Nov 2025 P& C Chaplaincy Report

1. Fundraiser meal deals for 2025 – proposal/ investigation

Discussion with Michelle re options for Chappy Fundraiser meals being done in school – I would arrange additional volunteer helpers and myself for the days so not big staffing expense- early discussion but trying to make more funds from the event Not just $1.20 order

As well as removing some of the logistical challenges with problem orders and delivery issues.

Would be clearly labelled as a Chappy special meal and normal options also available for those not wanting it.

2. Myla for 2025 ?
   Myla now desexed and recovered from op. Looking to do a one on one 2 hr training /checking session with the trainer – date now set yet (dec/Jan) her 5 false pregnancies have taken a toll on her calmness and /chill reaction under pressure. This will be funded by my chaplaincy funds (most coming from the Myla funds and the $100 + from my general chaplaincy funds -permission at my last LCC meeting.

   This is to check her stability and ensure she is ready to return to therapy role or get some additional support to help prepare her again.

   She would then need to complete a therapy dog assessment in early 2025. Dates not set yet but it will not be in time for school to start but hopefully near end of term 1.

   I would need to know that I can do a fundraiser using the Myla Bag Tags already purchased to raise the funds to cover this accreditation cost $440 currently and provide for school-based treats. This would need to be a specific event like bandanna day where we do a special promotion as it doesn't work at Fete etc. could still sell any leftovers at uniform shop but this is not a big selling point. I would also want to repay my general Chappy funds for the Myla expenses as this is to cover my wage and ideally should not be on Myla expenses.

   I need to know that the school community is behind Myla dn is willing to support this as not a normal Chappy expense.

3. Prep Expo day 20th Nov – attending and swapping Tuesday and wed mornings over.

4. Transition support - Worry monster story for junior school students teachers identify as anxious about next year. – offered to run some small group sessions using a book taking about anxious thinking and how to develop calmness and reframe things in a more helpful mindset.

5. Organising KSHS chappies to do a visit in week 11 for year 6 students going to KSHS and sausage sizzle afterwards for all yr 6.

6. Final sushi and Subway day Tuesday 10th week 11.

7. One to one Camp for next year is not confirmed yet - some changes to Food handling policy to work through and availability of Geoff who helped run it this year as he has changed job and availability still unsure.
