1,400 Calorie Worksheet

Now you can design your own menu plans with the 'exchange system' diet plan. Simply refer to the Exchange Lists, then determine what foods you want to include in your menu plan.

Step 1: Find the food you want to include in your meal plan (from the Exchange Lists) and record in the table below.

Step 2: After entering your food, place a checkmark next to the appropriate exchange list in the Exchange List—Check Box Section.

Step 3: When you have checked off all the boxes, you are done eating for the day.
