CHSS CHAPLAINCY REPORT

Details	7 March 2023	Carolyn Harris

Item	Notes
	Chaplaincy P & C report for March 2023 Very busy again in Chaplaincy Activities: Hub duty and student support, student catch ups , Rockhopper program with three groups of students each for 3 weeks building resiliency and overcoming anxiety. Rock and Water was postponed to next term. I have also been working with Myla both after school and just starting in school for short days to do a slow return to school as her hormones settle. Currently visiting only upper school classes this term with the expectation this will return to whole school next term as her hormone fluctuations will have subsided by then. This is to allow an easier return to duties for her after a prolonged absence. (extra info in newsletter article) Our first subway day for this year will be 28th March, with the funds raised going towards Chaplaincy. These funds both offset wages not covered by govt grant and provide funds for various chaplaincy activities undertaken for example; student craft groups equipment, wellbeing activities/ resources, staff support initiatives. Thanks and regards
