Getting you back on the road is important to us, so we also provide these additional benefits with the purchase of a Triton Protect EV VSC.

Roadside Assistance [5]

Invaluable help when you need it. Coverage includes:

- Towing
- Lockout assistance
- Jump start
- Flat tire changes
- 365 days-a-year availability

Substitute Transportation

If a covered part fails and you can't drive your vehicle, Triton Protect EV VSC will provide reimbursement up to $50/per day to cover substitute transportation for a maximum of $250 per repair visit.[5]

Protection When You Travel

If you are over 150 miles from home and a covered part fails, your Triton Protect EV VSC offers reimbursement up to $75/per day for meals and lodging, for up to four days.[5]

Transferability & Enhanced Resale Value

Your Triton Protect EV VSC may enhance your vehicle's resale value and can be transferred [6] to the new owner should you decide to sell your vehicle.

5. See individual contracts for details on applicability, limitations and reimbursement limits.
6. Additional fee applies.

Avoid the Risk of Unexpected Costs and Repairs

Help protect your high mileage vehicle longer with a Triton Protect EV VSC.

Accepted in the U.S. & Canada

Travel with confidence knowing your contract is accepted at licensed repair facilities throughout the U.S. and Canada.

Electric Vehicle VSC

Triton Protect® EV VSC protects you against unexpected expenses with your electric vehicle beyond the manufacturer's warranty.

Protection

Plans are available to cover everything from standard mechanical concerns to the unique battery pack that powers your vehicle.

Peace of Mind

Rest easy knowing that your Triton Protect EV VSC will help protect you from costly repairs and price increases keeping your electric vehicle running longer, for less.

Predictability

Drive with confidence knowing you're protected from some of the uncertainties vehicle ownership can throw your way in the future.

ESTIMATED REPAIR COSTS [2]

A Triton Protect EV VSC may help you to reduce repair costs related to an electric vehicle.[3]
Choose a plan that is right for you today.

Vehicle Battery Pack[4]	$5,000	Front Drive Axle	$1,033
Power Steering Pack	$2,441	Steering Knuckle	$675
Radio	$2,075	Brake Caliper	$633
ABS Actuator	$1,880	Front Wheel Bearing	$541
A/C Compressor	$1,800	Back-Up Camera	$508

1. See your agreement for a full list of covered components.
2. These costs are for illustration purposes only. Cost estimates may vary by electric vehicle make, model and repair facility repair rates. Average estimated costs based on Alldata.com repair data.
3. Actual reduction of repair costs may depend on your deductible and other factors set forth in the EV VSC.
4. Reference: Compare.com®. Costs are for example use only.

Wrap Service Contract

New electric vehicles today often come with a full manufacturer's warranty for 3yr/36K miles along with a powertrain warranty that covers for a longer period.[7] Once your full manufacturer's warranty expires, your only remaining protection for your new electric vehicle is the powertrain warranty.

After your full manufacturer's warranty ends, Triton Protect EV VSC offers several Wrap coverage options to continue covering components that your powertrain warranty does not. Help avoid unexpected out-of-pocket expenses by purchasing a Triton Protect EV VSC.

7. Warranty coverage varies based on make and model.
