Notice of Intent to Amend 3 MCAR § 2.005 without hearing was published in State Register Volume 6, Number 46, May 17, 1982, Pages 1904 and 1905.

STATE OF MINNESOTA

BOARD OF ANIMAL HEALTH

In the Matter of Proposed
Amendment to 3MCAR § 2.005
Importation of Swine into Minnesota

STATEMENT OF NEED AND REASONABLENESS

The rule needs to be amended to provide for movement of swine from validated brucellosis free states without 30 day test requirements. Removing the test requirement encourages importation of breeding swine from states with low incidence of brucellosis. The amendment will make the rule the same as the requirements of the Brucellosis Eradication Uniform Methods and Rules for establishinging and maintaining Validated Swine Brucellosis-Free areas. These requirements have been approved by the United States Department of Agriculture, Animal and Plant Health Inspection Service as the minimum standards for achieving and maintaining validated area status after careful consideration of the recommendations by the United States Animal Health Association.

The proposed amendment does not decrease the disease control capability of the rule. The monetary cost for interstate shipments will be less resulting in lower costs to swine producers and consumers.

Adoption and need for the amendment falls within the authority of Minnesota Statute § 35.03 (1980).
