This minor permit modification is issued in accordance with section 22a-430 of Chapter 446k, Connecticut General Statutes ("CGS"), section 22a-430-4(p)(5) of the Regulations of Connecticut State Agencies ("RCSA") adopted thereunder, as amended, and Section 402(b) of the Clean Water Act, as amended 33 USC 1251, et. seq., and pursuant to an approval dated September 26, 1973, by the Administrator of the United States Environmental Protection Agency for the State of Connecticut to administer a N.P.D.E.S. permit program.

The Commissioner of Environmental Protection ("the Commissioner") has made a final determination on this permit modification and found that the continuance of the existing system to treat the discharge will protect the waters of the state from pollution. The Commissioner's decision is based on Application No. 201100525 for permit modification received on February 17, 2010 and the administrative record established in the processing of that application.

Nucor Steel Connecticut, Inc. ("Permittee"), shall comply with all conditions of Permit No. CT0026794 issued on December 30, 2009 with the following modification:

Parts cleaning wastewater has been removed from the Discharge Serial Number (DSN) 001 wastewaters description. The language now reads "Treated contact cooling water blowdown from steel manufacturing mixed with stormwater and Quality Assurance (QA) grinding wastewaters".

The Commissioner hereby authorizes the Permittee to discharge in accordance with the provisions of this permit modification, Permit No. CT0026794, the above referenced application, and all approvals issued by the Commissioner or the Commissioner's authorized agent for the discharges and/or activities authorized by, or associated with, this permit.

The Commissioner reserves the right to make appropriate revisions to the permit in order to establish any appropriate effluent limitations, schedules of compliance, or other provisions that may be authorized under the Clean Water Act or the Connecticut General Statutes or regulations adopted thereunder, as amended. The permit as modified under this paragraph may also contain any other requirements of the Clean Water Act or Connecticut General Statutes or regulations adopted thereunder which are then applicable.

All other terms and conditions of Permit No. CT0026794 issued on December 30, 2009 shall continue in full force and effect.

This minor modification is hereby issued on 2/25/2011
