

ACCU SCHEME: Template for ACCU method idea

You are encouraged to submit your idea for an ACCU Scheme method using this template so your idea can be listed on the Method Development Tracker. Using the Method Development Tracker will help you reach out to proponents with similar ideas and enable collaboration.

Ideas can be submitted when they are still in their infancy – they do not need to be well developed or well researched at this stage.

For more information on submitting a method idea for the ACCU Scheme, please see the Guidelines for submitting an expression of interest (EOI Guide) on the Emissions Reduction Assurance Committee (ERAC) Secretariat's webpage.

Please answer all fields and questions in this template.

Section 1: Contact details	
(Please make sure you have read and understood the privacy statement on the ideas submission portal before you provide your contact details)	
1. Title of proposed method/variation, maximum 10 words:	
2. Contact name:
