TRONCO

TRONCO

This coffee table is made of a handcrafted material, utilising only recycled plastic as raw material. In the specific case of this project, the base is Black Dapple, a material constituted of recovered cutting boards and waste plastic casings. The top surface consists of a log of naturally felled Mediterranean maritime pine tree, burnished to give it a characteristic black color, naturally stabilised with a flame and natural resin. To me it is interesting that all the materials in question were originally trees, as plastics are a derivative of organic cellulose subjected to pressure and aging.

TRONCO

- MEASUREMENTS, IN CM: L 95 X H 50 X D 75 CM
- RECOVERED SEA PINE TRUNK
- BLACK DAPPLE RECYCLED PLASTIC

TRONCO

BLACK DAPPLE PLASTIC

- High Density Polyethylene
- UV Resistance
- 100% waterproof, rot-proof and strong weather resistance
- Made in UK with recycled waste material

SEA PINE TRUNK

- Locally sourced
- Naturally burnished with the flame
- Stabilised with natural resin
