TELUS Digital Dock may collect the following information when the Extension is enabled and you are signed in, this includes:

- Your registered TELUS Digital email address
- Task URL & portal-logged-in email
- Time spent on task pages, user event timestamps, and copy-paste activity
- IP Address
- List of installed browser extensions and versions (for security and compliance verification only)
- Chrome extension version

No data is collected when the extension is disabled or you are not signed in.
This information is used for accurate time tracking, program compliance, and security enforcement. Non-Compliance may result in warnings or access restrictions.
