

# Station Agreement (barter agreement)

(call letters) (city of license),(state)

\_\_\_\_\_ of \_\_\_\_\_ (herein referred to as *station*) agrees to run **one minute of inventory for each hour** *station* uses our programming. We'll send 4 separate :30 sec messages on a monthly basis to make it easier (**please run them 25% ea**) *Simply turn in a schedule to run for the duration of the contract. The schedule will not change, but the copy will be changed on a monthly basis.*

*Station* has the option to have each show record a page of "localization" liners. **This is recommended, but optional for each show. (\$50 per show chosen)** In addition to these liners, you are welcome to order more local pages as often as you'd like. These are also priced at just \$50 per page. You can even choose to have these breaks sponsored locally to have a client get some extra exposure and actually MAKE money on the local breaks. (*sold as "live reads" in the show*)

*Station* gets access to our cloud for daily files for each program chosen. We will send out download instructions and info to set up a free "automatic download program" to completely automate the process for you. (that's not our software)

This is a 12 month agreement starting on \_\_\_\_\_ and running for 12 months. The agreement will auto-renew for another 12 months term unless either party notifies the other party within 30 days of the end of the agreement.
