Washington State 64, Idaho State 21
Sept. 3, 2011
Martin Stadium
Idaho State Postgame quotes

Idaho State Coach Mike Kramer
On current team injuries…
"Just bumps and bruises, the kind you'd get playing any Pac-12 team. I am not sure of the severity of some injuries, so we will see how that goes when we get home."

On quarterback decision…
"We wanted to get Justin (Arias) in the ball game. Obviously we were good at quarterback and will continue to be good at quarterback. We want to keep throwing and running what we have been working on in practice."

On defense…
"Defense didn't tackle, we were in the right spots but made some alignment mistakes. We didn't tackle the way we needed to when playing a team like Washington State. Their offense is much improved, even with the loss of Jeff Tuel."

Idaho State Wide Receiver Rodrick Rumble
On yard jump…(3rd best receiving game in Idaho State history)
"I didn't know I had that many but I think there was good play all round by the quarterbacks."

On connection with Kevin Yost…
"Well, we practice a lot. You are bound to make a connection. He was a bit nervous, but improved. I was nervous, we all were because it was our first game."

On being down 40-0…
"It is what it is, but when you are losing you need to keep playing. It shows a lot of character when you keep playing. Getting numbers on the board is satisfying but we still didn't win the game."
