GOOD GOURMET ATAMI

The city of Atami is in Shizuoka Prefecture, and is located midway between Tokyo and Osaka. It's a small town with a population of only 34,000, but the appeal of its mountains and ocean waters, onsen hot springs, and mountain passes offering views of Mount Fuji draws some six million visitors a year, making it Japan's foremost resort destination. Come and enjoy the fine dining Atami has to offer!

熱海市は、東京と大阪の真ん中に位置する静岡県の都市。人口わずか3.4万人の小さなまちですが、海と山、温泉、富士山を眺める峠に魅かれて年間600万人もの人が訪れる、日本を代表するリゾート地です。熱海のグルメをお楽しみください！

FINE DINING IN ATAMI

熱海のグルメ

Enclosed by mountains and sea and blessed with abundant natural surroundings, Atami is a treasure-trove of tasty fare. The town has many places to eat and drink, including quite a number of small streetside establishments in back alleys. Atami is distinct in having far fewer chain and franchise restaurants than other cities, and offering many directly operated establishments instead. It has sushi bars and restaurants serving fresh seafood, of course, but it also offers restaurants featuring Italian, Chinese, ramen, and a wide range of other cuisines whose proud proprietors are determined to outdo one another in providing tasty fare.
Amid the history of political and business leaders as well as prominent literary figures flocking to Atami in an unending succession since the Emperor established a villa here in 1888, the fine dining that Atami offers has grown ever more refined. The venerable Japanese confection shop that was the only business granted entry to the imperial villa when it first appeared is still in operation, and even today continues to safeguard the same tasty flavors as when it first opened. Another distinction is the great number of restaurants where you can enjoy tonkatsu pork cutlets, curries, and other Western-influenced "yoshoku" fare made just the same way as back in the day. Yoshoku is a unique style of Japanese cooking culture influenced by the Western culture in the latter half of the 19th century, after Japan opened itself to the outside world following centuries of isolation. In the streets of Atami, where establishments that opened from the 1940s through the 1960s still remain, you can enjoy yoshoku fare that brings back memories of the era in restaurants and kissaten coffee shops that in their heyday were at the leading edge of trendiness. Come and enjoy to the fullest delicious offerings found nowhere else.

海と山に囲まれ自然に恵まれた熱海は、食の宝庫。飲食店の数も多く、通り沿いにも路地裏にも小さなお店がいくつもあります。他の都市のようなチェーン店が極めて少ないのが特徴で、個性あふれる個人店がたくさん。寿司屋や海鮮の店はもちろんのこと、イタリアン、中華、ラーメン屋など様々なお店が自慢の味を競いあっています。
1888年に天皇陛下の御用邸が設けられて以降、政財界の重鎮、著名な文豪も続々と熱海にやってきた歴史の中で、熱海のグルメは磨かれてきました。当時、御用邸に唯一出入りが許された老舗の和菓子店も残り、開店以来、今もまだ当時の味を守り続けています。
昔ながらの、とんかつ、カレーなどのYOSHOKUが味わえる洋食店が多いのも特徴です。YOSHOKU は、日本が開国した19世紀後半から日本に入ってきた西洋文化に影響を受けて発展した日本独自の料理文化。1940～60年代にオープンした店が残る熱海の街中では、当時流行りの最先端だったレストランや喫茶店で、当時を思わせる自慢のYOSHOKUが味わえます。ここでしか出会えない味を堪能してください。

ATAMI FISH

熱海の魚

Atami has several harbors and bays, including Atami, Izusan, Ajiro, and Hatsushima. Among these, Ajiro is so well-known that it was once considered the principal bay for Edo (present-day Tokyo) just as Osaka was for Kyoto, and during the feudal Edo era, it flourished as a bay where small cargo boats sailing to Edo from the west would wait for wind. Even now the fish caught in Ajiro is of rich variety, and in recent years fish shipped directly to the Tsukiji market in Tokyo is prized as "Ajiro morning-catch fish."
In Atami you can enjoy fresh local seafood caught in Ajiro and coastal waters. Authentic sushi and sun-dried and stewed seafood are flavors of Atami that you'll want to try once. You can enjoy a rich array of highly individual establishments, including reasonably priced eateries directly operated by fish-sellers, counter-only places, restaurants where can chat with the proprietor while you eat, and more.
At ryokan inns and hotels in the town, you can breakfast on dried items, for instance, or be served a course meal of local seafood for dinner, and enjoy flavors only available in Atami. For lunch, we recommend that you head out into the town and have a seafood rice bowl as an easy and tasty way to try all kinds of local marine fare.
Get your fill of the all the marine bounty Atami has to offer!

熱海には、熱海、伊豆山、網代、初島と、いくつか港があります。その中でも網代は古くは「京、大阪に江戸、網代」と言われたほど名が知られ、江戸時代には西から江戸に向かう廻船が寄港する風待ちの港として栄ました。網代でとれる魚は今も種類豊富で、近年では東京築地に直送される魚は「網代の朝どれ魚」として一目置かれています。
熱海では、網代や近海で水揚げされた新鮮な地魚が楽しめます。本格的な寿司、干物、煮つけは、一度はたべておきたい熱海の味。魚店直営でリーズナブルな店、カウンター数席のみの店、大将と話しながら楽しめる店など、個性豊かな店で楽しめます。
まちの旅館やホテルでは、朝食で干物が選べたり、夕食のコースで地魚が出されたり、熱海ならではの味をお楽しみいただけます。ランチには、まちなかへ出かけて、海鮮丼で、地魚を、手軽にたっぷり味わうのがお勧めです。

An imperial villa was first built in Atami for the emperor in 1888, with many holiday houses of influential business leaders soon following one after another. 1888年に温泉地初の御用邸が熱海に建てられ、政財界の重鎮たちも続々と別荘を構えました。彼らをもてなしてきた熱海には独特の文化が根付き、今でも伝統が受け継がれています。

Atami Tour Testimonials! 熱海ツアーのオススメ!

I managed to view part of the Hana-no-Mai performance of traditional Japanese dance, and it was a wonderful experience. At Kiunkaku I was able to see the fusion of Japanese and Western beauty of form at every turn, and it was tremendously interesting. Kinomiya Jinja Shrine was lovely with its bamboo-lined paths and giant camphor trees, and left a profound impression. The presence of modern cafes in contrast to the historic ambience also made an impression on me. I also enjoyed chatting with the friendly local owners at dining establishments.

Atami is easy to get to from Tokyo. Once you're there the places to see are all close together, so it's also easy to get around and see everything. Niaya Harper

「華の舞」では日本の伝統舞台芸術の一端を見学することができ、とても素晴らしい経験をしました。また、「起雲閣」では、いたるところで日本と西洋の様式美の融合を見ることができ、興味深かったです。「来宮神社」では、竹の道や大楠などが素敵で、感銘を受けました。歴史的な雰囲気とは対照的に現代的なカフェがあったのが印象的です。食事処では、地元のフレンドリーな店主さんとの会話も楽しみました。熱海は東京からのアクセスが良い場所です。現地では観光地が密集しているので、多くの場所を見て回ることができるのもいいですね。

The MOA Museum of Art is a beautiful and spacious facility housing wonderful hidden treasures and offering scenic views of the lovely sea, and is replete with astonishing collections of Japanese art. I'll always remember drinking coffee while looking out onto the Japanese garden after a breathtaking experience at the urushi (lacquerware) exhibition area.

Izusan Jinja Shrine is definitely recommended for people who like dragons. The dragon legend told at the shrine was extremely interesting. Pure water burbles out from the Hashiriyu hot spring at the button of the stairs. It's almost like a hidden hideaway and has great appeal.

「MOA美術館」は、素晴らしい秘宝の数々、美しい海の景色、そして驚きに溢れた日本美術のコレクションが満載の、美しく広大な美術館でした。漆器展示コーナーで息を呑むような体験をした後、日本庭園を眺めながら飲んだコーヒーが忘れられません。「伊豆山神社」は、龍が大好きな人たちにお勧めです。神社に伝わる龍の伝説は大変興味深いものです。階段を下ったところにある「走り湯」では、源泉がブクブクと湧き出していました。まるで秘密の隠れ家のようで、魅惑的でした。
