Transportation Investment Corporation
Intermediate Advisors
Request for Qualifications No. RFQ26-TIC-006

ADDENDUM Questions and Responses No. 7
Date: December 19, 2025

Q1: • For Responses submitted outside of the Initial Intake period, could TI Corp provide general guidance on when evaluations are typically conducted during the year?

A1: Intake periods occur two (2) times per calendar year. Although there is no set date for these intakes, we expect them to occur around February and August.

Q2: Once a Respondents are qualified and added to the applicable Multi-Use List, is TI Corp able to provide high-level insight into:

- How frequently Competition Notices are typically issued under these lists; and
- The general volume or cadence of advisory support procured through these Multi-Use Lists (recognizing this may vary year-to-year and by service area)?
- For Qualified Suppliers and/or Qualified Resources, are Competition Notices generally issued on an a bidding platform to all qualified parties within a service category, or more invitation based on project-specific requirements, availability, or other considerations?

A2:

- Frequency of CN issued: Demand for competition notices can fluctuate through the project life cycles, so there is no way to determine how often CN's are/will be issued pertaining to MULRFQ lists. It is worth noting that when a need arises that may result in a competition, pre-qualified supplier lists are often consulted first.
- Volume: See above
- Issue of CN: CN's are issued to qualified suppliers (based on the categories they have been qualified for) via email. The below value thresholds apply:
  - Under $25,000 – can choose one (1) qualified supplier without competition
  - $25,000 - $75,000 – issue a competition notice to three (3) qualified suppliers
  - Over $75,000 – competition notice to all qualified suppliers

All questions submitted by **December 19, 2025** are included in this document.
