Graduate Engineering Technician

- Annual CTC: INR **549584** Per Annum + Additional benefits
- Education: B. Tech Holders
- Pass-Out Years: 2026
- Able to work in shifts: Biweekly rotation between day and night shifts
- Location: Sanand GIDC, Ahmedabad, Gujarat

About Micron: We are an industry leader in innovative memory and storage solutions transforming how the world uses information to enrich life for all. With a relentless focus on our customers, technology leadership, and manufacturing and operational excellence., Micron delivers a rich portfolio of high-performance DRAM, NAND and NOR memory and storage products. Every day, the innovations that our people create fuel the data economy, enabling advances in artificial intelligence (AI) and compute-intensive applications that unleash opportunities — from the data center to the **intelligent** edge and across the client and mobile user experience.

At Micron India, you will be a part of one of the fastest ramps in Indian semiconductor history. We are ranked among the Top 50 organizations for India's Best Workplaces in Manufacturing 2025 rankings by Great Place to Work Institute. In the last six years, we have built an operations footprint with 20 centres of excellence and grown to over 4000 team members. We nurture a culture that is fair, fearless and fun and that works to enhance personal and professional development at every level.

Culture and Values at Micron: As a leader in memory solutions, our team members, partners, customers, and leadership work closely together to deliver a high bar for ourselves and our industry. We believe transformation always starts from within and our core values are driven by the following 5 pillars:

- People - Respect, develop, and empower others.
- Innovation - Drive continuous improvement and breakthrough thinking
- Tenacity - Show grit and determination
- Collaboration - Build trust and foster teamwork
- Customer Focus - Deliver excellence and value

Micron by Numbers:

- $37.4B FY25 annual revenue
- 170 on the 2025 Fortune 500
- 60,000 patents granted and growing
- 30+ major cities worldwide with Micron offices
- 13 manufacturing sites* and 13 customer labs
- ~ 54,000 team members
- Official Website: http://www.micron.com

About the Profile – Graduate Engineering Technician:

Graduate Engineering Technicians are responsible for monitoring, sustaining, and improving the equipment in their assigned area, while working in partnership with Shift Operations team members, area equipment engineers and tool vendors. Equipment Technicians monitor tool performance, schedule and perform preventative maintenance on assigned tool sets, and use mechanical, electronic and PC/software skills to repair equipment issues.

Roles and responsibilities:

- Performs electrical or mechanical troubleshooting to determine problems in non-functioning electro-mechanical equipment used in the manufacturing process
- Inspect, dismantle, repair, adjust, and reassemble manufacturing equipment using technical drawings, blueprints, layouts, and maintenance documentation.
- Utilize diagnostic tools, testing equipment, and software applications to analyze equipment performance and verify repairs.
- Rebuild, refurbish, and restore manufacturing equipment and components as required.
- Support equipment installations, upgrades, and modifications in collaboration with Equipment Engineers and Operations teams.

Complete Certification

- Actively participate in assigned on-the-job training and other required learning programs, asking questions to build knowledge and capability
- Fulfill certification requirements by demonstrating required skills and understanding

Educational Requirements: B. Tech Certified in Electrical, Mechanical, Electronics and Communications and related streams

Work Location: Sanand, Gujarat
