**3D printing marketplace “rinkak” provider Kabuku Inc. announces the procurement of a 200 million yen(about US\$2M) of financing led by CyberAgent Ventures and others.**

Kabuku Inc., a 3D-print production and market place provider, and a digital fabrication solution supplier announced the completion of a 200 million yen(about US\$2M) of financing led by CyberAgent Venture, Inc.

kabuku will use the funds to enhance its development organization to accelerate service, function and globalization, in order to rapidly structure and upgrade the platform where creators and companies can conduct production simply by uploading 3D data.

As already seen in the smartphone business, any developers can sell their own applications simply by uploading to the platform. Similarly in the manufacturing world, kabuku will create scenes where anyone can easily manufacture, sell and ship their own products simply by uploading 3D data to “rinkak”.

**【About the Investors】**

## ■About rinkak

# rinkak

“rinkak” (<https://www.rinkak.com>) is a new production market place applying digital fabrication technology such as 3D printers. Users can have access to high-end manufacturing facilities to produce and sell by simply uploading 3D data to rinkak. There is no need for creators to carry stocks since the products are manufactured on demand. Available materials include not only general plastics, but ceramics, metals, rubber and other various types of materials. rinkak aims to be the platform for innovative and unique products that consumers want, with highly creative collaborations between various creators and users.

## ■ Digital fabrication solutions

kabuku also provides networked digital fabrication such as 3D printers, to support quick delivery and manufacturing/prototyping with medium/small lot. We have mainly supported the production of novelty goods for campaigns and events, smartphone accessories and game character figurines, and products for architecture, medical and dental sectors.

## ■About kabuku Inc.

We, as a group of “KABUKU”, will create something new that the world has never seen before and that will be loved throughout the ages.
