Move slowly and quietly (one or two people at a time only)

You must remain calm (don’t wave arms or yell her name)

Let Myla approach you and sniff if she wants to

Ask permission to pat her from Chappy Carolyn

Patting Myla

Keep your hand near your body where she can see it.

You can pat:

- Under her chin
- Infront of her chest (under her bandana)
- On her side
- Belly rubs if she is lying on her back

  (this is her favourite)
