

Download Logo - Short Name (10 to 15 characters maximum)

RGB Color Pallet
Green: 0/146/63
Blue: 0/124/195

Notes:

Before opening the Short Name Word file you will need to install the downloaded fonts that were included in this package. The 2 fonts needed to create your logo are Futura Md BT and Angelina.

For Windows

Open your Windows folder, open sub-folder Fonts, click on File and select Install New Font. Go to the folder where you have saved the downloaded fonts, select the fonts and click on OK.

Depending on the length of your business/organization name you will need to adjust font sizes of the second line to fill width (A). The second line should not exceed this width.

Do not modify RGB color builds or substitute fonts.
