BUILDING AND GROUNDS

Details	**MARCH** Building and Grounds Report	Recorded by:	Claudi Bird

Item	Notes
General	
PROJECT WORKING LIST SUMMARY	**LARGER PROJECTS:** ● Oval playground refurbishment IN PROGRESS ● Storage for the P&C Tuckshop and ● Hall kitchen refurbishment ● Recontouring the low points on the netball court side to help with flooding- fairly easy fix ● Adding a swale to nature play to improve drainage ● Swale and turfed area in prep/nature play area ● Adding banks of louvres to hall to improve air circulation and refurbishing hall entrance ● Fixing the drainage issue around the Tennis Courts and Cricket nets **SMALLER PROJECTS:** ● New bikeracks ● Creating small seating areas ● Water bubblers in the prep playground ● In conjunction with the Environment club create our rubbish awareness/ reward/habit creating incentive
Successes and Roadblocks	
Successes *Things going well*	- Oval playground planning - We have a few enquiries to join the team - We got some troughs to use in other areas out of the bathroom renovations (Thank you Mr Jones)
Roadblocks *Things getting in the way*	- Weather and access logistics with all the construction workd

BUILDING AND GROUNDS

Actions	
Decisions *Actions that have been implemented*	- Oval playground planning. We will do the demolition work but the school need to go through an EQ procurement process to get the equipment and install it. P&C will do the seating, drainage swale and mulching. - Final rectification of the 3 overhead cabinets in the tuckshop - The drink troughs will be fully installed over the holidays
Recommendations *Motions you want to raise*	- That we spend some money and fix the drainage issues around the cricket nets and the tennis courts whilst we have earthmoving equipment on site, there seems to be an existing stormwater pit with drainage infrastructure but its blocked/caved in or broken. Would like to raise a motion to clear it and see what can be done before proposing a solution - Installing guttering around the pavilion seating and the undercover area next to the future basketball court. As part of the oval playground we will be installing a swale and it would be useful to tie all the runoff into that and hopefully have a less muddy pavilion, will be removing the seating and fixing underneath and cleaning it up before re-instating.
