Chaplaincy Report:

Myla:

Another very busy term with the mornings having Myla in the Hub. She has been helping children stay calm, encourage engagement in reading tasks and even help stay calm and focussed during their assessments, also a key assistance to help particular children with anxiety challenges.

We had a delay in getting our therapy accreditation done due to health circumstances so now waiting on a free time to complete assessment with the trainer (Done on Sunday in a local Market – so lots of people/distractions/pressure).

"Dough for the Dog" Cookie Dough Fundraiser:

To cover the outstanding training costs for Myla and hopefully set up some future funds to cover annual re-accreditation and school related expenses. All set up and running now with the launch on Parade on Monday.

Chaplaincy Report:

Seasons for Growth:

I have completed our first course with some middle school students and have a celebration on the last Tuesday of term where each will share a story of something they have applied and learnt from the course, as well as eat some treats!

Rock and Water:

Ms Stephan and I have just begun a 11 week Rock and Water program for some selected yr 4 girls- building resiliency and problem solving support for challenging situations.

Craft group:

Junior and senior craft groups continue at second break with the seniors now having an option to write to pen pals.

Continue to have catch ups with various students needing to connect.

Waiting on our Admin refurbishment to be finished to put on a staff celebration lunch as it has been so long since we have had a common connection area. (now expecting this to happen late this term)

Recent catch up with Local Councillor Greg Adermann:

Have a look at his facebook or Instagram post to see and article with Myla.
