Transportation Investment Corporation
Intermediate Advisors - Major Projects
Request for Qualifications No. RFQ26-TIC-006
ADDENDUM # 6– Questions and Responses No. 6
Date: December 09, 2025

Q1: Since we do not provide Commercial or Safety services in an intermediate capacity on capital projects, can you please confirm that we are only required to submit one copy of Schedule A for the Environmental category?

A1: Yes. Only one Appendix A (Schedule A) is required for each service category you are applying for. If you are applying under the Environmental category only, then only one Appendix A for that category is required.
If you wish to apply for senior roles, please refer to the Senior Strategic Advisors Major Projects RFQ (TIC TEC 2023-24) posted on BC Bid.

Q2: Should Schedule A list only environmental practitioners, or should all personnel who may charge time to environmental work (e.g., safety admin, project commercial support) be included, even if the company is not applying under those other service categories?

A2: No, at this stage we are not evaluating resources, just the organization as a whole. This point has been further clarified in addenda 1 - 5.

Q3: Response Guideline 2: For the table requesting degrees, diplomas, certifications, or designations held by our company, would you prefer this information to be listed by individual personnel or compiled into a single consolidated list?

A3: Please provide a consolidated list of the degrees, diplomas, certifications, and designations that your organization requires to be held by your resources, for the category you are applying for.

Q4: We typically use separate billing rates for discipline leads, senior, intermediate, and junior scientists. Should we replace the sample rate table with our own rate schedule that reflects these internal roles

A4: Yes. You may use your own rate schedule as long as it clearly identifies the rate or rate range for your selected category. Providing a rate range is acceptable to account for different seniority levels.

Q5: Additionally, should we include administrative (commercial and safety) rates, or should our scientist rates be all-inclusive of administrative time? Alternatively, would you prefer that we submit an additional Appendix A for admin-related services?

A5: Hourly rates must be all-inclusive, incorporating business overhead, administration, profit, routine expenses, and local travel.
You do not need to submit an additional Appendix A for administrative staff.

Q6: The RFQ asks for the rate table "in a separate file/document". Is PDF, Word, or Excel preferred?

A6: PDF, Word, or Excel formats are all acceptable. PDF is preferred for consistency.

Q7: Missing Response Guideline 5: The submission document we downloaded does not appear to include Response Guideline 5 (see attached). Could you please confirm whether this is the most current version of the submission package?

A7: This is an error in the numbering, Response Guideline 5 does not exist and ought to be ignored.

Q8: Clarification on "Intermediate" Resources: The RFQ references "Intermediate Resources," but our team includes senior and junior environmental staff. Should our response include only intermediate-level personnel, or may we list multiple levels even though the qualification is titled for intermediate resources? Or perhaps you can clarify what Intermediate Resources refers to.

A8: The term "Intermediate Resources" refers to the overall level of advisory services TI Corp intends to prequalify under this MULRFQ.
Evaluation will focus on your organization's overall capability and ability to support intermediate-level advisory functions, not on restricting you to a single staff level.
If you wish to apply for senior roles, you can apply through our Senior Strategic Advisors Major Projects RFQ available on BC BID as TIC TEC 2023 24.

All questions submitted by **December 09, 2025** are included in this document.
