Am I going to watch “Nowhere” with a Gear VR headset, or with Google Cardboard?

**Gear VR**

- Do I have a smartphone compatible with Gear VR?
  - Yes: Install the official “Oculus video app” from Oculus and run necessary updates.
  - No: Borrow one.

- Is my smartphone updated and sufficiently charged?
  - Yes: Make it so.
  - No: Phew!

**Google Cardboard**

- Do I have a smartphone compatible with Google Cardboard?
  - Yes: Select the VR-option by clicking on the goggles-icon in the lower right corner.
  - No: Stop! Abort! Immediately change your mind! VR films are designed to invite viewers to experience space. Without a headset or headphones, VR films are reduced to insignificance...

- Have I immediately changed my mind?
  - Yes: Yes
  - No: No

- Is my smartphone updated and sufficiently charged?
  - Yes: Make it so.
  - No: Phew!

- Plug the jack of your headphones into your phone.
- So far, so good?
  - Yes: Shake your fist at your phone and scream as loudly as you can.
  - No: Am I sitting down?
    - Yes: Take a seat.
    - No:

- Put on your headset.
- Put on your headphones with the correct left-right orientation.

**Gear VR**

- Open the Oculus video app and follow the on-screen instructions.

**Cardboard**

- Connect your phone to a broadband WiFi-network.
- Open the YouTube app and search for “Nowhere VR Experience”.
- Select the VR-option by clicking on the goggles-icon in the lower right corner.
- Insert your phone into the cardboard.
- Insert your phone into your Gear VR headset.
- Plug the jack of your headphones into your phone.
- So far, so good?
  - Yes: Shake your fist at your phone and scream as loudly as you can.
  - No: Am I sitting down?
    - Yes: Take a seat.
    - No:

Enjoy your experience!
