VOC Reporting, Inc. 14260 West Newberry Rd., No. 136, Newberry, Florida 32669. Phone 352-472-2899

EPA Method-25 Chain of Custody

Testing Company/Job Number:
Facility/Location Tested:
Source Tested:
Test Date:

Note: Measure tank absolute pressures directly with a calibrated absolute pressure gauge. Let the tank temperature equilibrate after testing before measuring its pressure. Tape a thermocouple to the tank and record the tank temperature each time a tank pressure is recorded.

In the spaces below, fill in the approximate concentration of water, CO2 and VOC for each source.

Sample Location	Run No.	Trap No.	Tank No.	Tank Initial Pres/Units		Tank Initial Temp/Units		Tank Final Pres/Units		Tank Final Temp/Units		**Lab use only** **mbar** **°F**
Source	**~%H2O**		**~%CO2**		**~ppmC VOC**							
Ship to: VOC Reporting, Inc., 14260 W. Newberry Rd., No. 136, Newberry, FL 32669 phone: 352-472-2899
