CHAMPION®

HEATING AND COOLING

RESIDENTIAL HEAT PUMPS

GIVING YOU THE LEAD IN COMFORT

Through pride in workmanship and dedication to quality, Champion® heat pump systems are built to meet the challenge. While competitors may claim to be the best, Champion® products live up to their name. Always leading, never compromising, the complete Champion® line is equipped to take on the toughest conditions with maximum performance and energy saving efficiency. No matter the season, the Champion® brand stands for unrivaled reliability and superior comfort.

SPLIT SYSTEM HEAT PUMPS

Advanced Champion® systems fit your needs with select models that reduce your utility bills. Dependable quality delivers the performance you need to keep you comfortable in winter and summer.

HL8B

- ENERGY STAR® qualified 18 SEER cooling and up to 10.0 HSPF heating efficiency
- Two-stage compressor for outstanding comfort
- Dual fuel ready
- Demand defrost for reliable operation
- Communicating capable controls
- R-410A environmentally friendly refrigerant

HL6B

- Up to 16 SEER cooling and up to 9.0 HSPF heating efficiency
- Single-stage compressor
- Dual fuel ready
- Demand defrost for reliable operation
- Communicating capable controls
- R-410A environmentally friendly refrigerant

Right here in America

Exceeding customer expectations requires continual advances and attention to detail. Designing, engineering and assembling your Champion® split system heat pump in the United States ensures we can closely monitor and improve processes that directly affect quality. The performance and reliability of your unit is the result of strict tolerances and rigorous testing that continues throughout the entire process. It's also the result of dedication and hard work. It takes more than just metal and circuitry to make a Champion® unit. It takes people of integrity from right here in the heart of America.

TH16

- 16 SEER cooling efficiency and 9.0 HSPF heating efficiency
- 1.5–5 Tons
- Dual fuel compatible
- Uses a conventional two-stage heat pump thermostat
- Compatible with standard ECM and variable speed ECM indoor equipment
- Inverter-driven modulating technology provides superior control and dehumidifies without over conditioning
- Provides heat down to -20° F outdoor temperature
- R-410A environmentally friendly refrigerant

TH4

- 14 SEER cooling and 8.2 HSPF heating efficiency
- Dual fuel ready
- 1.5–5 Tons
- Demand defrost for reliable operation
- R-410A environmentally friendly refrigerant
- Single- and three-phase models available (THE)

See back cover for warranty information.
