MID-PENINSULA WATER DISTRICT

WHEREAS, the Board of Directors of the Mid-Peninsula Water District is authorized to establish and modify, as necessary, the rates and charges imposed for the provision of water service to its customers; and

WHEREAS, these rates and charges are set forth in Attachment "A" to the Water Service Ordinance, which was most recently updated and adopted as Ordinance No. 116 on April 28, 2016; and

WHEREAS, since the last adjustment in the rates and charges for water service to District customers as set forth in Attachment "A," the District continues to experience and anticipates further increases in operating and capital improvement costs, including the need to replace aging and substandard water distribution pipelines; and

WHEREAS, in order for the District to maintain its operations, address existing system deficiencies, improve fire flow and service reliability, adequately fund a long-term capital improvement program in light of these substantial increases in the costs of doing business, the recommended increases, effective July 1, 2018, within the District's adopted 5-year water rates plan included a minimal increase in the monthly fixed system, which increases are compliant with the District's methodology that reasonably and equitably apportions costs in each of the District's water rate components; and

WHEREAS, the District will provide no less than a 30-day notice of the approved rate increases by mailing a notice to each of its ratepayers by May 31, 2018; and

WHEREAS, having considered the entire record, including all the financial analyses and operational and capital budget projections, the Board of Directors has determined that the proposed changes in the District's monthly fixed system charges and commodity charges, for its residential and non-residential

customers are necessary and appropriate so as to allow the District to continue its operations and service at the same level and quality, to continue its critical capital improvement program.
