MINUTES OF 27 APRIL 2026 MEETING

ATTENDANCE:

Board Members
Barry D. Miller, Chairman
Gary W. Dube, Vice-Chairman
Dean D. Mackley, Treasurer
Howard W. Gromling, Jr., Assistant Treasurer
Carl G. Newcomer, Jr., Secretary
Robert L. Schlosser, Assistant Secretary

Consultants/Staff
Nathan J. Hardman, P.E., C. S. Davidson, Inc.
Evan Gabel, CGA Law Firm
Cameron Lynch, ARRO Wastewater Operations
Chastity A. Polonikas, Executive Secretary
Elizabeth A. Jones, Part-time Secretary

At 6:00 p.m. Chairman Miller called the 27 April 2026 meeting of the Eastern York County Sewer Authority to order. Chairman Miller advised that there would be an Executive Session to discuss litigation strategy regarding 70 Artman Ave.

RECOGNITION OF PUBLIC

To a question from Chairman Miller, Mr. Ricky Garner stated that he had no comments.

APPROVAL OF MINUTES

The Minutes of 23 March 2026 were unanimously approved.

OLD BUSINESS:

Operator's Report:

Secondary UV System: Mr. Lynch reported that the UV bulbs, sleeves and one (1) ballast were replaced in the secondary UV system. The secondary system is now fully operational if needed. A new GFI outlet was installed by the UV system.

Weed Spraying: Mr. Lynch stated that the Operator sprayed the weeds along the fence line and around the influent wet well.

Aqua Filter #2: Mr. Lynch reported that Aqua Filter #2 was deep cleaned. To a question from Ms. Polonikas, Mr. Lynch stated that no one reported any issues about the inside of the Aqua Filter tank. Ms. Polonikas requested pictures of the inside of the tank.

Exhaust Fan: Mr. Lynch stated that the Operator serviced the exhaust fan to check for the cause of the abnormal noise. He found that the upper bearing has some play, however the lower bearings seem normal. The noise is coming from the lower bearings. The Operator measured the exhaust fan shaft to obtain new bearings for the exhaust fan.

Cleanings: Mr. Lynch reported that the Operator met with John Kline Septic Services to obtain a quote to clean the Pre-EQ tanks, Influent Pump Station, and Campbell Rd Pump Station. To a question from Ms. Polonikas, Mr. Lynch stated that he could ensure that Mr. Nathan Schaeffer is at the WWTP to oversee the cleaning, since he met with John Kline Septic Services.

Blowers: Mr. Lynch stated that the Operator cleaned the grease from the Post EQ and metal tank blowers. New blower oil was delivered to the WWTP.

SBR Blower: Mr. Lynch reported that Control Systems 21 fixed the oil leak in the rebuilt SBR blower. Control Systems 21 is still waiting for the correct filter housing. Mr. Lynch is awaiting updates from Control Systems 21.

Mr. Miller stated that the blower is still leaking oil. After a brief discussion, the Board voted and unanimously approved sending Control Systems 21 an email giving them a deadline of May 31, 2026 to fix the oil leak.

SBR Blower Diverter: Mr. Lynch stated that Control Systems 21 was out to look at the air diverter box/actuator. Control Systems 21 found potential failures and loose internal parts. They recommend replacement. Mr. Lynch received a not to exceed quote from Control Systems 21 in the amount of $17,447.38. He is still waiting for additional quotes. Mr. Lynch offered to send Ms. Polonikas the label with all the information for the actuator.

Concerns: To a question from Mr. Miller, Mr. Lynch stated that he had not been to the plant very often in the past two months, and Mr. Schaeffer had been giving him detailed reports. Mr. Miller stated that he would like Mr. Lynch to sign in, so the Authority knows when he has been there. To several questions from Mr. Mackley regarding the February and March ARRO invoices, Mr. Lynch stated he would look into these concerns. To a question from Mr. Miller, Mr. Lynch stated that to his knowledge the Operator is at the WWTP for four (4) hours Monday through Friday.

WWTP:

Pre-EQ Tank and Influent Tank Cleaning: The Board voted and unanimously approved John Kline Septic Services Estimate #E89 to clean the Pre-EQ tank and the Influent Pump Station in the amount of $5,135.00.

Hot Water Heater: There was a brief discussion regarding a timer for the hot water heater. The Board decided to have the Operators manually turn on and off the hot water heater once it is repaired.

Weeds at the WWTP: The Board voted and unanimously approved having Environmental Concepts Landscaping take care of all the weeds at the WWTP.

Slaymaker Invoice: Mr. Lynch reported that he worked with Slaymaker to reduce Invoice# 192884 by $593.02. To a question from Mr. Mackley, Mr. Lynch stated he would work to obtain an itemized invoice. The Board voted and unanimously decided to have Ms. Polonikas issue a check for Invoice #192514 in the amount of $3,368.50 and wait for an itemized invoice to pay Invoice #192884.

Contractor Recommendations: After a brief discussion, the Board decided to utilize the list that Ms. Polonikas provided for contractor recommendations. Ms. Polonikas will contact the contractors the Authority has never used before to set up accounts. Mr. Newcomer suggested contacting Motor Technology, Inc. to use instead of Slaymaker.

Engineer's Report:.

Solar Project: Mr. Hardman stated that the Authority had received three (3) bids for the solar project. Mr. Gabel advised that if the Authority did not go with Spotts Brothers, Inc. (lowest qualified bid), EYCSA would be open to a lawsuit. After a brief discussion, the Board voted and unanimously approved the Spott's Brothers, Inc. bid.

Solicitor's Report:

The Board moved out of open session into executive session at 6:53 PM to discuss litigation strategy. The Board returned to open session at 7:00 PM.

70 Artman Ave: The Board voted and unanimously approved moving ahead with the collection process for 70 Artman Ave.

Collection System:

Fallen Tree on ROW: Ms. Polonikas suggested sending the letter Ms. Jones prepared to the owners of the property where a tree had fallen on the Authority's ROW. Mr. Gabel said that a simple letter would avoid any legal issues. The Board agreed to sending a letter. Mr. Newcomer and Mr. Miller stated that in the past, the Authority had taken care of any tree that had fallen on this ROW.

Developers:

Nothing to report.

Customers:

Nothing to report.

Administration Report:

The Board voted and unanimously approved the April Executive Secretary's Report.

NEW BUSINESS

Payment of Operating Expenses: Payment of operating expenses for SSSA Numbers 0, 1, & 2, and payroll, in the total amount of $58,016.17 were unanimously approved.

Next Board Meeting: Monday, May 18, 2026, at 6:00 p.m. at the EYCSA Office, located at 4 West Market Street, Hallam, PA 17406.

ADJOURNMENT:

There being no other business and upon a unanimous vote, the meeting was adjourned at 7:43 p.m.

Respectfully submitted,

Robert L. Schlosser

Robert L. Schlosser

USER STATS:

Active Users: 6.3K (Monthly)

New Users: 6.1K

Average Engagement Time: 18s

Engagement rate: 25.7% (↓ 23.9% from April '26)

MONTHLY PAGE VIEWS:

May 2026

Total: **14,763**

Top 10 Pages visited, by number of views

Page	Views
FAQ	3,184
Welcome	1,120
Page not found	872
Public Meetings	357
Planning Commission Meetings	299
Police Department	250
Board of Supervisors Meetings	228
Zoning	217
Permits	158
Zoning Hearing Board Meetings	157

Key Insights:

May 2026 traffic remained stable at 14,763 page views (+0.6%) with a notable increase in users (+12%), though engagement softened as visitors viewed fewer pages per session and spent less time on the site. Declines were most pronounced in key operational pages including Permits and Police, while zoning and zoning hearing content saw modest increases, indicating continued emphasis on planning and regulatory information over routine township services.

Key Insights:

May '26 reflects a moderate pullback in social media performance compared to April '26, following a stronger prior month, with both platforms showing declines in engagement and traffic despite continued posting activity.

Facebook remains the Township's primary platform, with a strong overall follower base of 1,069. During May, the page added 15 new followers and lost 4, resulting in net growth. However, performance metrics declined month-over-month, with content interactions down 26.1%, views down 43.8%, and page visits down 26.7%. With 7 posts published, this indicates that while audience size remains stable and growing, content resonance and reach were lower than in April.

Instagram showed a more mixed but stable performance profile. The account grew slightly to 137 total followers, adding 1 new follower during the month. However, content interactions (-27.3%), views (-26.4%), and profile visits (-50%) all declined from April. At the same time, reach increased significantly by 229.2%, suggesting content was distributed more widely even though it did not translate into proportional engagement or profile activity. With only 3 posts published, performance appears more sensitive to individual content outcomes.

Overall, May '26 reflects a normalization period following April's stronger performance, with Facebook maintaining solid audience growth but reduced engagement efficiency, while Instagram experienced broader distribution but weaker conversion into interactions and visits.

ALERTS: Total: **0**
CALENDAR POSTS: Month: **0** Total: **0**

Key Insights:
May '26 continued steady growth on Savvy Citizen, with Hellam Township's network increasing by 18 subscribers to a total of 1,563 users.

The Township issued 7 alerts during the month, primarily covering service delays, meeting notices, and community updates. No calendar posts were added beyond routine recurring entries.

Both the EYRA and Police Department accounts remained inactive.

Overall, May reflects stable subscriber growth and consistent use of alerts for resident communication, with limited broader platform activity outside the main Township account.

Visits: **0** *The number of times your Page or profile was visited during a specific timeframe.)*

Reach: **0** *(Counts reach from the organic or paid distribution of your Facebook content, including posts, stories and ads. It also includes reach from other sources, such as tags, check-ins and Page or profile visits. This metric is estimated.)*

Key Insights:

May '26 shows a noticeable decline in overall Facebook performance for the Police Department compared to April '26, despite continued audience growth and consistent posting activity.

Facebook remains the primary communication platform, with 8,109 total followers and a net gain of 49 new followers (12 unfollows). However, engagement and visibility metrics decreased significantly month-over-month: content interactions fell 67%, views declined 46.9%, page visits dropped 35.4%, and link clicks decreased sharply by 83.7%. With 8 posts published, this indicates reduced content resonance and lower traffic to external resources compared to April, even as the audience base continues to expand.

Instagram remains in an early rebuilding phase. The new account has 48 followers and recorded no posts or activity during the month, resulting in zero engagement, views, or visits as the platform is still being re-established. Overall, May reflects strong continued follower growth for Facebook but a clear cooling in engagement and reach metrics, while Instagram remains in a foundational setup stage with no active content presence yet.

Key Insights:

Facebook activity remained modest during May, with the Environmental Advisory Council gaining 1 follower for a total of 118 followers and publishing 4 posts. While content interactions declined by 75% compared to April, views increased by 16.7% and page visits rose by 18.2%, indicating continued visibility and interest in page content despite lower engagement levels.

Instagram remained inactive during the reporting period, with no posts published and no recorded views, visits, reach, or interactions. The account's follower count remained unchanged at 11.

Overall, Facebook continues to serve as the EAC's primary communication platform, maintaining steady visibility and modest audience growth, while Instagram saw no activity during May.
