SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): The purpose of this modification is to amend the solicitation and solicitation attachments.

FIRST: The following RFO Clauses are hereby changed as follows:
52.246-7 Alt IV - Warranty of Supplies of a Non-complex Nature (iv) is hereby deleted.

252.204-7021 - Contractor Compliance with the Cybersecurity Maturity Model Certification Level Requirements (Nov 2025), Level 2 certification is hereby changed as follows:

FROM: Level 2 (C3PAO) TO: Level 2 (Self)

252.204-7025 - Notice of Cybersecurity Maturity Model Certification Level Requirements (Nov 2025), Level 2 certification is hereby changed as follows:
FROM: Level 2 (C3PAO) TO: Level 2 (Self)

SECOND: The description on CLIN X012 and all option years have been revised to remove the reference to "negotiating with the ACO".

THIRD: The description on CLIN X013 and all option years has been revised to say "sustainment" and remove the reference to "develop".

FOURTH: The SOW reference to CLIN X013 and all option years have been revised:
FROM: 5, 7 and 10 TO: 6, 7 and 10

FIFTH: H001, H002 and H005 are hereby revised to show the correct attachment for the Data Rights assertions.

SIXTH: CLIN descriptions X007, X008 and all subCLINs and all option years have been revised to address warranty and SOW paragraph changes.

SEVENTH: CLIN X019 and all option years description have been revised to remove "Labor Rate pre-negotiated" references.

EIGHTH: As a result of vendor comments and questions, the Solicitation, Attachment 1 (CUI) KC-135 CCR Revision 2 Statement of Work (SOW) 24 July 2026, Attachment 1 (CUI) KC-135 CCR SOW Appendix D DD2794_KC-135 CCR, ATTACHMENT 3A - EXCEL PRICING WORKBOOK - PRIME - UPDATED (P), ATTACHMENT 3B - EXCEL PRICING WORKBOOK - SUB - UPDATED (P) (2), Attachment 4 KC-135 - CCR Section L - Instructions to Offerors, Attachment 5 KC-135 - CCR Section M - Evaluation Factors for Award, Attachment 8. TM-86-01R Air Force Technical Manual Contract Requirements (TMCR) CCR_REV2 1, have been replaced in their entirety with the updated attached documents.

NINETH: Attachment 1 (CUI) KC-135 CCR SOW Appendix D DD2794_KC-135 CCR was inadvertently left off the solicitation and is hereby incorporated.

TENTH: All other terms and conditions remain unchanged and in full force and effect.

Section A - Solicitation/Contract Form

The following modifications were made:

Information	From	To
Solicitation Number	FA810526RB001	FA810526RB0010001

Section B - Supplies or Services & Prices or Costs

Line Item 0007AA

The following Line Item modifications were made:

Information	From	To

Section H - Special Contract Requirements

Header Miscellaneous Text (Modified):

LCMC/WLK - H001 - DELIVERY ANDLICENSE RIGHTS FOR TECHNICAL DATA NECESSARY FOR OPERATION, MAINTENANCE, INSTALLATION, TRAINING AND TESTING (OMITT)

a. Definitions. As used in this special contract requirement and associated CLINs.

1. "Required Data" includes all other than commercial and commercial: technical data, including technical data meeting the definition of detailed manufacturing or process data at R-DFARS 252.227-7989; development tools

(including compilers); computer software (including source code and scripts and libraries used by the source code); computer software documentation; computer databases and graphics pertaining to *Center Console Refresh* (CCR) program that is required or used when conducting Operation, Maintenance, Installation, or Training (OMITT) activities, regardless of whether such activities are performed by Air Force military, civilian, or contract personnel.

2. "Operation" includes all procedures, guidance, and instructions for ground and in flight operating, handling, testing, utilization of, familiarization of, emergency use of, and functional use of *the Fuel System, Flight Display System, Flight Computer, Auto throttles, Kits, Support Equipment (SE), Aircrew Training Devices (ATDs), Testing, and Ground Training Devices (GTDs) of the CCR* to perform the intended functions. Operation also includes identifying, cataloging, stocking, sourcing, acquiring, procuring, replenishing, packaging, handling, storing, and transporting any CCR system: Fuel System, Flight Display System, Flight Computer, and Auto throttles, and their sub-systems, assemblies, sub-assemblies, components, parts, and pieces.

3. "Maintenance "includes all capabilities to maintain, sustain, inspect, test, service, adjust, troubleshoot, analyze, remove, replace, repair, install, disassemble, reassemble, or overhaul (to maintain in, or restore to, a serviceable condition) any CCR Program. Maintenance includes Depot-Level Maintenance, Organizational-Level Maintenance, and sustainment of the Required Data itself.

4. "Installation "includes infrastructure such as facility planning, site surveys, maintenance facilities, supply chain management, test cells, test stands and benches, tools, support equipment, communications, data links, security, data information technology, and all other data and planning used in the initial standup and continued operations, training, sustainment, and maintenance at all operational sites as well as Organizational-Level Maintenance and Depot-Level Maintenance requirements in support of the KC-135 Center Console Refresh (CCR) Revision 2.

5. "Training" includes formal and informal classroom, simulation, and supervised and unsupervised instruction in the operation, use, testing, supply chain management, or maintenance of

KC-135 Center Console Refresh (CCR) Revision 2.

6. "Testing" includes all formal and informal test events conducted either by contractor or Air Force personnel. Types of testing is to include, but not limited to: Qualification Testing, Software Testing, Sub-system Testing, System Integration Lab Testing, Automated Testing, Regression Testing, Developmental Testing, Integration Testing, Engineering Checkouts, Ground Testing, Flight Testing and Operational Testing.

7. "Depot-Level Maintenance" includes:

(i) installation, inspection, localization, isolation, disassembly, interchange, repair, reassembly, alignment, checkout;

(ii) maintenance performed, including modification, testing and reclamation, on material requiring repair, major overhaul, or complete rebuild of parts, assemblies, sub-assemblies, and end items;

(iii) software maintenance; and

(iv) Interim contractor support of contractor logistics support (or any similar contractor support), to the extent that such support is for the performance of services described above

(v) maintenance performed for continuous mission performance.

Depot-Level Maintenance does not include the manufacture of new items but may include the overhaul or refurbishment of existing items.

8. "Organizational-Level Maintenance" is on-equipment maintenance exclusively performed in the field, on the flight line, or at the equipment site. "Organizational-Level Maintenance" includes: inspection, service, lubrication, adjustment, calibration, preventive maintenance, limited repair, or replacement of equipment, as well as the replacement of parts, minor assemblies, and sub-assemblies.

9. "Software Maintenance" as used in this contract includes only the decompiling of the source code, repair of the code to accomplish its original purpose, and there compiling of the source code regardless of whether or not the maintenance results in a new software release version. Software Maintenance, however, does not include enhancement of the source code capability.

10. Other terms used in this special contract requirement that are defined in the following clauses have the same meaning in this clause as set forth in those clauses:

a. R-DFARS252.227-7989; and

b. R-DFARS252.227-7990.

b. Delivery Requirements. Pursuant to CLINs 0004 and 0017 to include all option years, the Contractor shall deliver all Required Data.

1. General. The Contractor shall deliver Required Data having suitable characteristics (*e.g.*, content, content, format, and delivery medium) to support OMITT activities, including:

a. No less information or detail than industry standards, nor less than the Contractor typically requires or uses to perform such OMITT activities; and

b. Additional information or detail necessary for military purposes related to OMITT activities.

2. Maintenance Technical Data and Computer Software. Required Data must comprise a complete package of all technical data and computer software for enabling Maintenance of the *CCR Program* without exception. This includes technical data and computer software used in the installation and de-installation, and dis-assembly and re-assembly, at the lowest practicable segregable level. Examples of technical data and computer software that are needed to perform Maintenance include, but are not limited to, the following:

a. Detailed technical data and information regarding all systems;

b. Depot-Level, Intermediate-Level, and Organizational-Level Maintenance technical data and information regarding all systems, subsystems, and components;

c. Interface Control Documents (ICDs);

d. Computer software source code necessary to perform Depot-Level Maintenance or Organizational-Level Maintenance of computer programs and scripts;

e. Computer software libraries used by source code necessary to perform Depot-Level Maintenance or Organizational-Level Maintenance of computer programs and scripts;

f. Computer software compilers and computer software tools necessary to perform Depot-Level Maintenance or Organizational-Level Maintenance of computer programs and scripts; and

g. Computer software and computer software documentation necessary to perform Depot-Level Maintenance or Organizational-Level Maintenance on computer programs and scripts.

c. License Rights. Pursuant to the contract clauses governing rights in technical data and computer software (e.g., R-DFARS252.227-7989 and 252.227-7990), the Government is granted unlimited rights in technical data (other than DMPD) required for OMITT activities and computer software documentation.

1. For purposes of this contract, however, the Government is willing to accept government purpose rights, as defined in R-DFARS 252.227-7989 in Required Data that is not:

a. commercial computer software;

b. other than commercial computer software developed exclusively at private expense; or

c. DMPD developed exclusively at private expense.

2. Required Data that is commercial computer software will be delivered subject to a commercial license that meets the requirements of *LCMC/WLK- H003 - COMMERCIAL COMPUTER SOFTWARE LICENSE*

3. Except as set forth immediately below, Required Data that is other than commercial computer software or DMPD developed exclusively at private expense will be delivered subject to the rights granted to the Government in R-DFARS 252.227-7989 or R-DFARS 252.227-7990.

a. The Government is not requiring, as a condition of award, government purpose rights in Required Data that is other than commercial computer software or DMPD developed exclusively at private expense.

b. The Contractor agrees to deliver such other than commercial computer software and DMPD, as outlined in (c)(3)(a) above, to the Government subject to unlimited rights or government purpose rights. The Contractor shall identify and assert its proposed category of license rights for other than commercial computer software and DMPD developed exclusively at private expense in accordance with R-DFARS252.227-7989, or R-DFARS 252.227-7990.

d. Technical Data and Computer Software of Subcontractors and Suppliers. The Contractor's obligations in this special contract clause shall apply to all Required Data, including all Required Data developed, delivered, or otherwise provided by subcontractors or suppliers at any tier, and regardless of whether the Required Data is or relates to commercial items or other than commercial items. The Contractor shall include these requirements in its subcontracts or other contractual or legal instruments with its subcontractors or suppliers at any tier.

e. Validation of Asserted Restrictions and Restrictive Markings. Nothing in this special contract requirement limits or otherwise affects the parties' rights or obligations specified in R-DFARS 252.227-7997. The Contracting Officer reserves the right to validate any asserted restriction or restrictive marking, at a later date, in accordance with the procedures of these clauses.

f. Subcontracts. The Contractor shall include the substance of this clause in subcontracts under this contract.

LCMC/WLK - H002 - IDENTIFICATION AND ASSERTION OF RESTRICTIONS ON TECHNICAL DATA AND COMPUTER SOFTWARE

(a) Definitions. Terms used in this Special Contract Requirement (SCR) that are defined in the following clauses and SCR have the same meaning as set forth in those clauses:

1. R-DFARS 252.227-7989;

2. R-DFARS 252.227-7990;

3. R-DFARS 252.227-7992; or

4. R-DFARS 252.252.227-7993;

5. H002 Delivery and License Rights For Technical Data Necessary For Operation, Maintenance, Installation and Testing (OMITT)

(b) Identification and Assertion of Restrictions. The contractor shall not deliver or otherwise provide to the Government any technical data or computer software with restrictive markings (or otherwise subject to restrictions on access, use, modification, reproduction, release, performance, display, or disclosure) unless the technical data or computer software has been identified in accordance with the following requirements:

1. Pre-Award Identification and Assertion. In Attachment 6 - CCR Revision 2 Data Rights Assertion Matrix, the contractor (including its subcontractors or suppliers, or potential subcontractors or suppliers, at any tier) identified all technical data and computer software that it proposed to be delivered or otherwise provided with less than the rights identified in the same document

-CDRL & Data Rights List as follows:

A. Noncommercial Technologies. Noncommercial technical data and noncommercial computer software was identified pursuant to R-DFARS 252.227-7992.

B. Commercial Technologies. The contractor also identified and asserted any restrictions for all commercial computer software and commercial technical data (i.e., technical data pertaining to a commercial item) by providing the same types of information at the lowest practicable segregable level, using a similar format, and following the same procedures and requirements as specified at R-DFARS 252.227-7992.

2. Post-Award Updates to the Pre-Award Identification and Assertions. Except as provided in this paragraph the contractor (including its subcontractors or suppliers at any tier) shall not supplement or revise the pre-award Identification and Assertions Attachment 6 - CCR Revision 2 Data Rights Assertion Matrix after contract award.

A. Noncommercial Technologies. Post-award identification and assertion of restrictions on noncommercial technical data and noncommercial computer software are governed by paragraph(e) of R-DFARS 252.227-7989 respectively.

B. Commercial Technologies. The contractor may supplement or revise its pre-award identification and assertion of restrictions on commercial computer software and commercial technical data only if such an expansion or revision would be permitted for noncommercial computer software or noncommercial technical data pursuant to paragraph b.2. A of this clause (i.e. based on new information, or inadvertent omissions that would not have materially affected source selection).

C. Upon request by the Contracting Officer, the contractor shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertions, such as existing documentation supporting and claim of commerciality.

(c) Specific Identification of Technical Data and Computer Software. When identifying and asserting restrictions on technical data and computer software pursuant to paragraph (b) of this clause, the contractor shall--

1. Ensure that the technical data and computer software are identified by their commonly used commercial descriptions, if possible, and also identified by specific reference to the requirement to deliver or provide that technical data or computer software in the contract, for example, by referencing the associated CLINs, CDRLs, or paragraphs in the statement of work.

2. Include the relevant information for all technical data and computer software that are or may be required to be delivered or otherwise provided under the contract, online or remote access to information, and firmware or other computer software to be embedded in hardware deliverables.

3. Specifically address source code, object code, executable code, documentation, software support tools, S/SEE (software/systems engineering environment) documentation, Systems/Software Requirement Documents, Interface Control Documents, etc., regarding any computer software that is modified or developed either exclusively or partially at Government expense.

(d) Copies of Negotiated, Commercial, and Other Non-Standard Licenses. The contractor shall concurrent with proposal submission provide copies of all proposed specially negotiated licenses, commercial licenses, non-disclosure agreements, and any asserted restrictions other than Government purpose rights; limited rights; restricted rights; Small Business Innovation Research (SBIR) Program data rights for which the protection period has not expired; or Government's minimum rights as specified in the clause at R-DFARS 252.227-7990.

(e) Subcontracts. The Contractor shall include the substance of this clause in subcontracts under this contract.

LCMC/WLK - H003 -COMMERCIAL COMPUTER SOFTWARE LICENSE

In accordance with the present clause and concurrent with proposal submission, the Contractor shall provide license agreement information for all COMMERCIAL computer software licenses to be obtained on behalf of or transferred to the US Government under this contract. In this arrangement, the Government may ultimately become the Licensee in certain COMMERCIAL computer software licenses, which software is specifically defined at R-DFARS 252.227-7989. In order to permit the Government to become a Licensee in the COMMERCIAL computer software licenses, the Contractor shall first pre-review the COMMERCIAL computer software licenses intended for transfer to the Government to verify compliance with any one of Alternatives I, II or III, as shown below.

License agreements shall be provided to the Government Contracting Officer concurrent with proposal submission to ensure compliance with the terms and conditions shown below (Alternatives I and II only) to the extent known at the time an offer is submitted to the Government. For any COMMERCIAL computer software licenses which are not reasonably identifiable concurrent with proposal submission, such license shall be first pre-approved by the Government Contracting Officer prior to their incorporation into a system deliverable to ensure compliance with the terms and conditions shown below (Alternatives I and II only). This obligation to obtain pre-approval by the Government Contracting Officer, as described above, continues throughout contract administration.

In view of the above, it should be understood that the Government will not accept the COMMERCIAL computer software deliverables under the present contract until the Contractor satisfies at least one of Alternatives I, II or III, as described below. Furthermore, the Contractor hereby understands and agrees that Alternative I shall be the default selection, unless the Contractor makes an affirmative written election otherwise.

This clause does not apply to open source software.

The Contractor shall include the substance of this clause in subcontracts under this contract.

Alternate I:

The terms and conditions required to permit any COMMERCIAL computer software licenses to be transferred to the Government (e.g., Government to become a Licensee) include the following:

1. Any license shall be perpetual in nature and may not be unilaterally terminated by the Licensor. All remedies available shall be consistent with the Disputes Clause in the underlying basic contract.

2. The Licensor shall not use the fact that the Licensees using the Licensor's products in any notification to the public (e.g., no publicity rights permitted).

3. The Licensee is a Federal entity governed by Federal Statutes, Case Law, and Federal Regulations. Therefore, the Licensor shall remove any references to binding the Licensee through any laws of any municipality, state, or foreign country.

4. The Licensor shall not include any clauses indicating a right to enter the premise of Licensee for the purpose of auditing the use of any license, as the Licensee cannot allow an auditor physical access to the Licensee's facility due to security concerns. The Licensor may submit to the Licensee written notice indicating a substantiated belief that the Licensee is not using the software within the terms described in the license and the Licensee may consider conducting its own internal audit and providing a certified statement of its findings to the Licensor.

5. The Licensor shall not use any integration clauses.

6. The Licensor shall not use any injunctive relief clauses as the Licensor cannot prevent the Licensee from performing mission operations.

7. The Contractor shall provide documentation to clearly correlate or map software license(s) to:

a. Contract Line Item Numbers (CLINS);

b. Contract Deliverables (CDRLS);

c. Paragraphs in the statement of work (SOW); and/or

d. Portions of any functional block diagrams and/or system architecture diagrams, so that it can be readily determined where certain COMMERCIAL computer software corresponding to certain software license agreement(s) are physically located on the system to be delivered under the contract.

8. The Licensor shall not include any clauses in the license agreement that in any way restrict assignment to the Government and/or restrict the Contractor from continuing as a licensee in said license agreement for the beneficial use of said license agreement by the Government.

9. The license shall not comment on the entitlement to attorney fees in the event of a dispute.

10. The license shall not disclaim all warranties through use of an "as is" provision.

11. The license shall not restrict the Government from using the product at various sites (i.e., applicable to a product-type license for a movable product, as opposed to a site-specific license for a non-movable product) nor use of the product by various Government agencies or third parties performing work on behalf of the Air Force under the AFNet. In performance of the AFNet, Government personnel as well as Government contractors may use the software. Additionally, the software may be used at Government sites and Government contractor sites and the sites may change overtime. Thus, the software license shall be flexible to accommodate this situation if applicable.

12. The license shall not include non-substitution language that would preclude or limit the Government from switching to another vendor/reseller and/or another product to fulfill AFNet requirements.

13. The Licensor shall include the following clause (and no other) for disputes: "Since the Licensee is a Government entity, any dispute arising from or in connection with this agreement shall be subject to resolution in accordance with the Disputes Clause included in the basic contract and/or the Government may also consider resolving any disputes using an appropriate Alternate Dispute Resolution (ADR) remedy."

14. Contractor shall provide a listing of license renewal dates and associated fees/costs if applicable.

15. Contractor shall provide a listing and copies of all commercial computer software licenses related to this Government Contract No. FA8105-xx-D-000x.

Alternate II:

1. Add the clause described below to all third party COMMERCIAL computer software licenses with advance notice to and/or consent of applicable third party software vendors of said computer software licenses, for which said licenses are intended to be transferred to the Government: "The Government agrees to the provisions of the present Software License, as set forth above and affixed as an attachment to this Government Contract No. FA8105-xx-D-000x, to the extent that the provisions of the Software License are consistent with Federal procurement law(s) and at least the Revolutionary Department of Defense Federal Acquisition Regulation Supplement (R-DFARS) section 227.7202 and said contract. In the event that any of the provisions of the present Software License are determined to be inconsistent with Federal procurement law(s); R-DFARS section 227.7202 and/or said contract, the parties to the present Software License hereby agree that said provision(s) shall be null and void. In the event that any of said provision(s) are rendered null and void, as described herein above, the remaining provision(s) of said License shall remain in full force and effect.

Notwithstanding the above, the Government reserves the right to inspector test any software, software documentation and/or service associated with the present Software License and tendered in performance of this contract for compliance there with. In the event that said software, software documentation and/or service are deemed noncompliant, the Government shall be entitled to replacement, refund and/or equitable relief

2. Contractor shall provide a listing of license renewal dates and associated fees/costs if applicable.

3. Contractor shall provide a listing and copies of all commercial computer software licenses related to the above-described Government Contract.

4. Contractor shall satisfy sub-section 7, under Alternate I, as described herein above.

Alternate III:

1. If the Licensor will not agree to the terms and conditions cited above in Alternatives I and II; and/or as contained in R-DFARS 227.7202, the Contractor shall obtain Licensor's consent to sever usage rights contained in any license(s), whereby said usage rights shall be assigned or otherwise transferred to the Government, so as to permit the Government to operate any related software or system containing the software which is associated with the license(s). All other rights and obligations contained in the license(s) shall remain with the Contractor. In this manner, the Contractor maintains their status as Licensee in said license(s) and only assigns or otherwise transfers usage rights portions thereof to the Government.

2. Contractor shall provide a listing of license renewal dates and associated fees/costs if applicable.

3. Contractor shall provide a listing and copies of all commercial computer software licenses related to this Government **Contract No. XXXX.**

4. Contractor shall satisfy sub-section 7, under Alternate I, as described herein above if applicable.

LCMC/WLK - H004 - DEFERRED ORDERING OF TECHNICAL DATA OR COMPUTER SOFTWARE

In addition to technical data or computer software specified elsewhere in this contract to be delivered hereunder, the Government may, at any time during the performance of this contract or within a period of three (3) years after acceptance of all items (other than technical data or computer software) to be delivered under this contract or the termination of this contract, order any technical data or computer software generated in the performance of this contract or any subcontract hereunder. When the technical data or computer software is ordered, the Contractor shall be compensated for converting the data or computer software into the prescribed form, for reproduction and delivery. The obligation to deliver the technical data of a subcontractor and pertaining to an item obtained from them shall expire three (3) years after the date the Contractor accepts the last delivery of that item from that subcontractor under this contract. The Government's rights to use said data or computer software shall be pursuant to the following Rights in Technical Data and Rights in Computer Software clauses of this contract, R-DFARS 252.227-7989, R-DFARS 252.227-7990, H001, H002, H003, and H005.

The Contractor shall include the substance of this clause in subcontracts under this contract.

LCMC/WLK H005 -DELIVERY AND LICENSE RIGHTS FORSUPPLEMENTAL TYPE CERTIFICATE (STC) PACKAGE INCLUDING SUBSTANTIATED DATA

(a) Definitions. Terms used in this Special Contract Requirement (SCR) that are defined in the following clauses and SCR have the same meaning as set forth in those clauses:

1. R-DFARS 252.227-7989;

2. R-DFARS 252.227-7990;

3. R-DFARS 252.227-7992; or

4. H001 Delivery and License Rights For Technical Data Necessary For Operation, Maintenance, Installation, Training and Testing (OMITT)

(b) Delivery Requirements. Through the Supplemental Type Certificate (STC) process, the Contractor shall deliver STC Data Package, which includes all data submitted to the FAA for purposes of substantiating the CCR STC, to the USAF at no additional cost. Upon STC approval, all documentation supporting it shall be confirmed to be current and complete.

(c) Identification and Assertion of Restrictions. The contractor shall not deliver or otherwise provide to the Government any technical data or computer software with restrictive markings (or otherwise subject to restrictions on access, use, modification, reproduction, release, performance, display, or disclosure) unless the technical data or computer software has been identified in accordance with the following requirements: the contractor (including its subcontractors or suppliers, or potential)

1.Pre-Award Identification and Assertion. In Attachment 6 - CCR Revision 2 Data Rights Assertion Matrix subcontractors or suppliers, at any tier identified all technical data and computer software that it proposed to be delivered or otherwise provided with less than the rights identified in the same document.

A. Noncommercial Technologies. Noncommercial technical data and noncommercial computer software was identified pursuant to R-DFARS 252.227-7992.

B. Commercial Technologies. The contractor also identified and asserted any restrictions for all commercial computer software and commercial technical data (i.e., technical data pertaining to a commercial item) by providing the same types of information at the lowest practicable segregable level, using a similar format, and following the same procedures and requirements as specified at R-DFARS 252.227-7992.

2. Post-Award Updates to the Pre-Award Identification and Assertions. Except as provided in this paragraph the contractor (including its subcontractors or suppliers at any tier) shall not supplement or revise the pre-award Identification and Assertions Attachment 6 - CCR Revision 2 Data Rights Assertion Matrix after contract award.

A. Noncommercial Technologies. Post-award identification and assertion of restrictions on noncommercial technical data and noncommercial computer software are governed by paragraph(e) of R-DFARS 252.227-7989, respectively.

B. Commercial Technologies. The contractor may supplement or revise its pre-award identification and assertion of restrictions on commercial computer software and commercial technical data only if such an expansion or revision would be permitted for noncommercial computer software or noncommercial technical data pursuant to paragraph b.2.A of this clause (i.e., based on new information, or inadvertent omissions that would not have materially affected source selection).

C. Upon request by the Contracting Officer, the contractor shall provide sufficient information to enable the Contracting Officer to evaluate any listed assertions, such as existing documentation supporting and claim of commerciality.

(d) Subcontracts. The Contractor shall include the substance of this clause in subcontracts under this contract.

Section I - Contract Clauses

Additional Regulation or Supplemental Clauses Incorporated by Full Text

The following Clause modifications were made:
52.217-9 Option to Extend the Term of the Contract. Mar 2000 hereby reads as follows:

Option to Extend the Term of the Contract (Mar 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days before the expiration of the contract; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least 60 days before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 10 years.

(End of clause)

252.204-7021 Contractor Compliance with the Cybersecurity Maturity Model Certification Level Requirements. Nov 2025 hereby reads as follows:

CONTRACTOR COMPLIANCE WITH THE CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions.* As used in this clause-

"Controlled unclassified information" means information the Government creates or possesses, or information an entity creates or possesses for or on behalf of the Government, that a law, regulation, or Governmentwide policy requires or permits an agency to handle using safeguarding or dissemination controls (32 CFR 2002.4(h)).

"Current" means-

(1) With regard to Conditional Cybersecurity Maturity Model Certification (CMMC) Status-

(i) Not older than 180 days for Conditional Level 2 (Self) assessments and Conditional Level 2 (certified third-party assessment organization (C3PAO)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance by an affirming official (see 32 CFR 170.4); and

(ii) Not older than 180 days for Conditional Level 3 (Defense Industrial Base Cybersecurity Assessment Center (DIBCAC)) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Conditional CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance by an affirming official;

(2) With regard to Final CMMC Status-

(i) Not older than 1 year for Final Level 1 (Self), with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.15); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official;

(ii) Not older than 3 years for Final Level 2 (Self) assessments and Final Level 2 (C3PAO) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.16 and 170.17); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(iii) Not older than 3 years for Final Level 3 (DIBCAC) assessments, with-

(A) No changes in compliance with the requirements at 32 CFR part 170 since the Final CMMC Status date (see 32 CFR 170.18); and

(B) A corresponding affirmation of continuous compliance, not older than 1 year, by an affirming official; and

(3) With regard to affirmation of continuous compliance (32 CFR 170.22), not older than 1 year with no changes in compliance with the requirements at 32 CFR part 170.

"Cybersecurity Maturity Model Certification (CMMC) status" means the result of meeting or exceeding the minimum required score for the corresponding assessment. The potential statuses are as follows:

(1) Final Level 1 (Self).

(2) Conditional Level 2 (Self).

(3) Final Level 2 (Self).

(4) Conditional Level 2 (C3PAO).

(5) Final Level 2 (C3PAO).

(6) Conditional Level 3 (DIBCAC).

(7) Final Level 3 (DIBCAC).

"Cybersecurity Maturity Model Certification unique identifier (CMMC UID)" means 10 alpha-numeric characters assigned to each CMMC assessment and reflected in the Supplier Performance Risk System (SPRS) for each contractor information system.

"Federal contract information (FCI)" means information, not intended for public release, that is provided by or generated for the Government under a contract to develop or deliver a product or service to the Government. It does not include information provided by the Government to the public, such as on public websites, or simple transactional information, such as information necessary to process payments.

"Plan of action and milestones" means a document that identifies tasks to be accomplished. It details resources required to accomplish the elements of the plan, any milestones in meeting the tasks, and scheduled completion dates for the milestones, as defined in National Institute of Standards and Technology Special Publication 800-115 (32 CFR 170.21).

(b) *Framework*. The Cybersecurity Maturity Model Certification (CMMC) is a framework for assessing a contractor's compliance with applicable information security protections (see 32 CFR part 170).

(c) *Duplication*. The CMMC assessments will not duplicate efforts from any other comparable DoD assessment, except for rare circumstances when a reassessment may be necessary, for example, when there are indications of issues with cybersecurity and/or compliance with CMMC requirements.

(d) *Requirements*. The Contractor shall-

(1)(i) Have and maintain for the duration of the contract a current CMMC status at the following CMMC level, or higher: Level 2 (Self) *Contracting Officer insert: CMMC Level 1 (Self); CMMC Level 2 (Self); CMMC Level 2 (C3PAO); or CMMC Level 3 (DIBCAC)* for all information systems used in performance of the contract, task order, or delivery order that process, store, or transmit FCI or CUI; and

(ii) Consult 32 CFR 170.23 related to the flow down of the CMMC requirements, and flow down the correct CMMC level to subcontracts and other contractual instruments;

(2) Only process, store, or transmit FCI or CUI on contractor information systems that have a CMMC status at the CMMC level required in paragraph (d)(1) of this clause, or higher;

(3) Complete on an annual basis, and maintain as current, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required in paragraph (d)(1) of this clause in the Supplier Performance Risk System (SPRS) (*https://piee.eb.mil*) for each CMMC UID applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract;

(4) Ensure all subcontractors and suppliers complete prior to subcontract award, and maintain on an annual basis, an affirmation, by the affirming official (see 32 CFR 170.4), of continuous compliance with the requirements associated with the CMMC level required for the subcontract or other contractual instrument for each of the subcontractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the subcontract; and

(5) If the Contractor has a CMMC Status of Conditional, successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(e) *Reporting.* The Contractor shall-

(1) Submit to the Contracting Officer-

(i) The CMMC UID(s) issued by SPRS for contractor information systems that will process, store, or transmit FCI or CUI during performance of the contract; and

(ii) Any changes in the CMMC UIDs generated in SPRS throughout the life of the contract, task order, or delivery order, if applicable;

(2) Enter into SPRS the results of a current self-assessment for each CMMC UID, not covered by a C3PAO assessment or DIBCAC assessment, applicable to each of the contractor information systems that process, store, or transmit FCI or CUI and that are used in performance of the contract; and

(3) Complete in SPRS on an annual basis and maintain as current an affirmation of continuous compliance by the affirming official (see 32 CFR 170.4) for each self-assessment, C3PAO assessment, or DIBCAC assessment required under the contract in SPRS.

(f) *Subcontracts.* The Contractor shall-

(1) Insert the substance of this clause, including this paragraph (f) and excluding paragraph (e)(1), in subcontracts and other contractual instruments, including those for the acquisition of commercial products or commercial services, excluding commercially available off-the-shelf items, if the subcontract or other contractual instrument will contain a requirement to process, store, or transmit FCI or CUI; and

(2) Prior to awarding a subcontract or other contractual instrument, ensure that the subcontractor has a current CMMC certificate or current CMMC status at the CMMC level that is appropriate for the information that is being flowed down to the subcontractor based on the requirements at 32 CFR 170.23.

Additional Regulation or Supplemental Clauses Incorporated by Full Text

The following Clause modifications were made:

252.204-7025 Notice of Cybersecurity Maturity Model Certification Level Requirements. Nov 2025 hereby reads as follows:

NOTICE OF CYBERSECURITY MATURITY MODEL CERTIFICATION LEVEL REQUIREMENTS (NOV 2025)

(a) *Definitions.* As used in this provision, "controlled unclassified information (CUI)," "current," "Cybersecurity Maturity Model Certification (CMMC) status," "Cybersecurity Maturity Model Certification unique identifier (CMMC UID)," "Federal contract information (FCI)", and "plan of action and milestones" have the meaning given in the Defense Federal Acquisition Regulation Supplement 252.204-7021, Contractor Compliance With the Cybersecurity Maturity Model Certification Level Requirements, clause of this solicitation.

(b)(1) *Cybersecurity Maturity Model Certification (CMMC) level.* The CMMC level required by this solicitation is: Level 2 (Self) *[Contracting Officer insert: CMMC Level 1 (Self); CMMC Level 2 (Self); CMMC Level 2 (C3PAO); or CMMC Level 3 (DIBCAC)]*. This CMMC level, or higher (see 32 CFR part 170), is required prior to award for each contractor information system that will process, store, or transmit Federal contract information (FCI) or controlled unclassified information (CUI) during performance of the contract.

(2) The Offeror will not be eligible for award of a contract, task order, or delivery order resulting from this solicitation if the Offeror does not have, for each of the contractor information systems that will process, store, or transmit FCI or CUI and that will be used in performance of a contract resulting from this solicitation-

(i) The current CMMC status entered in the Supplier Performance Risk System (SPRS) (*https://piee.eb.mil*) at the CMMC level required by paragraph (b)(1) of this provision; and

(ii) A current affirmation of continuous compliance with the security requirements identified at 32 CFR part 170 in SPRS.

(c) *Plan of action and milestones.* If the Offeror has a CMMC Status of Conditional, the Offeror shall successfully close out a valid plan of action and milestones (32 CFR 170.21) to achieve a CMMC Status of Final.

(d) *CMMC unique identifiers.* The Offeror shall provide, in the proposal, the CMMC unique identifier(s) (CMMC UIDs) issued by SPRS for each contractor information system that will process, store, or transmit FCI or CUI during performance of a contract, task order, or delivery order resulting from this solicitation. The Offeror also shall update the list when new CMMC UIDs are generated in SPRS. The CMMC UIDs are provided in SPRS after the Offeror enters the results of self-assessment(s) for each such information system.

(End of provision)
