STATE OF MINNESOTA

COUNTY OF RAMSEY

BEFORE ROBERT L. HERBST, COMMISSIONER OF THE DEPARTMENT OF NATURAL RESOURCES

In the Matter of the Proposed Adoption of Rules and Regulations of the Commissioner of the Department of Natural Resources, Governing the Use of Designated State Recreational Trails, Pursuant to the Authority of Minnesota Statutes, Section 84.03.

STATEMENT OF NEED

The above-captioned rules are new regulations and not amendments to existing rules of the Department of Natural Resources.

The need to adopt these rules arises because of the current lack of such rules and regulations and the need to protect state recreational trails that are and will be designated. The authority to adopt such rules arises from Minn. Stat. Sections 84.03.

Dated this 30th day of May, 1975.

STATE OF MINNESOTA

ROBERT L. HERBST, Commissioner
Department of Natural Resources

STATE OF MINNESOTA

COUNTY OF RAMSEY

BEFORE ROBERT L. HERBST
COMMISSIONER OF THE
DEPARTMENT OF NATURAL
RESOURCES

In the Matter of the Proposed
Adoption of Rules and Regulations
of the Commissioner of the
Department of Natural Resources,
Governing the Use of Designated
State Recreational Trails, Pursuant
to the Authority of Minnesota
Statutes, Section 84.03.

FINDINGS OF FACT

AND

CONCLUSIONS

The above-entitled matter came on for hearing before Assistant Commissioner of the Department of Natural Resources, Joseph Alexander, State of Minnesota, December 9th, 1974, at 10:00 a.m. in the Bergh Hall Auditorium, Itasca Community College, Grand Rapids, Minnesota, and on December 12th, 1974 at 10:00 a.m. in the State Office Building Auditorium, St. Paul, Minnesota, after proper notice required by Minn. Stat. § 15.0412, was served upon all persons, associations, and other interested groups registered with the Secretary of State for that purpose.

After affording such interested persons, associations, and other groups opportunity to present oral and written data, statements, and arguments, having heard all of the evidence adduced, and upon the records, files, and proceedings herein, I find the following:

1. Minn. Stat. § 84.03, authorizes the Commissioner to prescribe rules and regulations for state trails.

2. Trails other than those established by the legislature may be designated by the Commissioner as corridor trails.

3. The general public can contribute to fully informing the Commissioner of Natural Resources as to the desirability of a corridor trail which may be proposed for his designation.

4. A public hearing pursuant to the provisions of Minn. Stat. Chapter 15 is a forum through which public input can be gathered.

5. Agents, employees, and persons acting under contract with the Department of Natural Resources will from time to time be required to perform acts which would otherwise be in technical violation of trail rules in order to maintain and establish the trails.

6. It is the intent of the legislature working through the Department of Natural Resources to provide to the public a recreational experience for trail users such as horseback riders, skiers, hikers, and snowmobilers as well as non-trail types of recreation such as nature watching, picnicking, and others.

7. Trails existing in as natural a state as possible are desired.

8. All desirable types of recreation are not necessarily compatible with others at the same time and in the same area.

9. Speed differential between different uses is a major cause of accidents and injuries.

10. Most motorcycle and ATV use would be in the summer when there is a much greater incidence of pedestrian and slow moving trail use.

11. Treadways that would be reasonably safe and adequate for summertime motorized use would conflict with the attempt to provide nearness of vegetation and wildlife habitat that is desirable for other trail users.

12. Treadways will not be adequate for automobiles.

13. All motorized vehicles that are allowed on legal roads will have to cross the trail at all road crossings so the trail will not act as a barrier to travel along such routes.

14. All motorized vehicles should be allowed in parking lots and private driveways to allow access to trails and the crossing of trails.

15. Damage to vegetation can be prevented by limiting snowmobiles to designated treadways.

16. By providing separate treadways as much as possible, conflicts between high speed and low speed uses can be minimized.

17. The use of snowmobiles when the snow cover is not adequate creates erosion problems and damages vegetation.

18. The indiscriminate use of horses would conflict with other more sedentary trail uses, destroy vegetation, encourage erosion and cause pollution problems.

19. The relegation of horses, as much as possible, to a single path would minimze such problems.

20. Horses conflict with foot traffic.

21. In certain areas it may be necessary to control late night noise or other disturbances.

22. Areas of the trails may be dangerous at night or under conditions occurring from time to time.

23. Certain seasonal uses of the trail are not compatible with the grooming of the trail and other users of a different seasonal nature.

24. From place to place there may be a requirement to control the flow of all or several kinds of traffic by the use of traffic control signs.

25. To assure all trail users that they may rely on traffic controls, the trail signs must be obeyed.

26. Any group of trail users can create a conflict by traveling abreast on a trail treadway or by traveling on the same area of the treadway as oncoming traffic.

27. It may be desirable to use state recreational trails for special public events from time to time.

28. These trail rules and regulations may ordinarily prohibit an activity that is required in holding such a special event.

29. To retain control over said event, the Commissioner should allow it by permit and be able to revoke or suspend said permit at anytime.

30. In the interest of clarity, the definition of "special event" should include other activities of a nature that is similar to those specifically mentioned in the proposed rules.

31. Camping on or very near a treadway would conflict with the ordinary uses of the treadway.

32. Camping generally destroys vegetation and disrupts the natural surrounding.

33. All trail users should have an equal opportunity to use trail facilities.

34. Trail facilities should be available to as many users as possible.

35. Camping on the trails will be allowed primarily in conjunction with traveling.

36. Digging and trenching destroy vegetation and create hazards for travelers.

37. Campsites and rest areas will be sufficiently landscaped by the Department of Natural Resources.

38. One or more individuals may wish to use more area or facilities than is required for their needs.

39. Scattered campfires are not compatible with trail use.

40. Poorly placed fires can cause damage to vegetation and may get out of control.

41. Fire rings or fire places will be provided at campsites and rest areas.

42. Funds for campsite development can be raised by charging a fee for the use of such sites when their condition merits it.

43. Hunting is a desirable form of recreational activity for State Recreational Trails.

44. Many trail users wish to avoid hunters or other shooters and at the same time utilize State Recreational Trails.

45. Hunting is usually concentrated during the ordinary seasons for protected wild animals, (approximately September 15 - March 30 of each year).

46. Pedestrian trail use will be less common during the ordinary hunting seasons.

47. Rifles, shotguns armed with slugs, and bows and arrows are deadly long range weapons.

48. State recreational trails will tend to funnel trail users into more concentrated areas on the treadways than would otherwise be the case if the trails did not exist.

49. Rifles, shotguns with slugs, and bows and arrows have longer ranges when shot down the relatively open trail treadways.

50. Trapping is a legitimate recreational and economic function of state lands.

51. Traps can interfere with pedestrian and pet trail use if

located in the areas of maximum use.

52. The Commissioner can minimize the dangers of accidental springing of traps by forbidding their use in high use areas.

53. The intentional destruction of vegetation, wildlife and other property of the state without permission is inconsistent with the desire to provide a natural and interesting trail environment.

54. Some vegetation, and to a limited degree, land forms will be unavoidably altered or destroyed by ordinary use of the trail.

55. The trapping or shooting of wild animals and picking of berries are desirable trail activities.

56. Bills and signs other than those put in place by DNR to regulate and inform as to use of the trail, are inconsistent with a natural environment.

57. Items of various sorts may be left on the trails so as to obstruct the use of the trails or detract from its natural setting.

58. To insure against the placement of bills, signs and obstructions such placement should be made illegal.

59. DNR must have the authority to remove such obstructions to prevent continual harm.

60. The cost of removal and storage should be assessed against the owner when claiming the item or recouped by a public sale of the item so abandoned pursuant to state law for such property.

61. Litter and trash are inconsistent with a natural, orderly and pleasant environment.

62. Offensive, obscene, abusive or noisy conduct as well as fighting, brawling and other conduct of similar violence creates a disturbance that is contrary to a desirable trail environment.

63. Intoxicated or drugged individuals create hazards to themselves and others on trails and detract from other's trail experience.

64. Pets can create hazards or annoyances to other trail users unless under the reasonable control of their owners.

65. A six-foot leash would be a reasonable control for pets.

66. Hunting dogs are ordinarily well trained, are necessary for hunting, and cannot perform their tasks when leashed.

67. Soliciting or peddling on the trail would detract from the trail environment, and possibly create traffic problems.

68. Snowmobiles, horses, and bicycles can move at rapid rates of speed when operated.

69. When snowmobiles, horses and bicycles are being operated in an uncontrolled manner they are dangerous to the operator and others in the vicinity.

70. There is a potential of damage to be done to cropland and other property adjacent to a trail if trail users are allowed to leave the trail at any place.

71. It will be difficult to get easements in some areas unless trail users stay on the trail. Thus the trails will be more expensive.

72. In order to leave the trail a trail user would have to leave the treadway, thus causing unnecessary damage to vegetation within the trail.

73. New paths blazed off the trail will in some cases confuse future trail users to the location of the trail and treadway.

74. It would be a hardship to require an adjacent landowner to post his land.

75. An adjacent landowner may wish to use the trail and if so, the ability to gain access to and from his property would be convenient.

76. An adjacent landowner should be able to leave the trail to enter his own land or to affirmatively allow others to do so.

77. Department of Natural Resources officials will be enforcing these rules on designated trails.

78. It is necessary that other state laws and rules and regulations be enforced on the trails.

79. To enforce such other regulations, DNR officials must have the same authority they have to enforce these rules.

80. By incorporating other state laws and rules and regulations into these rules and regulations by reference, DNR employees will have enforcement authority concerning such statutes.

81. Trails will extend through other segments of the DNR recreational and protection system.

82. The other segments of the natural resources system have their own sets of rules designed to protect the features responsible for their establishment as such a segment.

83. The trails will extend through numerous political subdivisions and will be designed for travel through such subdivisions.

84. A variety of different local rules applying to these trails will create confusion, inconsistency and possible impediments to through travel.

85. These rules do not purport to control every possible facet of human activity which may be objectionable.

86. Hunting, shooting, and trapping are not compatible with urban areas whether conducted on the streets or on a trail.

87. A local shooting restriction would not restrict travel along the trail.

88. The trails will be located in widely scattered areas of the state with widely varying local conditions.

89. The level of protection required generally for these trails might not be appropriate in a specific locality.

90. There may be temporary problems in a specific area which would require temporary regulatory measures.

91. A misdemeanor penalty is required to enforce the regulations.

CONCLUSIONS

1. It is desirable for the citizens in any particular locality to have an opportunity to discuss the designation of a trail proposed by the DNR, to fully inform the Commissioner of the benefits and liabilities of such proposed designation.

2. Trail rules should not apply to persons acting within their authority as employees, agents or persons under contract with DNR to establish or maintain the trails.

3. It is desirable that the natural features of state recreational trails be preserved as much as possible consistent with use of the trail, to maintain a pleasurable, natural, recreational experience.

4. No motorized vehicles, with the exception of snowmobiles in the winter, and operation within parking lots and highway crossings, should be allowed on the trails.

5. A number of trail uses should be restricted to specific treadways.

6. To prevent injuries to users on trails by unseasonable activities or disturbance to adjoining landowners, trails should be closed in certain areas at certain times.

7. Required obedience to trail signs will aid in the regulation of traffic.

8. By requiring all treadway users to travel on the right side of the treadway and pass on the left side of the treadway when no user is approaching from the opposite direction traffic conflicts can be avoided among the users allowed to use the same treadway.

9. The Commissioner should be able to permit special events, temporarily suspend enforcement of rules that would not otherwise allow such an event, and retain control over the permit.

10. By restricting camping to specific areas the damage and conflicts caused by camping can be minimized.

11. The use of a camping facility for more than two days would unduly limit the opportunities of other travelers to rest during a journey.

12. By charging a fee for camping, development funds for campgrounds can be raised.

13. Digging and trenching are detrimental to the trail and are not necessary.

14. To insure the availability of trail facilities for an many users as possible, no user should use the facilities in such a manner as to unreasonably exclude others.

15. Campfires should be restricted to the fire rings and fire places provided for them.

16. Hunting and the resulting shooting on state recreational trials should be limited to the period of September 15 through March 30 of each year.

17. Rifles, shotguns with slugs and bows and arrows should not be discharged on, down or across trail treadways.

18. Traps should be allowed on trails except where forbidden by the Commissioner.

19. Except for the picking of berries and the harvest of wild animals through hunting and trapping, there should be no intentional destruction of vegetation, or wildlife on the trails except for that destruction which is unavoidable when the trails are used as contemplated by these rules.

20. Unauthorized signs, soliciting or peddling, obstructions, litter and trash, offensive, obscene, abusive or noisy conduct, and drugged or intoxicated individuals create health and safety hazards and detract from the desirable trail environment and should be controlled.

21. All pets, except for hunting dogs during hunting season should be controlled by a leash no longer than six feet.

22. All vehicles and other means of travel being operated on a trail must remain under the control of the operator.

23. Trail users must stay on the trail through private land, whether posted or not, and should leave or enter the trail only on an authorized access point or where he has permission from the adjacent private landowner.

24. Other similar state laws and rules and regulations should be enforced by DNR officials by incorporating them into these rules.

25. To protect the features of both the recreational trail and any other segment of the natural resources system that the trail extends through the rules for both would have to be enforced and in the event of conflict the more restrictive must predominate.

26. No regulation or ordinance adopted by a local unit of government should be inconsistent with the provisions of these rules.

27. Local governments should be able to restrict shooting and the use of traps on the trail.

28. The Commissioner of Natural Resources should be able to relax unnecessary rules or impose temporary regulatory measures by order to maximize the protection of the trail and surroundings when needed and minimize the effect of rules that are locally unnecessary.

29. To enforce these rules, the misdemeanor penalty for any violation is a necessity.
