards now have the ability to add details of site conditions while completing their patrols at a client's property. This greatly reduces the amount of hand written notes and special forms to be completed during a patrol shift.

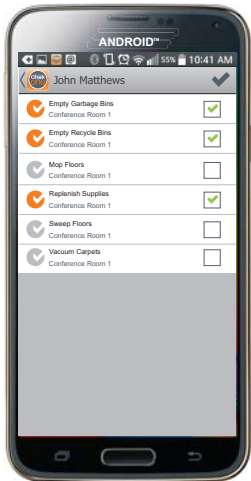

#### Patrols Made Easy

Guard scans the barcode for the area being checked.

Ratings, issues and actions are selected from drop-down menus.

Notes may be added to describe the issue in detail.

Photos may be taken to document conditions at time of patrol.

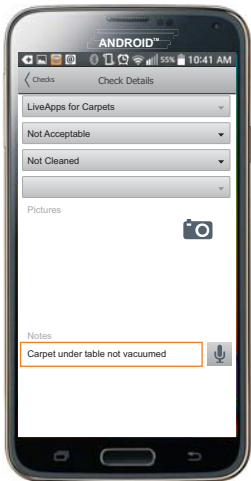

### SERVICE

#### ChekOne App for Workers

No more missed services. When a worker scans into an area to provide cleaning services they are presented a list of tasks to be completed for the area. They simply check off the services completed, data is transmitted in realtime to online reports until the job is done.

#### ChekOne App for Supervisors

Supervisors now have a simple yet powerful app to report on service quality. They simply select and rate the completed services, identify issues or compliance, add notes and photos for reports.

### INSPECTION

#### Supervisor Inspections

Inspection check items, ratings and issues customizable to your requirements.

#### Simple to use

Supervisor scans their ID barcode or enters Username to start the app.

Supervisor scans the barcode for the area to be inspected.

A list of inspection checks is presented for the supervisor to inspect.

Ratings and issues are selected from drop down menus.

Notes may be added to describe the issue in detail.

Photos may be taken to confirm compliance or detail deficiencies at time of inspection.

#### Real-Time Data Capture and Reporting

Data is transmitted in realtime and can be viewed immediately in online reports.

Your clients can access reports for their properties at any time. No more need for paper reporting.
