How to Set the Table

How to create a simple place setting:

- Set the plate in the middle of the place setting.
- On the left side, place a folded napkin and fork.
- On the right side, place the knife and spoon, with the knife closest to the plate.
- Place the drinking glass on the top right, above the knife.

A tip for remembering where to place the fork and knife is that both "fork" and "left" have four letters, and "knife" and "right" have five letters.
